Smoking restrictions proposed

April 11 and 12 open forums provide opportunity to debate campus' draft smoking policy.

After months of pondering surveys and possible policies, the smoking policy task force March 10 drew up a proposal to restrict smoking at Mizzou. Employees and students can discuss the draft and suggest changes at open forums to be held from 11:30 a.m. to 1:30 p.m. April 11 and from 3:30 to 5:30 p.m. April 12 in S203 Memorial Union.

The proposed smoking policy, developed from surveys mailed last summer to staff and in the fall to faculty and students, follows.

Purpose: Because smoking is a potential health and fire hazard, it shall be restricted in order to create and maintain an environment that is in the best interest of the safety, health and well-being of all users of University buildings.

Proposed policy: Smoking is prohibited except in designated smoking areas in all buildings owned, operated or leased by the University of Missouri-Columbia.

General Guidelines:

Smoking is prohibited in the following areas:

- General access areas, including elevators, stairways and restrooms
- All classrooms, conference rooms, auditoriums, libraries, museums and teaching laboratories
- All work areas and offices that serve the public or are regularly frequented by non-smokers
- All work areas and offices that are private but house at least one non-smoker
- In areas where combustible fumes can collect, such as in

laboratories, garages or storage areas using chemicals or solvents, and all other areas where an occupational safety, fire or health hazard may exist

•All locations not specifically discussed below.

Areas which may be designated as smoking areas include the following:

•If possible each building should have at least one designated smoking area. The designated smoking area should not be an area mentioned above. If no other area is available, a lobby or hallway may be designated if there is adequate ventilation so as not to cause health or safety problems for building users.

•Smoking is allowed in enclosed private and semi-private offices as long as non-smokers are not affected by the side-stream smoke.

•Portions of dining halls, snack bars, cafeterias and residence hall lounges may be designated as smoking areas.

•Residents of University-owned and operated residence halls and apartments should establish, in conjunction with the Office of Residential Life, specific smoking policies for residence hall rooms and apartments.

Responsibility: All members of the University community share in the responsibility of adhering to and enforcing this policy, and have the responsibility for bringing it to the attention of visitors. Any complaints should be brought to the attention of the appropriate University authorities. If conflicts or problems should arise, environmental, safety and health considerations should prevail.

The task force will consider comments made at the public forums, make any necessary revisions to the draft and then forward its recommendation to Kee Groshong, interim vice chancellor for Administrative Services.

The group first met April 21, 1987, to address employee

concerns about smoking in University buildings. Several departments have established office smoking policies; University Hospital and Clinics' smoking policy went into effect Jan. 1. In February 1987, the Columbia City Council passed an ordinance restricting public smoking, but the law does not apply on campus because it is state property.

At least 86 percent of faculty, staff and students surveyed earlier agreed that a smoking policy should be established to protect the health of non-smokers. Most respondents favored a smoke-free environment with designated smoking areas, with 65 percent of staff, 59.3 percent of faculty and 64 percent of students supporting that choice. About half of the staff who favored a mostly smoke-free campus said smoking could be allowed in private offices, compared with 81.8 percent of faculty. Other top faculty and staff choices for smoking areas were employee lounges and lobbies, about 40 percent; and hallways, restrooms and cafeterias, about 25 percent.

Task force members are Chairwoman Jackie Jones, associate director of Business Services; Paul Barry, student; Hardeep Bhullar, associate professor of recreation and park administration; George Davis, student; Jay Dix, assistant professor of pathology; William Forbis, mechanical trades specialist; Allen Hahn, professor of veterinary medicine and surgery; Wendel Lamason, student.

Forrest McGill, director of the Museum of Art and Archaeology; Kurt Nelson, student; Steve Pearson, management analyst with University Hospital; Tom Shaughnessy, director of University Libraries; and Larry Windmoller, assistant manager of University Hospital Pharmacy. Ex-officio member is Forest Benedict, director of campus Personnel Services and UM Human Resource Development.

Nurse seeks to dispel myths about fatal ailment

June Ann Humphrey, new AIDS education coordinator, will try to clear up misinformation.

June Ann Humphrey, the University's new AIDS education coordinator, is sitting in her office in the Student Health Service building, reading the latest issue of Newsweek. She isn't smiling.

"See? This is exactly the type of information we've worked so hard to overcome," she says, raising her voice as she flips through an article on a controversial new book by William H. Masters and Virginia E. Johnson. In the book, *Crisis: Heterosexual Behavior in the Age of AIDS*, the noted sex researchers say they believe that acquired immune deficiency syndrome may be transmitted through casual means, such as kiss-

June Ann Humphrey

ing, or from inanimate objects, such as doorknobs.

Those ideas are in direct conflict with AIDS research findings, which hold that the deadly disease can be transmitted only through sexual contact, intravenous drug use or from mother to unborn child. It is precisely this message that Humphrey, who began her new duties Feb. 21, will carry to Mizzou faculty, staff and students.

"We have enough problems just fighting the rumors that float from person to person, let alone books by people like Masters and Johnson," she says. "They come out with

something like this and it's all over the TV news and is played up in the newspapers and national magazines. It makes our job a lot harder."

It does, however, demonstrate the need for Humphrey's position at the University. AIDS is a terrifying disease because there is no known cure; to Humphrey, it's also terrifying that people are so misinformed.

"We need to keep hammering home the main message: that you cannot get AIDS from casual contact," she says. "This includes situations such as a teacher sitting across a desk from a student who has AIDS, or a staff member helping to register someone who has AIDS or being served food in a cafeteria where a worker may have AIDS. People in situations like these have nothing to fear.

"And we have another purpose: to get across the idea that you should treat people with AIDS with respect. It's like any sickness. People with AIDS should not be ostracized. They're human beings, too."

Humphrey will use a variety of resources to convey her message. She will send a pamphlet, "AIDS — A Survival Guide," to all students, faculty and staff in the coming weeks. She will include an AIDS self-assessment exam with March payroll checks, to test employees' knowledge of the disease. She plans to create a speakers' bureau to address campus groups on the topic. She would like each department to have an AIDS representative who could answer questions on the subject. And she will work with a task force that is examining possible policies and procedures for dealing with AIDS on campus. "For instance, what happens if you discover that a student — or a worker in your

office — has AIDS?" she asks. "Right now, there's no policy on that."

Humphrey also will spend a good deal of time educating students on AIDS prevention. She will distribute information and schedule meetings and seminars in such places as residence halls. "There was a program given earlier at a sorority house, and it was well-attended," she says. "Students, particularly women, are becoming more and more interested in learning about this."

Humphrey brings a wealth of experience to her new job. She was a traveling evening nurse in Mizzou residence halls the past two years and was education coordinator at Community Hospital in Fairfax, Mo., from 1981 to 1986. Before that, she was home health director at St. Francis Hospital in Maryville, Mo.

Humphrey holds a bachelor of science degree in nursing from the University and is working on her master's degree in rural community health. A native of Skidmore, Mo., she is married to James Humphrey, a physician in Mound City, Mo. They have two sons at Mizzou: James II, a senior majoring in political science, and Hans, a sophomore preparing to go into journalism.

What do her sons think about Mom's giving advice to their peers on AIDS?

"They come from a medical family, so it's no big deal to them — just another health issue," she says. "But I think that says something about how open we've all become in discussing matters like this.

"And that's good. Right now, AIDS is considered the No. 1 health issue in the world, and we should be discussing it openly — especially here. Education, after all, is the mission of the University."

TURN BACK TIME WITH PERIOD JAZZ

Swing to big band music of the '40s and '50s as the University Jazz Ensemble presents "A Serenade in Blue" from 8 p.m. until midnight March 26 at the Holiday Inn Executive Center, 2200 I-70 Drive S.W.

Sponsored by the Department of Music and the Concert Series, the event includes a late-night breakfast buffet. University dance students will demonstrate the fox trot, cha-cha, the swing and the waltz. Guests are encouraged to wear '40s and '50s dress.

Tickets are \$15 a person. Call 442-1616 or 449-5370 for reservations.

MEETINGS SET TO DISCUSS MASTER PLAN

The campus planning committee has scheduled four open meetings to discuss the Sesquicentennial Plan on use of campus land and buildings.

Meetings will be held at 3:40 p.m. March 28 in S147A Animal Sciences Building; at 7 p.m. March 28 in Ellis Auditorium; at noon March 29 in Memorial Union Auditorium; and at 5 p.m. March 29 in the Electrical Engineering Auditorium.

The agenda includes a 30-minute presentation by Jack Robinson, consultant for the Sesquicentennial Plan. He will review general aspects of the plan and provide an update. A

question-and-answer period will follow. Jim Joy, director of Parking and Transportation Services; Alan Warden, director of Campus Facilities; and others will be available to answer specific questions about the plan.

Osmund Overby, professor of art history and chairman of the campus planning committee, says he hopes to see a good turnout at the meetings. "It's a good time to raise issues and get answers. We want input. The more response we get, the better the plan becomes."

RECEPTION HONORS 20-YEAR EMPLOYEE

Carl Pochlman, director of extension teaching, will retire after nearly 20 years with the University.

Friends are invited to attend his retirement reception from 3:30 to 5 p.m. March 25 in N214-215 Memorial Union.

Staff question time-off draft

Staff members flood recent Staff Council meeting to get the facts on time-off policy proposals.

Some 500 disgruntled and curious staff members packed a March 10 standing-room-only Staff Advisory Council meeting. They came to hear an explanation of a draft proposal to revise the University's sick leave, vacation and personal days policies.

The tentative proposals — called paid time off (PTO) and supplemental illness plan (SIP) — were suggested by the systemwide Administrative Management Council. (See March 8 Mizzou Weekly.) Staff Council invited Forest Benedict, director of UM Human Resource Services and of campus Personnel Services, to make the presentation. Benedict, who said he wasn't there to "sell anything," stressed that the proposals are still in the discussion stages and could be withdrawn at any time. The proposals have not gone beyond the Administrative Management Council.

Benedict said the objectives of the plans are to increase flexibility in use of time off, reduce sick leave abuse, provide an incentive for those who don't use their sick days and form a bridge between sick leave and the University's optional long-term disability plan. But many in the audience questioned how the proposals would stop abuse of sick leave, and said the draft policy would restrict an employee's ability to use time off. Sporadic applause met the often heated questions of staff members.

"Abuse of sick leave should be handled at a departmental level," said one woman. "No one argues the point that management must control sick leave," Benedict responded. "The proposals don't relieve management of the responsibility to manage."

PTO would combine vacation, sick leave and personal days. There would be no distinction among the three components. An employee with 31 days of PTO, for example, could use all 31 as sick leave, if his or her supervisor allowed.

By combining time off, seven days of what would have been sick leave would be eliminated. That aspect prompted one member of the audience to vehemently say, "We're not given sick leave; we earn it. Reducing the amount of sick leave by seven days is a 58 percent reduction."

"The loss of seven days is true," Benedict said. But, he added, the proposal would allow more flexibility in how employees use time off, and by banking SIP in 15-day annual amounts they would accrue potential sick leave time at a faster rate.

In addition, Benedict said the policy

would convert up to 10 current sick leave days to the paid time off balance. Employees would be paid for unused PTO when they left Mizzou.

The other half of the proposal, SIP, would be used for extended illness or disability and would be credited annually in a lump sum of 15 days per year up to a maximum of 90 days. Currently, there is no limit on sick leave accrual and the accrual amount may be credited toward retirement. Maximum length of creditable service toward retirement is 35 years.

Talk of removing the ability to accrue sick leave angered many in the audience. "You're kind of putting me in a hole," one man said. "I have a lot of sick leave built up and a chance to add some more and apply that toward retirement." Benedict stressed that current sick leave balances would be "frozen" and banked for determination of retirement service credit.

SIP days would be used after an employee missed work for 15 consecutive work days due to illness or disability. This qualifying period would only need to be met once

a year. SIP maximum accrual (90 days) plus the 15-day qualifying period would satisfy the long-term disability qualifying period of 149 days. The LTD program is a salary continuation benefit for eligible employees who are disabled and temporarily out of the work force. Employees must sign up for the optional LTD benefit.

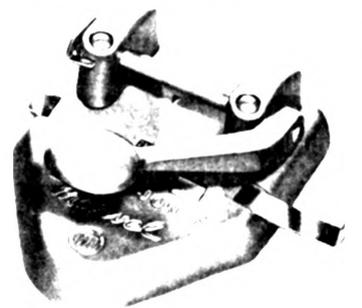

Many people in the audience pointed out that to be safe, employees would need to keep 15 days in their PTO bank to ensure they would be able to meet SIP's 15-day qualifying period. "That's 15 days that I might have been able to use for personal time," said one man.

At its meeting following the session, Staff Council agreed to prepare a PTO survey enabling staff members to express their opinions to the Administrative Management Council. (See ad below.) "It's easy to say, 'No, I don't like something,'" said Staff Council member Pete Dohm, chief clerk in the Engineering Experiment Station. "I'd like to also give people an opportunity to make suggestions on how to change vacation and sick leave, if necessary."

The Luck O' the Irish Brings You An Incredible Savings!

The Leprechauns have been a' working mighty hard — but they made a bit too many 2-hole punches. As luck would have it — we're able to pass along the savings to you.

TEACH CHILDREN TO EAT RIGHT

Parents exposed to heavy advertising may think children's vitamins are the best way to meet a child's nutritional needs. But extension nutritionist Lyn Konstant says a balanced diet beats pills.

"Parents have a responsibility to teach good eating habits. These habits will keep a child healthy and avoid problems later in life."

Nutrition researcher Gretchen Hill says children should have fruit and milk with every meal and eat lean meat, poultry and fish three or four times a week. They also should have vegetables twice a day.

REVVED-UP MOWERS READY FOR SPRING

If your lawn mower needs to be revved up after an idle winter, the Agricultural Mechanization Club can help. The club will be tuning up lawn mowers from 8 a.m. to 3 p.m. March 26 on the east side of the Agricultural Engineering Building.

For \$10, club members will clean the underside of the deck, change spark plugs, sharpen blades, clean the air filter and change the oil.

Sorry, riding mowers are not included in this offer.

GENERAL FACULTY MEETING IN APRIL

Chancellor Haskell Monroe will address faculty at the next general faculty meeting at 4 p.m. April 18 in N201-202 Memorial Union.

Monroe will share his goals and agenda for Mizzou and will update faculty on legislative activities and admission data.

COLLEGE TACKLES HEALTH PROBLEM

Mizzou's Department of Veterinary Microbiology will collaborate with the World Health Organization in a study of diarrheal diseases, the leading killer of children in the Third World.

Researchers will conduct field diagnoses, develop controls for the spread of the disease passed between animals and people, and relate new findings to Missouri agriculture.

Mizzou's College of Veterinary Medicine is one of three in North America selected to work on this project.

Plan cites urgent need

University, hospital administrators work to find ways to ease crowding at Mizzou's Health Sciences Center.

Tight money has left the University Health Sciences Center bulging at the seams, despite recent construction and expansion. Based on a Feb. 3 comprehensive plan update by consultant Frank Zilm, there is an urgent need to upgrade research facilities in order to continue quality research. "We've made good progress in alleviating some of our space problems," says the hospital's executive director, Robert Smith. "But we have not yet been able to address every need."

Duane Stucky, UM executive director for economic development and associate vice president, says administrators were aware that the \$20 million construction and renovation at the Health Sciences Center, completed in 1987, would only solve part of the problem. "We made only the renovations that could be paid for by hospital revenues," he says. The February update says significant progress has been made based on the initial 1982 comprehensive plan, but areas such as microbiology and child health still have serious space deficiencies. The report suggests that the Health Sciences Center,

which includes the Hospital and Clinics, the Medical School and the Nursing School:

- make additions to the Medical School building to provide research space
- consolidate student laboratories and support services in one area
- relocate off campus, library holdings currently stored in the old library facility
- upgrade large classrooms.

Smith says Zilm was asked to do the second report so University and hospital administrators could re-assess planning needs. "We wanted to bring our study up to date. Master planning is a long process," he says.

The Feb. 3 report is preliminary, Smith says. Hospital and University administrators will continue to study the situation during the next several months. "It is unrealistic to talk only about the hospital, or only about the Medical School. We are one gigantic facility. We cannot talk about developing one without including the other."

The Health Sciences Center has taken several steps to ease crowding. Primary patient care has been moved off campus to Green Meadows Clinic and Crossroads West Medical Center. Smith says the clinics, staffed by University physicians, are more convenient for patients and decrease traffic at the hospital. The hospital also shares some high-technology facilities with other area hospitals to cut down on cost and duplication.

Smith says he isn't counting on state funding for needed improvements. Several recent construction and renovation projects were partially funded through revenue bonds. "Even without state funding we need to think clearly about the facility we have. State funding or not, we have to realize that eventually we're going to have to replace this facility. It will become obsolete."

Recognition events planned

Take time to consider staff members' contributions to Mizzou. That's the message of Staff Council's annual Staff Recognition Week, to be held April 4 through 8.

"It's a week to recognize the efforts of University staff who work to make this a great campus," says council member Pete Dohm, chief clerk in the Engineering Experiment Station. Dohm is chairman of this year's festivities, dubbed "Mizzou Staff Pride in UM."

"We hope staff will participate in the activities to meet others on campus whom they might not otherwise get to know and to learn more about other parts of campus." Dohm says the Staff Recognition Week committee scheduled programs that have been well-received in previous years as well

as incorporating staff suggestions.

The week begins April 4 with a parenting-day care panel discussion from noon to 1 p.m. in S206 Memorial Union, and a sports medicine program from noon to 1 p.m. in S3 Memorial Union. April 5 programs are a Staff for Life health market from 11 a.m. to 2 p.m. in N201-202 Memorial Union, and an employee benefits session from noon to 1 p.m. in S206 Memorial Union.

Staff members will be the models at an April 6 fashion show from noon to 1 p.m. in N201-202 Memorial Union. Nutrition will highlight April 7 programs, which include a computerized dietary analysis program called Nutrichat from 11:30 a.m. to 1 p.m. in S3 Memorial Union. April 7 also will feature a session on microwave cooking from noon to 1 p.m. in S206 Memorial Union.

The week will culminate 2 p.m. April 8 in Jesse Auditorium with the Staff Recognition ceremonies. Service award recipients will be honored and Staff Recognition Awards will be presented.

Swinging into golf season

Starting April 1, mid-Missouri golfers can putt on real greens rather than the living room carpet. That's when the University's A.L. Gustin Golf Course will begin keeping regular hours again, says Course Manager Dennis Goettel. Through October, the course will be open from 7 a.m. to dark on weekdays and 6 a.m. to dark on weekends. Weekday and weekend greens fees are as follows: faculty/staff/alumni, \$6 and \$7; students, \$5 and \$6; and the public, \$7 and \$8. After 5 p.m. any day, the rate is \$4 for all players. Those who prefer riding to walking the course, Goettel says, may rent golf carts for \$14 for 18 holes and \$8 for nine holes. Golfers enjoy the best greens in mid-Missouri when they play at the University course, says Goettel, who estimates 28,000 to 30,000 rounds were played on it in 1987. For players who want to practice first, 11 Omniture tee boxes have been installed on the driving range, courtesy of the Monsanto Co. of St. Louis. A bucket of practice balls costs \$2.50.

Students visit high schools

Sixteen University students are returning to their local high schools to promote interest in attending Mizzou.

Members of the Mizzou Outreach Program student team travel to their hometowns to talk to high-school counselors, students and others interested in the University. They also write and phone admitted freshmen to welcome them and answer questions.

"We feel that students can relate to us easily," says sophomore Traci Bush, a student team member from Maryville, Mo., majoring in health related professions. As an example, Mark Wilkins, a sophomore in arts and science from Waynesville, Mo., says he and other black student team members can dispel minority students' misconceptions about the University. "We feel we are getting a good education. We're proud of Mizzou."

Wilkins and Bush discussed the program at Chancellor Haskell Monroe's March 10 media briefing, which focused on an increase in student applications. Freshman applications are up about 14 percent, with 6,542 first-time students applying by March 1. The number of black first-time applicants totaled 274, reflecting a 25 percent increase over last year. Black students' applications for Graduate School are up 90 percent to 127, an "abnormally large gain" that Monroe attributes to recruitment efforts and the low number of applicants last year.

Overall, the chancellor listed a variety of new recruitment efforts and scholarships as factors contributing to the increase in applications.

EXHIBITS

BRADY COMMONS GALLERY: "Student Art Association Exhibit" will be on display through March 24. Hours are 11 a.m.-5 p.m. weekdays.

FINE ARTS GALLERY: "Missouri Art Educators' Exhibition" will be on display through March 25. Hours are 10 a.m.-4 p.m. weekdays and 2-4 p.m. Sundays.

MUSEUM OF ART AND ARCHAEOLOGY: "Missouri Visual Artists Biennial" will be on display through March 27. Hours are 8 a.m.-5 p.m. Tuesday through Friday and noon-5 p.m. weekends.

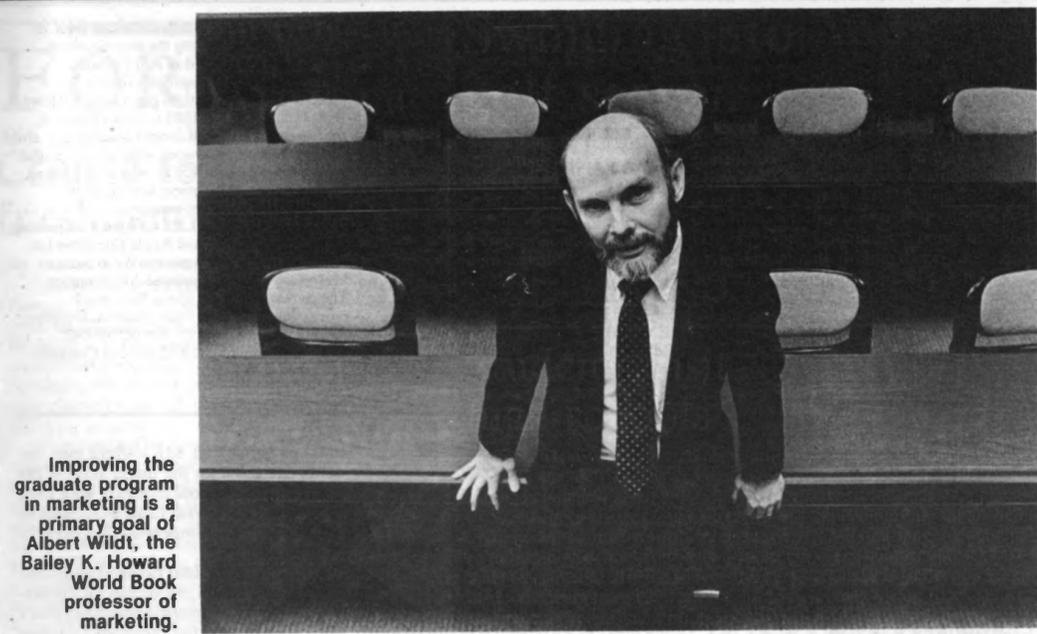

JESSE HALL DISPLAY: "Reclaiming our Past, Rewriting our Future," a display for National Women's History Month, will be shown through March 31.

WESTERN HISTORICAL MANUSCRIPT COLLECTION: "Women's Diaries of the Westward Journey" will be on display through March 31 in 23 Ellis Library. Hours are 8 a.m.-4:45 p.m. Monday through Friday, except 8 a.m.-9 p.m. Tuesdays.

STATE HISTORICAL SOCIETY: A variety of works from its major collections will be on display through March. Hours are 8:30 a.m.-4 p.m. weekdays. Photographs by Andrew Tau, Edward Clifton Collings and Dan Hoagland will be on display through March in the corridor of the State Historical Society. Hours are 8 a.m.-4:30 p.m. weekdays and 9 a.m.-4:30 p.m. Saturdays.

Building ties with Japan

Kumeo Hosokasa, foreground, mayor of Matto City, Japan, visited the Museum of Art and Archaeology March 7 with his interpreter, Hironori Kohaska, and Chancellor Haskell Monroe. More than 50 Japanese delegates from Matto City were in Columbia to form a sister-city agreement. To coincide with their visit, the museum had a special opening of "Chinese and Japanese Art from the Permanent Collection." The exhibit will be supplemented April 5 by "Chinese and Japanese Paintings and Prints from the Permanent Collection." The museum, located in Pickard Hall, is open from 8 a.m. to 5 p.m. Tuesday through Friday and from noon to 5 p.m. weekends.

Improving the graduate program in marketing is a primary goal of Albert Wildt, the Bailey K. Howard World Book professor of marketing.

Presenting alternatives to students

Marketing professor competes with big business for chance to train industry's brightest minds.

Albert Wildt wants to entice bright young minds from the financial allure of big business to the challenge of academia. Wildt, marketing professor in the College of Business and Public Administration, is the Bailey K. Howard World Book professor of marketing, one of Mizzou's four fully endowed chairs. With the University since 1983, Wildt served as interim chairman of the Marketing Department from 1985 through 1987.

Wildt, a 1967 graduate of Mizzou's MBA program, says increased national visibility would be good for the college. "I'd like to generate a support base for the college and the University through marketing journals and the editorial review process."

Wildt says his main goal is to improve the department's graduate program. He says the master's and doctoral programs in marketing have come a long way, but he'd like to see recruitment efforts increased. Academia is at a disadvantage in its quest for bright young minds, he says. "There is good opportunity for bright people to secure well-paying jobs in the business world, so quite often they don't pursue higher degrees."

EMPLOYMENT

Intensive English Program/English Language Support Program: Instructor, deadline April 18. Contact Larry Francis or Irene Juzkiw, 882-7523.

Agricultural Experiment Station: Associate dean for research and associate director, deadline April 29. Contact Dean Roger Mitchell, 882-3846.

Recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916.

Recorded listings of University Hospital and Clinics vacancies also are available 24 hours a day. For administrative/professional/technical openings call 882-1856; for nursing vacancies call 882-1857; and for secretarial/clerical/service/maintenance positions call 882-9088.

Anyone with UMCVMB CMS computer access may view campus and UM vacancies by logging on and entering command jobs. IBM 5520 users may view vacancies by asking their system administrator for the name of the current vacancy list document.

For more information or to apply for a job, contact Personnel Services, 201 S. Seventh St., west entrance, at 882-7976. For information on job openings at University Hospital and Clinics, contact the hospital Personnel Department, 1W42 UMCHC, telephone 882-8186.

MIZZOU WEEKLY

Vol. 9 No. 24

A publication of the University of Missouri-Columbia faculty and staff, published every Tuesday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of Development, University and Alumni Relations Division, 1100 University Place, 882-7357. News deadline is noon Tuesday the week before publication. Annual subscriptions are available to retirees for \$10. Faculty Council and Staff Council communication committee members: Donald Anderson, Gerald Browning, Pete Dohm, Jim Flood, Paulette King, Joye Patterson, John Van Hook, Larry Windmoller and Thomas Wyllie.

Editor: Carol Hunter
Staff writers: Sue Richardson, Mildred Robertson and Mary Vermillion

FOR THE RECORD

FUND RAISING: The Mizzou Annual Fund thanks the following merchants that have shown outstanding support for the program. The students have raised \$4 million for Mizzou, and these gifts have encouraged their success.

Domino's Pizza, Boone Tavern, Ken's Pizza, Mazzio's Pizza, Friesz's Donuts and Ice Cream, and Pizza Hut.

ENDOWMENT: The James L. Chapel Child Psychiatry Library received \$2,280 from the Mid-Continent Psychiatric Association,

which made the gift using the balance of its treasury upon dissolving the organization.

The library, located in N110 Health Sciences Center, primarily serves the educational needs of child psychiatry fellows. It was established in 1984 to honor Chapel, professor emeritus and former chief of the child psychiatry section. Chapel, who retired in the same year, died in 1985. He was a long-time member of the association, serving as its president and secretary-treasurer.

COMPUTER SALE: Campus Computing, Computer Spectrum and Apple Computer Inc. are offering a special opportunity to order a Macintosh Plus or Macintosh SE computer. The package includes Write Now word processing and Super Paint graphics. Deadline for ordering is March 25. For details call Campus Computing at 882-9400 or Computer Spectrum at 882-2131.

Q&A

Q. Your Feb. 16 article concerning the ruling that our physician is to call Healthlink if we are hospitalized frightens me since I live alone. I am telling my doctors of this ruling and giving them the 800 number. One doctor told me to remind him of it. If I am too weak to remind him and he neglects to call, will I be able to claim my insurance? Or if I'm away from home and have to be hospitalized outside Columbia and I'm too sick to inform the physician to call, will I be able to claim my insurance?

A. "Yes, you would be able to file your claim," says Mike Paden, director of UM Employee Benefits. "Currently, there are no penalties in place for those situations where hospitalization in a non-PPO hospital is initiated without pre-certification. For this reason, it is important to keep your pink medical I.D. card with you. Your I.D. card provides instructions for physicians or nurses to follow in regard to utilization review." Call Employee Benefits at 882-2146 for more information.

Q. Does this new Healthlink utilization review apply to retirees? I have not used my University insurance a single time in the past eight years. I'm retired and living in northwest Missouri, and if I should enter a hospital, it would probably be in St. Joseph, Kansas City or Omaha, Neb. I have Medicare. My question is this: Can I not just enter the hospital of my choice and then present my bill, after Medicare, to the University? And to whom do I send my bill from this area?

A. "Yes, you can enter the hospital of your choice," says Mike Paden, director of UM Employee Benefits. "Prior to hospitalization, simply present your pink University Medical Benefits/University Healthcare Choice I.D. card to your physician and request that he or she, or someone on his or her staff, call the Healthlink utilization review telephone number listed on the card." The number listed for Illinois, (800) 624-2356, is the number to call if you are hospitalized out of state. Call (816) 276-7316 if you are hospitalized in Kansas City and (800) 843-6254 for other Missouri cities, except St. Louis.

Send claims for services rendered within Kansas City to Preferred Health Providers, 6601 Rockhill Road, Kansas City, Mo. 64131. All other claims should be sent to Healthlink in care of P.O. Box 28223, St. Louis, Mo. 63132. Claims no longer are sent directly to Provident Life and Accident Insurance Co. With questions call the Employee Benefits office at (314) 882-2146.

Q. Why doesn't the parking structure on University Avenue have clearly

marked signs that say visitors and students can park on the upper level of the garage? High-school students with their parents regularly visit campus to check us out, but their first impression is where the heck to park.

Also, my extension clientele come from out-state Missouri to campus for conferences and office consultations. They don't think they can use the University Avenue parking structure because the sign reads "Faculty and Staff Only."

A. Phil Shocklee, assistant director of communications in Campus Facilities, says additional signage for both the University Avenue and Conley Street garages is included in a landscape project for these two structures. The project is scheduled to begin this spring.

Q. What is the delay with the smoking task force? The city passed a smoking ordinance more than a year ago. The University Hospital established a comprehensive policy. The extensive survey of faculty, staff and students clearly stated that 86 percent want a restricted smoking policy. Some departments have been fortunate enough to establish their own individual policies, but others of us resent being trapped in unhealthy smoke-filled environments and believe we have been patient long enough.

A. The smoking policy task force has developed a discussion draft and will present it at April 11 and 12 open forums. (See story on Page 1.)

At their first meeting, April 21, 1987, members of the task force agreed that opinions from all areas of the campus must be considered as the group worked to develop a policy. Staff opinions were gathered in July. Faculty and students could not be surveyed during the summer, but the task force agreed the delay was necessary. Faculty and students were polled in the fall. The group met Nov. 24 to review survey results from those sent to staff, faculty and students. Since that time, the task force has been working on a discussion draft.

"It is important that we follow the lead of other large institutions that have successfully implemented smoking policies," says Jackie Jones, chairwoman of the task force and associate director of Business Services. "The key to acceptance and self-enforcement of the final policy is for everyone within the University community to be given the opportunity to be involved in a carefully coordinated policy development process."

Q. People park in front of Lewis Hall, blocking traffic during peak times. Why don't they tear out a loading zone there? The curb is demolished from people pulling over it to park on the sidewalk.

A. "There are no plans to develop a loading zone in front of Lewis Hall on Fifth Street as a loading dock exists for Clark and Lewis halls on the southwest side of Clark Hall," says Phil Shocklee, assistant director of communications with Campus Facilities.

FORUM

Course to help freshmen adapt

By Andrew C. Twaddle

Following recommendations of the task force on basic competencies and the task force on the freshman year experience, a freshman orientation committee has been working on development of a new course for freshmen. We are now preparing to offer a pilot course in the fall 1988 semester and seek your assistance.

We are guided by data generated on this campus and the experience of the University of South Carolina, which for 20 years has been offering a course titled "The Student and the University." Only half of the students admitted here finish an undergraduate program in seven years (the national average). Students who make a satisfactory start are less likely to finish than less successful beginners. Those with 2.0 to 2.9 grade-point averages are the most likely to drop out.

Most students who leave higher education do so not because of academic problems, but because they fail to make a bond with the university. Lower proportions of our students come from families with previous experience in higher education. As the pool of 18-year-olds continues to shrink, retention becomes a greater issue in maintaining enrollment.

with the history and culture of higher education, and provide information on the resources of the university and how to use them have been shown to provide a number of benefits, including higher levels of involvement in education and improved bonding with the university; improved quality of life among undergraduates, including higher grade-point averages; and improved retention and cost savings to the university.

We propose a course with common features, including writing experiences, co-curricular activities, building a support group and use of a textbook. Other topics to be addressed will include an introduction to Mizzou and its services, college survival skills and responsible personal behavior. A document titled "The Freshman Year Experience Course: Rationale," which I prepared last summer, is available from Vice Provost Jeff Chinn's office. It outlines the history of development to that time at Mizzou and provides an academic justification for the course.

Rather than follow the pattern at the University of South Carolina, we have elected to utilize existing strengths. T-42, which has been offered as a studies skills course in the College of Education, will be modified to incorporate some of the standard freshman experience materials. It will serve as a training ground for faculty and staff who will then be expected to offer courses on their own in subsequent years. Students in T-42 this fall will have two lectures and one discussion section each week. One lecture will focus on study skills and one on college survival. The discussion section will focus on improving learning strategies and deal with adjustment problems.

Our plan is for Mary Bixby, learning

resource specialist at the Learning Center, to coordinate the lectures and handle most of the study skills portions. Other course faculty and guest lecturers will handle the college survival portions. Discussion sections will be led by faculty-and-staff pairs who will assign and grade writing assignments.

We are now seeking volunteers among the faculty and student-support staff who would be interested in participating in the overall course planning and in leading discussion sections. Participation would involve attending lectures (perhaps doing one or two) and working with a group of up to 20 students with another faculty or staff member.

Interested staff should contact Kim Dude, 882-2834, 101 Hatch Hall. Interested faculty should contact Andrew Twaddle, 882-7031, 116 Sociology Building. Please consider participating. It is a chance to have a major impact on the lives of our undergraduates and to improve the quality of student performance at the University. Twaddle, a professor of sociology, is chairman of the freshman orientation course committee.

FOR RENT

3 BR, 2 BATH FULLY FURNISHED HOUSE on quiet street close to campus. Central air, terrace, good yard. Rent negotiable. May 10 to Aug. 20, negotiable. 449-5886.

ENJOY SPRING TIME at a Lake of the Ozarks Time Share. Week of March 25 through April 1. All amenities, sleeps 6. Call 445-7358 after 7 p.m.

NICE 2-BEDROOM Rothwell Heights duplex, very private, large kitchen, stove, refrigerator, full basement, garage, w/d hookups, big yard, excellent condition. \$350/month. Available June 1. 445-1892 after 5 p.m.

ATTRACTIVE 2-BEDROOM, 2-bath duplex. Summit Drive near Fairview School, Mall. Huge master bedroom, country kitchen, separate family room, w/d hookups. Exceptional value \$370-375. Units available July 1 and August 15. 445-1892.

SERVICES

GOING AWAY? Weekend? Vacation? Family emergency? Experienced animal owner will provide loving care for your pets in your home. Licensed, bonded. Excellent references. Call PETCARE. 657-9633.

WANTED

EXHIBITORS for Arts and Crafts Show at the Columbia Mall, April 22, 23, 24. For an application call: (314) 442-7072.

CALENDAR

Send calendar items in Campus Mail to Scott Wyman, Mizzou Weekly, 1100 University Place, by noon Tuesday the week before publication. Events are free and open to the public unless otherwise noted.

Highlights

DISPUTE RESOLUTION SEMINAR: Michael Diamond, associate professor of public administration, will speak on "Psychological Conflict Resolution in Organizations" at 11:40 a.m. March 23 in 110 Lowry Hall. Call 882-3645.

CONCERT: The U.S. Navy Band will perform at 8 p.m. March 24 in the Hickman High School Aud., 1104 N. Providence Road.

BASEBALL: Team will play a doubleheader against UM-St. Louis at 1:30 p.m. March 27 at Simmons Field. Cost: \$1 students, \$2 faculty, staff and public.

STUDENT RECITAL SERIES: The Chamber Singers, with Paul Drummond conducting, will perform at 8 p.m. March 29 in the Fine Arts Recital Hall.

22 Tuesday

ELDERHOSTEL: Registration for Mizzou's Elderhostel program for this summer will continue through May 1. Call the Center for the Study of Aging at 882-6011.

ENGINEERING COURSE: "Microprocessors for Engineers" will be presented through May 3 on Tuesday evenings at Southwestern Bell Telephone, 500 E. Eighth St., Kansas City. Cost: \$375. Call 882-2087.

ENGINEERING COURSE: "Computer Networking" will be presented through May 3 on Tuesday evenings at Southwestern Bell Telephone, 100 Tucker Blvd., St. Louis. Cost: \$375. Call 882-2087.

FORAGE DAYS: Event will be held at 9 a.m. at the Sale Barn in Mountain Grove, Mo. Call 882-3614.

EMPLOYEE DEVELOPMENT SEMINAR: Susan Morrison, instructor in English, will conduct a four-day seminar on "Effective Writing" starting at 9 a.m. today in 146 Heinkel Bldg. Call 882-4859.

WOMEN'S CENTER: "PMS: Pre-Menstrual Syndrome" will be presented at noon in 229 Brady Commons.

BASEBALL: Team will play St. Louis University at 3 p.m. at Simmons Field. Cost: \$1 students, \$2 faculty, staff and public.

CHEMICAL ENGINEERING SEMINAR: The department will hold a seminar at 3:40 p.m. in 1034 Engineering Bldg.

23 Wednesday

INTRAMURALS: Play will begin today for men's tennis, women's badminton doubles and co-rec badminton.

HEALTH CONFERENCE: "Nutritional Needs of the Elderly" will be presented at the Holiday Inn Conference Center, Interstate 55 and Williams Street, Springfield, Mo. Cost: \$50. Call 882-4105.

CONFERENCE: A joint conference on adult education will be held through March 25 at the Omni International Hotel in St. Louis. Event is sponsored by the Missouri Association for Adult, Continuing and Community Education and the Missouri Valley Adult Education Association. Call (314) 553-5961.

FORAGE DAYS: Event will be held at American Legion Post 676, Highway 61, west of Springfield, Mo. Call 882-3614.

MEDICAL SEMINAR: Thomas Campbell, assistant professor of family medicine at the University of Rochester, will speak on "Confronting the Challenges of Family and Health Research" at 10:30 a.m. in MA306D Health Sciences Center. He will speak on "Family Oriented Pregnancy Care" at 12:10 p.m. in MA302 Health Sciences Center.

DISPUTE RESOLUTION SEMINAR: See Highlights.

MIDDAY GALLERY TALK: "Armor in History" will be presented by Alfred Bradford, assistant professor of history, at 12:25 p.m. in 1 Pickard Hall.

PROVOST: Provost Lois DeFleur will hold open office hours for faculty, staff and students from 3-5 p.m. in 114 Jesse Hall.

WOMEN'S CENTER: "What's a Mother to Do?" will be presented at 7 p.m. in 229

Brady Commons.

WOMEN'S LAW ASSOCIATION: A forum on the problems facing women in the field of law will be presented at 7:30 p.m. on the third floor of Lowry Hall.

MSA FILM: "Auntie Mame," no rating available, will be shown at 8 p.m. in Ellis Aud. Cost: \$1.

24 Thursday

CONFERENCE: "Art Competency: Implications for Teaching" will be held through March 27 in Jefferson City. Call 882-4349.

CONFERENCE: "Performance Evaluation for Marginal Employees" will be presented at the Holiday Inn Conference Center, Interstate 55 and Williams Street, Cape Girardeau, Mo. Cost: \$50. Call 882-4105.

ENGINEERING COURSE: "Microprocessors for Engineers" will be presented through May 5 on Thursday evenings at Southwestern Bell Telephone, 100 Tucker Blvd., St. Louis. Cost: \$375. Call 882-2087.

ENGINEERING COURSE: "Advanced Water Treatment" will be presented through March 25 in 309 Hearnes Center. Cost: \$120, or \$105 before March 3. To register call 882-2087.

BASEBALL: Team will play Northwest Missouri State at 1 p.m. at Simmons Field. Cost: \$1 students, \$2 faculty, staff and public.

STAFF ADVISORY COUNCIL: Group will meet at 1:15 p.m. in S204 Memorial Union.

MOLECULAR BIOLOGY: "Oncogenes and Cancer" will be presented by Michael Bishop of the University of California at 3:40 p.m. in M105 Medical School.

FACULTY COUNCIL: Group will meet at 3:40 p.m. in S110 Memorial Union.

WOMEN'S CENTER: Carole Myscowski, assistant professor of religious studies, will present "Symbolism and Goddess Workshop" at 7 p.m. in 229 Brady Commons.

CONCERT: See Highlights.

25 Friday

MEDICAL CONFERENCE: "Perinatal/ Neonatal Critical Care: A New Look at Old Problems" will be presented at the University Plaza Hotel, 333 John Q. Hammons Parkway, Springfield, Mo. Cost: \$40. Call 882-4105.

MISSOURI INSTITUTE FOR EXECUTIVE DEVELOPMENT: "Communication that Wins Customers" will be presented at 7:30 a.m. at the Holiday Inn Executive Center, 2200 I-70 Drive S.W. Cost: \$15. Call 882-4803.

AGRICULTURE SEMINAR: A training session on weeds, insects and plant diseases in farm and garden will be presented from 8:30 a.m.-5 p.m. through March 26 in 39 Agricultural Bldg. Call 882-7871.

MISSOURI INSTITUTE OF PSYCHIATRY: Jerome Yesavage, associate professor of psychiatry at Stanford University, will speak on "Psychiatry: Management of Violent Psychiatric Inpatients" from 8:45 a.m.-3:45 p.m. at the Kohler Bldg Aud., St. Louis State Hospital Complex, 5400 Arsenal St., St. Louis. Cost: \$60. Call (314) 644-8803.

CONFERENCE: "Personnel Management: The Selection, Evaluation and Development of Library Staff" will be presented from 9 a.m.-4 p.m. in 331 Hearnes Center. Cost: \$55. Call 882-4349.

WOMEN'S CENTER: "Anonymous Was the Woman" will be shown at noon in 229 Brady Commons.

RETIREMENT RECEPTION: Carl J. Poehlman, director of Extension Teaching, will be honored at a retirement reception from 3:30-5:30 p.m. in N214-215 Memorial Union.

CHEMISTRY COLLOQUIUM: "Gas Phase Ion-Molecule Chemistry: What is a Flowing Afterglow?" will be presented by Lucia Babcock of Louisiana State University at 3:40 p.m. in 103 Schlundt Hall.

MSA FILM: "Adventures in Babysitting," rated PG-13, will be shown at 7 and 9:30 p.m. in Ellis Aud. Cost: \$2.

SEE THE STARS: Weather permitting, the Laws Observatory on the roof of the Physics Bldg. will be open from 8-10 p.m.

26 Saturday

SEMINAR: "School Nurse Achievement Program" will be presented from 8:30 a.m.-4 p.m. at the Victoria Inn in Cape Girardeau, Mo. Cost: \$100. Call 882-0216.

POWELL GARDENS: "Outdoor Container Gardening" will be presented from 10 a.m.-noon at the gardens, located near Kingsville, Mo. Cost: \$4. Call (816) 566-2213.

MSA CRAFT STUDIO: A ceramic jewelry workshop will be held from 10 a.m.-2:30 p.m. today and April 2 in 203 Brady Commons. Cost: \$16.

BASEBALL: Team will play a doubleheader against Northern Iowa at noon at Simmons Field. Cost: \$1 students, \$2 faculty, staff and public.

MSA FILM: "Adventures in Babysitting," rated PG-13, will be shown at 7 and 9:30 p.m. in Jesse Aud. Cost: \$2.

27 Sunday

BASEBALL: See Highlights.

MSA FILM: "Saboteur," no rating available, will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents.

28 Monday

INTRAMURALS: Play will begin today for co-rec soccer.

HEALTH CONFERENCE: "AIDS 88: A Public Health Response" will be presented through March 30 at the Sheraton Westport Inn in St. Louis. Cost: \$95. Call 882-4105.

CONFERENCE: "Annual Food Technology Conference" will be presented at Memorial Union. Cost: \$50. Call 882-4349.

SEMINAR: "Clinical Care Planning Formulation and Application" will be presented by Lynda Juall Carpenito, president of LJC Consultants, from 8:30 a.m.-4:15 p.m. at the Embassy Suites in St. Louis. Cost: \$156. Call 882-0216.

WOMEN'S CENTER: Margo Frost, doctoral candidate in counseling psychology, will speak on "The Woman in Your Life Is You" at noon in 229 Brady Commons.

BIOCHEMISTRY SEMINAR: Suresh Tate of the Department of Biochemistry at Cornell University will speak on "Glutathione Degrading Enzymes of Microvillus Membranes-Structural and Topogenic Aspects" at 3:30 p.m. in 322 Chemistry Bldg.

SESQUICENTENNIAL PLAN MEETING: An open meeting on the Sesquicentennial Plan for use of campus land and buildings will be held at 3:40 p.m. in S147A Animal Sciences Bldg.

ANTHROPOLOGY LECTURE: Glen Conroy of Washington University will speak on "CAT Scan of the Aegyptopithecus Fossils" from 3:45-5 p.m. in 106 Pickard Hall.

LECTURE: Crystal Chemis, assistant professor of Romance languages, will discuss "Time, Space and Apocalypse in Gongora's 'Soledades'" at 4 p.m. in 115 General Classroom Bldg.

MSA CRAFT STUDIO: A workshop on pot throwing will be held from 6:30-9 p.m. Mondays for five weeks in 203 Brady Commons. Cost: \$24 students, \$29 faculty and staff.

MSA CRAFT STUDIO: A workshop on beginning black-and-white photography will be held from 6:30-9 p.m. Mondays for five weeks in 203 Brady Commons. Cost: \$27 students, \$33 faculty and staff.

FORUM: "Spirituality and Social Justice" will be presented at 7 p.m. at the Chez Coffeehouse, 100 Hitt St.

SESQUICENTENNIAL PLAN MEETING: An open meeting on the Sesquicentennial Plan for use of campus land and buildings will be held at 7 p.m. in Ellis Aud.

FACULTY RECITAL SERIES: Harry Morrison, baritone, will perform at 8 p.m. in the Fine Arts Recital Hall.

MSA FILM: "The Spirit of the Beehive," no rating available, will be shown at 8 p.m. in Memorial Union Aud. Cost: \$1.

29 Tuesday

WOMEN'S CENTER: Ann Rosenow, associate dean of nursing, will speak on "Necessary Knowledge: Sexually Transmitted Diseases" at noon in 229 Brady Commons.

SESQUICENTENNIAL PLAN MEETING: An open meeting on the Sesquicentennial Plan for use of campus land and buildings will be held at noon in Memorial Union Aud.

CHEMICAL ENGINEERING SEMINAR: The department will hold a seminar at 3:40 p.m.

in 1034 Engineering Bldg.
SESQUICENTENNIAL PLAN MEETING: An open meeting on the Sesquicentennial Plan for use of campus land and buildings will be held at 5 p.m. in the Electrical Engineering Aud.

MISSOURI CULTURAL HERITAGE CENTER: A 5 p.m. lecture by Laurel Wilson, assistant professor of textiles and apparel management, will open an exhibition in the Conley House gallery, Conley Avenue and Sanford Street, that features bathing suits from 1900-1930. A reception will be held at 4:30 p.m.

MSA CRAFT STUDIO: A workshop on batik will be held from 6:30-9 p.m. Tuesdays for five weeks in 203 Brady Commons. Cost: \$24 students, \$29 faculty and staff.

STUDENT RECITAL SERIES: See Highlights.

30 Wednesday

SEMINAR: "Clinical Instruction Focus on Effective Teaching Strategies" will be presented by Lynda Juall Carpenito, president of LJC Consultants, from 8:30 a.m.-4:15 p.m. at the Embassy Suites in St. Louis. Cost: \$78. Call 882-0216.

MIDDAY GALLERY TALK: The Missouri Arts Quintet with Steven Geibel will perform at 12:25 p.m. in 1 Pickard Hall.

MSA CRAFT STUDIO: A workshop on beginning black-and-white photography will be held from 1-3:30 p.m. Wednesdays for five weeks in 203 Brady Commons. Cost: \$27 students, \$33 faculty and staff.

BASEBALL: Team will play a doubleheader against Southern Illinois University at 1:30 p.m. at Simmons Field. Cost: \$1 students, \$2 faculty, staff and public.

PROVOST: Provost Lois DeFleur will hold open office hours for faculty, staff and students from 3-5 p.m. in 114 Jesse Hall.

MSA CRAFT STUDIO: Workshops on four-harness weaving, porcelain jewelry and stained glass using the lead came technique will be held from 6:30-9 p.m. Wednesdays for five weeks in 203 Brady Commons. Cost: \$24 students, \$29 faculty and staff.

MSA CRAFT STUDIO: A workshop on beginning black-and-white photography will be held from 6:30-9 p.m. Wednesdays for five weeks in 203 Brady Commons. Cost: \$27 students, \$33 faculty and staff.

STUDENT ENSEMBLE SERIES: The Trombone and Tuba Ensembles with Jeffrey Lemke, coordinator, will perform at 8 p.m. in the Fine Arts Recital Hall.

MSA FILM: "The African Queen," no rating available, will be shown at 7 p.m. in Ellis Aud. Cost: \$1.

RECITAL: Horn Gesellschaft with Laurence Lowe directing will be presented at 8:30 p.m. in the Fine Arts Recital Hall.

MSA FILM: "Misfits," no rating available, will be shown at 9 p.m. in Ellis Aud. Cost: \$1.

31 Thursday

MISSOURI INSTITUTE FOR EXECUTIVE DEVELOPMENT: James Wall, professor of management and author of "Bosses," will discuss "Strategic Planning, What It Is and How It Can Help Your Firm" from 8:30 a.m.-4:30 p.m. at the Holiday Inn North on I-44 in Springfield, Mo. Cost: \$165. Call 882-4803.

SEMINAR: "Clinical Teaching Focus on Evaluation" will be presented by Lynda Juall Carpenito, president of LJC Consultants, from 8:30 a.m.-4:15 p.m. at the Embassy Suites in St. Louis. Cost: \$78. Call 882-0216.

WOMEN'S CENTER: "World of Light: A Portrait of May Sarton" will be shown at noon in 229 Brady Commons.

SEMINAR: "The Role of the Physician in the Prevention of Nuclear War" will be presented by Christine Cassel, associate professor of internal medicine at the University of Chicago, at noon in MA217 Health Sciences Center.

CHEMISTRY COLLOQUIUM: "Fiber Optic Biosensors: Development Strategies and Recent Advances" will be presented by Mark Arnold of the University of Iowa at 3:40 p.m. in 103 Schlundt Hall.
