

# MIZZOU

## WEEKLY

University of Missouri-Columbia / March 28, 1989

### ON THE INSIDE:

**Page 2** Chancellor Haskell Monroe presents the MU Inventory of Policy Expertise to the Missouri Legislature.

**Page 3** Staff Advisory Council sets the calendar for Staff Recognition Week April 10 through 14.

**Page 4** Jack Allen designed the Sesquicentennial logo with pride.

## Moving forward

*University now taking proactive stance in area of equal opportunity.*

The University is moving forward in the area of equal opportunity, and has successfully complied with all regulations of Title VI of the Civil Rights Act of 1964, which prohibits racial discrimination. But Deputy Chancellor Gerald Brouder says MU has set additional goals for itself.

"We have a new commitment to being proactive, and we plan to do things differently," Brouder says. "Our ultimate goal is to change the environment to the point where it is not necessary for our minority students to expend energy or for

the institution to spend money on fighting vestiges of segregation."

The University was notified March 17 that it no longer is being monitored by the U.S. Office of Civil Rights on efforts to recruit and retain minority students and faculty. In a letter to Gov. John Ashcroft, LeGree S. Daniels, assistant secretary for civil rights in the U.S. Department of Education, said MU had successfully met three conditions cited previously by OCR. As a result, OCR requires no further desegregation measures by the University, Daniels said.

The directives issued to MU in February 1988 — and the measures taken by MU to comply — follow:

- create a mechanism for Lincoln University students to transfer course credits to the MU library science program. Brouder says the course transfer mechanism was implemented in 1981 and discontinued in 1983 because of a lack of student interest.

- develop a consortium of social workers to facilitate graduate enrollment at the School of Social Work. Brouder says the existing Missouri Consortium of Social Work Education Program facilitates recruitment and enrollment in social work at MU.

- employ a recruitment coordinator for minority graduate students. Brouder cites the fact that Charles Sampson

fills the new position of associate dean for minority affairs in the Graduate School. In addition, K.C. Morrison has been hired as vice provost for minority affairs and faculty development, and will begin his duties this summer.

Recruitment of black graduate students has improved. Sampson told a Mizzou Administrative Forum Dec. 13 that the Graduate School is writing letters to the 1,900 minority students who took the Graduate Record Examination last year, and is visiting other college campuses to try to lure potential minority graduate students to MU. The University also is widely publicizing its Ridgel Fellowship Program, which offers stipends to minority masters and doctoral students.

Brouder says the University has been monitored by the OCR since 1981. "While we are happy to have come away from their supervision, it doesn't mean that we have completed our task of making this a campus receptive to and supportive of cultural and ethnic diversity," he adds. "There is work yet to be done to change the perception held by some that MU is inhospitable toward minorities. Our interest is not merely in changing perceptions, but in changing reality."

Brouder says accomplishing this task will be "long and arduous," and is a matter of education. "We will need to eradicate ignorance, then work on attitudes."

## Employees take time to reach out

*Faculty, staff visits to schools help emphasize the message that there's only one MU.*

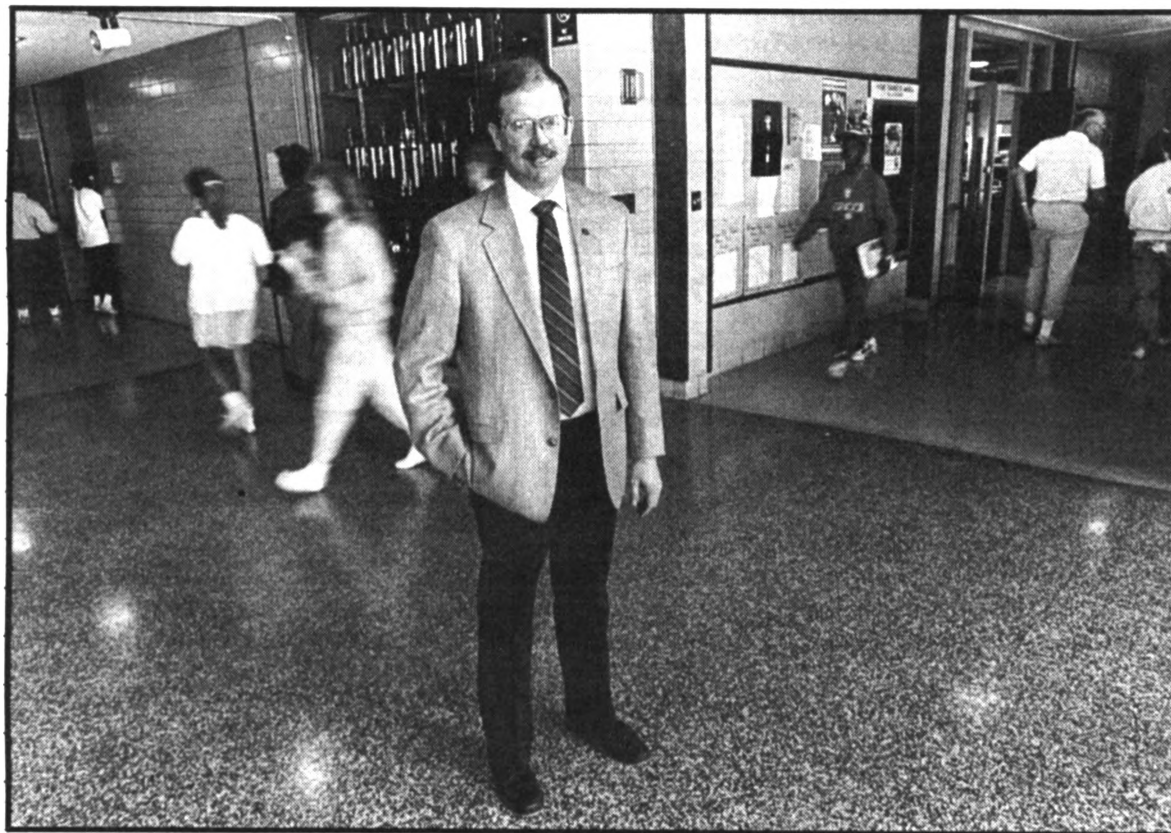

Richard Oliver, director of the School of Health Related Professions, wants to improve the public's image of Mizzou and help ensure that the best and brightest students continue to come here. He achieves both of those goals as a member of Mizzou's Outreach Team.

"A lot of high school students are under the mistaken impression that all classes at MU are big, and that the school is cold and impersonal," Oliver says. "When I visit with them, I try to dispel those myths."

Oliver is one of 26 staff and faculty members on the high school liaison team, and twice a year he visits his old high school in Wellsville, Mo., about 60 miles northeast of Columbia. On Feb. 23 he took the Shelter Insurance Sesquicentennial Singers with him to entertain the students, their parents and members of the Wellsville community. Later this week he will return to the school to discuss life at MU with college-bound juniors and seniors.

Oliver graduated from Wellsville High in 1967, enrolled at Mizzou, and received his bachelor's degree in medical technology from the University four years later. He subsequently received his master's and doctoral degrees from MU and became a member of the faculty. He has been HRP director three years.

"I know what it's like to come from a small, rural setting and attend the big University," he says. "I tell the students — and their

Richard Oliver enjoys telling high-school students about the advantages of attending MU.

parents — not to be afraid, that we at MU do care about you."

The high school liaison team is only one component of the total Mizzou Outreach Program. Other faculty and staff teach high school classes as "professors for a day," and still others comprise a speakers' bureau. Chancellor Haskell Monroe usually teaches a high school class during Sesquicentennial visits to cities and towns throughout the state. The outreach program, a leading project of the Mizzou recruitment task force, works in conjunction with a student outreach program directed by Georgeanne Porter, director of undergraduate admissions.

"The principal purpose of the program is to recruit high-ability students," says Chris Koukola, assistant vice chancellor for University Relations. "But there are other benefits as well. Members of the outreach team help boost the public's image of the University, reminding people that there's only one MU."

"After all, nothing makes a statement about the excellence of this University quite as well

as a student, faculty or staff member standing in front of a group and talking about Mizzou. For faculty and staff to take a whole day off from their jobs to do this says a lot about their personal commitment to Mizzou. We truly appreciate their efforts."

Koukola says the program's goal this year is to provide follow-up to the liaison component, and to better publicize the other two. She also is looking for additional staff and faculty volunteers; those interested should call 882-4523.

Along with Oliver, members of the high school liaison team are Jeff Adams, senior photographer for Publications and Alumni Communication; Bob Bailey, assistant dean and academic adviser in the School of Law; Bill Bondeson, director of the University Concert Series; Larry D. Clark, dean of the College of Arts and Science; Charles Cramer, professor of agricultural economics; Paul Dieckmann, a member of the English Department; Weldon Durham, professor of theater; Oleta Edwards, library assistant II at Ellis Library; Gary Filbert, director of the

Show-Me State Games; James Frisby, professor of agricultural engineering; Roger Gafke, vice chancellor for Development, University and Alumni Relations;

Bill Hires, associate professor of agricultural engineering; Marilee Howell, assistant professor of health and physical education; George W. Jesse, associate professor of animal science; Roger Jett, assistant director of Personnel Services; Barbara Komer, assistant professor of theater and special assistant to the director of the School of Fine Arts; Howard Marshall, director of the office of research for the Missouri Cultural Heritage Center; Robert T. Marshall, professor of food science and nutrition; Sandy McCurdy, admissions/records coordinator in the School of Medicine; Russ Meyer, associate professor of English; Ira Powell, associate professor of music; Walter Schroeder, assistant professor of geography; Al Vogt, professor of forestry, fisheries and wildlife; William Wagner, professor of marketing; and Birgit Wassmuth, associate professor of advertising.

### MASTER PLAN TO BE DISCUSSED

The campus master plan will be the topic at three public hearings April 6.

The hearings will be at noon, 4:30 p.m. and 7 p.m., all in 112 Law Building. Jack Robinson, an independent consultant who works with campus officials on the plan, will present information. Members of the campus planning committee will be on hand to answer questions.

Faculty, staff and students are invited.

### FORUM SCHEDULED ON ADMISSIONS

Faculty Council will sponsor an open forum this week to discuss admission requirements.

The forum will be at 3:40 p.m. March 30 in 12 Middlebush, and will replace the regularly scheduled Faculty Council meeting this week. Faculty, staff and students are welcome.

### STATE OFFICIALS WILL SPEAK

State and legislative officials will speak at a conference for faculty and staff, "Investing for the Future: Perspectives on Funding Higher Education in Missouri," April 1 at the Days Inn University Center, I-70 and Stadium Boulevard.

Speakers include Judy Vickrey, acting Missouri commissioner of higher education, and State Rep. Chris Kelly, D-Columbia. The conference will be from 10:30 a.m. to 4 p.m.

Registration is \$10. With questions, call Richard Tyler, professor of law, at 882-2426.

### BOOK SALE SET APRIL 7, 8

More than 15,000 books will go on sale when the University Libraries' annual book sale opens at noon April 7 at the Hearnes Center.

Hours will be noon to 9 p.m. April 7 and 9 a.m. to 4 p.m. April 8. Admission is free, except during the first hour April 7, when \$4 will be charged.

The books have been donated by various individuals or groups, or are library duplicates. Most will sell for 50 cents or \$1, and proceeds will be used to buy additional books.

### ASSISTANTS IN WORKSHOPS

Mizzou teaching assistants and faculty members are invited to two workshops conducted by TA Training and Development.

Barbara Korner, assistant professor of theater, will lead a workshop on presentation skills from 3:30 to 5 p.m. March 29.

Richard Erickson, professor of practical arts, will lead a workshop on constructing tests from 3 to 5 p.m. April 10. Both workshops will be in 20 Academic Support Center.

Reservations are recommended, and may be secured by calling Susan Bradford at 882-6260.

## State legislators offered faculty, staff expertise

As part of a pilot public policy program to link professors and legislators, Chancellor Haskell Monroe presented Missouri House Speaker Bob Griffin, D-Cameron, with the MU Inventory of Policy Expertise on March 22.

"This inventory is yet another means by which MU is reaching out to meet the needs of the state," Monroe says. "By providing faculty and staff resources to the policy makers of this state, we have an opportunity to bring the latest knowledge of many fields and disciplines directly to those entrusted with the responsibility of leadership."

The inventory contains the names of 310 MU faculty and extension staff, their areas of expertise and information on 17 policy-related research centers on campus. It provides listings of experts in various areas, including rural development, rural sociology, health policy, agricultural issues and water resources. The inventory, which contains a keyword directory for easy reference, will be made available to the House, Senate, governor's office and to state department heads.

The inventory was the idea of a group of MU faculty, who last March suggested such a publication was necessary to inform Mis-

sourians and lawmakers alike about the variety and extent of faculty expertise at the University. It was compiled by David Webber, associate professor of political science and coordinator of public policy research.

Legislators have contacted University professors in the past, but on an individual basis. The report will serve as a directory of faculty and staff to policy makers, and will introduce legislators to MU faculty and staff with expertise in certain areas.

One use of the inventory is in support of "issue briefings," where professors inform lawmakers on the status of state and national policy matters. The briefings are part of a pilot public policy program launched by the House this session.

"This program will provide legislators with opportunities to obtain vital information regarding topics essential in developing

public policy," Griffin says. The professors can meet with legislators in briefing sessions arranged by the House. During the meetings, professors can present the most recent information on policy areas without bias toward any specific bill.

The pilot program comes after months of discussions between University professors, representatives and House staff members. The details were arranged by Webber along with Rep. Joe Bock, D-Gladstone; Rep. Phil Tate, D-Gallatin; and Darrell Jackson and Anne Walker of the House Research Office.

The Legislature is not the only group to benefit from the program. "This opens up research and educational opportunities for students, and it improves the faculty in that it gives them the opportunity to apply their knowledge," Webber says.

## Two deans, one director selected

The University filled three important spots last week in naming new deans for the College of Arts and Science and for the School of Journalism, and a new director for the School of Social Work, Provost Lois DeFleur says.

Interim Dean Larry D. Clark has been selected permanent dean of the College of Arts and Science, and Dean Mills of California State University-Fullerton has been chosen dean of the School of Journalism. In addition, Judith Davenport of the University of Georgia has been appointed director of the School of Social Work in the College of Human Environmental Sciences.

Clark, who has been at MU since 1966 and is a former chairman of the Theater Department, fills the position vacated by Milton Glick, who left the University last spring to become provost at Iowa State University. DeFleur says Clark's administrative abilities, combined with the support he has received from faculty, made him an attractive candidate for the job.

"He's a very creative problem-solver, and I think that is what administration is all about," DeFleur says. "He brings a depth of knowledge about the college and the institution to the job. It was not an easy choice; there were lots of excellent candidates."

Mills, currently a professor of communications and director of graduate studies at the institute for media-society at California State-Fullerton, will take over as dean of the School of Journalism June 15. He will replace James A. Atwater, who is retiring as dean but plans to stay with the school as a faculty member. Mills moved to California State in 1986 after serving as acting dean for the school of communications at Pennsylvania State University.

Mills also worked for the Baltimore Sun

in several capacities, including as a reporter, Moscow bureau chief, U.S. Supreme Court and Justice Department correspondent, and State Department correspondent. DeFleur says when checking Mills' references, she found people from all parts of the country who expressed a great respect for his capabilities as a journalism educator.

"One of the reasons he is such a good fit is because he brings a combination of academic skills and excellent experience," DeFleur says. She adds that Mills' reputation for being sensitive to minority and women's issues also played a role in his hiring. "That's very important for us," she adds.

Davenport, currently an assistant professor and coordinator of undergraduate field instruction at the University of Georgia, will become the director of the School of Social Work Sept. 1. "She's a very prolific researcher," DeFleur says. "She's worked on some important social issues."

Davenport holds degrees from the University of Wyoming, the University of Tennessee, Mississippi State University and Meridian Junior College in Meridian, Miss.

DeFleur says the dean searches for the School of Business and Public Administration and for the School of Nursing continue.

Initial interviews with the candidates for the B&PA post are complete, she says, and the search committee is into the second stage of the hiring process. Meanwhile, there are four finalists for nursing dean, and the first round of interviews should be completed by mid-April, DeFleur says.

Nursing dean finalists are Patricia T. Castiglia of the State University of New York at Buffalo; Mary Ann Christ of the Medical University of South Carolina; Sydney D. Krampitz of the University of Kansas; and Toni J. Sullivan of the University of Southern California.

Finalists for B&PA dean are Michael A. Hitt, head of the management department at Texas A&M University; Albert R. Mitchell, a partner with Arthur Young & Co. of Reston, Va.; David L. Shrock, associate dean of the college of business at Arizona State University; and Gary L. Trennepohl, head of the department of finance at Texas A&M.

Some Items Special Order. Sale ends April 30, 1989.

# Council sets calendar for special staff week

Staff Advisory Council geared up for Staff Recognition Week at its March 23 meeting by completing plans for the week of celebration and recognition scheduled April 10 through 14. In addition to daily prizes provided by area businesses, here is a rundown of the week's events:

•Monday, April 10: crafts and hobbies fair, 10 a.m. to 3 p.m. in N201-N202 Memorial Union. This will provide an opportunity to see crafts and hobbies from University staff.

•Tuesday, April 11: Red Cross blood drive, 10 a.m. to 2 p.m. in N201-N202 Memorial Union. For donors, there will be free cholesterol screening by University Hospital, free glaucoma tests by Missouri Lions Eye Research Foundation and free pizza from Ken's Pizza.

•Wednesday, April 12: fashion show, noon to 1 p.m. in Jesse Auditorium. This histori-

cally has been a highlight of the week's activities, and this year's Sesquicentennial show will feature fashions through the years. Staff members will model apparel provided by J.C. Penney and Historical Clothing and Textiles.

•Thursday, April 13: research exhibits, 10 a.m. to 3 p.m. in N201-N202 Memorial Union. This will provide a chance to see what contri-

butions staff members have made to University research.

•Friday, April 14: staff recognition ceremonies, 2 to 4 p.m. in Jesse Auditorium. Staff Recognition Awards will be presented to one member of four employee subgroups: administrative/professional; crafts/maintenance; secretarial/clerical; and technical/paraprofessional. In addition, the Barbara S. Uehling and Mick Deaver awards will be presented, and staff with extended years of service with the University will be recognized. Refreshments will be served after the ceremony.

The council also announced that a University representative will promote the special week on KOMU-TV's "Pepper and Friends" show. That segment will be aired from 11:30 a.m. to 12:30 p.m. April 4.

In other news, council Chairwoman Suzanne Schoonover and executive committee members Pauletta King and Linda Converse reported on their meeting with Deputy Chancellor Gerald Brouder. The group discussed issues concerning University staff and Staff Advisory Council, and expressed optimism that future meetings would be beneficial.

"I think all three of us came out of there very excited about his comments and suggestions," Converse said.

Issues such as the closing of University food service facilities during student breaks and the restrictions set on certain University employees concerning free computing courses were discussed.

The council also voted to cancel the regularly scheduled April 13 meeting because it coincides with Staff Recognition Week. Also, Carrie Francke, a member of the Board of Curators, will address the council at its April 27 meeting.

# Faculty meeting scheduled

Suggested topics are being taken for a general faculty meeting, scheduled at 3:30 p.m. April 11 in N214-215 Memorial Union. The matter was discussed by Faculty Council March 23.

Gordon Kimber, professor of agronomy and Faculty Council chairman, asked the group for ideas. Council member Andrew Twaddle, professor of sociology, suggested the formation of a long-range planning committee as a meeting topic. "This is something that would be very important to this campus," he said.

In other business, the council: discussed MU's response to the UM System's Agenda for Action plan. The administration currently is preparing the

response, and the council discussed a draft document distributed at the meeting. "I'm happy to see the campus is moving toward developing a mission statement in this response, but we should do more," said Tom Good, professor of education. "It should be stressed that we are the only Research I public university in the state, and the strengths of our Ph.D. programs should be emphasized as well." Kimber said he would forward comments to Deputy Chancellor Gerald Brouder.

•heard that a position paper will be written on the University's stance on "spouse accommodation," or trying to ensure that when new faculty members are hired, their qualified spouses be hired as well. Al Hahn, professor of veterinary medicine and chairman of the council's academic and faculty affairs committee, said his group discussed the matter recently with Provost Lois DeFleur and Vice Provost Robert Denhardt.

•postponed action on a plan calling for faculty review of administrators. Twaddle, chairman of the council's special projects committee, said he would collect additional information and also provide the council with a written legal opinion on the plan.

## CLASSIFIEDS

### FOR RENT

THREE-BEDROOM, 2-bath, furnished house, 10 min. to campus, central AC, woody lot, near bus. May '89 to Aug. '90 or part thereof, another year possible. \$480 negotiable. 449-5886.

SPACIOUS 2-bedroom first-floor apartment. Large enclosed garage, all appliances, energy efficient, central air, laundry, locked storage. Cedar Lake recreation privileges. One apartment available now, another later. Lease \$335. 445-1892.

### FOR SALE

FIVE-ACRE HOME SITES: woods, meadow, southern exposures, 8 miles southwest. \$14,000 & up, w/ \$1,000 down, remainder over 10 years. All underground utilities. No trailers. 449-5620, before 6 p.m.

The Classified Advertising Section is open only to faculty and staff members. A home phone number is required in all classified ads.

**Ads must be typed.**  
Rates: 30-word maximum \$3.

**Publication deadlines:**

March 31 for April 11

April 7 for April 18

Jack Allen

## A proud, historic design for MU

*'150' logo provides instant recognition for Sesquicentennial, adorning brochures, jewelry and clothes.*

The artist behind the logo is Jack Allen, supervisor of graphic services in Publications and Alumni Communication. "When I created the design, the adjectives I had in mind were proud, historic, classic and festive," he says.

"People think that if you are an artist you draw pictures. But actually my job is to use the sense of sight to communicate something." In fact, Allen thinks of himself as a communicator. "Design is a medium I use to communicate."

An MU staff member since 1980, "I'm able to use the skills I've been given to promote something I really believe in," Allen says. He created the look for Mizzou Weekly and for Mizzou Magic, a science magazine for students in junior high school. Allen also has drawn portraits of some distinguished visitors to campus, including Moshe Dayan, Zbigniew Brzezinski and Malcolm S. Forbes Jr.

"But the kind of design I enjoy most is designing computer technology to get things automated." One of his computer programs

speeds up the typesetting process for Mizzou Weekly.

For the Sesquicentennial logo, he chose a typeface called palatino, "because it's classic, based on an Italian Renaissance model, but of our time. The designer, Hermann Zapf, is still living." The "150" represents a calligraphy style that would have been done with a goose quill in the time of Thomas Jefferson, Allen adds.

His design is enjoying a great deal of visibility. The logo appears, of course, on all printed Sesquicentennial materials. Tiger fans proudly wear the design on clothing. A black-and-gold Sesquicentennial emblem adorns a flag atop Jesse Hall. In addition, most MU departments have chosen to include the logo in publications they have produced this year. Departments that wish to use the logo may call Haskell at 882-1989 for advice and materials.

"I inherited the logo when I came to MU," Haskell says. "I couldn't wish for a better one."

## Doctors discuss risk prevention

Misunderstandings and misconceptions about the malpractice crisis abound within the medical profession, says a physician-attorney at Mizzou's School of Medicine.

Herbert Ferrari, who has a law degree as well as being a professor of anesthesiology and surgery, says the best long-term solution to the medical malpractice crisis will be educating physicians-in-training.

"Young doctors will have to learn the way to practice medicine that meets quality assurance guidelines and legal responsibilities," the physician-attorney says.

As things are, Ferrari says, many physicians try to decrease the probability of being sued by practicing "defensive medicine," ordering additional diagnostic tests and employing more monitors than really necessary.

"Tests and gadgets are helpful aids to the clinical evaluation of a patient, but they can never replace the careful observations and diagnostic skills of the physician," Ferrari says.

But today's physicians can decrease the likelihood of a lawsuit, Ferrari says. "It is essential to adhere to a certain standard of care that will prevent injury to the patient as well as possible financial loss to the physician and institution."

This concept is called risk prevention. Although this idea is not new, Ferrari says there is a demand for more information, which is why he developed a scientific exhibit on risk prevention in anesthesiology. He presented the exhibit at the International Anesthesia Research Society meeting March 4 through 8 in Orlando, Fla.

Risk prevention encompasses the overlapping interests of quality assurance, which seeks to improve the quality of patient care with the goal of preventing injuries, and risk management, which aims to reduce unplanned

financial loss to physicians and their institutions.

The logical consequences of a risk prevention program, Ferrari says, are a decrease in injuries to patients and a reduced likelihood of lawsuits.

Educating physicians in medical and legal issues through scientific exhibits at conventions, Ferrari says, is one of the short-term solutions to the medical malpractice crisis. The long-term answers will come, he says, when all future physicians are well-versed in medical jurisprudence through courses in their medical school curricula.

# MIZZOU WEEKLY

Vol. 10 No. 24

A publication of the University of Missouri-Columbia faculty and staff, published every Tuesday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of Development, University and Alumni Relations Division, 1100 University Place, 882-7357. News deadline is noon Tuesday the week before publication. Annual subscriptions are available to retirees for \$10. Faculty Council and Staff Council communication committee members: Donald Anderson, Gerald Browning, Harold Lynch, Jim Flood, John McAllister, Joye Patterson, Flo Praiswater, Lisa Wimmensauer, Larry Windmoeller and Thomas Wyllie.

**Faculty, staff  
review plan  
for computing**

The University's computer planning and policy committee presented its academic computing strategic plan to faculty, staff and students in three open forums last week.

Committee member Paul Blackwell, professor and chairman of the Department of Computer Science, reviewed the previous actions of the committee, adding, "I now think we've reached the point where we need to focus on a specific plan."

Blackwell used an example from the EDUCOM consulting group's report that suggested the University should provide access to one computer for every 17 students. "We're nowhere near that," he said.

Still, he said MU has made progress in the area of academic computing in comparison to where it was 10 years ago. "There are many areas where we've made substantial progress."

Progress for the future is now being discussed by the committee. "We were asked to be visionaries and come up with goals that are realistic for our campus," said Joyce Mitchell, director of the Information Science Group at the School of Medicine, who presented the committee's plan to those at the hearings. Mitchell outlined the academic

computing strategic plan, emphasizing its five general goals:

- development of general computing skills for all University students;
- development of discipline-specific applications of computers for students;
- promotion of research and scholarship through appropriate computing resources;
- integration of computing into the University's curriculum;
- promotion of computing and telecommunications technology through campus extension.

Moderator Birgit Wassmuth, associate professor of advertising, opened the meetings for suggestions and questions. Among the issues discussed were the role of the Computer Science Department; whether the proposal should be geared toward the "average" user; the computer knowledge of future high school graduates; and whether advanced technology will turn faculty members and researchers into little more than computer programmers.

Wassmuth said the committee welcomes comments and suggestions. Other committee members are Kee Groshong, vice chancellor for Administrative Services; Anthony Hines, dean of engineering; Bill McFarland, professor of electrical engineering; Tom Shaughnessy, director of University Libraries; Henry White, professor and chairman of the Physics Department; ex-officio member John McCormick, associate vice provost for research in the Graduate School; ex-officio member Bill Plummer, director of Campus Computing; and Provost Lois DeFleur, chairwoman of the committee.

**Q&A**

**Q.** Why is LUMIN so unreliable? It has been down half the times I have wanted to use it. When will we be able to check on the status of a book? And why is there no backup system for locating a book at the Health Sciences Library? At another university where I worked, they periodically made copies of the listings on microfiche so the information was still available during the very rare times when their system was down.

**A.** George Rickerson, director of the UM systemwide Office of Library Systems, says he realizes how frustrating it is when LUMIN is unavailable to those who need to use it. He says the reliability of LUMIN is a high priority in his department, and that the system is available more than 98 percent of the time.

"Given the number of things that can cause LUMIN to be unavailable, it is unlikely this figure can be improved," he says. "It certainly will never be 100 percent."

Rickerson says if funding is available, later this year CD-ROM workstations containing the LUMIN database will be installed in some UM System libraries to serve as backups for the online LUMIN system. The Health Sciences Library is a part of the UM LUMIN system.

In addition, the display of circulation status information is being tested and should be available on all LUMIN terminals before the end of March. Rickerson urges LUMIN users to check with library staff about this feature and to request instruction when available.

With questions, call Rickerson at 882-7233.

**Q.** I am concerned about the lack of yield signs in the parking garages on campus. It seems nobody knows who has the right-of-way when two or more cars

meet, and I'm afraid that someone is going to be hurt. Can't yield signs be installed?

**A.** Phil Shocklee, assistant director of Campus Facilities, says experimental signs were installed in some garages to determine the best locations and messages.

"Various types of signs at various locations have been installed on a trial basis, including yield signs, to better distinguish right-of-way in parking structures," he says.

Permanent signs will be added to the parking garages in the future, Shocklee adds.

**Q.** What is a quiller? I've heard the term mentioned around campus lately, and have seen it in ads. I've looked in dictionaries, but can't find it listed.

**A.** Campus officials say quiller is not in their dictionaries either, yet they acknowledge its use. They're keeping mum on the subject, saying only that full details will be released soon. Check the April 4 Mizzou Weekly for more information.

**EMPLOYMENT**

Recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916.

Recorded listings of University Hospital and Clinics vacancies also are available 24 hours a day. For administrative/professional/technical openings call 882-1856; for nursing vacancies call 882-1857; and for secretarial/clerical/service/maintenance positions call 882-9088.

Anyone with UMCVMB CMS computer access may view campus and UM vacancies by logging on and entering command jobs. IBM 5520 users may view vacancies by asking their system administrator for the name of the current vacancy list document.

For more information or to apply for a job, contact Personnel Services, 201 S. Seventh St., west entrance, at 882-7976. For information on job openings at University Hospital and Clinics, contact the hospital Personnel Department, 1W42 UMCHC, telephone 882-8186.

## Donations for vet hospital top \$2 million

Private and organizational donors have pledged more than \$2.3 million so far toward construction of the University's new veterinary teaching hospital.

The pledges send the College of Veterinary Medicine's fund-raising campaign halfway over its goal of \$4 million. Construction of the \$18.6 million hospital, the remainder of which is to be financed by state appropriations, is expected to begin early next year.

"Programs of the college and activities of its alumni impact every man, woman and child in Missouri and neighboring states," says Robert Kahrs, dean of the college. "There is a consensus among these people that Missouri needs, wants and deserves a college of veterinary medicine that is contemporary, competitive and fully accreditable."

Kahrs says he hopes the campaign's progress will impress the accreditation team scheduled to visit the college in May. In 1984, another team, citing deficiencies in finances, physical facilities and equipment, and faculty numbers, placed the college on limited accreditation.

The hospital will consist of three clinics treating food animals, horses and small animals. Eventually it will be connected with existing buildings and an expanded veteri-

nary diagnostic laboratory.

The Anheuser-Busch Charitable Trust kicked off the building campaign in June 1988 with a \$1.5 million donation, \$500,000 contingent upon the college's raising matching private funds. That goal has been reached through support from alumni, faculty and staff, livestock groups, pet owners and corporations with an interest in veterinary medicine.

The Parents of Veterinary Medicine Students organization has pledged \$250,000, and the college has received a commitment of \$100,000 from the MFA Foundation and its affiliated companies. Other donors include the Missouri Veterinary Medical Association, Missouri Cattlemen's Association, Missouri Pork Producers, Missouri Turkey Federation and Holstein Association of America.

Administrators also hope to bring 500 people to Columbia April 1 for the Gentle Doctor Benefit, a fund-raising auction expected to feature items such as vacations, quilts and paintings.

As Missouri's only complete animal health facility, MU's College of Veterinary Medicine bolsters the state's national leadership in export of purebred livestock and in production of cattle, swine and turkeys. Its programs are vital to Missouri's agribusiness and pharmaceutical industries, to its public health and conservation programs, and to the state's thousands of pet and horse owners.

Interested donors may call Michael Tarry, development officer, at 882-3768 or write to him at 203 Veterinary Medicine Building.

## Semen Donors Needed

### LABORATORY FOR FERTILITY AND CRYOBIOLOGY

The Laboratory is seeking semen donors for its sperm bank program. The program is confidential and all donors will be compensated.

As a potential donor you will undergo non-invasive screening procedures to insure good health and fertility potential. You must be between the ages of 21 and 35. If you are interested, please call 882-7199.

# CALENDAR

Send calendar items in Campus Mail to Billy Sledge, Mizzou Weekly, 1100 University Place, by noon Tuesday the week before publication. Events are free and open to the public unless otherwise noted.

## Highlights

**WORKING WOMEN:** A session of "Working Women: Balancing Multiple Roles" will be from 5:15-6:30 p.m. March 28 at the Women's Health Center, 3212 S. Providence Road. Cost: \$45. Call 882-2122.

**AGRICULTURAL COMMUNICATIONS CONFERENCE:** Registration for Mizzou's 26th agricultural communications conference will begin at 5:30 p.m. March 30 at the Campus Inn, Stadium Boulevard and College Avenue. This is a two-day conference focusing on agricultural journalism. Featured speakers will include James M. Cornick, publisher of Successful Farming, and Larry Harper of the Missouri Ruralist. Cost: \$65. Call Duane Dailey at 882-3296.

**SPRING CONCERT:** Rossini's "Stabat Mater" and Edwin Penhorwood's Psalm Concert will be performed at 8 p.m. March 31 in Jesse Aud. by the Choral Union, the MU Philharmonic, the Wind Ensemble and professional soloists under the direction of Duncan Couch in the 13th Annual Chancellor's Festival of Music Spring Gala Concert. The event is being presented by the University Concert Series and the Department of Music. Cost: \$4 students, \$6 public. Call 882-3781.

## 28 Tuesday

**NUTRITION PROGRAM:** Maureen Filbert, registered dietician, will present "Eat Well for Life" from 10 a.m.-noon at the Health Information Center at Columbia Mall. Call 882-6565.

**BASEBALL:** Tigers will play UM-St. Louis at 1 p.m. at Simmons Field. Cost: \$2 faculty and staff, \$1 students.

**EDUCATION PROGRAM FOR WOMEN:** See Highlights.

**RECREATION/INTRAMURALS:** Water exercise will be available from 5:15-6 p.m. Tuesdays and Thursdays through April 25 at McKee pool. Cost: \$10. Valid ID or pass required. Sign up in 106 Rothwell Gym. Call 882-2066.

**FACULTY RECITAL SERIES:** Clarinetist Paul Garrison, assistant professor of music, and Marie Garrison, pianist, will perform at 8 p.m. in the Fine Arts Recital Hall. The program will feature Brahms' "Sonata in E Flat Major" and Heitor Villa-Lobos' "Choros" for flute and clarinet.

## 29 Wednesday

**NURSING PROGRAM:** Lorna Wilson, director of the local health and institutional services in the Missouri Department of Health, and others will present "Current Issues in Pediatric Nursing" from 8:15 a.m.-4:15 p.m. at the Holiday Inn Executive Center, I-70 and Stadium Boulevard. The program is sponsored by the School of Nursing Continuing Education Program. Cost: \$55. Call 882-0216.

**MIDDAY GALLERY TALK:** Edzard Baumann, associate professor of art history and archaeology, will present "Greek and Roman Themes in Western Art" from 12:25-1 p.m. at the Museum of Art and Archaeology in Pickard Hall.

**PROVOST:** Provost Lois DeFleur will have open office hours for faculty, staff and students from 3-5 p.m. in 114 Jesse Hall.

**ARCHAEOLOGY LECTURE:** Lewis Binford, Leslie Spier professor at New Mexico University, will present "Ideology, Planning Depth and the Archaeological

Record" at 3:45 p.m. in the Memorial Union Aud. A reception will follow in N-222 Memorial Union. The event is sponsored by the Anthropology Student Association and the Department of Anthropology.

**MSA FILM:** "Ordinary People," rated R, will be shown at 8 p.m. in Ellis Aud. Cost: \$1, students admitted free.

## 30 Thursday

**ART HISTORY SOCIETY MEETING:** Registration for the 16th annual Midwest Art History Society meeting will begin at 11 a.m. at the Museum of Art and Archaeology. A reception and open house will be at the museum from 4:30-6 p.m.

**WOMEN'S CENTER:** Donna Kuizenga, acting director of Women Studies, will present "Women Studies Preview and Review" at noon at the center, 229 Brady Commons.

**SUNSHINE WALKERS:** Group will meet at Jesse Hall for walk from 12:10-12:50 p.m. Cost: \$3. Call 882-2066.

**TRANSLATION SYMPOSIUM:** A three-day symposium with the theme "Translation: Yesterday, Today and Tomorrow," begins at 3:30 p.m. in 113 Arts and Science Bldg. The event continues March 31 and April 1, with a variety of topics at various locations on campus. Call Glenn Pierce at 882-4874.

**FACULTY COUNCIL FORUM:** Group will hold an open forum to discuss admission requirements at 3:30 p.m. in 12 Middlebush.

**RECREATION/INTRAMURALS:** Water exercise will be available from 5:15-6 p.m. Tuesdays and Thursdays through April 25 at McKee pool. Cost: \$10. Valid ID or pass required. Sign up in 106 Rothwell Gym. Call 882-2066.

**AGRICULTURAL COMMUNICATIONS CONFERENCE:** See Highlights.

## 31 Friday

**SOFTBALL:** Tigers will play in the Missouri Intercollegiate Tournament through April 2 at University Field. Times will be announced.

**SUNSHINE WALKERS:** Group will meet for bag lunch and discussion on "Achieving Health for Human Wholeness," led by Parris Watts, associate professor of health and physical education, from 12:10-12:50 p.m. in 202 Rothwell Gym. Cost: \$3. Call 882-2066.

**ENTOMOLOGY SEMINAR:** Joel D. Calderon, an entomology graduate student, will present "The Probing Behavior of *Empoasca fabae* and *E. kraemeri* on Susceptible and Resistant Varieties of Common Beans" at 2:40 p.m. in 2-6 Agriculture Bldg.

**CHEMISTRY COLLOQUIUM:** Jim Doll of Los Alamos National Laboratory will speak at 3:40 p.m. in 103 Schlundt Hall. Topic to be announced.

**CONCERT:** Country singers Conway Twitty, Merle Haggard and George Jones will perform at 7:30 p.m. at the Hearnes Center. Tickets: \$19.50 and \$17.50. Faculty, staff and student discounts available. Call 882-2056.

**SPRING CONCERT:** See Highlights.

**MSA FILM:** "Gorillas in the Mist," rated PG-13, will be shown at 7 and 9:30 p.m. in Ellis Aud. Cost: \$2.

**PUBLIC ASTRONOMY:** The Department of Physics and Astronomy will welcome the public to observe the heavens, if the sky is clear, from 8-10 p.m. at the Laws Observatory atop the Physics Bldg. at Rollins and College avenues.

## April 1 Saturday

**RECREATION/INTRAMURALS:** "Introduction to the Weight Room" will be from 9-10:30 a.m. in B301 Rothwell Gym. Cost: \$3. Limit 20 participants. Sign up in 106 Rothwell Gym. Valid ID or pass required. Call 882-2066.

**MIDWEST ART HISTORY SOCIETY MEETING:** Event continues with a symposium, "Mural Painting in American Government Buildings," and a tour of the exhibition "Missouri Murals: Studies for the State Capitol Decoration" at the Capitol in Jefferson City beginning at 9:30 a.m. Bus will leave for Jefferson City at 8:30 a.m. from Pickard Hall.

**PARENTS DAY AND BENEFIT:** The College of Veterinary Medicine will have a Parents Day and its second annual Gentle Doctor Benefit. Parents Day will begin at 8:30 a.m. The benefit will begin at 6:30 p.m. at the Hearnes Center.

**SESQUICENTENNIAL SYMPOSIUM:** "The Teaching of Art History in the 19th Century" will be presented from 3-5 p.m. at Pickard Hall. A reception in the cast gallery will follow.

**MSA FILM:** "Gorillas in the Mist," rated PG-13, will be shown at 7 and 9:30 p.m. in Ellis Aud. Cost: \$2.

## 2 Sunday

**CONLEY HOUSE:** The historic Conley House on the corner of Sanford Street and Conley Avenue will be open for tours from 1-4 p.m.

**RECREATION/INTRAMURALS:** Tai chi (shadow boxing) will be offered Sundays through April 30 from 6-8 p.m. in B301

Rothwell Gym. Jia-ling Yan, physical education instructor from Beijing Teacher's College in the People's Republic of China, will instruct. Limited to 20 participants. Cost: \$10. Call 882-2066.  
**MSA FILM:** "Citizen Kane," not rated, will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents.

## 3 Monday

**INTRAMURALS/RECREATION:** Entries for men's badminton singles will close. Play will begin April 10. Call 882-2066.

**SUNSHINE WALKERS:** Group will meet at Stankowski Field for walk from 12:10-12:50 p.m. Cost: \$3. Call 882-2066.

**BIOCHEMISTRY SEMINAR SERIES:** Laszlo Lorand of the department of biochemistry at Northwestern University will present "Transglutaminase Mediated Cross-Linking of Proteins and Cells Aging" at 3:40 p.m. in MA217 Medical Sciences Bldg.

**ENGLISH LECTURE:** The English Department will sponsor a lecture by P.N. Furbank, biographer of E.M. Forster and emeritus professor of arts, and W.R. Owens, senior tutor of arts at the Open University in England, titled "Appropriating Defoe: Attributes, Ideology and Art" at 4 p.m. in Pickard Hall Aud. Furbank and Owens co-authored The Canonisation of Daniel Defoe.

**WORKING WOMEN:** A session of "Working Women: Balancing Multiple Roles" will be held from 5:15-6:30 p.m. at the Women's Health Center, 3212 S. Providence Road. Cost: \$45. Call 882-2122.

**WOMEN'S CENTER:** Dan Viets, American Civil Liberties Union attorney, will present "Legal Issues for Lesbians and Gays" at 7 p.m. at the center, 229 Brady Commons.  
**MSA FILM:** "The Moderns," rated R, will be shown at 8 p.m. in Memorial Union Aud. Cost: \$1.
