

# MIZZOU

W E E K L Y

University of Missouri-Columbia / December 5, 1989

## ON THE INSIDE:

Page 2 Educational programs in honor of Martin Luther King Jr. will be held on campus for two hours the afternoon of Jan. 15, the opening day of winter semester.

## Improving the product

*Campus Dining Services making some adjustments, and more are to come.*

Jim Komer sat at a back table in the Memorial Union's Hawthorn Room during a recent lunch hour, munched on a chef salad and watched the restaurant slowly fill up. For Komer, director of Campus Dining Services, the full tables were a satisfying sight.

Although business is booming at Mizzou's seven residence hall cafeterias, the University has been losing money on its catering and retail food operations for several years. Almost three years ago, the last of a string of three outside management companies abruptly gave up on its contract to run MU's food service. Komer and his staff took over the job and are still struggling to get the business back on track.

Some of the changes they've made are already paying off. The Union Cafe, just down the hall from the Hawthorn Room, was remodeled during the summer and opened back up this fall with a revised menu. Komer says that move has boosted business. "Sales are probably up by 50 percent since the renovation," he says. "The revenues are much, much better for the little bit of painting and fixing up we did."

Although there are reasons for optimism, Komer acknowledges that there's still room for improvement. He and other administrators are taking a hard look at a list of recom-

mendations included in a long-range planning study completed recently by Birchfield Foodsystems, Inc., a Maryland-based food consultant.

One major recommendation is to consolidate all the cash food operations in the Memorial Union into an "excellent food court facility" that would be operated by Campus Dining Services. The report also stressed that the quality of the catering service should be improved and that aging kitchen facilities be remodeled.

Another suggestion is to replace some of the academic snack bars scattered around campus with high-quality food carts that would serve sandwiches, soups and beverages. The snack bars are a problem area, the report said, and noted that "Campus Dining may be trying to do too much in an environment that is difficult to serve."

Included in the study were extensive marketing surveys of faculty, staff and students. While the surveys pointed up some continuing problems with MU's dining operation, they also contained some good news for Komer and his staff.

"The surveys all pointed to the fact that food service on this campus could be successful. The opportunity is there for success," Komer says. "A lot of past history has contributed to the state we are in. When the outside management companies were brought in, the intention was to improve the services. Unfortunately, that didn't happen."

One group of potential new customers targeted by the study is students who live off-campus. The survey found that 52 percent of non-resident students would spend their money in a remodeled Union Cafe that offered an expanded menu.

A lack of variety is one complaint Komer frequently hears about the cafeteria, and it's typical of the complicated problems Campus Dining Services is trying to solve. "What comes first, the chicken or the egg? We can't have a menu the size of Furr's Cafeteria unless we expand our customer base," Komer explains.

But it takes money to invest in the kind of changes that would bring in new customers. Campus Dining Services has to operate on the revenues it brings in. "This operation receives no subsidy from anyone," Komer says.

Worn-out facilities that need extensive remodeling are another priority in the campaign to attract more diners. But remodeling can't be justified until a decision is made on the long-range role of the Memorial Union — whether its use as a convention center will be emphasized or whether student offices will be transferred from Brady Commons, which officials agree is "bursting at its seams."

The Union Cafe is also facing stiff competition from dozens of restaurants that line the streets surrounding campus. That competition will pick up when the new Donald W. Reynolds Alumni Center opens on campus in the fall of 1991. Included in the new alumni center will be a restaurant and bar.

Some of the changes recommended in the consultant's study were being made by Komer and his staff before the study was completed. The catering service is being beefed up, food purchases and storage were centralized and transferred to Campus Dining Services, and charge plans were implemented that allow more flexibility in paying for meals.

The operation now is in the process of hiring what Komer calls "an honest-to-goodness chef" to assure the quality of its catering operation, develop recipes and train cooks across campus.

Jim Irvin, interim vice chancellor for Student Services, says the next step probably will be to ask a consultant to "take the information we have to date and go to work for us planning."

He agrees there are no simple answers to the problem. "We're really going to have to think long and hard about how to proceed with our cash and catering operation," Irvin says. "It's a dilemma."

## Major grant to continue for five years

*Research benefits farm operations in poor nations — and gives MU a boost, too.*

Mizzou's College of Agriculture has learned it will receive \$1 million over the next five years to continue an international research collaboration in Third World countries. Such a program helps the University as much as it assists farmers in Peru, officials say.

"To be involved in major agricultural research these days, you have to be involved in many parts of the world," says Rex Campbell, professor and chairman of rural sociology. "After all, we deal with a global economy. By working in other countries, traditional faculty members learn valuable information that they can bring back to the classroom."

"And it goes further than that. Graduate students travel and conduct research, too, so it's a boost for them. Our participation assists us when we're recruiting new faculty and graduate students; they want to come to a university that offers a heavy international involvement. And it helps keep our curriculum as up-to-date as possible, since we're aware of the latest sociological develop-

Researchers from the College of Agriculture explain the benefits of a grant for the Small Ruminant Collaborative Research Support Program. From left are: Michael Nolan, Constance McCorkle, Rex Campbell and Jere Gilles.

ments in the world marketplace."

Adds Michael Nolan, associate dean for international programs at the college: "Something like this helps put us on the map. There's no other project like this in Missouri, and no other university in the state that could take this on."

Campbell and Nolan are talking about the Small Ruminant Collaborative Research Support Program, in which MU has been involved since 1980. They discussed their work at a news conference at Memorial Union Nov. 27, along with Constance McCorkle, research assistant professor of rural sociology, and Jere Gilles, associate professor of rural sociology.

Mizzou is one of nine research universities chosen to participate in the project, which has received renewed funding from the U.S. Agency for International Development. In

the past decade, more than eight MU faculty members and a similar number of graduate students have examined the social characteristics of farmers and villagers, including ways to blend new technologies into existing structures. Their work has taken them to Brazil, Indonesia, Kenya, Morocco and Peru.

In Peru, for instance, MU social scientists discovered that people do not keep sheep strictly for wool or meat, but rather as a source of manure to fertilize potato crops. "And we've learned that women often raise the animals while men raise the crops," McCorkle adds. "We're stressing that the needs of the women must be taken into consideration when any new programs are developed in those countries."

McCorkle is editor of a new book, *The Social Sciences in International Agricultural Research: Lessons from the CRSPs*. "In

addition, we're making sure that our results are published in the various countries, and in their native languages," she says. "We're not just taking the information home."

Overall, the SR-CRSP has developed a vaccine against a major disease afflicting goats in Kenya and has helped institutions overseas improve their own research capabilities. In the next five years, researchers plan to continue work in goat production in Kenya, investigate the prolificacy of sheep in Indonesia and develop a tropical sheep production system.

"We can't say at this point that we've increased farmers' incomes five times or increased the number of animals 10 times," Nolan says. "But we believe we've made significant progress in the past 10 years, and are excited at the opportunity to build on that base."

### HELP FOR THE STRESSED-OUT

Free stress management sessions will be offered this week and next for faculty, staff and students suffering from the end-of-the-semester and holiday crunch.

Sessions will be at 11:30 a.m. and 12:30 p.m. Dec. 6, 11, 13, 14 and 15 in 234 Brady Commons, and Dec. 8 in 235 Brady Commons. The sessions, conducted by MU Counseling Center staff, will cover such topics as relaxation techniques and time management tips.

"This is the first time we've gone all out in offering sessions like these," says intern psychologist David Burkart. "We're doing a lot to publicize them, and hope they'll be a

success.

"We think students will be most interested in information dealing with stress from test-taking and other aspects of their studies. Faculty and staff, on the other hand, may be having difficulties with managing their time and money because of the demands of the holiday season. We think these sessions can help."

### EXAMINING BIOTECHNOLOGY

Experts from across the country will be on campus Dec. 6 and 7 to participate in the seminar, "Biotechnology and Ethics: Social Change and Human Values."

The event will examine social issues raised by the advent of biotechnology, including ethics, policy making and potential implications for public research, agriculture and medicine. Participants will include a representative of the National Science Foundation; professors from Texas A&M University, the University of Connecticut and Iowa State University; and at least one member of the Missouri General

Assembly.

All sessions will be in Memorial Union. With questions, call program coordinator David Webber, associate professor of political science, at 882-7931.

### GREEKTOWN LIGHTS UP

If you're planning to drive the kids around town to see the Christmas lights this holiday season, swing through the campus. Greektown is lighting up the holidays.

Sororities and fraternities are decking their houses in the Order of Omega's annual "holiday light up." Houses compete for best-decorated prizes, with entry fees used to provide scholarships to two Greek students. The lights will stay on through the holiday season.

## CLASSIFIEDS

#### FOR SALE

1987 NISSAN MAXIMA WAGON. One owner and only one repair in 70,000 highway miles. Excellent condition. \$9,950. **OR** 1988 Acura Legend, L Series. One owner, no problems. \$21,000. 443-4162.

FORD LTD, four-door, brown. Four new tires, new timing chain, new brakes, new carburetor, new battery, new plugs, new points, all service records. Price reduced from \$1,695 to \$1,195! 449-4499.

COMMODORE 64C computer, color monitor, 1541 disk drive and 1526 printer. Good holiday gift for beginner. Evenings: (816) 882-7168.

HOUSE FOR SALE: Ranch-style, four bedrooms, study, 2 1/2 baths, fireplace, large deck, patio, fenced yard, well-maintained lawn. Southwest location.

Russell Boulevard School zone. \$65,000. Call 445-1578.

#### FOR RENT

ATTRACTIVE two-bedroom, two-bath duplex. 2801 Summit Drive, near Fairview School, malls. Huge master bedroom, country kitchen, recreation room, walk-out basement, washer/dryer hookups. Exceptional value, \$380 a month. Available now. 445-1892.

The Classified Advertising Section is open only to faculty and staff members. A home phone number is required in all classified ads.

## Jan. 15 events to honor King

Chancellor Haskell Monroe announces a campuswide observation of the birthday of slain civil rights leader Martin Luther King Jr. Educational programs will be held at MU from 1:40 to 3:30 p.m. Jan. 15 — the opening day of the winter semester — and faculty, staff and students will have the opportunity to attend.

Programs will feature a talk by actor, writer and civil rights activist Ossie Davis; an appearance by Maki Mandela, daughter of jailed South African civil rights leader Nelson Mandela; and films, discussion panels and recorded speeches by King. The events will be at various locations on campus.

In a letter to the University community, Monroe urges faculty, staff and students to take part in the observances and in a candle-light vigil to be held that evening by the city of Columbia. "I believe this to be an event of

singular importance to the furtherance of ideals we all, like Dr. King, value so deeply," Monroe said.

KC Morrison, vice provost for minority affairs and faculty development, has been working with a committee to develop the program. He says the group has met with faculty, students, staff and community leaders. "There has been a groundswell of interest in doing some kind of educational programming on the life of King and the significance of his ideals," Morrison says.

Earlier this fall, UM System President C. Peter Magrath named a systemwide task force to recommend an appropriate way to honor King. Discussions have centered around making King's birthday a formal University holiday.

"The question remained, what would this University do in the interim?" Morrison says. "These educational programs represent the first formal event the University is having to honor Dr. King. This is an important effort to be responsive to what we know are a lot of interests out there."

Further details will be announced as they develop, Morrison adds.

## Council hears general education report

Public hearings could be held as early as next spring on a proposed new set of general education requirements for undergraduate students at the University, Faculty Council was told Nov. 30.

"We're happy with our plan, but we see it only as a starting point," Stuart Palonsky, professor of curriculum and instruction and chairman of MU's general education task force, told the council. "We hope it will continue to evolve. It is a modest investment that would pay large dividends."

Palonsky said his faculty group, working with the administration, has come up with a basic general education "architecture" that would better prepare students for the challenges they face after graduation. Among other recommendations, the plan calls for more course work in English, mathematics and computing. It also would require students to take an "undergraduate seminar," a senior "capstone experience" course, and two nine-hour clusters of courses outside their major field. Details will be worked out as the plan progresses, Palonsky said.

Provost Lois DeFleur was on hand to praise the proposal. "We currently have what I would call a 1960s curriculum," she said. "It's a smorgasbord. It's been widely criticized. Faculty groups have been working on this matter for the past several years, and I'm glad we now have a basic plan."

Allen Hahn, professor of veterinary medicine and chairman of the council's academic affairs committee, pointed out that his group is studying the plan. He expects the full council to consider it early next semester. "Should the council advance it, we could have hearings on campus as early

as March," Hahn added.

The council also heard from Kee Groshong, vice chancellor for Administrative Services, on the matter of the parking and transportation committee. Earlier this fall, three faculty members resigned from the committee. Two of the three were at the council meeting: Elias Saab, professor of mathematics, and David Retzlaff, associate professor of chemical engineering.

Saab told the council he resigned because the administration would not listen to the committee's recommendations. "Everything had been decided before," he charged. Added Retzlaff: "I felt that my time on the committee was wasted."

Groshong disagreed. He noted that the committee is an advisory group, and said the administration considers its advice when making decisions. "But parking is a hot issue, and everyone has different ideas," he said.

Groshong acknowledged there were many objections to the decision to raise parking fees this semester, but emphasized that the extra money is needed to build additional garages. "The funds have to come from somewhere," he said. "If they don't come from higher parking fees, there's only one other place and that's the general pot. And I don't know if you'd want to do that."

On another matter, council Chairman Gordon Kimber, professor of agronomy, reminded faculty that the Board of Curators will meet at Memorial Union Dec. 7 and 8. Topics will include employee/retiree benefits, a new computer for MU and the president's report on the future of the University System. Sessions begin at 9 a.m.

### - SPECIAL INVITATION -

**Brady Commons 4th Annual Anniversary Sale**  
**December 4 - 8**

**Student Night - December 5 5-8 pm**  
(Includes TAs and Research Assistants)

**Staff Night - December 6 5-8 pm**

**Faculty Night - December 7 5-8 pm**

**Come and Join Us on Your Special Night!**

**FITNESS PLAN TO BE EXPLAINED**

Do your plans for 1990 call for more exercise, better eating habits and improved management of stress? If so, bring your lunch and come to a noontime informational session on Mizzou's Health Education and Lifestyle Promotion program.

The sessions will be at 12:15 p.m. Dec. 8, 11, 13 and 15 in 202 Rothwell. The HELP program, which begins in January, combines exercise, diet modification and stress reduction techniques. The program lasts 15 weeks.

**YULE SALES AID STUDENTS**

Buy your Christmas tree or Yule poinsettia on campus this year, and give MU students a boost.

The Horticulture Club will sell poinsettias from 8 a.m. to 5 p.m. Dec. 7 and 8 in greenhouse 16, next to the Physics Building. Prices range from \$3 to \$20.

The Forestry Club will sell Scotch pine trees from 9 a.m. to 8 p.m. Dec. 7 through 10 on the east side of Memorial Stadium. Trees will be priced by size and quality. Wreaths, holly, pine cones and mistletoe will be sold as well.

Proceeds from the sales go to the respective clubs, where they are used for scholarships and other projects.

**ART EXHIBIT EXTENDED**

Due to overwhelming response, the Museum of Art and Archaeology's Sesquicentennial exhibition, "The Art of the July Monarchy: France 1830 to 1848," will be on display another week. The new closing date is Dec. 11.

The world-class exhibit features paintings, sculpture and illustrated books from 19th century France. The museum is in Pickard Hall. Hours are 8 a.m. to 9 p.m. Tuesdays; 8 a.m. to 5 p.m. Wednesdays through Fridays; and noon to 5 p.m. Saturdays and Sundays. There is no charge.

**LOOKING FOR LEADERS**

The process to select orientation leaders for Summer Welcome '90 is beginning. Summer Welcome is the orientation, testing and registration program for freshmen and transfer students and their parents.

"If you know a student who would be a good representative of the University, please encourage him or her to attend an informational meeting," says Denise Schlake, director of New Student and Parent Programs. Meetings will be at 6:30 p.m. Dec. 5; 4 p.m. Dec. 6; 6:30 p.m. Jan. 18; and 4 p.m. Jan. 22, all in Memorial Union Auditorium.

**New curator discusses issues**

In what he described as his first formal public statement, Curator Andy Runge told MU faculty members recently that the University must do a better job of telling its story to Missouri citizens before it can expect more financial support.

Much of the time, Runge said, members of Missouri's higher education community are "talking to each other, talking to ourselves" instead of convincing the state's taxpayers that the University needs more funding.

Runge, an attorney from Mexico, Mo., was appointed to the Board of Curators this fall by Gov. John Ashcroft. He is a graduate of MU's School of Law and a former member of the Missouri Conservation Commission.

Although a newcomer to the board, Runge said he is concerned about some of the procedures the group follows at its meetings. Because of the state's open meetings law, he said curators are sometimes "a little timid in the way we conduct meetings." Runge added that the role of the board should be to make management and policy decisions "and not to set brick."

For example, he said the curators had no need to be involved in the design of new buildings on the four campuses. "I think there is such a mess of things we have to do, it's a bad idea," Runge said. "We should not be meddling in these things. I would hope that's the position the board would take."

His comments came at a Nov. 17 meeting of the local chapter of the American Association of University Professors, where the new curator outlined his concerns and observations about higher education issues and answered questions from about 20 AAUP members.

Runge said the board needs to address faculty and staff salaries. "Something has to be done about that. We have too many people grossly undercompensated," he said. "But we've got to find an approach that is acceptable to all the people we have in order to get this done."

He pointed out the difficulty of pushing for more state money for higher education in a political climate in which national and state officials are elected overwhelmingly by promising not to raise taxes. "That's a fact. You can't ignore that," he said.

Runge was asked what segment of Missouri's population the University should try to reach. Opinion leaders in the state should be targeted first, he said. "We've got to remember where the votes are. They're not all in Boone County, and I think you know where they are."

Herb Tillema, associate professor of political science, asked what MU's realistic aspirations should be for the future. Runge replied that the University should try to be "the best possible public university in Missouri that we can."

"I don't care if we pay what the Big 10 pays. I care that we pay what we ought to pay.

We ought to be our own standard," Runge said.

Chancellor Haskell Monroe asked Runge how the University could make its needs better understood by the public. "How do you think the public sees us?" Monroe asked. Runge replied: "Sometimes I think they don't see you at all."

He also responded to a question about how much emphasis should be placed on research at Mizzou in relation to its teaching mission. "This is the public research institution and we have to have a major emphasis on research," Runge replied. "I would hope it was not a question of this or that, but both."

Runge stressed his ties to Mizzou, saying most of his observations about higher education have been made here. "This is the campus I know; this is where I know people," he said. "It's an inspiring thing to talk to members of the faculty who have fire in their eyes. We can do almost anything when we have that."

**MU alumni offer grants**

Applications are being taken for faculty instructional development grants, offered by the MU Alumni Association.

The association is making \$10,000 available for travel for professional development, instructional improvement and research projects. Tenure-track and tenured faculty are eligible, and preference will be given to junior faculty.

Applicants should outline the purpose of their project in one page or less, include a short vitae, and send the information to the Mizzou Alumni Faculty Development Incentive Fund in care of Vice Provost Jeff Chinn, 114 Jesse Hall. Awards may not exceed \$750.

Applications must be received by 5 p.m. Dec. 18. Awards will be announced by Jan. 15, and the funds must be spent during 1990. With questions, call 882-6596.

## GPC honors eight faculty members

Eight faculty members received Gold Chalk Awards from the Graduate-Professional Council at ceremonies Nov. 30 at Memorial Union.

The awards are given to recognize teachers for outstanding contributions to the training and education of graduate and professional students, says John Lopez, a doctoral student in animal science from El Paso, Texas. He is chairman of the GPC's awards committee. Adds Mike Shafe, a medical student from Lee's Summit, Mo., and executive vice president of the GPC: "There's a special relationship between graduate students and faculty. You have to know when to assist and when to let go. These faculty are exceptional."

The winners are:

- behavioral sciences — Dennis Kivlighan Jr., assistant professor of education and

- counseling psychology;

- biological sciences — Harold Garrett, professor of forestry, fisheries and wildlife;

- law — Nanette Laughrey, professor of law;

- math sciences — Gary Krause, professor of statistics and agronomy;

- medicine — Donald York, professor of physiology;

- physical sciences — Michael Underwood, associate professor of geology;

- social sciences — Gretchen Hill, assistant professor of human nutrition and foods;

- veterinary medicine — Seshu Ganjam, professor of veterinary biomedical sciences.

The winners received plaques, and Campus Catering provided the dinner. Tom Dvorak, a law student from Columbia, is president of the GPC.

## Q&A

**Q.** Last February, we were told that we had to wear uniform shirts furnished by Campus Facilities and that three shirts a year would be issued to each employee. At the time, a majority of the employees ordered five short-sleeved and two long-sleeved shirts, thinking that three more long-sleeved shirts would be issued in the winter. Then the policy was changed to say that replacement shirts would be is-

sued only when one of the original issues was worn out. This put employees in the position of having to purchase long-sleeved shirts for winter or wear short-sleeved shirts in the cold weather. Is Campus Facilities furnishing shirts to employees, or are they forcing them to wear these shirts at their own expense?

**A.** Employees of operational units in Campus Facilities now are wearing uniform shirts, says Phil Shocklee, assistant director of Campus Facilities. "It is our intention to provide these employees with an adequate number of shirts of their choice — long- or short-sleeved — and to reissue new shirts when worn shirts are returned," he adds. "Employees always have the option of purchasing additional uniforms at their own expense."

Send your questions about campus matters to Mizzou Weekly, 1100 University Place, or call 882-5918. You must include your name and phone number so we can reach you, if necessary. All questions remain anonymous. Mizzou Weekly will not answer unsigned questions.

Recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916.

Recorded listings of University Hospital and Clinics vacancies also are available 24 hours a day. For administrative/professional/technical openings call 882-1856; for nursing vacancies call 882-1857; and for secretarial/clerical/service/maintenance positions call 882-9088.

Anyone with UMCVMB CMS computer access may view campus and UM vacancies by logging on and entering command jobs. IBM 5520 users may view vacancies by asking their system administrator for the name of the current vacancy list document.

For more information or to apply for a job, contact Personnel Services, 201 S. Seventh St., west entrance, at 882-7976. For information on job openings at University Hospital and Clinics, contact the hospital Personnel Department, 1W42 UMCHC, telephone 882-8186.

## Six elected to Staff Council

The ballots have been tallied in the Staff Advisory Council election and the following members will begin serving their three-year terms in January:

**Administrative/professional:** Larry Brooks, computing project manager with Campus Computing; and Marie Sloan, administrative associate II in the History Department. They will take over from Larry Windmoeller, assistant pharmacy manager at University Hospital and Clinics, and Linda Converse, computing coordinator with Campus Computing.

**Crafts/maintenance:** Michael Akers, General Stores attendant with Materials Management; and Stephert Briscoe, crime prevention officer with University Police. Akers was re-elected and Briscoe will replace John Van Hook, maintenance attendant with University Hospital's Engineering Services.

**Secretarial/clerical:** Sharon Stark, administrative assistant in the College of Education, will replace Suzanne Schoonover, an administrative assistant in Agricultural Engineering.

**Technical/paraprofessional:** Alan Jones, library assistant II at Ellis Library, will take over from Harold Lynch, senior production technician with the School of Medicine.

Election Chairwoman Jo Pflieger, administrative assistant in Veterinary Microbiology, reports that approximately 1,900 staff members voted in the election.

## Project up for Grammys

Mizzou's Cultural Heritage Center has been notified of two Grammy nominations for its project, "Now That's a Good Tune: Masters of Traditional Missouri Fiddling." The two-record documentary album and

book package has been nominated for awards in traditional folk recordings and recording notes. It presents live recordings of 13 Missouri old-time fiddlers, and includes anecdotes and stories told by the musicians.

The project was produced by the Cultural Heritage Center, with major funding from the National Endowment for the Arts, the Missouri Arts Council and University Extension.

(Select & Come to One of the following sessions)

Fri Dec 8th  
Mon Dec 11th  
Wed Dec 13th  
Fri Dec 15th

12:15 - 12:45 P.M.

Rothwell Room 202 \*

Slide Presentation  
Informational Handouts  
Q & A Period

\* Meet at Either Entrance to Brewer-Rothwell-Recreational Center. Guides will escort you to Room 202. Drinks will be provided.

### PROGRAM BENEFITS

Exercise Treadmill Tests  
Blood Lipid Profiles  
Percent Body Fat Measurements  
Individualized Conditioning Program  
Supervised Fitness Workouts  
Nutrition Education  
Stress Management Techniques  
Other Benefits too numerous to mention

Program will be limited to 50 Participants. Spouses Are Welcome. 15 Week Program begins in January. \$200 Cost is Payroll Deductible over four months.

If ONLY exercise testing, prescription, and supervised exercise program is desired (Cost: \$125), please call 882-6892 or 882-7331 (8:00 A.M. - 5:00 P.M.)

LET US HELP YOU ACHIEVE YOUR GOALS  
*Start Your New Year Off Right!*

## Semen Donors Needed

### LABORATORY FOR FERTILITY AND CRYOBIOLOGY

The Laboratory is seeking semen donors for its sperm bank program. The program is confidential and all donors will be compensated.

As a potential donor you will undergo non-invasive screening procedures to ensure good health and fertility potential. You must be between the ages of 21 and 35. If you are interested, please call 882-7199.

MINORITIES ARE NEEDED

Do something nice for yourself.

Do something nice for yourself. Stop by the University Hospital Health Information Center in Columbia Mall. Or participate in one of our other events this week.

Week of Dec. 3-9

Tuesday, Dec. 5, 7 and 12, 7 p.m.

**Health Information Center**  
SMOKING CESSATION CLINIC. a series of classes to help smokers kick the habit. Led by Linda Evans, R.N., respiratory clinical nurse specialist. Free by calling 882-6565 to reserve space.

Wednesday, Dec. 6, 10 a.m.-noon

**Health Information Center**  
MAKING SENSE OUT OF THOSE MEDICAL FORMS. Patsy Hart, Division of Financial and Engineering Services, offers private consultations with your end-of-the-year insurance claims. By appointment only, call 882-6565.

Thursday, Dec. 7, 14 and 21, 10 a.m.-1 p.m. and 4-7 p.m.

**Health Information Center**  
FLU IMMUNIZATION CLINIC. co-sponsored by KOMU-TV, Channel 8.

Free flu vaccines available for those at high risk: people with chronic disease or who are age 65 or older. Others can receive the vaccine for a \$2 fee.

## United Way honors MU units

This year's record contributions by MU employees to the United Way campaign are "a remarkable and admirable accomplishment," Chancellor Haskell Monroe says.

"I cannot think of anything more unselfish than what we do for the United Way," he says. "It demonstrates the concern and caring that we in the University community have for the Columbia community."

Monroe made the comments at Mizzou's United Way awards ceremony Nov. 29 in Memorial Union. Bob Bailey, assistant dean of law and chairman of MU's portion of the campaign, announced that the University raised \$204,572 this fall, to be used to benefit the 28 social agencies served by the Columbia Area United Way. That is 108 percent of the \$190,000 goal, and the largest amount ever raised at MU for the United Way.

"It gives you a heartwarming feeling to see such a tremendous effort by our faculty and staff," Bailey told about 75 campaign workers and supporters at the ceremony. He gave a special award to Patsy Higgins, manager in Business Services and manager of the campus UW campaign office. "It is because of people like her and her staff, who put in an incredible amount of their own time, that we can achieve successes like this."

Awards were presented to the divisions with

20 or more people that had the highest participation in each of the five UW regions. The region, the winning division and the person accepting the award were: Academic I — School of Law, Tim Heinsz; academic II — School of Nursing, Jim Lay; administrative — Intercollegiate Athletics, Gary Zwonitzer; hospital and clinics — Administrative Services, Tommy Carter; and UM System — President's Office, Lois Connor.

Divisional awards with fewer than 20 people went to: Academic I — Library and Informational Science, Maydell Senn; administrative — Missouri Kidney Program, Ann Patton; hospital and clinics — Director's Office, Bob Smith and Kathleen Mitchell; and UM System — Budget Development and Planning Service, Charlotte Fussner.

Awards were given in each region to the top two units with 30 or more people. They were: Academic I — School of Law, Tim Heinsz; and Practical Arts and Vocational Technical Education, Barbara Mountain; academic II — Agricultural Extension Education, Greg Nolting; and School of Nursing, Jim Lay; administrative — University Police, Capt. Earl Burry; and Intercollegiate Athletics, Gary Zwonitzer; hospital and clinics — Medical Records, Dee Smith; and Computer Center, Randy Cheek; UM System — University Extension, Ellen Palmer; and Central Computing Facility, Helen Breedlove.

Also, awards were given in each region to the top two units with fewer than 30 people, or units with 100 percent participation. They are: Academic I — Health Related Professions, Betty Baysinger; Continuing Medical Education, Phoebe Cubberly; Dean of Law, Tim Heinsz; and Water Resources Research Center, Fran Malloy; academic II — Atmospheric Science, Wayne Decker and Betty Crowley; and Parks, Recreation and Tourism, Glenn Gillespie; administrative — Student Financial Aid, Mary Ann Canton; Campus Facilities, Construction Management, Don Guckert and Bob Smith; and Robert Graham Center Estate Planning, Gail Martin; hospital and clinics — Administrative and Support Services, Tommy Carter; Promotions and Development,

Barbara Payne; Clinic Administration, John Williams; Director, Bob Smith and Kathleen Mitchell; Volunteers, Carol Krause and Myra McCoig; Pastoral Care, the Rev. Bill George; and Recreation Therapy, Jarvis Hall; UM System — Patents and Licensing, Arvarh Strickland; Vice President of Academic Affairs, Arvarh Strickland; Office of Research Safety, Denise Bilderback; Assistant Vice President of Financial Services, Mary Martin; Financial Information Services, Pam Stubbs; Facilities Planning and Development, Dennis Cesari; Risk and Insurance Management, Jan Runyan; Telecommunications, June Wyatt-Britt; State Government Relations, Arvarh Strickland; and Treasurer, Phyllis Crawford.

Bailey also presented regional awards, recommended by the respective chairmen and chairwomen. They were given to: Ann Patton, Jenny Mummert and Tim Sullivan, administrative; Connie Howard, academic I; Bob Thomas, academic II; and Donaleigh Richardson, hospital and clinics.

Units with more than 10 people that had 100 percent participation were given cakes and certificates. They and their representatives are: Campus Facilities, Construction Management, Don Guckert and Bob Smith; Student Financial Aid, Mary Ann Canton; and UM System Facilities Planning and Development, Dennis Cesari.

Bailey thanked the campaign co-chairwoman, Chris Koukola, assistant vice chancellor for University Relations. He also recognized the regional chairmen and chairwomen: Ruth Brent, associate professor of environmental design, academic I; Beverly Makaruk, director of development in the College of Arts and Science, academic II; Jackie Jones, director of Business Services, administrative; co-chairmen Tommy Carter, assistant director of Administrative and Support Services, and John Williams, manager of obstetrics and gynecology at the Green Meadows Clinic, University Hospital and Clinics; Arvarh Strickland, associate vice president for academic affairs, UM System; and Robert Daniel, professor emeritus of psychology, retirees.

**Trou · ble · shoot · er - n 1:** one who pinpoints and gets rid of sources of trouble. **2:** a skilled worker employed to locate trouble and make repairs in machinery and technical equipment.

Rick Miller, Electronics System Specialist at the MU Power Plant

**Rick Miller is a troubleshooter.** As an Electronics System Specialist at the MU Power Plant, he's on call 24 hours a day, 365 days a year to diagnose any equipment problems that might occur.

**Rick and his team** troubleshoot electronic devices and instrumentation in the Power Plant's major automation control system. It's no simple task, but essential to providing steam and electricity to MU. Even though state-of-the-art computers monitor and control the equipment, Rick and the team must program the computers and interpret the data.

**For instance,** if the oil temperature in a turbine rises too high, a computer automatically sends more water to cool it down. But if that doesn't control the situation, Rick must determine the cause of the problem - and fix it.

**Whether he's solving problems** or finding ways to prevent them, Rick is one of the Can-Do Crew's best troubleshooters. When MU needs him, he's there!

## Campus Facilities

 **Can-Do-Crew**

M I Z Z O U  
**PEOPLE**

**ALBERT J. DEVLIN**, professor of English, published an essay, "The 'Spell' of Jackson: Welty's Childhood Stories," in the current number of the *Southern Literary Journal*.

**BARBRA A.B. HORRELL**, coordinator of student recruitment at the School of Medicine, has been selected chairwoman of the 1990 Youth Motivation Task Force at Xavier University of Louisiana. The event will be in New Orleans Feb. 18 through 20, 1990.

**JO ANN HUMPHREYS**, librarian III at the School of Law, presented a workshop lecture, "Introduction to Microcomputers," at the Midwest Regional Conference of Law Librarians Oct. 26 in Chicago. She also was elected president of the Show-Me Central Habitat for Humanity for 1989-90.

**CHARLES O. KNOWLES**, professor of entomology, spoke on "Exploitation of Mite Biochemical Targets by Acaricides" at a pesticide conference in Colymbari, Crete, in September.

**BARBARA O. KORNER**, assistant professor of theater and special assistant to the director of fine arts, presented two papers, "St. Philippine Duchesne: A Model of Action" and "The Vitality of Women's Heritage" at a women's studies conference at Western Kentucky University, Bowling Green, in September.

The second paper was part of a panel presented with Missouri Cultural Heritage Center staff. Other papers were "Women's

Studies and Historical Method," by **PATRICK JANSON** and "In Their Own Words" by **JULIE YOUMANS**, both project specialists at the center. **VICKY RIBACK WILSON**, former assistant director of the center and now associate program coordinator for the Missouri Rural Innovation Institute, moderated the panel.

**EDMUND B. LAMBETH**, associate dean for graduate studies and research in the School of Journalism, has been voted the O.O. McIntyre Distinguished Professor of Journalism for 1989-90.

## EXHIBITS

**MUSEUM OF ART AND ARCHAEOLOGY:** "The Art of the July Monarchy: France 1830 to 1848," a Sesquicentennial exhibit, is on display through Dec. 11 at the museum in Pickard Hall. Hours are 8 a.m.-9 p.m. Tuesdays; 8 a.m.-5 p.m. Wednesdays through Fridays; and noon-5 p.m. Saturdays and Sundays.

**CULTURAL HERITAGE CENTER:** The exhibit "La Vieille Mine: The Enduring Community" is on display through Jan. 12 at the Anthropology Museum in Swallow Hall. Hours are 9 a.m.-5 p.m. weekdays.

**STATE HISTORICAL SOCIETY:** Thomas Hart Benton original illustrations for Mark Twain's "Life on the Mississippi" and Lynn Rigg's "Green Grows the Lilac" are on display through December. Hours are 8 a.m.-4:30 p.m. weekdays and 9 a.m.-4:30 p.m. Saturday.

**ART FOR LIFE:** An exhibit by the staff of University Hospital and Clinics is featured in the main lobby of the hospital through December.
