

MIZZOU

W E E K L Y

University of Missouri - Columbia / Feb. 26, 1991

A step into the future

INFORMU, available on your computer, offers a wealth of information you can use.

It will enable you to correspond with a faculty or staff colleague in Louisville, Louisiana or London. You'll be able to learn of upcoming grant application deadlines, where to find certain research materials, or what jobs are available at MU. It will even tell you what lectures, seminars and concerts are on campus this week.

It's INFORMU, short for Information for MU, a new computer program available to anyone with access to the University's mainframe. While the program is billed as an "electronic bulletin board" for the University, its implications are much greater.

"INFORMU is a step into the future," says Diane Oerly, director of Institutional Research and Planning, who is

coordinating the effort. "It will move us forward in electronic communications and in the scholastic community. Best of all, people across campus will be able to participate as editors and reporters."

So as Oerly and Mike Hess, senior computer programmer/analyst, refine the system from their offices in Campus Computing, various faculty, staff and students across campus will be submitting items for INFORMU.

"The Grants Office, for instance, will be editors in sending us information on available grants and application deadlines," Hess says. "The Office of Student Development will be editors in submitting MSA/GPC events and movie schedules. Not only can your department go through the menu and view what we have to offer, but can contribute to the process as well."

The system extends beyond the campus. Users of INFORMU will discover how to access and utilize InterNet, the National Science Foundation's worldwide computer network. Faculty and staff also will be able to obtain information on MORENET, a new system that links the state's four-year public colleges and universities. "You'll be able to share information with a colleague at another university, or check into research resources on another campus," Oerly says. INFORMU does not have the capabilities to wander through LUMIN, the UM System's library card catalog, but it will tell you where you can find specific information in LUMIN.

"Suggestions from the faculty have helped us shape the

ON THE INSIDE:

Page 2 The campus parking committee discusses space allocation.

Page 3 Provost candidate Paul Risser explains his priorities to faculty and staff.

Page 4 A new and improved orientation program helps MU employees get off to a good start.

Page 5 Retirees are making plans for their annual recognition week in April.

Page 6 Two Fulbright Scholars come to Mizzou to study with history professor.

Page 9 If you liked *Dangerous Liaisons*, you may love *Les Liaisons Dangereuses*, playing on campus this week.

basic ideas for INFORMU," says Bill Plummer, director of Campus Computing. "We're open to suggestions as we develop the system, and we'll work hard to accommodate your requests."

Oerly stresses that INFORMU is not designed to replace *Mizzou Weekly*, *Spectrum* or other media that dispense information to the campus community. "It will be a complement to the others, much in the same way that television is a complement to newspapers," she says. "Each will continue to carry information that is distinctive to its goals and objectives."

INFORMU has been on-line in its preliminary stage, or "draft form," for about a month. If you have a CMS ID and your computer is hooked up to the mainframe, simply type in INFORMU after you log on. "More information is being added all the time," Oerly says. "We hope to be fully operational by the start of the fall semester." When that occurs, you will not need a computer account to access INFORMU.

With suggestions, call Oerly at 882-2000. Or get into the spirit of the new age and send her your suggestions over the computer system. Her electronic mail address is CCOERLY@UMCVMB.

Sharing experiences

Margaret Walker, noted author, comes to the University as a speaker for Black History Month.

If Margaret Walker could write her own epitaph, it would be a simple one: "She tried to make her life a poem." Walker has brought poetry to the lives of many people during a career as a poet, writer and educator that has spanned more than 50 years.

As a feature of Black History Month, Walker was on campus last week to share her work with students, faculty and staff. At a lecture Feb. 19 in Townsend Auditorium, she read some of her poems and talked about how she wrote them. Poetry from her latest book, *This Is My Century*, was featured.

Walker talked about the ways her life and her work had been touched by writers and leaders in the civil rights struggle. She grew up in New Orleans, where poet Langston Hughes advised her father to "get her out of the South so she can develop as a writer." Walker attended Northwestern University in Chicago during the 1930s and studied with W.E.B. DuBois, then worked on the Chicago WPA Writers Project with novelist Richard Wright.

It was in Chicago that she first began to publish her poetry. Walker's first volume of poetry, *For My People*, won the Yale Younger Poets Series Award.

Walker mentioned some of the sources of her inspiration — the Bible, and the pre-Homeric epic writings of the East, such as the Egyptian Book of the Dead or the Epic of Gilgamesh from Babylon. The American

Author Margaret Walker pauses during a book-signing Feb. 20 at the University Bookstore. Walker autographed a number of her books, including her latest, *This Is My Century*.

South is another inspiration for her work.

"I have lived most of my life in a segregated South," she said. "The South is my home. The South is the subject and source of all my poetry; it is also my life. All of these poems have come out of my living, being a woman and a black person."

Walker told the audience how the South had shaped her writing. Since 1949, she has lived in Jackson, Miss., where she was professor of English at Jackson State University

and also was director of the Institute for the Study of the History, Life and Culture of Black Peoples.

She recalled the decade of the 1960s, when violent reaction to the civil rights movement convulsed the South. "The most violent year was 1963, when my neighbor, Medgar Evers, was assassinated on the street where I lived," Walker said. And she talked about how those events influenced the civil rights poems in her volume of poet-

ry, *Prophets for a New Day*, published in 1970.

During her trip to Columbia, she also spoke at Hickman High School, autographed her books at University Bookstore and held informal discussions with students. Her visit was sponsored by the College of Agriculture, Food and Natural Resources, the School of Natural Resources, University Libraries, University Bookstore and the MSA fine arts committee.

UNIVERSITY PART OF STATE DRILL

The tornado season is coming to Missouri. In an effort to educate employees about what to do during severe weather, Mizzou plans to take part in a statewide tornado drill between 9:30 and 10 a.m. March 5. Sirens will sound throughout the community.

In the event of an actual storm, the local weather service will provide information through the news media. A tornado watch means there is a threat of tornadoes in the area, but none has been spotted. A warning means a tornado has been spotted and everyone should take cover.

In case of a warning, those in office buildings should go to the basement or move away from windows and into interior hallways

on a lower floor. Avoid auditoriums, gymnasiums or other structures with free-span roofs. In a house or small building, take shelter in a basement under a table or heavy furniture; outside, if there is no cover, lie flat in the nearest depression. Stay out of cars and mobile homes.

MIDDLE EAST TAKES SPOTLIGHT

The Middle East will be the focus of two special events on campus in the next week.

The first in a regular series of forums sponsored by the Peace Studies Program, in conjunction with the Philosophy Club, will be at 3:45 p.m. Feb. 28 in 114 Arts and Science Building. The topic is "Why Are We at War?" Discussion will be led by Biral Ali Yesilada, assistant professor of political science, and Steve Weinberg, associate professor of journalism. Future sessions will feature professors from other disciplines.

A Phi Beta Kappa lecture, sponsored by the departments of history and religious studies, will be at 3:30 p.m. March 6 in 234-235

Brady Commons. Marilyn Waldman, chairwoman of comparative studies and professor of history and religious studies at Ohio State University, will speak on "Religion and Politics in the Contemporary Middle East: A Historian's Perspective." She has lectured extensively on topics related to the Islamic world, Iran, religious studies and cross-cultural understanding.

The campus community is invited to both events.

YOUR TAXES MADE EASY

Learn all about the ABCs of income taxes and the XYZs as well, at a free seminar sponsored by Human Resource Development. Whether your tax return is simple or complicated, you can have your questions answered by a representative of the Internal Revenue Service from 2 to 3 p.m. March 14 in S203 Memorial Union.

Enrollment is limited to the first 50 respondents. To enroll, send a card with your name, department, campus address and campus phone number to Leo Agnew at 130 Heinkel Bldg. A supervisor's approval must be included on the card, and telephone enrollments will not be taken.

Campus parking committee discusses space allocation

The campus parking committee is taking a hard look at some tough parking issues at Mizzou. At a Feb. 19 meeting, the group agreed that parking director Jim Joy should continue to assign parking spaces to faculty and staff, rather than have department heads make those assignments.

Committee members then waded into a discussion of how parking spaces are allocated on campus and whether departments should be guaranteed parking spots in lots next to their offices.

Joy, director of Parking and Transportation Services, said all employees on campus want to park in a lot next to their building, but

he pointed out that simply isn't possible in many cases. "The lot at Lewis and Clark halls has space for 80 employees, and there are 500 people in there," Joy said. "Some departments are all in one location, other departments have a person here and a person there. There is not a simple solution."

And the problem is compounded when departments move to locations on campus where competition for parking spots already is fierce, Joy said. "Unless someone volunteers to move out of a parking lot, I can't just keep putting more people into the same lot," he added. "I've had one school say, 'Don't you dare put anyone else in here,'

and other departments saying, 'We should be able to park here.'"

Debra Jones, administrative assistant in Faculty and Staff Benefits, listed several options that her subcommittee on parking allocation had examined. Those include assigning parking spaces by job title and charging higher fees for choice parking spaces. "But I see those as pretty discriminatory. I don't think they would be accepted by the campus," Jones said.

A letter from Peter Markie, professor and chairman of philosophy, sparked discussion about extending the restricted hours for some campus parking lots. Currently, lots are reserved for faculty and staff only until 5 p.m. Markie said some faculty in his department have trouble finding spaces in their assigned lot when they return to campus in the evening for official functions.

Joy said some parking lots are used heavily in the evenings, especially near Ellis Library and the Student Recreation Center.

Don Graham, associate director of Residential Life, asked if the evening parking shortage was a temporary problem that would ease when the new Turner Avenue parking garage opens later this year. "I'm not sure we're inconvenienced enough to change the policy," Graham said.

Shirley Delbert, coordinator in Visitor Relations, suggested that portions of parking

lots be reserved for faculty and staff in the evening hours. But Joy said that could cause enforcement problems. "It's really hard to enforce little pockets of restricted parking," he added.

The committee agreed to wait on the issue until it could determine the impact the new garage will have on evening parking. "Let's hold it until the garage opens in August, and see if that relieves the situation," said Bettyann Dubansky, committee chairwoman and associate professor of social work. In other action, the committee:

- was told that Kee Groshong, vice chancellor for Administrative Services, had approved a committee recommendation that off-campus units be required to pay for the "department tags" their employees use to park when they're on campus. Joy said the policy change would go into effect July 1.

- received an update from Joy on construction of the Turner Avenue garage. Joy said the construction is on schedule and the garage should be open in August. "The work is progressing very, very well," he said.

- agreed to publicize the availability of parking permits for retirees at the cost of \$1 a month. "This has been going on now for close to five years. With the permits, retirees can park in most any lot on campus," Joy said. "Our office has never restricted that only to faculty."

Education Week begins March 4

A panel discussion by first-year teachers will kick off Education Week at Mizzou next week.

Lori Behymer, Marie Pieper and Bruce Wilson, MU graduates and teachers in the Columbia public schools, will talk about "Everything You Wanted to Know About Teaching But Didn't Learn in College" at 4 p.m. March 4 in 103 Townsend Hall. Later that day, Dick English, professor of education and counseling psychology, will speak on "Stress Management for Students and Teachers" at 7 p.m. in 103 Townsend.

All events planned for Education Week are open to faculty, staff and students, and will be in 103 Townsend unless otherwise noted.

- On March 5, Rick McGuire, assistant professor of health and physical education, and head track and field coach at Mizzou, will speak on "It Doesn't Matter Whether We Win or Lose..." at 2 p.m. Kappa Delta Pi will present "Family, Home and School: The Golden Triangle" at 4 p.m. A happy hour will be from 5 to 7 p.m. with all the soda you can drink and pizza you can eat for \$3.50. The University of Missouri Council of Teachers of English will meet at 7 p.m. in 201J Townsend.

- March 6 will feature a book fair from 9 a.m. to 7 p.m. Joseph Suina, of the University of New Mexico and a Native American,

will speak on "Respect for Diversity" at 10:40 a.m. in Townsend Auditorium. The College of Education Ambassadors will present "Learning in America" at 3:40 p.m. in 206 Townsend. The outstanding students, teacher, adviser and staff person of the year for 1991-1992 will be announced at a reception in Townsend Auditorium at 5 p.m.

- On March 7, MU's Alcohol and Drug Abuse Prevention Team (ADAPT) will present "You, Your Kids and Drugs" at 1:40 p.m. The Mid-Missouri Student Reading Association, with Carolyn Dye and Nancy Gerardi, teachers in the Columbia public schools, will present "Reading in an Elementary Classroom" at 5 p.m.

- March 8 is College of Education Spirit Day.

Pick up a Pizza

Now you can order a delicious 16", 2-topping pizza for only **\$6.95**.

Just call Brady's Grill at 882-2887 on Friday or Saturday, and you can pick up a piping-hot pizza anytime after 4 p.m.

Best of all, you can charge it on your **UPfront** or **E.Z. CHARGE**.

So don't cook this weekend, pick up a pizza.

Graphic editor: Nancy Daniel

EVENT HONORS RICHARD WATSON

Richard A. Watson, professor of political science, is being honored with a symposium on the occasion of his retirement.

The Department of Political Science will present "Separation of Powers: Checking the Balance" Feb. 28 and March 1 in the Memorial Union. Watson will be honored at a reception at 4 p.m. Feb. 28 in N222-223, and lectures and discussion meetings will be held all day March 1 in N201-202. For a complete schedule, see the Calendar on Page 11.

CALORIES AND LITTLE ELSE

Americans consume more soft drinks than any other beverage, including water. Nutritionists are sick about that fact — and we should be, too.

"Soft drinks are nutritionally poor," says Melinda Hemmelgarn, MU extension nutrition specialist. "The ones with sugar give you calories and nothing else."

And diet soft drinks don't help you lose weight. "You don't get any energy from diet drinks," adds Gretchen Hill, MU human nutrition researcher. "So your brain tells your stomach that you're still hungry. As a result, you probably eat something with calories to make up for the empty feeling."

Hemmelgarn says Americans

should be most concerned about total fats in the diet and the nutritional qualities of food. "If you drink a 12-ounce can of soda, all you get is 60 calories," she says. "But if you drink the same amount of orange juice, you get the same number of calories, plus a lot of calcium, iron, vitamin A, vitamin C, thiamin, riboflavin, niacin and potassium."

SCHOLARSHIPS MAY BE TAXABLE

Scholarships and fellowships awarded after Aug. 16, 1986, may be partly or fully taxable, the IRS says.

You must be working toward a college degree to exclude those payments from income. Even then, there are several restrictions on using the exclusion.

Payments are not taxable if they are used to cover enrollment tuition or fees and course-related expenses for books, fees, supplies and equipment. If they cover room, board, travel or incidental expenses, they must be reported as income for the year received. For more details, call 1-800-829-3676 for a free copy of IRS Publication 520, "Scholarships and Fellowships."

FOR YOUR INFORMATION

An average of 160 faculty and staff members used the Student Recreation Center on a daily basis during 1990, according to the center's annual report. In addition, an average of 104 alumni and 1,321 students used the facilities daily.

February was the busiest month, with the basketball courts, weight rooms and aerobics room proving the most popular. The summer sports camps, offered for the first time in 1990, drew 123 youngsters between the ages of 7 and 12.

Provost candidate says MU is good, but could be better

Paul Risser, one of four candidates for provost, says MU is on the threshold. "It's a good university, not excellent, but it could be stronger," Risser told faculty and staff at an open meeting Feb. 19. "Missouri is a strong university in terms of faculty. It has good student scores. It could become one of the very best educational institutions."

Risser is acting provost and academic vice president at the University of New Mexico. He noted that MU is not alone in facing declining resources. Universities in 27 states are struggling with shrinking state budgets. "Some states are going to find the wherewithal and will" to maintain excellent programs, he said. But if budget problems force programs to close, Risser said the University should look first at "ornaments" and "peripheral" programs, "programs that are helpful to the University but not essential."

When faculty questioned Risser on the importance of teaching in relation to research, he replied that the interaction between teaching and research adds to the "richness" of a great university. He said that while research "has to be a sacred role" of a university, teaching also should be emphasized when decisions are made about tenure, promotion and hiring new faculty.

"We need to explicitly and consciously

recognize that individuals have different roles to play at the University," Risser said.

In response to another question, Risser said MU would have to deal with the issue of assessment. "Assessment is a notion that will not go away," he said, but also noted the difficulty of testing how much a student has learned. "A uniform educational outcome test doesn't make much sense to me," he said.

He also pointed to programs to rate student performance that already are in place. "Much of the raw material for addressing the issue probably is on this campus," Risser said, adding that educators should resolve the debate and "not get steamrolled from the outside."

In addition to his administrative roles at New Mexico, Risser also is professor of biology. He was affiliate professor of plant biology at the University of Illinois from 1981 to 1986, and also was chief of the Illinois Natural History Survey. He also was a professor of botany and chairman of the botany and microbiology department at the University of Oklahoma. Risser has a bachelor's degree in biology from Grinnell College, and master's and doctoral degrees in botany from the University of Wisconsin in Madison.

The fourth provost candidate, Thomas

Paul Risser, acting provost and academic vice president at the University of New Mexico, is one of four candidates for provost at Mizzou.

George, dean of natural sciences and humanities at the State University of New York at Buffalo, was at MU Feb. 22 to interview for the position and to meet with campus groups. *Mizzou Weekly* will report on his talks with faculty and staff in the March 5 issue.

the University of Missouri-Columbia, as reported in the Feb. 12 *Mizzou Weekly*.

If we are ever to achieve a truly peaceful world, military facilities simply must be closed and industrial plants for making the weapons of war converted to the manufacture of goods for civilian use.

Rather than bemoaning the departure of Navy ROTC, we should rejoice and look

forward to the day when our nation no longer engages in war and the some \$300 billion now devoted to the military budget can be used to improve the health, housing and education of our people.

John C. Schuder
Professor emeritus of surgery

Assistant Vice Chancellor Karen Touzeau speaks to new employees at an orientation session.

Getting off to the right start

New, improved orientation process helps staff members.

It was a diverse group that filed into the conference room at the Heinkel Building one morning earlier this month. At first glance the dozen or so staff members didn't appear to have much in common. They worked at different jobs on campus, some for academic departments, some for administrative and support units.

But there was one common thread. They all were new employees at Mizzou and they were spending the morning at MU's orienta-

tion session for new staff members. Since the beginning of the year, MU has completely revamped its orientation process for new employees.

A team from Personnel Services and

Employee Benefits provides basic instruction in medical insurance, retirement options and other parts of the University's benefit package. They also talk about some of the "hidden" benefits available to Mizzou employees — everything from swimming and music lessons to discounts at the University Bookstore and on health care for pets at the veterinary clinic.

'We try to let them know there's a lot they can be involved with in the University community.'

LeAnn Stewart
Training and development coordinator

"We try to

give them as much information as we can," says LeAnn Stewart, training and development coordinator in Human Resource Development. "We try to let them know there's a lot they can be involved with in the University community."

One goal of the orientation sessions is to let new employees know where they can get their questions answered. And as an added bonus, they also receive coupons for everything from a discount on ice cream at Buck's Ice Cream Place to a free hour of word processing from Stenographic Services.

Another change in new employee orientation is a personal welcome from Chancellor Haskell Monroe or his representative. At a recent orientation session, Karen Touzeau, assistant vice chancellor for Personnel Services/Affirmative Action, welcomed new staff members on behalf of Monroe.

"Chancellor Monroe really wants our staff to feel they are an important part of the University," Touzeau told the group. "This is probably one of the more diverse places you could work. There is a lot of opportunity at the University, a lot of ways to grow. I hope you take advantage of it."

But the orientation sessions aren't only for new employees. Stewart and the orientation team are encouraging current employees to attend the sessions if they would like the latest information on policies and benefits that affect staff at MU. The sessions are held from 8:30 a.m. to noon on the first and third Wednesdays of each month. With questions or to sign up, call 882-4859.

Retirees plan special events

Plans for the 1991 Retiree Recognition Week, the Retiree of the Year Awards, and the Chancellor's Retiree Luncheon have been announced by the chancellor's advisory committee for retired faculty and staff. This will be the 20th anniversary luncheon, with attendance having grown from 325 in 1971 to an expected 750 this year.

Retiree Recognition Week will be April 14 through 20. A display of retirees' professional activities, hobbies, and other accomplishments will be arranged in the Memorial Union display cases during the week. Readers aware of suitable material for this exhibit among their retiree friends should call Wayne McLaughlin at 442-3786. Departments, schools and colleges, and other units have been invited to schedule special events for their own retirees. Other features of the week are being developed.

The second annual Retiree of the Year Awards will be presented at the chancellor's luncheon on April 16. Faculty, staff, retirees

and alumni are invited to make nominations; the deadline is March 20. There are two awards, one for a retired faculty member and one for a retired staff member, and each includes a citation and a check for \$500. Accomplishments during retirement are the only considerations in the competition. Nomination forms have been mailed to department and staff units, or may be obtained by calling 882-7254 or 442-7193.

Invitations to the luncheon will be mailed to mid-Missouri MU and UM System retirees in early March, but retirees should mark their calendars now for April 16. The event begins with optional campus tours at 9:30 a.m., a social period at 10 and lunch at noon. The program will include a welcome by Chancellor Haskell Monroe, a report on the retirement fund, recognition of the retiree award winners, and a concert by the Shephard Boulevard School Choir on an ecology theme. Tony Lampe will be master of ceremonies. Recent retirees are especially invited.

Robert Daniel is chairman of the committee. Members are Donald Duncan, Robert Hartley, George Hassenbruch, Patsy Higgins, Roger Jett, Pat Licurance, Betty Martin, Wayne McLaughlin, Robert McNamara, Barbara Olson Smith and Gladys Wulff.

New chairman selected for Department of Music

Melvin C. Platt, coordinator of graduate studies in music at the University of Oklahoma, has been selected as chairman of the Department of Music at MU. He will begin his duties in August.

"Dr. Platt has a solid vision of where he wants to take our Music Department, and that includes increasing its ties within the community and the state," says Larry Clark, dean of arts and science. "He was enthusiastically recommended by his peers and associates, and he has strong support within the faculty of our Music Department."

Clark says one of Platt's challenges will be to upgrade the framework of the graduate section within the department — a task he successfully completed in Oklahoma.

"I am impressed with MU's Department of Music and its School of Fine Arts, and also with the commitment from the dean, provost and chancellor to build the University beyond where it is now," Platt says. "I believe even with the budget difficulties the University is experiencing, the department has the potential for good growth in the 1990s."

The search for a new department chairman began last August, says Thomas McKenney, professor of music and chairman of the search committee. "Dr. Platt is a first-rate person with high academic qualifications, and from all indications is going to be an outstanding person for the job," McKenney says.

Before joining the University of Oklahoma in 1977, Platt worked for five years at Kent State University, where he was the coordinator in the music education division. Platt taught in and headed the music education department at The Catholic University of America for four years before going to Kent State.

Platt received a bachelor's degree in music education and a master's degree in music from the University of Cincinnati, and a doctoral degree in music from the University of Michigan. He has earned two distinguished lectureship awards for teaching excellence at Oklahoma, was named Oklahoma educator of the year, and received an award from the state of Oklahoma for his outstanding contributions to education.

LABORATORY FOR FERTILITY AND CRYOBIOLOGY

Semen Donors Wanted

The laboratory is seeking semen donors for its sperm bank program. The program is confidential and all donors will be compensated.

As a potential donor, you will undergo non-invasive screening procedures to insure good health and fertility potential. You must be between the ages of 20 and 40. If you are interested, call 882-7199.

Women's History Month events set

March is Women's History Month, and events begin Friday with a lecture and slide show by a teacher/author.

Carol Spindel, who teaches creative non-fiction at the University of Illinois, will give a talk on her book, *In the Shadow of the Sacred Grove: One Woman's Journey to a West African Village*, and will show slides of her travels. The event will be at 7:30 p.m. March 1 in Pickard Hall Auditorium. A reception will follow. Spindel also will conduct a workshop, "Writing Women's Lives," from 9 a.m. to 4 p.m. March 2. Contact Women Studies at 882-2703 for a workshop application.

Other special events are planned during the month. They include:

■ a Women Studies colloquium, at 7:30 p.m. March 4 in the Faculty-Alumni Lounge at Memorial Union. Carolyn Dorsey, associate professor of higher and adult education and foundations, will speak on "Searching Out Women's History: Olivia A. Davidson Washington, Co-Founder of the Tuskegee Institute."

■ a one-woman dramatic performance, at 7:30 p.m. March 7 at the Macklanburg Theater at Stephens College. Actress Joanne Hamlin will present "Choices: A Dramatic Kaleidoscope of American Women."

■ a slide lecture, at 7 p.m. March 11 in Pickard Hall Auditorium. Pat Monaghan, author and director of continuing education at Xavier College in Chicago, will speak on "Images of the Goddess: A Celebration of Her Variety." A reception will follow.

■ a lecture, at 4 p.m. March 26 in 114 General Classroom Building. Silvia Molloy, professor of Latin American literature at New York University, will speak on "The Construction of the Female Subject in Latin American Autobiographical Writings."

■ a lecture, at 3:40 p.m. March 29 in the Faculty-Alumni Lounge at Memorial Union. Patricia Cooper, associate professor of women's history at Drexel University in Philadelphia, will speak on "The Writing on the Bathroom Wall: Construction of Gender and Race on the Pennsylvania Railroad During World War II." A reception will follow.

All events are free. In addition, a Women's History Month display, "Feminist Cartoonists and Humorists," will be set up in the main concourse at Ellis Library. Another exhibit outlining special events on campus during the month will be set up in the display case outside Jesse Auditorium.

For more information, call Women Studies at 882-2703.

Fulbright Scholars David Doyle, left, and Malcomb Campbell, right, with Kerby Miller, professor of history.

OUT OF IRELAND

Two Fulbright winners come to MU to study Irish history issues with professor.

Doyle, who comes from University College-Dublin, where he teaches American history, is collaborating with Miller on a book, *Out of Ireland*. Campbell, who recently earned his PhD at the University of New South Wales in Australia, is here to work with Doyle and Miller on a comparative study of Irish immigrants in Australia and in America.

Miller says Doyle is the leading scholar on the Irish in America, adding that his help is crucial to putting *Out of Ireland* into a proper historical context. The book, a collection of letters by Irish immigrants in America, is a follow-up to Miller's *Emigrants and Exiles*. That book, published in 1985, is actually Miller's doctoral dissertation. They met when Miller was working on the book, and have been friends about 15 years.

From the approximate 7,000 letters Miller has collected since 1972, Doyle hopes to glean insight on both the Irish in America and the Irish in Ireland. Traditionally a rural land, Ireland has

become more urban in the past 30 years because of influences such as television. A third of its population now lives in Dublin.

"Three-quarters of the Irish in America have been city dwellers," Doyle says. Studying the modernization of the Irish in America, he adds, may project "possibly what would happen back home." For example, it would be interesting to see if the Irish there would adapt to an urban environment as well as the Irish appear to have adapted in America.

In contrast, the Irish in Australia have tended to remain traditionally rural, Campbell has found. "It seems to me that Irish settlement in the American Midwest, for example, was dependent more on public works than it was in Australia," he says. "Irish immigrants in Australia were more likely to be engaged in agriculture."

Campbell says Miller's *Emigrants and Exiles* was a source of influence when he chose to look at Irish settlement in Australia. Campbell is comparing the Irish in rural America with those

in rural Australia. "A lot of studies focus on urban life," he says. "But that's not the whole story."

Campbell says the big questions he wants to answer deal with the transmission of Old World, European values to settler societies, "and how we account for the differences between societies."

This is Campbell's first visit to America. Being able to work with Doyle and Miller, he says, is a "double bonus." "I'll have a much broader perspective on Irish settlement in Australia and in America," he adds.

Both Fulbright scholars say they are enjoying the University and the Columbia community. "I'm really having a good time," says Campbell. "The library is well-equipped in many subject areas, and the History Department is friendly and supportive."

Doyle says the mid-Missouri lifestyle reminds him of his native Ireland. "Life here moves at a human pace," he adds.

Q&A

Q. I'm concerned about the discrepancies that exist in the cost of medical premiums that employees pay to insure their children. Under the \$250 deductible plan, the monthly premium is \$40.92 for an employee only. For a single employee and children, the premium is \$55.40. That means that for a single employee, the additional monthly cost to insure a child is \$14.48. But as a married employee, I pay \$87.12 for myself and my spouse, then pay another \$17.92 in premiums for my child. That means I pay \$3.44 more a month — or \$41.28 a year — to insure my child than a single employee pays for the same coverage. Why?

A. Medical premium rates are based on the claims experience of the plan and those employees who enroll under a specific level of coverage, says Ron Monroe, manager of Faculty and Staff Benefits. This difference of \$3.44 a month is based on the claims experience for those enrolled in the "Employee, Spouse & Children" category as compared to the claims experience for those enrolled in the "Employee & Children" category. Simply put, the claims associated with children covered under "Employee, Spouse & Children" have been historically higher. This could be due partially to a higher ratio of children per employee in this category, Monroe adds.

Send your questions about campus matters to Mizzou Weekly, 1100 University Place. You must include your name and phone number so we can reach you, if necessary. All questions remain anonymous. Mizzou Weekly will not answer unsigned questions.

PARKING AND TRANSPORTATION SERVICES
107 SWALLOW
882-4568

Parking Policy Committee meetings are scheduled at 3:40 p.m. March 5, March 26 and April 30. All meetings are open to the public. Call our office for locations.

MICK DEAVER MEMORIAL AWARD

The Mick Deaver Memorial Award was established in 1980 by the Staff Advisory Council. Deaver was associate director of the University Police Department at the time of his death in 1980 in an automobile accident. This award honors a staff member who

exemplifies Deaver's concern for fostering good relations with students, and is presented during the Staff Recognition Week awards ceremony.

To nominate a staff member for this award, please send a letter to Staff Advisory Council, 305 Jesse Hall, detailing specific examples of why you feel this person deserves this award. Nominations are being accepted through March 8, 1991.

If you need assistance, or if you have any questions, you can call any Staff Advisory Council member.

Staff Recognition Week is April 8-12, 1991.

*This award is based on quality of nominees and may not be given some years.

BARBARA S. UEHLING AWARD FOR ADMINISTRATIVE EXCELLENCE

Each year the Staff Advisory Council invites nominations for the Barbara S. Uehling Award for Administrative Excellence. The award honors an administrator who has demonstrated qualities of leadership, administrative excellence and in some way has contributed to improved working conditions and the quality of life for MU staff. Anyone with an executive, administrative or managerial position is eligible.

Accomplishments which qualify the nominee for the award should be documented in a letter and sent to Darlene Schroeder, 305 Jesse Hall. Nominations for this award are being accepted through March 8, 1991, and recognition is given during the Staff Recognition Week ceremony.

STAFF RECOGNITION WEEK IS APRIL 8-12, 1991.

Printing Services Quick Copy Centers

Our business is to serve you!

Printing Services Quick Copy Centers are staffed by experienced professionals who will get your job completed on time! We are University employees working with you on your simplest jobs to your most complex projects. We offer 3¢ copies, a range of services, and advice and expertise for your copying needs.

From now until April 30, 1991 you can get a free upgrade to the latest OS/2 version, 1.3.

Submit your "Proof of License" page from your OS/2 manual to obtain your free upgrade. For assistance, Call Bill Canning at the Computer Spectrum, 882-2131.

Campus Computing

77 books by faculty are published in year

A total of 77 books by MU faculty members have been published in the past year — a noteworthy feat by any measurement, says Gerald Brouder, deputy chancellor and interim provost. "This is an impressive display of productivity, particularly in the face of limited resources," Brouder says. He notes that the subjects of the books are

diverse, ranging from food science and family therapy to Ken Kesey and the law of trusts.

"Our faculty are making significant contributions to MU's learning and research missions," Brouder says. "This is another indication of their value to the state and to higher education."

University of Missouri-Columbia Faculty-Authored Books Sept. 1, 1989 through Aug. 31, 1990

* Denotes dual/multiple listing.

COLLEGE OF AGRICULTURE

Aukamp, V. (assistant professor), and Shaw, R. *Nursing care plans for adult home health clients*. Appleton and Lange, 1990.

The games people play

Yes, there are differences between 'Les Liaisons Dangereuses' and 'Dangerous Liaisons.'

If you liked the 1988 film "Dangerous Liaisons," you may love the play "Les Liaisons Dangereuses," which the Department of Theater is presenting this weekend. Just don't expect the same treatment.

"Certainly, there are similarities," says director Suzanne Dieckman, who notes that the movie and the play were taken from the same novel, written by Choderlos de Laclos in 1782. "But there are a number of important differences, and I think audiences will be interested in seeing the choices we've made."

"Les Liaisons Dangereuses" tells a story of lust and power among the French aristocracy, just before the onset of the French Revolution. The tale revolves around the pursuits of Vicomte de Valmont, who sets out to seduce the young Cecile and the very proper Madame de Tourvel. He is aided by his former mistress, La Marquise de Merteuil, who has her own reasons for encouraging him. The play is recommended for mature audiences.

Dieckman, a visiting associate professor, sees some similarities between "Les Liaisons Dangereuses" and today's society. "The destructive games that men and women play are still with us," she says. "And the play points out that when social values start falling apart, people become more narcissistic. That was true then, and it's been

true for the 1980s' 'Me Generation.'"

Graduate student Karen Rasch portrays Merteuil, and Cecile is played by senior Danielle Zacher. Valmont and Tourvel are played by juniors Mike Babbitt and Heather Myers. Associate professors Pat Atkinson and Jim Miller are in charge of

the sets and costumes, respectively.

The play opened last weekend and will be presented again at Rhynsburger Theater at 8 p.m. Feb. 28 and March 1 and 2, and at 2 p.m. March 3. Tickets are \$4.50 for faculty, staff and retirees and \$3 for students, and may be reserved by calling 882-7529.

ELECTRONIC INSTRUMENT LAB

#17 Physics Bldg.
882-4024
8 a.m.-5 p.m., Monday-Friday

Your campuswide research service facility offering:

CARRY-IN TIME + MATERIALS SERVICE ON:

- IBM and IBM-compatibles (pc, xt, at, ps/2)
- "Hard" Disks (drive repair and reconditioning)
- Monitors
- Printers
- Special Interconnect Cable Fabrication
- Apple II and other brands of computers
- Terminals and Peripherals (many brands and models)

Ask for "Kent" when inquiring about computer repair.

RESEARCH INSTRUMENTATION/PROJECTS/SYSTEMS SERVICES:

- Design
- Development
- Fabrication
- Adaptation
- Enhancement
- Interfacing
- Components
- Maintenance

No appointment necessary!

FOR THE RECORD

CAMPUS MAIL SERVICE: Personal walk-in business at the Campus Mail Service facility at 310 Watson Place will be discontinued after 4 p.m. March 8. "This is due to increased workload and recent changes in U.S. Postal Service and United Parcel Service regulations," says Jim Southern, manager in Campus Mail Service. "We regret any inconvenience this may cause you, but our first priority is processing University mail."

TRAINING NEEDS: Human Resource Development is conducting a survey to determine staff training needs at MU. Surveys will be mailed to 800 randomly selected employees during the week of March 11. All information will be confidential, and the resource office is asking staff to be sure to complete the surveys so employee training needs can be met.

FOR SALE: TOPS 3.0 networking software, half price of mail order, three for \$250 or \$95 each. Call the Baptist Student Union at 449-3843.

POSITION VACANCY: The College of Arts and Science is looking for a director of special degree programs, a half-time appointment for a tenured faculty member. The director would have administrative responsibility for the bachelor of general studies program, interdisciplinary studies and the proposed international studies program. For more information, contact Brooke Cameron, search committee director, at 882-9449. Nominations and applications should be sent to Cameron at 317 Lowry Hall no later than March 1.

MU Staff Art

We're looking for people to show off their talents at the "1991 Staff Recognition Week" MU Staff Art/Craft/Hobby Show. Take this opportunity to share your outside interests with your co-workers. Display your "masterpieces" on April 12, 1991, in the Memorial Union Student Lounge.

Don't be shy, join the fun!

Deadline for entries is March 29, 1991. (Minimum security will be provided.)

Craft Hobby Show

Please return this form to:

Betty Youtsey 5 General Services Building

I would like to participate in the MU Staff Art/Craft/Hobby Show.

Name: _____ Phone: _____

Department: _____

Campus Address: _____

Art/Craft/Hobby: _____

If you have questions, call Betty Youtsey at 882-7207.

CALENDAR

Send calendar items in Campus Mail to Patricia Reese, Mizzou Weekly, 1100 University Place, by noon Tuesday the week before publication. Events are free and open to the public unless otherwise noted.

Highlights

JOB FAIR: The Office of Student Development and the G.O.A.L. Office will sponsor "Job Fair 1991: Black History Month" from 10 a.m.-3:30 p.m. Feb. 28 in the Memorial Union Lounge. A banquet will be at 7:30 p.m. at the Days Inn, 1900 I-70 Drive S.W. Cost: \$10, students \$5.

HEARNES CENTER: Circus Vegas will perform at 7 p.m. Feb. 28 at the Hearnes Center. Cost: \$4-\$10. Call 882-2056.

CONCERT SERIES: The New York City National Opera will perform Mozart's *The Marriage of Figaro* at 8 p.m. March 1 in Jesse Aud. Cost: \$19, students \$16. Event is sold out, but returned tickets will be sold at the box office just prior to the performance.

26 Tuesday

RECREATION/INTRAMURALS: Entries close today for co-rec pickleball. Play begins March 6. Sign up in 106 Rothwell or call 882-2066.

UNIVERSITY HOSPITAL/CLINICS: Diane Mosher, registered dietitian, will speak on

"Cardiac Risk Factors, Gaining Control!" at 11 a.m. at the Health Information Center in Columbia Mall.

BIOLOGICAL SCIENCES SEMINAR: Brian Haarer, microbiology candidate from the University of Michigan, will present "Functional Dissection of Yeast Profilin" at 3:40 p.m. in 115 Tucker Hall.

CHEMICAL ENGINEERING SEMINAR: R. Bruce Eldridge of Phillips Petroleum will speak at 3:40 p.m. in 1035 Engineering Bldg.

PHARMACOLOGY SEMINAR: Thomas Martin, associate professor of pathology at St. Louis University Medical Center, will present "Agonist-Dependent Activation of Phospholipase D in Endothelial Cells" at 3:40 p.m. in M558 Medical Sciences Bldg.

SECRETARIES INTERNATIONAL: Andrea Allison, personnel associate, will speak on "How to Transplant within the MU-UM Systems" at 6:30 p.m. in 130 Heinkel Bldg. Former members and guests are invited.

27 Wednesday

RECREATION/INTRAMURALS: Entries close today for co-rec team tennis and softball. Play begins April 3 for tennis and

April 7 for softball. Sign up in 106 Rothwell or call 882-2066.

PERSONNEL SERVICES: "A Guide to the Transfer Process" will be offered at 12:15 p.m. in 130 Heinkel Bldg.

MIDDAY GALLERY EVENTS: Brooke Cameron, associate professor of art, will present "Piranesi in Prints" at 12:15 p.m. in the gallery at the Museum of Art and Archaeology.

Come meet one of
America's most
distinguished and
respected watercolorists

Keith Crown

A master of watercolor painting, Keith Crown continually pushes the medium into new realms of thought and feeling. When Mr. Crown works, he paints almost exclusively on location in the elements. For him, art reflects the appearance of nature, the feeling aroused in the artist by the landscape, and the combining of these experiences into an abstraction that paradoxically has a reality of its own. A retrospective of Mr. Crown's works will be on exhibit in University Hospital's Main Lobby Concourse through March 31, 1991.

The Art for Life program at University Hospital and Clinics cordially invites you to a reception in honor of Keith Crown.

1-3 p.m. Sunday, March 3, 1991
Main Lobby Concourse
University Hospital and Clinics
One Hospital Drive.

A poster of one of Mr. Crown's works will be available during the reception for purchase and signing. For more information, call 882-1169.

James Sadler
Assistant Professor of Art
University of Missouri-Columbia
Instructor of Graphic Design I-V

Imagine

These lettering designs were created by Mr. Sadler using the Macintosh and Adobe Illustrator.

"There's creative thinking and then there's creative working. In art the creative process develops by working with tools.

Before I started using the Mac, I thought that computers would be too logical to successfully accommodate the intuitive unfolding experience that artists are used to. Now into my third year with computer generated graphic design, I am astounded by it's potential.

And most important of all, it's not as intimidating as I expected. The term "user friendly" is most apt and essential if there is to be room for imagination, creativity and intuition.

Instead of being limited to intrinsic variations on what the programmer put into the application, I find that artists can contribute uses for the programs far beyond what the programmers imagined. This is a true test of the usefulness of any tool. Congratulations Apple! You've designed a product that is as useful as a pencil."

Why do people love Macintosh?
Ask them.
