ON THE INSIDE

Page 2 Gilbert Grosvenor, president of the National Geographic Society, and award-winning author Peter Matthiessen will speak at A&S Week.

Page 3 The Staff Council plans to offer some new events this spring for Staff Recognition Week.

Page 8 The new Chick-fil-A opens in Brady Commons.

The power of place

Campus Master Plan will be discussed at two slide show presentations.

The Campus Master Plan for physical improvements, and the planning process behind it, offers not only a look back at how the campus has evolved over the years, but also where it is going. So what does this have to do with the relative contentment of faculty, staff and students at MU?

"In *Phaedrus*, Plato dramatizes the power of places to move the soul," says Ruth Brent, professor and chairwoman of environmental design and chairwoman of the campus planning committee. "This is where we work, where we

teach, where we do research, where we study — indeed, where we devote a major portion of our lives.

"The meaning of place is central to how we carry out our work. We value our campus as a place to nurture and inspire us. And we, along with our ancestors, take this sense of place very seriously."

Members of the MU community will have the chance to comment on the master plan at two slide show presentations next week. The visual shows will be at 1 p.m. Feb. 15 and 16 in the Hulston Hall Courtroom, with consultant Jack Robinson presenting more than 75 slides on subjects ranging from the old Academic Hall to the new

Reynolds Center. "The shows stimulate participation and creative thinking," Brent says. "As we come together to see and hear about the changes in our campus, we inevitably experience a greater 'pride of place.'"

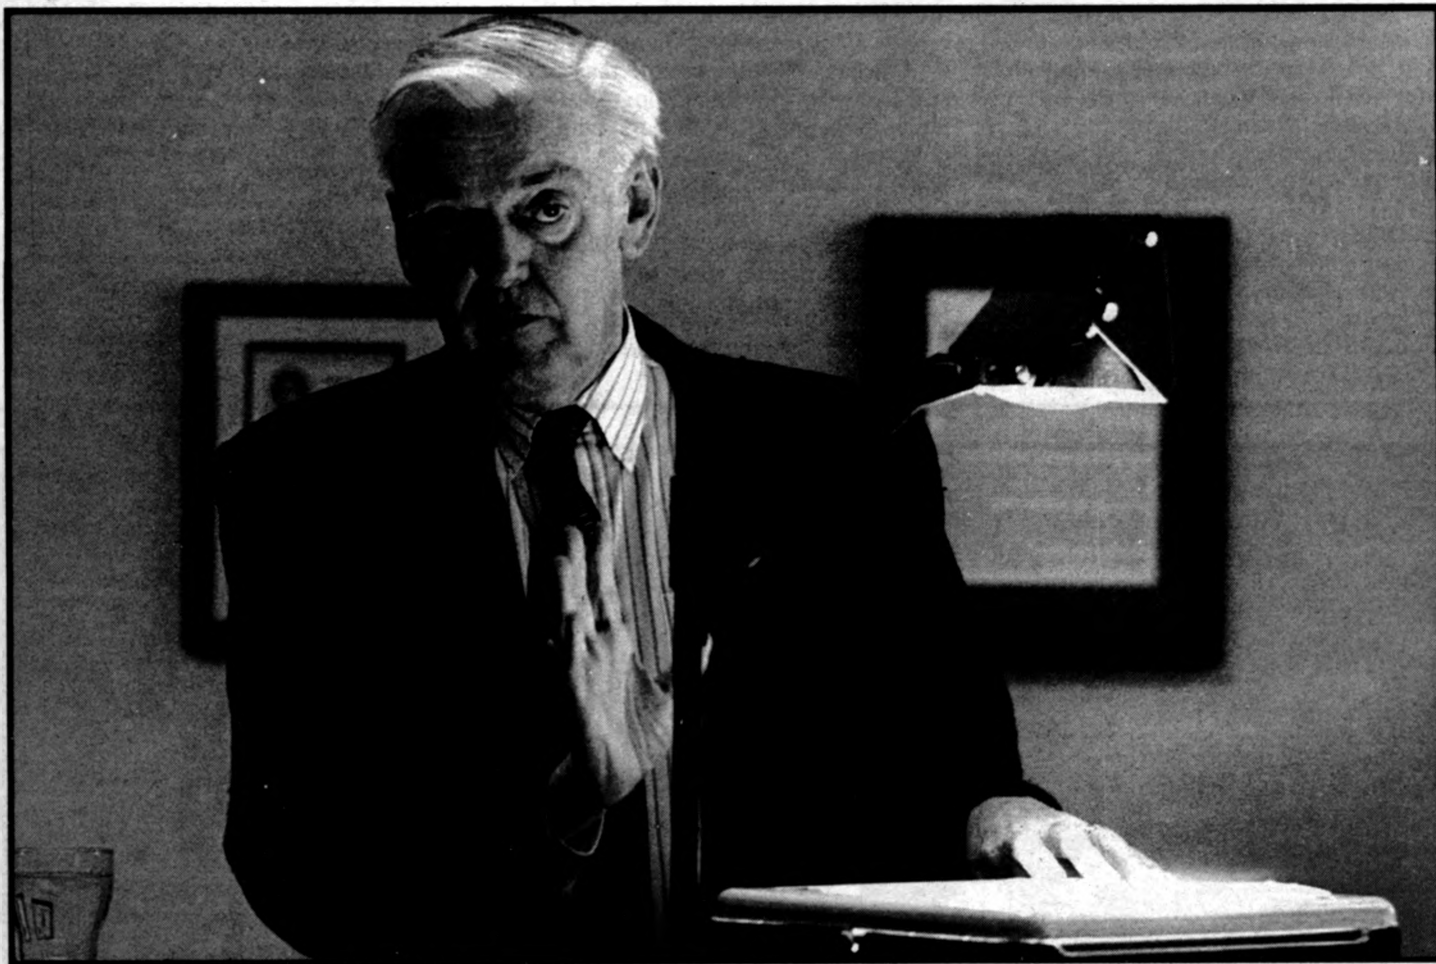

The topic is especially dear to Brent, as the Environmental Design Department deals with the power of place. And Brent personally is moved by three sites in particular on campus: Francis Quadrangle, the heart of the campus; Lowry Mall, which she calls the soul and spirit of MU; and the new South Mall, where the potential is yet to be realized.

"When I'm on Francis Quadrangle, I'm overwhelmed by the cosmic character of this place — the framing of magnificent stone columns superimposed against Jesse Hall; the mighty trees that articulate the pedestrian spaces; the color-

1 p.m. Feb. 15, 16, Hulston Hall Courtroom

Alexander 'Sandy' Astin explains the intricacies of student assessment to MU Student Affairs staff on Feb. 2. Astin, a leading expert in assessment from the University of California-Los Angeles, spoke to a number of groups on campus and also addressed the Board of Curators in St. Louis Feb. 3.

Rob Hill photo

The mark of excellence

National expert describes assessment as tool to improve learning.

The most frequently cited author in the field of higher education shared his insights and expertise with the University community during a Feb. 2 visit to MU. Alexander Astin, and his wife, Helen Astin, professors of higher education at UCLA, met with a wide variety of campus groups to discuss critical issues ranging from general education assessment and student development to women leadership issues.

Astin also addressed the Board of Curators Feb. 3 on the subject of assessment. "Sandy Astin is first-rate," says Chancellor Charles Kiesler. "Our invitation to him was part of a continuing effort to raise all of us — faculty, staff, students and the Board of Curators — to a more sophisticated level about assessment issues. Assessment should be a central part of everyday life in a great university. The reaction of the curators to

his presentation was extremely positive."

Alexander "Sandy" Astin is director of the Higher Education Research Institute at UCLA, the author of 18 books and nearly 200 other publications on higher education. He also is founding director of the Cooperative Institutional Research Program, an ongoing national study of nearly eight million students, 200,000 faculty and staff, and 1,300 higher education institutions, in which MU will now be participating.

"The importance of assessment is that it provides feedback to enhance the learning process," Astin says, cautioning that without assessment, "learning is a very chancy business, because we don't have knowledge of results."

"Bringing Astin to the MU campus is an

indication of how seriously we're taking the entire issue of student assessment," says Provost Gerald Brouder. "We want to draw upon his expertise as one of the nation's authorities in the field."

"Assessment is more than just measuring student outcomes," says Charles Schroeder, vice chancellor for Student Affairs. "Assessment should also be a part of the process in helping to improve student learning."

Astin urged educators to rethink the benchmarks they use to rate academic programs. "Excellence, and our traditional ways of defining it in terms of resources or your reputation in polls and rankings, is not really excellence in an educational sense," Astin says. "Excellence has to do with how well we educate our students. That should be our yardstick."

His message was reassuring to members of a campuswide task force examining assessment issues at MU. "Sandy Astin represents a point of view that confirms and corroborates what this task force is all about," says Marty Townsend, chairwoman of the assessment task force and director of the Campus Writing Program. "To have a scholar of his stature substantiate in very solid ways our thinking and our work was very comforting."

Astin also talked with a group of professional staff from MU's Student Affairs division. He outlined some of his research findings from a mammoth longitudinal study that looked at variables affecting student outcomes at more than 200 colleges.

That study was documented in his most recent book, *What Matters in College*. Astin proposes a theory for student success that includes high expectations for students, coupled with high student involvement. Assessment, he says, provides the feedback that helps institutions validate their efforts.

He stressed that student involvement is a key to success. "I think the most important and significant finding from our latest study is the effects of the peer group," Astin told the Student Affairs staff. "If there's one thing that you can do in academia that can enhance student learning and development, it is to foster more and better interaction with peers."

Astin called for stronger alliances between faculty and student affairs staff in promoting interaction among students with peer advising, cooperative learning, and living-learning environments in residence halls.

NOMINATIONS OPEN FOR RETIREE AWARDS

If you know of a retired faculty or staff member who deserves an award due to outstanding achievements during retirement, now's the time to put forth your nomination.

The chancellor's advisory committee on retired faculty and staff will honor one retired staff member and one retired faculty member during Retirees Recognition Week April 25 through 29. Winners will receive their awards at the annual retiree luncheon April 26.

Nomination forms are available from Patsy Higgins, manager in Business Services and an ex officio member of the committee, in 311 Jesse Hall. With questions, contact her at 882-7254.

ROSES FOR YOUR SWEETIE

Valentine's Day is approaching. That must mean that the Horticulture Club is preparing for its annual "Roses for Your Sweetheart" sale.

The club will have roses for sale from 8 a.m. to 5 p.m. Feb. 14 in Greenhouses 8 and 11, between Tucker Hall and the Physics Building. Red, yellow and pink roses will be available at prices ranging from \$3.50 for one flower to \$25 for a dozen. Proceeds go toward club activities, scholarships and campus beautification.

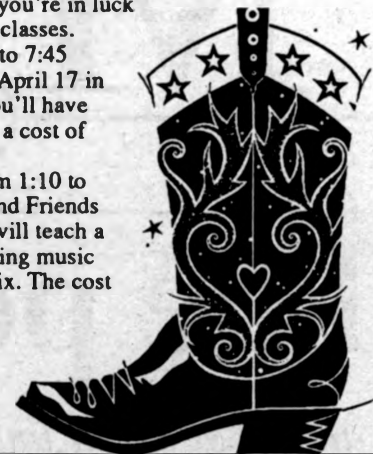

DANCE OR AEROBICS? TAKE YOUR PICK

So you've wanted to learn country dance, eh? Or maybe you're an international student or staff member and hoped to find a special aerobics group? Either way, you're in luck with two new Recreational Services classes.

Country Dance will meet from 6 to 7:45 p.m. Sundays from Feb. 13 through April 17 in B301 Student Recreation Center. You'll have the chance to learn 15 line dances at a cost of \$20. No partner is needed.

Also on Sundays at the SRC, from 1:10 to 2:20 p.m., is the new International and Friends Aerobics. A student from Romania will teach a variety of workouts, and you may bring music from your homeland to add to the mix. The cost is \$12 for 12 sessions, or \$25 for 25.

Stop by 320 Student Recreation Center to sign up, or call 882-2066.

National Geographic leader and award-winning author highlight Arts & Science Week

Gilbert M. Grosvenor, president and chairman of the board for the National Geographic Society, and author Peter Matthiessen, founder of the literary journal *The Paris Review* and a National Book Award winner, are the featured speakers during Mizzou's 14th annual Arts and Science Week Feb. 14 through 18.

Grosvenor will kick off the week with a multimedia presentation at 8 p.m. Feb. 14 in Jesse Auditorium. "Geography — A Voyage of Discovery" will display the photographic brilliance found in *National Geographic* magazines. The presentation is spon-

sored by the Lloyd B. Thomas Lecture and Performance Series. Grosvenor will speak to media representatives from 8:45 to 9:20 a.m. Feb. 14 in S110 Memorial Union, and will visit a sixth-grade class at Rock Bridge Elementary School at 10:15 a.m.

Matthiessen will present a reading and discussion of his works at 8 p.m. Feb. 17 in 7 Hulston Hall.

Other highlights of the week include national Emmy-award-winning television producer Jess Bushyhead, who will speak on "Making It in the Business" at 1:40 p.m. Feb. 18 in E1419 Engineering Bldg.

Bushyhead is an alumnus of the Radio, TV and Film Program in the college, and will receive a Distinguished Alumni Award.

A debate, "The Nature of the University," between Bill Bondeson, professor of philosophy, and Hank Waters, editor and publisher of the *Columbia Daily Tribune*, will be at 3:40 p.m. Feb. 16 at the Reynolds Center. Students will debate "Plus/Minus Grading" in the Engineering Building's West Auditorium at the same time.

Grosvenor has been the leader of the National Geographic Society, the world's largest nonprofit scientific and educational

institution, since 1980. He was editor of *National Geographic* magazine for 10 years before becoming the society's 14th president, and he still serves as its overall editorial director.

Matthiessen has written more than 20 fiction and nonfiction books, including *At Play in the Fields of the Lord*, a novel that was nominated for a National Book Award and later made into a movie starring MU graduate Tom Berenger, a past recipient of the A&S Distinguished Alumni Award.

Distinguished alumni receiving awards along with Bushyhead include Gerald J. Fishman, a NASA research astrophysicist; Sonja Steptoe, a *Sports Illustrated* staff writer; Paul Waltman, a mathematics professor at Emory University; and Claire C. McCaskill, the elected prosecutor of Jackson County, Mo.

The college's 1994 Distinguished Service Award will be presented to Soon Sung Cho, vice chairman of the Foreign Affairs Committee of the National Assembly of Korea. Cho is a former MU professor.

For more information, call 882-4421.

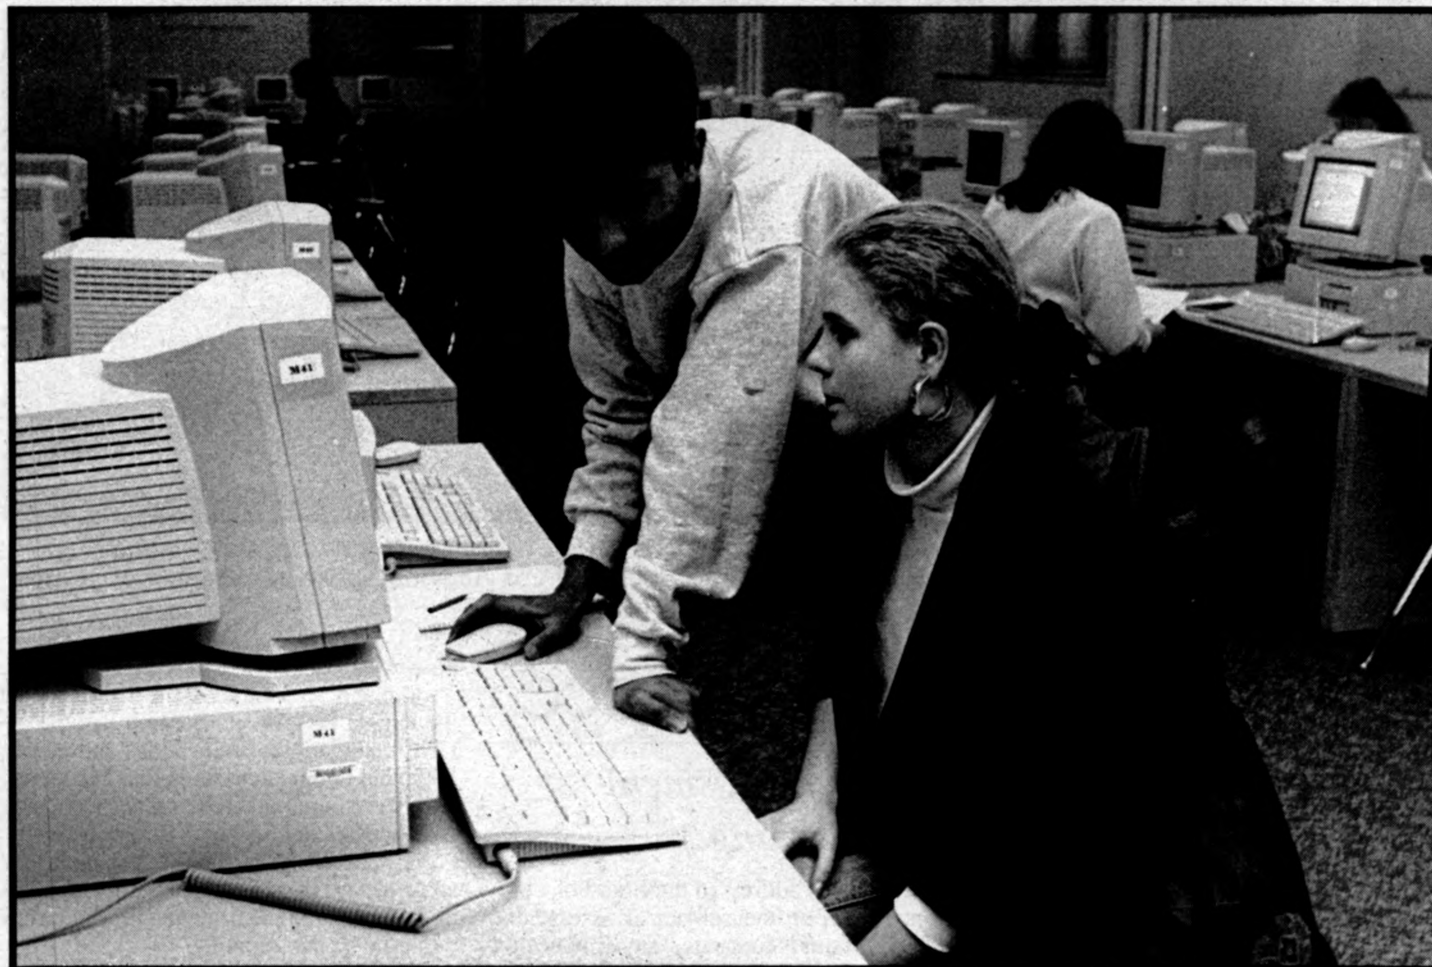

Board OKs fee increase

The Board of Curators Feb. 3 approved fee increases for the 1994-95 school year in line with the University's five-year tuition plan. That plan was adopted by the board in July 1991.

At a meeting on the UM-St. Louis campus, curators agreed to raise tuition by just under 11 percent. That figure includes a 3.5 percent adjustment for inflation.

The cost for undergraduates will go up 10.9 percent, from \$91.10 a credit hour to \$101. Graduate students will see an increase of 10.8 percent, with the cost per credit hour of \$127.80 compared to \$115.30 this year. Curators also approved an increase in the fee for instructional computing, from \$4.50 per credit hour to \$5.

The board also voted to increase the time that University staff have to file grievances. Currently, non-faculty staff must file a grievance within five working days. The policy change will expand that deadline to 10 days. However, if the issue involves alleged discrimination, the deadline for filing a grievance will be 180 days.

User consultant Deepak Shenoy helps Jennifer Gunderson, a junior in agriculture, get on line at the new student computing site in the Memorial Union. The lab, located on the ground floor of the Union's south wing, contains IBM and Apple Macintosh desktop computers connected to a Novell network. Each work station can access the campus mainframe and all resources available through Bitnet and the Internet. It is one of 19 student computing facilities operated by Campus Computing. Funding for the lab was provided by the instructional computing fee, the Office of Student Development, University Bookstore, Computer Spectrum and Campus Computing. Rob Hill photo

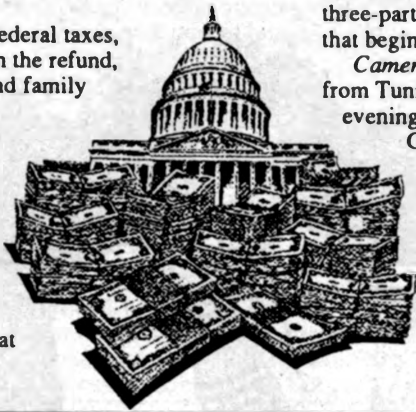

THOUSANDS ELIGIBLE FOR TAX CREDIT

Some 67,000 Missouri families failed to pick up an average of about \$1,000 each from the Internal Revenue Service last year because they didn't know they were eligible for a tax credit. The Earned Income Credit is for working families whose adjusted gross income was less than \$23,050 in 1993 and had at least one child living with them for more than half the year.

But because many of those families don't owe federal taxes, they don't file returns and consequently miss out on the refund, says Brenda Procter, an MU extension consumer and family economics specialist.

"We're trying to get the word out about the EIC so all of Missouri's working families that qualify can benefit," Procter says. To receive the credit, families must file a federal income tax return, either Form 1040A or 1040, plus a form called "Schedule EIC." Either married or single parents are eligible for the credit.

If you think you may qualify and would like to find out more, call Procter at 882-3820, or the IRS at 1-800-829-1040.

MUSEUM SCHEDULES AFRICAN FILMS

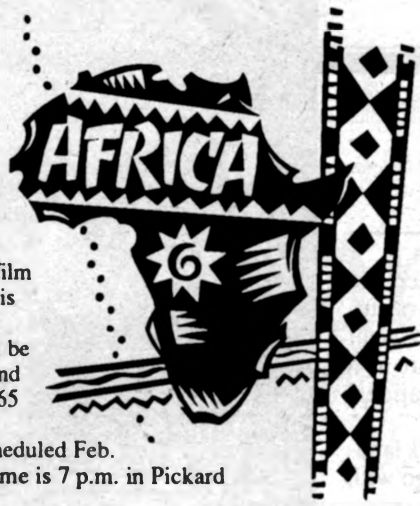

The Museum of Art and Archaeology is celebrating Black History Month with a three-part African film series that begins this evening.

Camera d'Afrique, a 1983 film from Tunisia, will be shown this evening; *Ouaga*, a 1988

Ghanaian release, will be shown Feb. 16; and *Black Girl*, a 1965

release from Senegal, is scheduled Feb.

23. Curtain time is 7 p.m. in Pickard Auditorium.

GROUPS WILL ADDRESS ELECTRONIC SOURCES

Don't feel alone if you have questions about the new wealth of electronic information sources. A group has been formed to address those concerns.

The Ellis Connection will meet Mondays from 3:40 to 4:30 p.m. over the next several weeks to discuss these sources: Feb. 14, LEXIS/NEXIS; Feb. 21, LUMIN; Feb. 28, INTERNET; and March 7, PsychLit CD-ROM. To join the group, be at the Ellis Library Reference Desk, 1 South, at 3:40 p.m. on those days. With questions, call 882-9163.

New events planned for Staff Recognition Week

The Staff Advisory Council met Jan. 27 to continue planning for the annual Staff Recognition Week celebration.

The week of events kicks off with an awards ceremony April 4, in which awards are presented to outstanding staff members in each of the four employment categories. In addition, the Mick Deaver Award honors

Suggestions can be made by calling the Staff Council office at 882-4269.

The council also made plans to sell T-shirts several weeks before Staff Recognition Week, with proceeds to be donated to the Children's Miracle Network. The shirts will feature the theme "Staff — The Sparkle in the Black and Gold."

In other action, the council:

- discussed an open forum it will sponsor on the University's new medical insurance plan. The event will be held from 11:30 a.m. to 1:30 p.m. Feb. 23 in Hulston Hall. Staff from the Faculty and Staff Benefits office and University Physicians will be present to answer questions. GenCare Sanus, the company that administers the managed medical plan, also will be represented. Council Chairman Bob Smith stressed that people may attend all or a portion of the program. The forum will be open to all members of the University community, said Smith, construction project manager with Campus Facilities.

- heard that a tentative date has been set in early March for a staff "rap session" with Chancellor Charles Kiesler.

- discussed ways to begin a Staff Council newsletter that would be distributed to all staff on a quarterly basis. "A newsletter would be a good way to communicate with other staff and get feedback from them," said Vice Chairwoman JoAnn Williamson, administrative assistant in pathology at Ellis Fischel Cancer Center.

Staff Advisory Council

WORKING FOR YOU

a staff member for fostering good relations with students, and the Barbara Uehling Award recognizes an MU administrator for excellent leadership qualities.

Council member Kay Glass, radiation therapist at Ellis Fischel Cancer Center, announced some additions to the lineup of recognition week activities. Old favorites will be held, such as a fashion show, a craft show and a variety show, along with a new camping and outdoor show, and financial and retirement seminars. "If anyone has suggestions about different things we can do that week, let me know," Glass said. "It doesn't have to be an all-day thing; it could be an hour-long program, or just anything."

FOR THE RECORD

RECYCLING REMINDER: As the new GTE telephone directories are distributed around campus, the campus recycling committee urges faculty and staff to take a few moments to recycle their old phone books. Recycling bins for the old directories have been placed at various locations around campus. For the nearest location, contact your building coordinator or call Larry Baumgartner at 882-5051.

WRITING INTENSIVE PROPOSALS: The Campus Writing Board invites proposals for winter 1995 writing intensive courses. Applications are available from the Campus Writing Program, 325 General Classroom Building, 882-4881. Applications received by March 7 and April 4 will be reviewed at board meetings held in those months. Applications received by April 25 will be reviewed at the May board meeting. Courses received after these

dates can still be approved, but will not be listed in the winter course schedule used for preregistration.

The 'For the Record' column gives MU departments and units the opportunity to advertise used or unneeded equipment for sale. There is no charge for this service. Send your notice to John Beahler at 407 Reynolds Center, or call 882-5918.

ful flowers in the spring and summer; the classic architecture; and the tradition of students posing for photographs who also want to capture the indelible image. There is a grandiose symbolism that is highly rational and even ideological."

Brent recalls that when the Quad's landscape was threatened a few years ago with muddy ruts through the open green space, public hearings were held on possible solutions. Instead of constructing concrete sidewalks that would have dramatically altered the Quad, campus planners erected rope fences and signs, and led a campaign to respect the grass and open space. "Francis Quadrangle emphasizes the legacy and meaning of MU," Brent says.

Lowry Mall, on the other hand, possesses an energy that makes it the soul of the campus. "This is where we go when we want to be outside and enjoy spontaneous campus life: meeting friends, listening to musical performers, having lunch, watching passersby, or enjoying international student exhibits or similar festivals," Brent says.

It wasn't too long ago, she recalls, that this was a public street. "Now there are strong characteristics of complexity, variety, intimacy and emotional appeal. Lowry Mall has a sense of romance and human connectedness, and emphasizes the spirit of MU."

While Francis Quadrangle speaks to the history of Mizzou and Lowry Mall reflects contemporary life, the South Mall represents the future. "Our newest and undeveloped courtyard beckons that same type of

Ruth Brent, chairwoman of the campus planning committee, looks over a copy of the master plan on the South Mall. The future of the open mall, bordered by Hulston Hall and the Reynolds Center, will be discussed at slide-show presentations Feb. 15 and 16.

Rob Hill photo

active involvement that our other malls have experienced," Brent says. "With the vision of the Campus Master Plan, this mall has been slowly evolving for years. The evolution can take shape faster, of course, with major gifting from benefactors."

The mall exhibits a powerful axis, she says, between Jesse Hall, the Reynolds Cen-

ter, Hulston Hall and the Health Sciences Center. "There is a beginning pattern of authoritativeness and significance. As you stand here, you can become inspired by the stately architecture of the Reynolds Center and Hulston Hall that gracefully opens toward this space — grasping in anticipation for a new sense of place."

Brent emphasizes that those attending the visual shows can let their voices be heard on the best future for the South Mall — or for the campus in general. "Good plans are based on wide participation," she says. "Come and let us know what you think. Help us create the meaning of place for the future."

UMINFO available in GOPHER server

UMINFO, the system that allows for on-line access to the UM Business Policy Manual, UM Personnel Policy Manual, MBE/WBE Vendor Directory, Travel Services, and Computer-Related Volume Purchase Agreements, is now available in a MVS Gopher server.

Due to the consolidation of mainframe computers, the old system is no longer available. GOPHER is client server software further described in the INTERNET section of INFORMU.

MU, UM System and Hospitals and Clinics users can access the information in the following ways:

■ Using your GOPHER client. If you are familiar with GOPHER, the address to use is UMMVSB.UMSYSTEM.EDU. In-

formation retrieved via a gopher client on your work station can be printed locally.

■ Using INFORMU on MIZZOU1. From anywhere within INFORMU, you can type GO UMINFO. Alternatively, you can choose UMINFO from within the "Administrative Information" or "Accessing LUMIN and Other Information at MU and UM." You will then invoke the CMS gopher client key, which has some searching capabilities via the Find PF key. Hopefully, print capabilities will soon be available. Please note: The help files that describe the MVS gopher client do not apply to INFORMU users. (Note: A CMS user ID is not required to access this information via INFORMU.)

■ Using TSO. If you have a TSO user ID, log on to TSO, select option 'U' for

menu, then select 'U' for UMINFO. This method provides a predefined printer based on your ID. If you do not have a TSO user ID, but want to access the information via TSO: Access the VTAM (mainframe) log on screen, type UMCCF and enter. Select UMINFO with a "/" or an action code. Please log off promptly after completing your inquiry.

For additional assistance, MU faculty

and staff should contact the Campus Computing help desk at 882-5000; hospitals and clinics employees should contact their help desk at 882-1063; and UM-System employees should contact the ICS help desk at 882-4083.

The on-line information is updated frequently with changes in policies as they are approved. Hard copies of the manuals are updated annually. Thus, the most current information is available on-line. It is expected that more manuals/information will be added to this system in the future.

***PAY WITH YOUR MIZZOU FACULTY/STAFF ID!**

CAMPUS COMPUTING

Short Courses

Participants may be enrolled in no more than two courses at one time. To enroll, please call 882-2000. *Note:* This is only a partial list; additional courses will be advertised in future issues of the *Mizzou Weekly*.

INFORMU

February 11, 3:00 - 4:30 pm
266 Heinkel Building

INFORMU (INformation FOR MU) is the electronic information access system available on MIZZOU1. While it is a menu driven system, it also has a variety of shortcuts and features which can make it more useful. Learn about its capabilities for information distribution in your area, how to find the information you are seeking, and provide input on what kinds of information you feel should be available there. Prerequisite(s): Beginning CMS or basic CMS knowledge.

Macintosh Courses

Introduction to WordPerfect 2.1
February 15, 1:30-4:30 pm
266 Heinkel Building

For those experienced with the basics of operating a Macintosh. A hands-on introduction to the basic features of the word processing program WordPerfect. Topics include step-by-step looks at how to enter, edit, style and format text, how to print a document, and brief coverage of more advanced features such as columns and graphics. Prerequisite(s): Introduction to the Macintosh or a working knowledge of the Macintosh.

IBM/PC Courses

DOS for WordPerfect Users
Section 2: February 28, 1:30 - 4:30 pm
266 Heinkel Building

Learn to use basic DOS commands within WordPerfect. Topics include deleting, moving, renaming, copying, and listing files. Additional emphasis will be placed on the DOS directory structure used within WordPerfect, creating and changing directories and more. Prerequisite(s): None.

Macintosh/IBM PC Courses

Introduction to Excel 4.0
March 1, 1:30 - 4:30 pm
266 Heinkel Building

A hands-on overview of the basic features of the spreadsheet program Excel. It is not intended for practiced users. Topics include step-by-step looks at how to enter labels, data and formulas to create and print spreadsheets such as simple financial statements and grade sheets. Graphs will be covered only briefly. Version 4.0 of Excel is identical on Macintosh and IBM platforms and either will be available to participants. Prerequisite(s): A working knowledge of the Macintosh or the IBM PC with Windows is recommended. Personal computer operation will not be discussed.

Mainframe Topics

SAS
February 28 through March 4, 2:30-4:30 pm
226 Heinkel Building

This course covers SAS, an integrated system of programs for the analysis of data. Topics to be discussed include: sorting, merging and saving datasets, and the procedures necessary for utilizing the programs in the package. Prerequisite(s): Beginning CMS or basic CMS knowledge.

Focus On Faculty Courses

Introduction to RiceMail
Section 2: February 25, 1:30 - 4:30 pm
266 Heinkel Building

This hands-on class demonstrates the use of RiceMail, an electronic mail system available on MIZZOU1, the campus mainframe. It covers the basics of sending, receiving and replying to mail, using names files to simplify mail addressing, and using Mailbook to look at mail which has been stored. A MIZZOU1 ID is required.

Partners

Chick-fil-A, MU unite to bolster student success.

MU's commitment to student success took another leap forward Feb. 3 with the official opening in Brady's Grill of Chick-fil-A, America's top chicken chain.

The restaurant is the first of several fast-food franchises that will open in Brady Commons in what will become a completely renovated food court this fall. Other eateries planned will serve Mexican food, pizza and burgers, says Julaine Kiehn, director of Campus Dining Services. "This is our way of meeting students' needs and wants by giving them the products they request," she says. "They know they can rely on particular brands for taste, quality and convenience."

Consumers consistently vote Chick-fil-A [pronounced fil-lay] as the nation's best chicken restaurant chain, according to a national survey sponsored by *Restaurants and Institutions* magazine. Receiving this honor four of the past six years, the restaurant garnered the highest marks for food quality, service, atmosphere and cleanliness among such chains. Menu items include the original and chargrilled chicken sandwiches, chicken nuggets, salads, waffle fries, cole slaw and freshly squeezed lemonade.

"The mission of the Chick-fil-A chain is to be America's best quick-service restau-

rant at satisfying every customer, and this survey indicates we are making significant progress," says S. Truett Cathy, founder and chairman of the company, whose headquarters are in Atlanta. Since 1946, more than 500 restaurants have been opened, mostly in malls. MU's opening is part of a new strategy Chick-fil-A is using to make its products more accessible to customers. The chain plans to open 50 outlets on campuses nationwide in 1994.

At the ribbon cutting, Cathy, a man committed to running his business based on

Biblical principles (as an example, the restaurant is not open on Sunday) thanked Campus Dining Services employees for the enthusiasm they have demonstrated for the product. "That enthusiasm does make a difference, and we hope the staff gives each customer good service as well as a consistent product.

"I have found out that you can eat at one place 50 times and be pleased. But one disappointment likely will cause you not to go back. You have to work hard every day in the food operation to keep

things right each and every time."

The products and services Chick-fil-A offers match MU's goals of providing students with the highest quality of food available, says Charles Schroeder, vice chancellor for Student Affairs. "We are excited about our relationship with Chick-fil-A," he says. "A couple of years ago, I was with Truett when we opened Chick-fil-A in the student union at Georgia Tech. Now he's brought it to us at Mizzou. I can guarantee that it is one of the finest products in the country."

Taking the first official bite of a chicken sandwich at the new Chick-fil-A in Brady Grill are, from left, Charles Schroeder, vice chancellor for Student Affairs; S. Truett Cathy, founder and owner; Columbia Mayor Mary Ann McCollum; and Julaine Kiehn, director of Campus Dining Services.

Nancy O'Connor photo

The MU Libraries and its Affirmative Action Committee cordially invites you to attend a

Reception in honor of Black History Month

A program highlighting dramatic readings, the Freelon Sisters and other Black artists will be presented.

Wednesday, February 16, 1994
3 p.m. through 4:30 p.m.
Ellis Library First Floor Colonnade
Refreshments will be served

Notice

Modifications have been completed to first-floor restrooms in the Law Library at Hulston Hall to bring them into compliance with the Americans with Disabilities Act (ADA).

During the next 12 to 18 months Campus Facilities will complete over 900 projects totalling \$8 million to help assure University compliance with the ADA. These projects include modifications to restrooms, elevators, drinking fountains, building entrances and curb cuts.

Campus Facilities, the Access Office for Students with Disabilities and Human Resource Services are working together to make our campus accessible to all individuals.
