## Consider your benefits

*Now's the time for MU employees to revise their health care and benefits plans.*

The annual benefit enrollment change period is in full swing and help is available for faculty and staff who have questions about their options. At a series of open meetings next week, employees can discuss individual issues with representatives from the campus benefits office and from managed health care organizations that provide services to MU.

Faculty and staff have the opportunity each year to review and update the package of benefits they receive from the University. This year, the enrollment change period runs through Nov. 15, and the changes go into effect Jan. 1. Information about changes in medical insurance premium and other benefit programs has been mailed to employees.

For MU faculty and staff, the open sessions will be held from 8 a.m. to 5 p.m. Nov. 2 and 3 in the Stotler Lounge in

the Memorial Union. University Hospital and Clinics employees can talk to benefit representatives Oct. 31 from 8 to 10 a.m. in the physicians dining room on the ground floor of Ellis Fischel Cancer Center, or from 10:30 a.m. to 12:30 p.m. and from 1:30 to 4 p.m. in the MainStreet Cafe conference room at University Hospital.

Premium increases will be modest next year. Employees enrolled in the health maintenance organization (HMO), the University's most popular health plan, will pay only 2.4 percent more in monthly premiums. Increases in the Point-of-Service (POS) and the Out-of-Network Area (ONA) plans will be 5 percent. There will be no change in premiums for retirees 65 and older.

The one exception to the trend of low premium increases is for people enrolled in Plan E, the non-managed \$250 deductible plan. Those individuals will see premium hikes of 114 percent next year. The substantial increase is due to the much higher cost of providing non-managed health care.

Nearly 440 active individuals are enrolled in Plan E in the Columbia area, including faculty and staff at MU, University Hospital and Clinics and UM System administration, says Mike Paden, director of Faculty and Staff Benefits.

"If choice is really the issue for people enrolled in Plan E, they might want to compare the premiums and benefits of the Point-of-Service plan," Paden says. He notes that the POS plan combines the lower premiums of managed health care, while also offering some out-of-network features.

No action is required for employees who do not wish to change their benefit package. "We want to make it very clear," Paden says. "If you don't want to make any change in enrollment you don't have to do anything."

There is one exception. Employees who take advantage of the flexible spending accounts must re-enroll each calendar year. These spending accounts allow employees to avoid taxes on a portion of their income that they set aside each year to pay for health care or dependent care.

Last year, Application Software Inc. of Columbia began administering flexible spending accounts. Under the prior administrator, reimbursement could take one to two weeks. By arranging for direct deposit to a checking or savings account, ASI has cut the reimbursement time to two days. "ASI has been giving us excellent service," Paden says. "The quicker turn-around time makes it much more acceptable for employees who might have a cash flow issue."

Researchers Dan Obrecht, left, Meg Milanick and Jack Jones, professor of natural resources, are tracking water quality in Missouri's lakes through a network of volunteers who provide samples from across the state. Rob Hill photo

## Preserving a healthy balance

*Mizzou researchers monitor nutrients to ensure vitality of Missouri's lakes.*

Instead of stringers laden with crappie and bass, some outdoor enthusiasts are coming home from Missouri lakes with a different catch — samples of lake water that will help MU scientists gauge the health of the state's water resources.

This year, nearly 50 volunteers sampled 16 lakes around Missouri, from Taneycomo, in the far southwest corner of the state, to Lake of the Ozarks and a string of smaller lakes near Kansas City. In home laboratories, the volunteer researchers then prepared their samples to be analyzed in Mizzou's sophisticated testing labs.

Once the water samples make it to MU, a research team led by Jack Jones, professor of natural resources, takes over. The scien-

tists study the water's nutrient content, such as nitrogen and phosphorous levels, as well as the level of algae and suspended solids.

"In a healthy lake, everything's in balance," says Meg Milanick, one of two researchers who coordinate the project. "Lakes age naturally over the course of thousands of years. The problem we face and want to identify is an acceleration of this process due to people's use of the land surrounding the lake. We want to find out what is happening to our lakes and how fast it is happening."

The project is called the Lakes of Missouri Volunteer Program. It's sponsored by the MU School of Natural Resources, the Missouri Department of Natural Resources

and the U.S. Environmental Protection Agency.

"We're basically looking at lake productivity, how much algae is present. We also track the nutrients which play a role in how much algae will be out there," says Dan Obrecht, who also is a project coordinator. "Algae plays an important role in the health of a lake. It's the base of the food chain and it's also the main source of oxygen."

In nutrient-rich lakes, algae levels can get out of whack and cause smelly blooms of algae that detract from the recreational value. An acceleration of the natural aging process can be caused by leaking septic systems or run-off from farms or development. When that happens the result can be a filling in of the lake bottom with silt and organic matter, changes in fish and plant species and fish kills due to the lack of oxygen.

Jones says Missouri has a long history of tracking its water resources. Since the 1970s, MU researchers have joined scientists from state agencies to gauge the quality of Missouri's lakes. "We have as much data as any state in the nation," Jones says. "We're trying to pin down the present condition of water resources in Missouri."

These thousands of water samples give Jones a rich data base for his work. "As a scientist, I want to find out what is regulating the activity in these lakes," he says. "Is it nitrogen? Is it phosphorous? In Missouri lake water, do suspended sediments play a role?"

"We want to quantify what's here and look at the factors that regulate a lake's productivity. Then we can look for trends — how our resources are changing over time."

Milanick and Obrecht keep on the run during the April to September sampling period. Not only do they train volunteers, they also travel the state, picking up samples and checking on any potential problems.

With the limited resources of the University and state agencies already stretched thin, volunteers may be the wave of the future, Milanick says. "We would like to have our volunteers take over the sampling of many lakes in Missouri. They can actually do a better job because they live there and can sample more often."

To volunteer, or for more information, contact Milanick or Dan Obrecht at 112 Stephens Hall, Columbia, Mo., 65211.

**LONG-DISTANCE DIALING**

**TO CHANGE ON NOV. 1**  
The procedure for dialing a long-distance number within the 314 area code will change on Nov. 1. The change is a result of the new North American Numbering Plan being implemented nationwide.

Starting Tuesday, you must include the area code even when dialing within the 314 area. The new procedure goes like this:

- Listen for your dial tone
- Dial 7
- Listen for the new dial tone
- Dial your six-digit WATS code and then the # key
- Listen for the new dial tone
- Dial 314 and your number.

**BREAKING THE CYCLE OF VIOLENCE**

Educators, policymakers, juvenile justice and social service professionals and community organizations will examine positive ways to solve the problem of violence among the nation's youth during a videoconference, "Breaking the Cycle of Violence," from noon to 3 p.m. on Tuesday, Nov. 1, in Room N214 of Memorial Union.

Conference participants include the Rev. Jesse Jackson, U.S. Surgeon General Joycelyn Elders, gun control advocates Sarah and James Brady and the Rev. Bernice King.

For more information about how you can take part, please call Joanne Heisler at 882-2854.

**SUPPORT GROUP FOR CANCER PATIENTS**

Ellis Fischel Cancer Center will host the first meeting of the support group HOPE at 9:30 a.m. on Saturday, Nov. 5, in the physician's dining room on the ground floor of the cancer center.

HOPE is a support group designed for patients and families experiencing cancer. The group will meet at 9:30 a.m. on the first Saturday of every month in the Ellis Fischel physician's dining room.

For more information, call Suzanne Hullender at 882-2100.

**AMENDMENT 7 FORUM ON NOV. 4**

Faculty, staff and students are invited to an Amendment 7 informational forum from noon to 1 p.m., Friday, Nov. 4, in Jesse Auditorium. Speakers will include Chancellor Charles Kiesler, Columbia School Superintendent Joel Denney, Faculty Council Chair Ed Hunvald, Staff Council Chair Jane Cooper, Legislative Affairs Liaison Marty Oetting and Missouri Students Association President Steve McCartan.

**Fall is Here...**

**But Winter is Around the Corner!**

**Biochemistry celebrates centennial**

Consider these scientific breakthroughs:

- The discovery of folic acid;
- Identification of zinc as an essential mineral;
- Isolation of the toxic principle of the brown recluse spider;
- Identification of a receptor that likely plays a key role in the treatment of cystic fibrosis and heart disease.

All these achievements have one thing in common: they are all findings of MU's department of biochemistry.

Since its founding 100 years ago this week, the department of biochemistry has given the scientific community, and the world, this information and much more. The department will celebrate its centennial this week with a conference, poster session, dinner and picnic.

Until 1974, biochemistry was actually two departments: agricultural chemistry and medical biochemistry. It was the science itself that prompted the two to merge into one department overseen by the College of Agriculture, Food and Natural Resources and the School of Medicine.

"The two departments began to overlap as each moved more toward molecular biology methods. It made sense to form one department," said Benedict Campbell, professor of biochemistry.

In fact, it's the draw toward learning molecular biology techniques that is attracting so many students. Since 1989, undergraduate enrollment has jumped from 138 to 257 this year.

Professor Warren Zahler, the department's associate chairman, said biochemistry is becoming the center of activity for basic research in life sciences.

"With the advent of genetic engineering and biotechnology, everybody is using molecular biology techniques. Majoring in biochemistry provides students with a groundwork in those techniques so they can go on in the sciences," he said.

The degree has been a springboard for many students. MU biochemistry graduate Lowell Miller went on to become vice president of Marion Labs. Graduate Boyd O'Dell is now an MU biochemistry professor emeritus and an internationally known expert on zinc.

The breadth of the department's research is widespread. One hundred years ago, faculty focused on animal nutrition. In the 1930s, there was an added emphasis on human nutrition, one that continues today. Then, in the 1970s, the department also started to focus on plant biochemistry, eventually forming one of the country's premier interdisciplinary plant research groups.

One of the department's historical highlights came in the late 1930s when MU professor Albert Hogan discovered folic acid and started the department's legacy of outstanding basic nutrition research. Hogan showed that folic acid, which was then called a B vitamin, prevented anemia in growing chicks. He went on to show folic acid was instrumental in preventing hydrocephalus in the newborn rat. His findings formed the basis for today's studies showing folic acid prevents neural tube defects.

While research is clearly the department's cornerstone, unit leader William Folk is most proud of the department's undergraduate program, one of the largest in the country and home to some of the brightest students at MU.

"It's the best way we can serve the state and nation, through the training efforts we provide to these very bright undergraduate students," he said.

### ASUM REGISTERS MORE THAN 3,000 VOTERS

The Associated Students of the University of Missouri registration drive resulted in the registration of 3,087 new voters, according to ASUM Executive Director Mary Anne McCollum. The campaign began Sept. 16 and concluded Oct. 12.

Boone County Presiding Commissioner Don Stamper described the success of the campus effort as "extraordinary, especially for an off-year."

Meanwhile, the ASUM office continues to assist individuals who will vote absentee on Nov. 8. An application for an absentee ballot must be received by the county clerk by Nov. 2 for a vote to count Nov. 8. Absentee ballots can be notarized in the ASUM office in the Center for Student Involvement in Brady Commons.

If you live in Boone County you can vote absentee for the following reasons:

- If you'll be out of town Nov. 8
- If you are incapacitated or confined due to illness
- Religious beliefs
- You are employed as an election authority
- Military duty
- Incarceration (assuming other voting requirements are met).

In addition to its regular hours, the Boone County Clerk's Office will be open from 9 a.m. to 1 p.m. on Saturday, Nov. 5, to accommodate absentee voters.

## CLASSIFIEDS

### FOR SALE

80,000 BOOKS. Have fun browsing. Open 1-5:30 daily except Sunday. 214 North 8th, below the courthouse. Call Veta at 443-5350 or 442-7989.

### SERVICES

**JQB STRESS?** Relationship conflicts? Family problems? Wellness concerns? Individual, family and couple's counseling. POS provider, 20-years experience. Call Patrick Kane, LCSW, DCSW, 449-0120.

**MEN'S RETREAT.** A protected space and time to explore safely men's issues. Limited enrollment. Saturday, Nov. 19, Rickman Retreat Center - Jefferson City. Facilitator Patrick Kane, LCSW, DCSW, 449-0120.

**Ph.D. in English with twenty years college teaching and experienced in editing will edit books, monographs, dissertations, articles for publication or presentation, newsletters.** Office near campus. Telephone 445-6690.

**YOGA For Everyone.** Baby Boom Aerobics offers new eight-week Yoga series. On Mondays at 10:30 am and 1:00 pm. Beginning Oct. 27th. 1 1/2 hr. classes. Call 446-1325 for more information.

The Classified Advertising Section is open only to faculty and staff members and retirees. A home phone number is required in all classified ads. No refunds will be given for cancelled ads.

### Ads must be typed.

Rates: 30-word maximum \$3.

### Publication deadlines:

Oct. 18 deadline for Oct. 27 issue

Oct. 25 deadline for Nov. 3 issue

**Mizzou Weekly Classifieds:** Make your check payable to University of Missouri and send to: *Mizzou Weekly*, 407 Reynolds Center, Attention: Tanya Stitt.

### School of Nursing is renamed in honor of benefactors

Forty years after their death, the final wishes of a prosperous Boone County farmer and his wife were granted when the MU School of Nursing renamed itself the Charles and Josie Smith Sinclair School of Nursing in their honor.

In 1955, MU was identified beneficiary in the wills of Charles and Josie Smith Sinclair. Charles died in 1959. Upon the death of Josie Sinclair in 1964, MU received almost 10,000 acres in Boone and Callaway counties. The bequest included the Sinclair's homeplace in southern Boone County, which was to be used for research purposes. The will further stipulated that when the University no longer needed the 563-acre research farm, it was to be sold with the proceeds placed in the Sinclair Fund as an endowment. The endowment income was to be used as a "home for nurses" in memory of the Sinclairs.

Charles Sinclair received serious injuries in a buggy accident and subsequent train wreck and a nurse was employed in the Sinclair household for many years.

"Charles and Josie valued the assistance, nursing care and friendship they received from the nurses who assisted Charles following his injuries," says his great-niece Susan Cason Gille, of Maryville.

Since 1987, the University has sold three parcels of the Sinclair land, totaling 237.76 acres. The Sinclair endowment currently holds about \$750,000.

A May 1994 court ruling clarified how the proceeds may be used in accordance with the Sinclairs' will. Noting that the demand or market for a home (or dormitory) for nurses at MU is no longer practical or needed, Circuit Judge Ellen Roper ruled that the charitable intent of the Sinclairs was a general one, to benefit nursing students. Therefore, the income from the endowment will be divided equally into two funds. One will support the school with furnishings, equipment, renovations, maintenance, remodeling or expansion. The second fund will provide financial aid to nursing students.

Charles Sinclair was born in 1875. He was a successful businessman who specialized in the sale and purchase of livestock.

## We've Added To Our Menu... Nestle's HOT Chocolate!

<b>Regular</b> 50 individual packs/box	<b>\$6.79/Box</b>

## COME SEE OUR CHANGES!

We're Better Than Ever.

MAIN LEVEL BRADY COMMONS  
882-7611

*The world is flat.*

*We'll never send a man to the moon.*

*You can't have high-quality, low-cost health care.*

*Don't believe everything you hear.*

Some people think when it comes to health care, you have to choose between low cost and high quality. But with the University's HMO plan, offered through GenCare, University of Missouri Hospitals and Clinics gives MU employees both. As the only physician-hospital organization in Columbia, we can offer our patients lower costs without sacrificing quality care. That's because our hospitals and physicians are one team at the negotiation table with managed care insurance companies.

We offer:

- 46 primary care physicians
- 194 specialists
- 15 clinic locations in seven communities
- 30 pediatric specialties
- Four hospitals – University Hospital and Clinics, Children's Hospital, Rusk Rehabilitation Center and Ellis Fischel Cancer Center
- 95 percent HMO patient satisfaction rate

As an HMO patient, these quality services come to you with the lowest premium rate, the lowest co-payment for office visits and no charge for hospital care. To receive more information about the services and physicians available at University of Missouri Hospitals and Clinics, call 882-7000.

## Instructional technology expert impressed with MU

Peter Deutsch has a philosophy about the symbiosis between instructional technology and higher education. The one is more than just a means to facilitate the other. Together they create an entirely new way of assimilating information and learning.

"The impact technology is having on education is in the realm of culture, how we think about what we're doing," Deutsch said. "Value that culture. That's what matters, because it's a culture that's rooted in education and research. Don't worry about the technology. Today's technology is outdated tomorrow."

Deutsch, an architect of the Internet, spent two days reviewing the University's efforts to bring the latest technology into the classroom. His visit was the kick-off event for the new MU Institute for Instructional Technology.

The institute was developed last year by a small group of faculty, staff and students. Its goals are to explore technology's effect on education and to apply computer technology to teaching and learning environments for the mutual benefit of faculty and students.

Brady Deaton, chief of staff to Chancellor Charles Kiesler, welcomed Deutsch to campus. Deaton said Deutsch's visit was part of an ongoing program to bring nationally known experts to MU to spark campus discussion about issues in higher education.

Deutsch created the Archie Information System, a software package that helps people navigate the Internet. He is now president of Bunyip Information Systems of Montreal, Canada. His interest in computer information networks was sparked during his days as a "tenured graduate student" in computer science at McGill University in Montreal.

When Deutsch began teaching at McGill, he incorporated the Internet and other computer technology into his classes. "My role as a teacher had changed before my eyes," Deutsch recalled. "I was creating an environment where people could learn for themselves." He stressed that the Internet is a model of what education will look like in the future.

Deutsch noted the phenomenal growth of the Internet in recent years. "There is no direction to this. It doesn't come from the top down, it comes from the bottom up," he said. "I don't think we've yet lost the culture that ties it all together."

Internet is six months away from completion and has been for the past 20 years, Deutsch joked. "We're not done; we're not even close to being done. We're just getting started."

Deutsch also praised the computing efforts under way at Mizzou. "What I've seen is a couple of zealots with a strong idea. They're not quite sure how they're going to get there, but they're going to do their darnedest to try," he said. "I'm really impressed with that."

## International Affairs

The council serves as the principal campus body for advising the administration on policies affecting international programs, and generally, for promoting and facilitating the strengthening of the campus' role in international education. The council will be chaired by the provost or a designee and will report through the provost to the chancellor. Appropriate sub-committees may be formed by the council as needed. A report is to be made on at least an annual basis, and a copy will be furnished to the Faculty Council.

# The Evolution of General Education in and Around Our Neighborhood

Tinkering with the curriculum is an almost constant activity in American colleges and universities, but three surges in general education reform are, nonetheless, historically identifiable, each one linked at beginning and end to some kind of national crisis.

The first general education movement grew out of the idealism that attended the start of World War I, the "war to end all wars." This period featured the educational ideas of John Dewey, Alexander Meiklejohn and Robert Hutchins and produced survey courses of "humanistic sciences" and Greek and Roman classics at Amherst, Columbia, Dartmouth, Reed, Minnesota and Wisconsin. It resulted in the Great Books core curriculum in "the College" at the University of Chicago and at St. John's College in Maryland and led to the development of a "life's needs" curriculum at Missouri's Stephens College. The stock market crash of 1929 and the subsequent economic depression arrested educational reform, however, and shifted national attention to more practical issues: jobs and economic recovery.

The second general education movement grew out of shock and revulsion at Nazi barbarism in World War II and out of fear of the possible consequences of atomic power and the Cold War. Universities across the nation responded positively in 1945 to a Harvard task force's call for a core curriculum and a new general education agenda, General Education in a Free Society, and to the endorsement of general education in 1947 by the White House Commission on Higher Education for Democracy.

"Education for democracy" became an academic call to arms. The call to arms narrowed greatly, though, after the success of the Russian Sputnik Program in 1957, when the space race, which we clearly were losing, occupied the national concern. Humanities courses gave way to the domina-

*The third general education movement began about 1971 as a reaction against a curriculum that had grown into what was often a hodgepodge of overspecialization, vocationalism and open-ended electives, a curriculum reflecting confusion in the national consciousness.*

tion of science courses; undergraduate education gave way to an almost frenzied emphasis on research. The traditional curriculum was further undermined in the '60s, despite some gains in racial and ethnic sensitivity, by campus radicals calling non-negotiably for narrowly defined "relevance" in education and courses tailored to highly individualized and ephemeral needs.

The third general education movement began about 1971 as a reaction against a curriculum that had grown piecemeal into what was often a hodgepodge of overspecialization, vocationalism and open-ended electives, a curriculum reflecting confusion in the national consciousness. America had regained hegemony in the space race by 1969 by landing a manned spacecraft on the moon, in what Neil Armstrong called a "giant step for mankind" but elsewhere America seemed to be stepping backward. The humiliation of Vietnam, the corruption represented by Watergate, the Manson murders (1969) the assassinations of John Kennedy (1963) Malcolm X (1965) Martin Luther King Jr. (1968) and Robert Kennedy (1968) in addition to the killing of four students

during a war protest at Kent State (1970) bespoke a nation of uneasy peace, unsteady law and order and uncertain direction. In response, the nation's colleges and universities turned again to general education to help in the restoration of democratic principles, civic responsibility and humane values. At Columbia University, for instance, the Carnegie Foundation funded a series of general education seminars in 1973 to spark a renewed interest in science and ethics, western civilization and humanities. The Columbia model caught on widely in educational institutions around the nation. This efflorescence in general education continued until the election of Ronald Reagan in 1980, which accompanied a period of ultra-conservatism, increased materialism and national indulgence in personal gratification — what Tom Wolfe called the "Me Generation."

In several divisions and to varying degrees, MU participated in these surges of educational refocusing and reform. In 1951-52, for example, the Carnegie Foundation for the Advancement of Teaching funded two conferences here, the Program for Improvement of Instruction in Colleges and

Universities in Missouri, conferences that resulted in the 1954 publication, *The Teaching of the Social Sciences*, edited by Donald F. Drummond, then director of the Program for the Improvement of Instruction. The collection of essays went through three editions and became a forum for the improvement of undergraduate instruction. The last edition, edited by professor of English Jim Holleran, appeared in 1970 as *Toward Better Teaching*. In the mid-'70s, Assistant Provost Laverne Walton headed up the Task Force on Undergraduate Instruction and in the mid-'80s, Professor of history Bob Collins chaired the College of Arts and Science Dean's Committee on Excellence in Teaching and Learning. These efforts notwithstanding, the 1985 North Central Association (NCA) site visitation team, while applauding the education of MU students in their majors, expressed concern about the narrow preparation of a significant proportion of the University's undergraduates in basic skills and general education.

In response to NCA concerns, Chancellor Barbara Uehling appointed Professor Bob Arkin (psychology) chair of the Task Force on Basic Skills to examine the problem. Under Provost Lois DeFleur, this task force evolved into the Task Force on General Education, chaired by Honors College Director Stu Palonsky. Palonsky wrote the *General Education Architecture*, the document that grew out of task force deliberations and received unanimous task force approval on Feb. 28, 1989. Professor Paul Casey (German) chaired the Implementation Committee of the General Education Task Force to determine the architecture's costs, submitting a final report on Feb. 28, 1991. On Oct. 23, 1992, the Board of Curators charged each campus in the University of Missouri System with the implementation of a general education curriculum. Consequently, MU established the Committee on Undergraduate Education (CUE) in 1992, with English Professor Howard Hinkel as chair, to serve as steering committee to implement the components of the program and oversee its operations. Erik Fritzell, professor of natural resources, guided CUE in 1993-94. Warren Zahler (biochemistry) is the current chair. Gil Porter (English) was named director of the General Education Program in 1994.

As a part of what can now be identified as a fourth stage in general education nationally, MU has seen a proposal grow into a program during an eight-year period. This has happened after extensive deliberations and consultations with all affected constituencies. Two of the components for basic skills and competencies called for in the General Education Program are already in place (the two writing intensive courses and the many math reasoning proficiency courses) and a third (computer and informational literacy) is scheduled for implementation in the fall of 1995. The distribution requirement (cluster courses and the laboratory experience) has been approved for implementation in the fall of 1996. The undergraduate seminar and capstone experience elements of the program remain in the planning stages but are scheduled for implementation by the fall of 1997. The foreign language requirement is being held in abeyance pending further study.

The General Education Program does not advance like a racehorse at a heedless gallop. It proceeds like the Missouri mule, at a steady and purposeful pace.

## 50 Big Brothers/Big Sisters Needed in Columbia!

Kids today are facing new challenges everyday, especially kids who are growing up in single parent homes. Being a Big Brother or Big Sister can help. By being a friend and a mentor, you can make a big difference in the life of a child on our Columbia waiting list. Whether you like to play baseball, visit a museum or like to talk, you can share these activities with a child. To join our other volunteers, phone 874-3677. Qualifications: 18 years of age and older, one year, 3 hours a week.

# FORUM

*Editor's note: What follows is an open letter from Jane Cooper, chairwoman of the MU Staff Advisory Council. Cooper discusses a proposal from the Missouri Students Association that would shift parking assignments for some staff from the central campus to outlying commuter lots. Also included is a Sept. 26 letter from the Staff Council to the campus parking committee commenting on the proposal.*

The MU Staff Advisory Council has received many letters concerning the parking proposal that is before the campus parking and transportation committee. The council responded with a letter to the parking committee and I attended the Sept. 29 parking committee meeting to express staff concerns.

At this meeting a subcommittee was formed to review and gather information on MU's parking situation and to review the MSA proposal. A combination of staff, faculty and students make up this subcommittee. Its first meeting is Oct. 27.

To this date, nothing has been done or decided about the parking proposal. It will be the job of the subcommittee to research and study this issue thoroughly and make recommendations. Parking has always been a concern at MU and it will take several months to delve into the issue. During this time, the MU Staff Advisory Council plans to stay involved with the parking committee and keep staff informed of any developments.

Your suggestions and concerns are welcome and can be sent to the Staff Advisory Council office at 319 Jesse Hall, or to Guy Schupp, parking committee chairman, at 418 Physics Building.

To Jim Joy, director of Parking and Transportation Services, and Guy Schupp, professor of physics and chairman of the MU parking and transportation committee:

At the last MU Staff Advisory Council meeting we discussed Chris Busenhardt's parking proposal for students and staff. We have received many calls from staff who are concerned about the proposal and this has prompted the Staff Advisory Council to address your committee.

The MU Staff Advisory Council recognizes that parking has been an ongoing problem for faculty, staff and students and is a difficult issue for an institution our size. We understand the issues Chris Busenhardt raises, for we all share the same concerns. However, reviewing the current student shuttle service routes with the possibility of adding more stops and pickups may be appropriate.

Through the years, parking fees have consistently increased for routine maintenance, additional parking garages and for future parking availability. Staff and faculty have been told that we are "investing" in our future for parking. We do not want our investment to disappear.

We trust the campus parking and transportation committee will recommend prudent use of the limited parking space available on campus. We also recommend that prior to any policy change the committee will take the time to seek input from all groups affected.

Jane Cooper, Chairperson  
MU Staff Advisory Council

Shocklee says, and materials will be stored and assembled in this area. The sidewalk along the south side of Stewart Road will remain open to pedestrian traffic. Shocklee recommends that vehicles detour one block south on Fourth or Fifth streets to Conley Avenue to avoid the construction area.

**Q.** I've heard a rumor that staff are being reassigned to remote parking locations, the "bus lots," and that students are being given the core campus spaces. True?

**A.** Not true, says Jim Joy, director of Parking and Transportation Services. The parking office has heard the rumor too, but it is NOT in the process of relocating staff to outlying lots, he says. However, a subcommittee is reviewing the priorities used in assigning parking spaces. They are gathering information and will issue a recommendation at the end of the winter semester. To comment, contact Guy Schupp, chairman of the Campus Parking & Transportation Committee, 418 Physics Bldg.

# Q&A

**Q.** Stewart Road was closed a few weeks back in the block that fronts along the University Power Plant. I understand the street won't reopen until next spring. That's the route I take to and from work every day and I wonder why the road will be closed for so long.

**A.** A one-block section of Stewart Road, between Fourth and Fifth streets, is temporarily closed because a new boiler is being installed in the MU Power Plant. Phil Shocklee, assistant director of Campus Facilities, says the project is scheduled to be completed in May 1995. A crane will be set up in this section of Stewart Road to lift materials and equipment into the power plant,

## PANIC ATTACKS

A **PANIC ATTACK** is defined as the sudden onset of intense apprehension, fear or terror often associated with feelings of impending doom. Or it can involve the sudden onset of intense physical sensations or symptoms. These may include the following:

- Racing, pounding heartbeat or chest pressure
- Shortness of breath or smothering sensations
- Sweating, hot flashes or chills
- Fear of dying or doing something uncontrolled
- Trembling, shaking, numbness or tingling sensations
- Dizziness, unsteady feelings or faintness
- Nausea or abdominal distress

If you have at least four **PANIC ATTACKS** per month, you may qualify for a free research program being conducted at the University of Missouri Hospital and Clinics involving the use of an investigational anxiety-reducing medication. If you are between the ages of 18 and 60, and have no serious medical illness, please contact Lynn at **882-0408**.

The year was 1969. The Mets won the World Series. The first man walked on the moon. And 203 people in Columbia, Missouri pooled their resources to start a credit union.

Today, that little credit union boasts more than \$50 million in assets and \$3.5 million in capital. And the force behind this phenomenal growth is YOU.

When you deposit your money at Mizzou Credit Union, you don't just become a customer. You become an owner, a shareholder in this venture started 25 years ago.

Your ownership keeps us focused on you and your financial needs. Whether it be a high yield on your CD's or a low interest loan, Mizzou is dedicated to keeping you satisfied.

Thanks to our members, for making Mizzou your credit union for the past 25 years! We look forward to serving you for many years to come!

# CALENDAR

Send calendar items in Campus Mail to *Mizzou Weekly Calendar*, 407 Reynolds Center, by noon Thursday the week before publication. Events are free and open to the public unless otherwise noted.

## Concerts & Plays

### STUDENT ENSEMBLE SERIES:

University Philharmonic will perform its Halloween Concert at 7:30 p.m. Oct. 28 in Jesse Auditorium. Call 882-2604.

**FINE ARTS SERIES:** Cultural Odyssey, performing artists from San Francisco, will present *Shoehorn!* and *The Blue Stories: Black Erotica on Letting Go* at 8 p.m. Oct. 28 in Rhynsburger Theatre. On Oct. 29, the group will perform *Shoehorn!* and *Big Butt Girls, Hard-Headed Women* at 8 p.m. in Rhynsburger Theater. Cost: \$6 faculty, staff and retirees, \$5 students.

**CONCERT:** Humongous Mingus will hold a pre-concert "Meet the Artists" at 7 p.m. Oct. 29 in Jesse Wrench Auditorium. This session is open to the public. Their concert will follow at 8 p.m. in Jesse Hall. Tickets are \$9 for students and \$13 for the general public. For more information or to order tickets by phone, call 882-4640.

**FACULTY RECITAL SERIES:** Eva Szekely and Daniel Schene will play at 8 p.m. Oct. 31 in Whitmore Recital Hall. Call 882-2604.

**STUDENT ENSEMBLE SERIES:** Buder Woodwind Quintet will perform at 2:40 p.m. Nov. 1 in Whitmore Recital Hall. Call 882-2604.

**STUDENT ENSEMBLE SERIES:** Marching Mizzou Xtravaganza will be held at 7:30 p.m. Nov. 2 in the Hearnes Center. Call, 882-2604.

## Conferences

**BIOLOGY CONFERENCE:** The Midwest Conference on Population Biology will be held Nov. 5-6 in 7 Hulston Hall. Registration is due prior to Nov. 4. Cost: \$15 students, \$25 professionals. For more information, or to register, contact Kim McCue-Harvey or Anthony Ippolito at 882-2688 or by E-mail: mccueharvey@biosci.mbp.missouri.edu.

## Courses

**CHILDBIRTH CLASS:** Beginning Childbirth will be offered from 7-9 p.m. on Tuesdays through Nov. 29 in the seventh-floor classroom at Ellis Fischel Cancer Center. The cost is \$45. To register, call 882-6973.

**CAMPUS COMPUTING:** "Introduction to WordPerfect 2.1" will be offered from 8:30-11:30 a.m. Oct. 27 in 266 Heinkel

Building. To register, call 882-2000.  
**CAMPUS COMPUTING:** "Introduction to Ricemail and Listservs" will be offered from 1:30-4:30 p.m. Oct. 28 in 266 Heinkel Building. To register, call 882-2000.

**CAMPUS COMPUTING:** "Introduction to Dial-up Connections" will be offered from 9:30-11:30 a.m. Nov. 2 in 226 Heinkel Building. To register, call 882-2000.

**CAMPUS COMPUTING:** "Introduction to CMS/RiceMail" will be offered from 1:30-4:30 p.m. Nov. 2 in 266 Heinkel. To enroll, call 882-2000.

**ENGINEERING EXTENSION:** "Hazardous Waste Sampling" will be held Nov. 3 in W1000 Engineering Building East. Cost: \$195. Call Virginia Nettleton at 882-2087.

**CAMPUS COMPUTING:** "Introduction to WordPerfect 3.0" will be offered from 9 a.m. to noon Nov. 3 in 266 Heinkel Building. To register, call 882-2000.

American cultures of North American and Missouri history are on display. The museum, located in Swallow Hall, is open from 9 a.m.-4 p.m. Monday through Friday, and 10 a.m.-1 p.m. on Saturdays of home football games.

### MUSEUM OF ART AND

**ARCHAEOLOGY:** "Brilliant Stories: American Narrative Jewelry" is on display Sept. 24-Nov. 6. "Reinstallation of Ancient Art from the Permanent Collection" will be on display in November. "Ways of Looking" will be on display Nov. 1-Dec. 18. Also on display is "Isms and Others in the 20th Century." The museum, in Pickard Hall, is open from 9 a.m.-5 p.m. Tuesday through Friday; 6-9 p.m. Thursday; and noon-5 p.m. Saturday and Sunday.

### STATE HISTORICAL SOCIETY:

"Reflections on Missouri," a study in pen and ink of historical landmarks and places of interest around the state will be on exhibit in the gallery through mid-December. Corridor exhibits are "The Contemporary Artists Collection" and "Decades: 1893 to 1964, Editorial Cartoons." The gallery is open 8:30 a.m.-4 p.m. Monday through Friday. The corridors are open from 8 a.m.-4:30 p.m. Monday through Friday and 9 a.m.-4:30 p.m. Saturday.

**UNIVERSITY ARCHIVES:** "MU Moo," an exhibit of photographs and memorabilia on the history of the dairy science department, 1899-1950, is on display through October in the Memorial Union south wing exhibit case.

## Exhibits

### BRADY COMMONS GALLERY:

Photography and painting by Russel Adams will be on display Oct. 17-27. James Downey "Paper Marbeling" will be on display Oct. 31-Nov. 10. Michael Cramer "Mixed Media" will be on display Nov. 14-29. Paintings by Phil Slein will be on display Dec. 1-13. The gallery, located in 203 Brady Commons, is open from 10 a.m.-5 p.m. Monday-Friday.

**ELLIS LIBRARY:** Highlights from the National Women in Media Collection will be on exhibit in 23 Ellis Library, Western Historical Manuscript Collection, through November. The collection is open from 8 a.m.-4:45 p.m. Monday through Friday and from 8 a.m.-9 p.m. on Tuesday.

**MUSEUM OF ANTHROPOLOGY:** Exhibits on Missouri archaeology, Native

## Campus Computing

# Short Courses

The following non-credit short courses are offered at no charge to MU faculty, staff and graduate students unless otherwise noted. *Registration is required and is done on a first-come, first-served basis.* Participants may be enrolled in **no more than two courses** at one time. To enroll, please call 882-2000. *Note:* This is only a partial list; additional courses will be advertised in future issues of the *Mizzou Weekly*.

### FOCUS ON FACULTY COURSES

**Introduction to the Internet**  
October 25, 1:30 - 4:30 pm

This course will provide users with an introduction to the history and composition of the Internet, how it is linked together and how it functions. Topics will include a background and explanation of the Internet protocol suite and its components, and introduction to "surfing" tools such as Archie and Veronica. Prerequisite(s): Basic knowledge of microcomputers. A MIZZOU1 ID is required prior to attending class.

**Introduction to Telnet**  
October 27, 1:30 - 4:30 pm  
266 Heinkel Building

In this course, users will learn the protocol and functions of Telnet as a means to access remote computers through the Internet. Participants will learn to "telnet" to remote systems such as library catalogs, databases, weather centers, and other resources. Internet "surfing" tools such as Gopher will also be discussed. Prerequisite(s): A MIZZOU1 ID is required prior to attending class.

**Introduction to RiceMail and LISTSERVs**  
October 28, 1:30 - 4:30 pm  
266 Heinkel Building

This hands-on class will teach you how to use RiceMail, an electronic mail system available on MIZZOU1. You will also learn the use of

electronic discussion groups as a resource for discipline-specific sharing of information. Learn where to find out about lists, how to join a discussion group, and how to participate in an on-line discussion. Prerequisite(s): A MIZZOU1 ID is required prior to attending the class.

**Finding Information On The Internet**  
2: November 4, 1:30 - 4:30 pm

Lost in cyberspace? This is an intermediate course for those who can use gopher, telnet and FTP but don't know where to find the information they need. Participants will learn how to find subject guides to the Internet and learn how to use the finding tools Veronica and Archie. They will also learn how to search Listserv archives. Prerequisite(s): A SHOWME or MIZZOU1 ID is required prior to attending the class.

### FACULTY, STAFF AND GRADUATE STUDENT COURSES

**Introduction to WordPerfect 3.0**  
November 3, 9:00 am - noon

For those experienced with the basics of operating a Macintosh. A hands-on introduction to the basic features of the word processing program WordPerfect. Topics include step-by-step looks at how to enter, edit, style and format text, how to print a document, and brief coverage of more advanced features such as columns and graphics. Prerequisite(s): Introduction to the Macintosh or a working knowledge of the Macintosh.

**Introduction to Dial-up Connections**  
November 9, 9:30 - 11:30 am  
226 Heinkel Building

This lecture and discussion will overview basic concepts and the hardware and software needed to access the University computing resources using a modem from home or office. It will not cover SLIP connections. Prerequisite(s): None.

**Introduction to MacSLIP**  
November 16, 2:00 - 4:00 pm  
226 Heinkel Building

This lecture/discussion will overview how to install/configure MacSLIP and MacTCP to allow your Macintosh to communicate with campus resources, and Internet resources world-wide. Prerequisite(s): Basic Macintosh knowledge such as opening the Control Panel and using pop-up menus.

Auditorium. Cost is \$2 in advance, \$2.50 at the door.

**MSA/GPC FILM: *The Haunting*** will be shown at 8 p.m. Oct. 31 in Ellis Auditorium Free with faculty/student I.D..

**MSA/GPC FILM: *The Man Who Fell to Earth*** will be shown at 8 p.m. Nov. 2 in Ellis Auditorium. Free with faculty/student I.D.

## Lectures & Seminars

**HUMAN DEVELOPMENT AND FAMILY STUDIES COLLOQUIUM:** Debbie Bell-Dolan, department of psychology, will present "Social Functioning of Anxious Children" at 3:30 p.m. Oct. 28 in 209 Gwynn Hall.

**CONTINUING LEGAL EDUCATION LECTURE:** John S. Moye will present "The Art and the Law of Depositions" from 8:30 a.m.-4:30 p.m. Oct. 27 at the Reynolds Alumni and Visitor Center. Cost: \$125. To register call 882-7251.

**WORK STUDY SUPERVISOR WORK SHOP:** "Creating a Productive Work Environment for Work Study Students" a panel discussion of how various departments motivate and utilize the talents of their work study students will be offered from 3:45-5:00 p.m. Oct. 27 in 220 Noyes Hall. Refreshments provided.

**ART AND ARCHAEOLOGY LECTURE:** Arielle Kozloff, curator of ancient art at The Cleveland Museum of Art, will present "The Sun Pharaoh Amenhotep III, his Queen Tiy, and their Baubles" at 7:30 p.m. Oct. 27 at the Museum of Art and Archaeology.

**PHYSIOLOGY SEMINAR:** John C. Fowler, assistant professor of physiology at Texas Tech University Health Sciences Center, will present "Does Protein Kinase C Activation Result in a Fragile Post-ischemic Hippocampal Neuron?" at 1:30 p.m. Oct. 28 in M437 Medical Sciences Building. Refreshments will be served at 1:15 p.m. in M436A.

**ENTOMOLOGY SEMINAR:** Bruce Barrett, assistant professor of entomology, will present "IPM Research on the Major Lepidopterous Apple Pests in Missouri" at 2:40 p.m. Oct. 28 in 2-7 Agriculture Building.

**BIOCHEMISTRY LECTURE:** James Spudich, Stanford University, will present "Molecular Motors: The Mechanisms of Myosin Contraction" at 4 p.m. Oct. 28 in Townsend Auditorium. Refreshments will be served at 3:45 p.m.

**BIOCHEMISTRY LECTURE:** Harvest Collier, UMR, will present "Minority Master Student" at noon Oct. 29 in N201 Memorial Union.

**SOIL AND WATER RESOURCES SEMINAR:** Susan Flader, professor of history, will present "Developing an Undergraduate Studies Certificate at MU" from 3:40-4:30 p.m. Oct. 31 in 133 Mumford Hall.

**JOURNALISM MULTICULTURAL MANAGEMENT SEMINAR:** "Creating a Vision for your Newsroom" will be held Nov. 1-10 in Gannett Hall Tucker Forum. For a schedule of times, call Sheila Pauley at 882-1575.

**PHARMACOLOGY RESEARCH SEMINAR:** Byung Hee Han, graduate research assistant of pharmacology, will present "Identification and Characterization of Erythropoietin-Response Gene in the Murine Erythroid Progenitor Cells" at 11:40 a.m. Nov. 1 in M558 Medical Sciences Building.

**BIOLOGICAL SCIENCES SEMINAR:** Barbara Kunkel, Washington University, will discuss plant disease resistance at 3:40 p.m. Nov. 1 in 18 Tucker.

**CHEMICAL ENGINEERING SEMINAR:** Chung-Kuang Thomas Yang, Ph. D. candidate of chemical engineering, will present "Thermal Radiation Properties of Polymer/Ceramic Composites" at 3:40 p.m. Nov. 1 in W0015 Engineering Building

**NEW EMPLOYEE ORIENTATION:** A seminar for new employees will be held from 8:30 a.m. to noon Nov. 2 in 146 Heinkel Building. Call 882-4256.

**CASE-IN-POINT:** A discussion using case studies to reflect on teaching and learning in writing intensive courses will be offered from 11:45 a.m.-1 p.m. Nov. 2 in 325 GCB.

**MIDDAY GALLERY TALK:** Dana Everts-Boehm, folklife specialist Missouri Folk Arts Program, will present a folk arts program at 12:15 p.m. Nov. 2 in the Museum of Art and Archaeology.

**PHYSIOLOGY SEMINAR:** Elmer Price, assistant professor of veterinary biomedical sciences, will present "Biochemical Studies of the Recombinant Cystic Fibrosis Transmembrane Conductance Regulator" at 2:40 p.m. Nov. 2 in M437 Medical Sciences Building. Refreshments will be served at 2:20 p.m. in M436A.

## Meetings

**STAFF ADVISORY COUNCIL:** The group will meet at 1:15 p.m. Oct. 27 in S207 Memorial Union.

**FACULTY COUNCIL:** The group will meet at 3:40 p.m. Nov. 3 in S110 Memorial Union.

## Special Events

**HANCOCK II INFORMATIONAL FORUM:** Learn more about the controversial Nov. 8 ballot issue on Friday, Nov. 4, from noon to 1 p.m. in Jesse Auditorium. Participants will include Chancellor Charles Kiesler, Faculty Council Chairman Ed Hunvald, Columbia Public School Superintendent Joel Denney, Legislative Affairs Coordinator Marty Oetting, Staff Advisory Council Chair Jane Cooper and Steve McCartan, Missouri Student Association president.

**FLU IMMUNIZATIONS:** University Hospital and Clinics will offer flu immunizations on Thursdays from 9 a.m. to noon and from 3-6 p.m. through Dec. 21 at the Health Information Center in Columbia Mall. The vaccine will be provided free of charge to persons over age 65 or with chronic illness. Others will be charged \$5.

**ALCOHOL AWARENESS EVENT:** ADAPT and Residential Life are sponsoring "PARTY Halloween Campaign" from 9 a.m.-3 p.m. Oct. 27 in Brady Commons.

**WOMEN'S CENTER:** Lesbian Roundtable Dinner will be held at 6 p.m. Oct. 27 for location call the Women's Center at 882-6621.

**JOURNALISM SYMPOSIUM:** "Stepping In Many Rivers At Least Once": A Tribute symposium on general semantics honoring Dean Emeritus Earl English will be held Oct. 28 and Oct. 29 at the School of Journalism. For more information, call 882-7557.

**WOMEN'S CENTER:** "The Burning Times" will be shown at noon, 4 p.m. and 7 p.m. Oct. 31 at the Women's Center 229 Brady Commons.

**HAUNTING HALLOWEEN:** Children's Hospital, Columbia Parks and Recreation KMZ-TV 17 and K102 radio will host "Haunting Halloween" from 6-8:30 p.m. Oct. 31 at Rainbow Softball Center in Cosmopolitan Park, Business Loop 70 West, a fun-filled evening of Halloween escapades, costume contests, the famous Parks and Recreation haunted house, spooky games, entertainment and Halloween treats. Refreshments will be available, and there will be activities for all kids up through and including sixth grade.

**WOMEN'S CENTER:** "It's A Man's World—Unless Women Vote" panel will be held at noon Nov. 2 at the Women's Center, 229 Brady Commons.

**WOMEN'S CENTER:** Diane Lamar, licensed professional counselor in private

practice, will present "Loving Yourself: Self Esteem" at 7 p.m. Nov. 2 at the Women's Center, 229 Brady Commons.

**PEDEN PRIZE RECEPTION:** Ellen Akins, 1993 Peden Prize Winner, will be honored in a reception at 6 p.m. Nov. 3 at First National Bank, 801 E. Broadway, Landrum Room-second floor. The Peden prize is awarded to the best short story submitted to *The Missouri Review* each year. Call Jane Johnson or Jacki Gale at 449-3911.

The Freeze is on, but it's business as usual at S.O.S...

During this unusual and trying time, we stand poised and ready to meet your needs.

THE UNIVERSITY OF MISSOURI DEPARTMENT OF THEATRE presents

# Cultural Odyssey!

*San Francisco's Hottest New Act -- our Guest Artists-in-Residence*

October 28 and 29 - 8 p.m.

## Rhynsburger Theatre

Fine Arts Building  
SW Corner University Ave & Hill St. Columbia, Missouri 65211

**CALL 882-PLAY FOR TICKETS - \$5, \$6, \$7**

Visa/Mastercard/Discover

This program made possible by support from the offices of the MU Vice Provost, the MU Lectures Committee, and the MU College of Arts and Science. Partial funding for "SHOEHORN" made possible by the National Endowment for the Arts Opera/and the L.J. Skaggs and Mary C. Skaggs foundation.

# Nouveau police

Brian Weimer is one of nine members of the University Police Department's new bike patrol. He likes the duty. "It's different," he says, "and it keeps you in shape too."

M  
YOU

Weimer and his colleagues patrol the campus atop nubby-tired mountain bikes. The program was designed to make campus police more visible and extend law enforcement to all parts of campus.

The new program seems to be having a public relations benefit too. Campus pedestrians rarely stop to chat with a uniformed officer in a patrol car, Weimer says, but they often strike up a conversation with a cop on a bike.

"They see me as more of a person now," he says.

At least one officer is on campus bike patrol during each shift. They concentrate on areas not reachable by car, such as the Quadrangle and Lowry Mall. They make it a point to get behind buildings and down tight alleys and otherwise frequent secluded places.

During bad weather or late at night, the officer and his or her immediate supervisor decide whether to bike or drive. Weimer prefers the bicycle.

"Everyone notices the bike," he says, "and seeing us around more may help deter crime. And the heightened visibility makes people feel good. They like to know we're there." — *Story and photo by Nancy O'Connor*

## United Way supports quality day care

Just when Mizzou student Michael Goldsmith and his wife, Melissa, were beginning to despair of finding affordable, quality day care for their son, they discovered the Hinkson Infant Toddler Center, a division of Community Nursery Schools and a United Way agency.

"We called around to several day-care facilities, but they were all so expensive," Melissa says. "Then I called the Hinkson Center and it worked out so we could afford it."

The center is able to offer an adjustable rate to low-income parents because it receives supplemental funding each year from the Columbia Area United Way. Tuition is based on the parents' gross monthly income.

"Without our United Way funding, we couldn't continue to offer the same quality programs," says Eva Morrow, center supervisor.

The Hinkson Infant Center, which provides day care for 16 infants ranging in age from 6 weeks to 2 years, has attracted a number of MU families, mostly students.

The center is certified by the Missouri Board for Voluntary Accreditation of Early Childhood and School-Age Education Programs. It provides one teacher for every four children.

Infant care is expensive because of the low teacher-to-child ratio, Morrow says. "The United Way funding helps make our facility accessible to families with infants."

The Hinkson Center is one of three facilities under the umbrella of Community Nursery Schools, all of which receive funding from the United Way. The other two facilities, Hinkson Children's Center and Ripley Children's Center, provide care for children ages 2 through 8. Community Nursery Schools have been in operation since 1934.

The Columbia Area United Way helps support 28 member agencies and more than 60 local programs. The Hinkson Center and the two additional Community Nursery Schools have been member agencies since the local United Way was initiated in the 1940s.

Support for families and children traditionally ranks at the top of the United Way's list of most-needed services. In 1993, the United Way gave 34 percent of its local dollars to family and children's programs.

"Thanks to United Way, we are able to provide a quality service that's affordable," Morrow says.

For the Goldsmiths, the Hinkson Infant Center has been a salvation.

"Seth loves it, and I feel so good about him being there," Melissa says. "You always hear such good things about United Way. Now I know why."

Seth Goldsmith, left, enjoys his Hinkson Center experience. As of Oct. 21, MU employees had donated \$162,093 to the United Way. That sum represents 70 percent of Mizzou's goal of \$230,000.
