

# MIZZOU

W E E K L Y

University of Missouri-Columbia / May 4, 1995

This is the last *Mizzou Weekly* of the semester. We're taking a break, but we'll be back June 15. If you've got any items for the summer semester calendar, start sending 'em in.

## On the rebound

*The food's always been good at the University Club. Now the financial picture is too.*

A few of the recent changes at MU's University Club have been obvious. Menu offerings have been reshuffled, and the dining room is open fewer hours.

But the biggest change may not be as apparent. Beginning in January 1994, a new leadership team led by Kee Groshong, vice chancellor for Administrative Services, put in place a management philosophy that stresses efficiency and cost savings.

The restructuring has led to a dramatic turnaround in the club's bottom line. During the first six months of the last fiscal year — from July to December of 1993 — the club lost \$122,000. During the first six months of this fiscal year, the operation is in the black by \$77,000.

The University Club was inaugurated in April 1992. Although it ran into financial trouble, the club quickly built a reputation for excellence. The new management team studied the operation from top to bottom, Groshong says. "We went in and looked for ways to control costs without jeopardizing the club's reputation or its integrity."

That effort more than paid off. In addition to turning a profit, the University Club this year will make its first payment of principal and interest to repay an accumulated deficit. The club now is committed to a repayment schedule that will retire the debt.

"If that isn't a remarkable turnaround story, I don't know what is," says Bill Bondeson, University Club president and professor of philosophy. "We're on a roll; we're doing very, very well."

Working with food industry consultants Fessel International, the management team established a set of benchmarks to control overhead costs. "We asked, 'What are the industry standards for labor costs, food cost and other

expenses?' Once we established those benchmarks we made sure that we stuck to them," Groshong says.

The changes were only possible because of the commitment of a great number of people, says Rick Lampe, University Club executive chef. "Management asked the right questions, took that information and calculated a plan of attack. Then we implemented each phase of that plan and it worked," Lampe says. "We put our hearts and souls in this."

Pat Ives, one of the club's board of directors, agrees with Lampe's assessment. "The staff pulled together and worked very hard to turn things around," says Ives, development officer for the College of Education. "The success also indicates there is a lot of support for the club in the University community. Hopefully, we'll be able to build on that base."

Even more changes are under way; last month, Crystal Thomas came on board. Thomas, the former club manager at the University of Calgary for 20 years, will work with Groshong's team to fine-tune operations and develop a marketing strategy to increase membership and plan special programs.

As club president, Bondeson says he and other members are excited about the impact they expect Thomas to have on club operations. "She has a superb reputation among club managers around the country," Bondeson says. "We're just tickled to have her."

## A double serving of quality

*The University Club now is responsible for all campus catering.*

Crystal Thomas, far right, came on board in April. She and other University Catering staff, from left, Chef Brenda Righter, Sales Representative Joyce Nichols, Assistant Manager Tom Claypool and Executive Chef Rick Lampe will help expand campus dining options.

Nancy O'Connor photo

The finishing touches aren't all in place yet, but food production is going full tilt at the new catering kitchen in the Memorial Union. The kitchen, on the second floor of the Union, is one indication of the changes under way in MU's campuswide catering operation.

Campus Catering, formerly a unit of Campus Dining Services, has moved under the administrative umbrella of the University Club. The operation now is called University Catering.

The move will capitalize on the club's "proven track record of excellence," says Rick Lampe, University Club executive chef. "We want to use that as a momentum to build the reputation of our catering opera-

tions across campus. What our clients will notice is an enhanced food presentation and the same integrity and wholesomeness that we offer at the University Club."

Kitchens at the club will continue to prepare food for functions in the Reynolds Alumni Center. University Catering will handle events at the newly redecorated Memorial Union and at other campus locations. Both units will report to Kee Groshong, vice chancellor for Administrative Services.

Extensive remodeling at the Union, funded through the office of Charles Schroeder, vice chancellor for Student Affairs, is expected to draw even more business for the new catering unit.

Consolidating Mizzou's catering efforts was a recommendation from food-service consultants Fessel International. The consulting firm, based in Irvine, Calif., studied a wide range of food operations at MU.

"The consultants really looked at the entire scheme of things on campus," Groshong says. "We realized that by combining forces we can improve the food and the service. Sharing resources will allow us to be more efficient and that helps keep the costs down."

Brenda Righter, who previously worked with Lampe at the University Club, has signed on as chef for University Catering. Earlier this year, she and Lampe started building new menus for the combined

catering operation. They kept some old favorites and developed a host of new offerings.

Will prices be higher at University Catering because of its affiliation with the University Club? "Not at all. That's the last thing we want to do," Lampe says. "We tried to keep the same price ranges. In fact, we even reduced a few prices."

"We recognize that some of our clients will use the Memorial Union and the services we offer in that facility; others will want to hold their functions at the Reynolds Center. We want to remain sensitive to the needs of both those groups," Lampe says. "We're trying to make the entire operation more customer-friendly."

**SPORTS CAMP!**

Registration is under way for the MU Recreational Sports Camp for children ages 7 - 12. It is designed to improve the sports skills of participants, but the emphasis is on fun. Instruction is geared so every child will be a winner — not by defeating another child, but by acquiring a new skill or improving skills he or she already possesses. The camp is designed to promote diversity in skills and interests, not specialization in any single activity. It is provided for the children of faculty, staff and students, although children of community members will be placed on a waiting list and may attend for a \$10 extra charge. Cost is \$140 per two-week session. Deadline is May 12. Call Diane or Marshall for more information, 882-2066.

**WANT A GOOD GRANT?**

The Missouri Arthritis Rehabilitation Research and Training Center (MARRTC) will host a grant-seeking workshop from 1- 5 p.m., Monday, May 15, in Acuff Auditorium, School of Medicine. Topics include resources for identifying sources of support, effective proposal writing, the study section viewpoint and navigating the NIH. Speakers include: Herbert Goldberg, associate dean for research and academic affairs, School of Medicine; John McCormick, interim vice provost for research and dean of the Graduate School; Dola Haessing, grants and contracts administrator, Office of Research; Kim Wise, professor of molecular microbiology and immunology and *ad hoc* member of the NIH bacteriology/mycology study section; Keith Kramer, scientific review administrator, division of research grants, NIH; Jerry Parker, chief of the psychology service at Truman Veterans Hospital and director of research, MARRTC. All members of the University community are welcome. Call Kathleen Koch, 882-1632, for more information.

**PART OF HITT STREET TO CLOSE**

On or around June 1, the south end of Hitt Street at Hospital Drive will be closed because utility lines are being installed for the ambulatory care clinic now under construction. The street will re-open around Aug. 1.

# 153rd annual Commencement Weekend

**A**ll members of the University community are invited to attend the 153rd annual commencement weekend activities Friday, Saturday and Sunday, May 12- 14. More than 3,000 students will receive degrees.

This year's events will feature some-

thing new — an Honor's Convocation in recognition of baccalaureate graduates achieving Latin or divisional honors. This ceremony, which replaces the traditional main commencement, will begin at 11:30 a.m. Sunday in Francis Quadrangle. It will take place by the Columns to commemorate

the centennial of the Quad and Jesse Hall.

The keynote speaker will be the president of the UM Board of Curators, just as it was 100 years ago when the Francis Quadrangle was dedicated in 1895. Adam Fischer will deliver this year's address. Also, the University will present an honorary degree to retired Maj. Gen. Carl Wilson Hughes, an MU alumnus and accomplished surgeon.

Another highlight of commencement weekend is the balloon glow at 8:30 p.m., Saturday, May 13, in celebration of the centennial of the Quadrangle.

In the individual commencement ceremonies taking place at several locations across campus, more than 2,000 undergraduates will receive bachelor's degrees, 820 students will be awarded graduate degrees and 321 students will receive professional degrees. The schedule for divisional commencement ceremonies is as follows:

■ College of Agriculture, Food and Natural Resources: 3 p.m., Sunday, May 14, Hearnes Fieldhouse

■ College of Arts and Science: 2:30 p.m., Sunday, May 14, Hearnes Center

■ College of Business and Public Administration: 7 p.m., Saturday, May 13, Hearnes Center

■ College of Education: 7 p.m., Saturday, May 13, Hearnes Fieldhouse

■ College of Engineering: 7:30 p.m.,

Saturday, May 13, Jesse Auditorium

■ Graduate School: Special recognition of master's and educational specialist candidates. Hooding of doctoral candidates. 7 p.m., Friday, May 12, Hearnes Center

■ School of Health Related Professions: 5 p.m., Saturday, May 13, Jesse Auditorium

■ College of Human Environmental Sciences: 2:30 p.m., Sunday, May 14, Jesse Auditorium

■ School of Journalism: 5 p.m., Sunday, May 14, Peace Park, west of Gannett Hall (in case of rain, Hearnes Center)

■ School of Law: Hooding ceremony, 2:30 p.m., Saturday, May 13, Jesse Auditorium

■ School of Medicine: 11 a.m., Saturday, May 13, Jesse Auditorium

■ School of Natural Resources: 7 p.m., Saturday, May 13, Middlebush Auditorium

■ School of Nursing: 5 p.m., Friday, May 12, Jesse Auditorium

■ ROTC All-Service Commissioning Ceremony: 6 p.m., Saturday, May 13, Townsend Auditorium

■ College of Veterinary Medicine: 2 p.m., Friday, May 12, Jesse Auditorium.

The MU Alumni Association will host an open house for all new graduates from 10 a.m. to 5 p.m., Saturday and Sunday, at the Reynolds Alumni Center. Refreshments will be served.

## Why guess?

## Say congratulations or thank you with a gift everyone will love.

A gift certificate from University Bookstore is perfect for someone you know getting an advanced degree, or a teaching assistant, intern or student worker who did a great job this year. With a gift certificate you know the recipient will end up with a gift they want — which makes everyone happy.

MAIN LEVEL BRADY COMMONS 882-7611 / TDD 882-3985  
OPEN: M-THURS: 8-7 FRI: 8-5 SAT: 9-4

**GIFT CERTIFICATES REDEEMABLE FOR ANYTHING SOLD AT UBS INCLUDING:**

- Mizzou Sportswear and gifts
- Music CDs & Tapes
- The latest best-sellers & other books
- Portfolios and leather carry bags
- Frames for diplomas & more!

### BALLOON GLOW ON MAY 13

As many as 12 hot air balloons will flank the Columns on Francis Quadrangle in a "balloon glow" celebrating the 100th anniversary of the Quad and Jesse Hall. All members of the University community are invited to attend the event, a part of MU's 153rd annual commencement weekend, from 8:30-9:30 p.m., Saturday, May 13. Truman the Tiger will be there and KOMU-TV's Randy Wright will do his live weathercast that night from the Quad. (In case of inclement weather, the glow will be canceled.)

The event is sponsored by Mizzou and the Missouri Balloon Corporation. Columbia will be host to the 1995 Wake Up to Missouri U.S. Hot Air Balloon National Championships to be held Aug. 18-27 at the Boone County Fairgrounds.

### 4-H BARBECUE ON MAY 20

The 32nd annual 4-H barbecue will be from 4-8 p.m., Saturday, May 20, at the Boone County Fairgrounds. The menu will feature chicken or pork steak and carry-outs will be available. Cost is \$5 for adults and \$2.50 for children, with those 12 and younger admitted free. Proceeds will benefit more than 900 Boone County youth by supporting activities such as scholarships for trips and exchanges, leadership training conferences and materials, awards for accomplishments and workshop supplies. Tickets are available at the Extension office, Bourn Feed and Supply, MFA AgriServices and all Nowell's Foods locations.

## Offices adopt summer hours

# Advisers Forum recognizes outstanding colleagues

Student advising at MU was center stage April 25, when the two winners of the 1995 Outstanding Adviser Award were announced at a reception in the Memorial Union. Donna Hanly, academic adviser in the Department of Political Science; and Tom Dougherty, professor of management, were honored for their contributions. The \$250 awards are sponsored by the MU Advisers Forum.

To some people, MU's cadre of professional advisers are the unsung heroes on campus. They help demystify the academic process for students and offer encouragement and support as students work toward their goals. They can be a friendly face on a crowded campus; sometimes they even help students think through personal problems.

"They do it all, and they do it cheerfully and competently," says Gil Porter, coordinator of campus advising and director of MU's general education program. "I'm just amazed at their fortitude. They do such a super job and get such little credit for it."

As an adviser to nearly 400 undergraduate political science students, Hanly says there's one query that she's gotten used to: "Students poke their head in my door and say, 'Do you have time for a quick question?' Some of those 'quick questions' take 20 or 30 minutes to answer."

But Hanly is more than happy to help. "I think a lot of students need close contact with someone on campus who is not a student," she says. "There are so many choices they face. It helps for them to talk about the different ways they can reach their goals. Each one has something different on their mind."

Students she advises know they're always welcome. At first, they might come for help in navigating the maze of degree requirements. Many of them return, however, to share their successes with Hanly — engagements and weddings, a high score on a graduate school entrance exam, or winning a coveted job.

"I've been delighted to learn what a thoughtful group students are. They care about what is happening and want to make a difference," Hanly says. "Being an adviser

Donna Hanley and Tom Dougherty are winners of the 1995 Outstanding Adviser Award.

Rob Hill photo

is a very rewarding job. Next to being a mom, it's the best job I've had."

For Dougherty advising is much more than sitting in his office with students, working out a schedule of courses. "That's a pretty minor part of it," he says. "Advising is something that includes many different types of activity."

For instance, Dougherty counsels students on career options, offers advice on graduate school, and serves as faculty adviser for two student organizations. "It's important not just to be an 'on-paper' adviser, but also to provide good out-of-classroom experiences for students."

The Advisers Forum has been active at MU for nearly 10 years. The group's 70 members are not all professional advisers, but include faculty, administrators and student services staff. "We try to encompass anybody who is a resource for students. All our members are interested in the success of MU students," says Suzanne Currence, forum chairwoman and student services coordinator for the College of Agriculture, Food and Natural Resources.

Currence says the administration's support for advising efforts has made a difference. The Office of the Provost provided funding for the first round of advising awards

and in recent years, Currence adds, a number of deans and unit leaders have supported additional professional development opportunities for academic advisers.

There have been payoffs already. MU advisers were instrumental recently in forming a statewide advisers group. Opportunities for more training has allowed some MU advisers to offer workshops for faculty advisers.

The forum's latest focus will be to identify the advising needs of first-time freshmen and undeclared students, Currence says. "We want to be a resource to help encourage and support quality advising."

## OPEN CLUB DAY!

If you aren't a member of the University Club or have never been to the Club, we invite you to experience the fine food and gracious service that our members enjoy on a daily basis.

On May 11th and 25th, the Club will open its doors to nonmembers for lunch & dinner so you can taste what you've been missing.

Take advantage of this great opportunity to dine at the University Club and enjoy the benefits of membership firsthand.

**Reservations Required: (314) 882-0844**

## SAVING ENERGY FOR A BETTER WORLD

**W**e've taken the lead in making sure that we use our energy resources efficiently by becoming an EnergyStar partner.

EnergyStar is an energy-conservation program of the Environmental Protection Agency. As the first in the Big Eight/Big Ten to join, we've committed to survey 50% of the building space on campus for energy-saving projects within the next five years. At Energy Management, we're helping you save energy for a better world.

Meet Deborah Walker, DNSc, CNM, (center) and Lisa Roberts, MS, CNM, (right) certified nurse-midwives at University Hospital. They are shown here with mom Samantha Atkinson-Ghio and baby R.S. Kellan Ghio from Columbia.

## Announcing certified nurse-midwives at University Hospital

*For* women who want an alternative  
delivery option in the security of a hospital.

University Hospital and Clinics and the MU Sinclair School of Nursing announce the addition of certified nurse-midwives who can deliver your baby at University Hospital.

Certified nurse-midwives are registered nurses educated in both nursing and midwifery. They guide healthy women safely through pregnancy, labor and delivery. Should complications develop, they will consult with obstetricians and neonatologists at University Hospital who are available 24 hours a day.

Our certified nurse-midwives concentrate on making the birth of your baby the personal experience it's meant to be — in a caring, comfortable environment. They stay with you while you're in labor as much or as little as you want. And after the baby is born, they provide appropriate follow-up care.

Certified nurse-midwives also provide other well-woman services such as family planning.

Nurse-midwifery care is covered by most private insurance carriers, managed care programs, Medicare and Medicaid.

For information or an appointment, call (314) 882-7184  
University Physicians Ob/Gyn Clinic at Green Meadows  
3211 S. Providence Road  
Columbia

# HEAD OF THE CLASS

Recipients of 1995 faculty awards may be from different disciplines on different parts of campus. However, they share one quality: They're numbered among the best in their fields.

Stories by Sue Salzer  
and John Beahler.  
Photos by Rob Hill

Maxine Christopher Schutz  
Award and Lecture for  
Distinguished Teaching

## James Carrel

Professor, Biological Sciences

Even in large lecture classes, students say that Jim Carrel treats each of them as an individual. They say he can make a crowded lecture hall seem like a small discussion group.

"The patience and attention he brings to every student inquiry is remarkable," a colleague says. "He regularly and routinely involves students in their own education by posing thoughtful questions and probing their responses. Students are not passive participants in his classroom and they quickly learn that they can reason to perfectly acceptable conclusions."

Fellow faculty members say that one of Carrel's most impressive achievements has been to initiate an honors section of the introductory biology course that is aimed at science majors. They point to the class as a further example of Carrel's unmatched devotion to his students.

"The laboratories in this section are unlike any other introductory laboratories on campus," says a colleague. "They are completely investigative, emphasizing hands-on, open-ended experimentation, observation and hypothesis development and analy-

sis. There are two three-hour lab periods each week, and Jim is *always* there."

His students have the latest scientific advances to draw on. Carrel brings to the classroom examples from his own pioneering research into the biology of spiders and insects. A number of his students, both graduate and undergraduate, have had the opportunity to work with Carrel in his lab.

Carrel's impact on education has been felt outside the MU campus. He's been active in the Missouri Academy of Science and was chairman of that group's science talent search award for high school students. He has worked with the state Coordinating Board for Higher Education to assess the needs for science education in Missouri.

The Schutz Award recognizes a faculty member who is an excellent teacher at the undergraduate level and actively involves students in the educational process. Maxine Schutz was the first woman to serve on the Board of Curators.

Frederick A. Middlebush  
Professorship in the  
Social Sciences

## Nelson Cowan

Professor, Psychology

Nelson Cowan is a nationally recognized opinion leader in the fields of cognitive and developmental psychology. His work, funded by the NIH since 1984, focuses particularly on short-term memory and selective attention and the childhood development and adult functioning of these processes.

He is author of the 1995 book, *Attention and Memory: An Integrated Framework*, more than 40 journal articles and 10 book chapters. He recently accepted an appointment as associate editor of one of the world's leading journals in experimental psychology, *Journal of Experimental Psychology: Learning, Memory and Cognition*.

His prominence as a researcher is suggested by the fact that he is regularly invited to discuss his research findings at national and international symposia at such institutions as Oxford, Cambridge, Yale and Washington University.

Evaluations of his teaching technique suggest a blend of art and science. He engages students by involving them in the scientific process, sometimes conducting an actual experiment as part of the learning experience. He is equally effective in his mentoring of graduate students, not only those in psychology but from other disciplines who seek him out as a reader of their

master's theses, comprehensive examinations and doctoral defenses. These students have come to know him through his cognitive psychology course, which has attracted students from many departments and even other campuses.

"Dr. Nelson Cowan represents the finest blend of world-class scholarship and first-rate teaching," one colleague says, "a mix of qualities that epitomizes the very best of what is expected of a professor in a public research university."

Frederick and Catherine P. Middlebush made a large gift to the University in 1959. This endowment currently supports numerous professorships. These professorships are for five years and recognize outstanding ability and demonstrated proficiency in both teaching and creative achievement and scholarship.

## Provost's Award for Creative Extension Programming by New Faculty

### Karen B. DeBord

Assistant Professor and State  
Extension Specialist, Human  
Development and Family Studies

Karen DeBord works to improve the lives of Missouri's children and their families. Her effectiveness was demonstrated shortly after her arrival at Mizzou in 1992, when disaster struck with the Great Flood of '93.

"Karen provided wonderful leadership and support to the field faculty addressing the insurmountable human dynamics issues," a colleague writes. Also during that time, DeBord helped produce creative and effective programs that will be useful with other populations coping with other types of disasters.

"She speaks knowledgeably and movingly about the large number of Missouri's children who are homeless," writes Bea Smith, dean of the College of Human Environmental Sciences. DeBord has worked with the state Department of Elementary and Secondary Education in conducting a biennial census of homeless children in Missouri and follow-up programming with school systems to address

issues related to that condition.

DeBord recently produced a learning video and guide called "Family Challenges," which received a National Council on Family Relations media award. The video creates discussion about and heightens awareness of the diversity of today's families and is being used by educators and private businesses.

"Karen is interested in addressing equity of ethnicity, culture and gender in early childhood education," one colleague writes. "All children should be given the gift to believe they can reach their potential. I believe this describes the drive behind Karen's professional work and personal philosophy."

The Provost's Award for Creative Extension Programming by New Faculty was established to recognize faculty who have made exceptional accomplishments in their first four years in the field of extension or continuing education.

## Catherine Paine Middlebush Professorship in the Humanities

### Richard Hocks

Professor, English

In his 30 years as an MU faculty member, Richard Hocks has had an impact on the literary world and on his colleagues at the University. Most importantly, Hocks has touched the lives of many of his students.

An internationally known scholar on the work of novelist Henry James, Hocks helped pioneer an interdisciplinary approach to the study of literature.

"He leaves a lasting impression on his students' minds — of a learned and generous person absolutely devoted to his work and to his students," says a colleague in the English department.

"Professor Hocks has a wonderful talent for teaching all of the humanities when he teaches literature," says a former student. "He incorporates music, art, philosophy, and the movement of history as he guides a class through a series of texts."

Critics call his first book, *Henry James and Pragmatic Thought*, a masterpiece and a seminal work in the field. Hocks'

strength, colleagues say, is his ability to combine a great breadth of coverage with rigorous analysis and at the same time to take fresh approaches to the material.

He has published widely on James and other topics in literature. He is a past president of the Henry James Society and is a contributor and reviewer for numerous journals. At MU, Hocks has been one of the central figures behind the success of the humanities sequence offered through the Honors College. He has headed the English department's honors program and been involved in numerous campus committees.

The Catherine P. Middlebush Professorship in the Humanities is for five years and recognizes outstanding ability and demonstrated proficiency in teaching as well as creative achievement and scholarship. The award is supported by a large endowment made to the University in 1959 by Frederick A. and Catherine P. Middlebush.

## Provost's Award for Outstanding Achievement in Extension and Continuing Education

### Barbara K. Froke

Associate Dean, College of Human  
Environmental Sciences

Barbara Froke serves the University at two levels: At MU she is associate dean for extension in the College of Human Environmental Sciences; for the UM System she is extension program director for family strengths. Though she is respected nationally and much sought-after as a speaker on family-related issues, her top priority remains effective extension program development in support of Missouri's families.

Her management approach is described as "participatory" and "nurturing." Writes an associate: "She keeps bureaucratic procedures limited, simple and efficient as possible, yet requires consistent and fair adherence to those procedures. She constantly urges pursuit of interdisciplinary programs, collaboration within and outside the unit, dreaming 'big' and searching for special funding."

She has written extensively about the effective integration of the research and extension functions of a land-grant university.

Her national leadership is reflected in the fact that she delivered the keynote lecture on issues related to at-risk children, youth and families at the 1994 National Children, Youth and Families At-Risk Conference in Washington, D.C.

Other recognitions of her professional accomplishments include the 1994 American Home Economics Association's National Leader Award, the 1991 North Central Region Mid-Career Award from Epsilon Sigma Phi and the Outstanding Senior Home Economists Award.

"She is a courageous leader who does not compromise, nor shrink from the responsibility of doing what is right," one colleague says of her. "This quality of her personality is evident in personal and professional ethics and in addressing the truly critical problems of families, youth and communities."

The Provost's Award for Outstanding Achievement in Extension and Continuing Education recognizes the outreach function of the University and those individuals who devote their attention to serving citizens throughout the state rather than undergraduate students in the classroom.

## Provost's Outstanding Junior Faculty Teaching Award

### Michael Kramer

Assistant Professor, Communication

Michael Kramer's scholarly reputation and his research in organizational communications are top-notch, say colleagues in the Department of Communication. But his fellow faculty members point to another important function that Kramer fills.

"Rather than some remote intellectual, Michael is a role model of the practicing teacher and scholar for his students to emulate," says a colleague. "His students frequently refer to his ability to incorporate research meaningfully into class discussions and they say how well he creates a positive environment for learning in his undergraduate classes as well as his graduate seminars."

Students say they can tell that Kramer is genuinely interested in their success. "He taught me a lot about the many functions of communication in organizations," says one student. "But more importantly he taught me that being an effective communicator means more than having basic speaking skills, it means listening, caring and making an effort to understand."

Kramer has been praised by the University community for overhauling MU's basic speech communications course. In the process, he worked with a number of different departments around campus to ensure that

the course met the needs of their students.

"An entire array of new teaching materials and learning options has been designed to use in delivering instruction," says a colleague in Kramer's department. "Undergraduate consumers and graduate teaching assistants alike have voiced their enthusiastic endorsement of the changes Michael instituted."

Students also endorse the personal touch Kramer brings to the classroom. "The true measure of respect is whether it has been earned or whether it is doled out simply because one has achieved the title of doctor," says another student. "Dr. Kramer has the title, but above and beyond all else, he has earned the respect of both his students and colleagues."

The award recognizes faculty with no more than five years of service for teaching excellence and dedication to the teaching and learning process.

## Thomas Jefferson Award Edmund Lambeth

Professor, Journalism

The Jefferson Award is given each year to a member of the University community who best exemplifies the principles and ideals of Thomas Jefferson.

Colleagues here at MU, the first public university in Jefferson's vast Louisiana Purchase territory, say Lambeth is the perfect candidate for an award that honors the ideals of the nation's third president. Lambeth's textbook on journalism ethics, *Committed Journalism*, is a bible, both in classrooms and in newsrooms around the country.

"The bedrock Jeffersonian political principle is, arguably, that a free press is central to a free society," says a colleague in the School of Journalism. "Dr. Lambeth, through more than a decade of his national workshop on the teaching of ethics in journalism, has, more than any other one individual, changed the way journalists think about their jobs."

On the workshop's 10th anniversary, one former student offered Lambeth this tribute: "What makes your influence in this field so astounding is your ability to inspire others. Through the dozens of teachers you've

taught, through the hundreds of ideas you've sowed. You've given the field a foundation that will serve as its base forever."

Lambeth was the founding director of MU's Washington Reporting Program following a distinguished career as a Washington correspondent. There, he served as a mentor to generations of new journalists.

"I was struck by Prof. Lambeth's teaching magic, his infusion of moral principles into daily journalism, the intense loyalty, worship might be a more accurate word, of his students," says a former student who attended the Washington program.

Colleagues say that Lambeth is a consummate teacher, but over a long career also has continued to be a eager student. "Dr. Lambeth has been a full professor for nearly 20 years, but his energy and enthusiasm for learning makes him seem like a hungry untenured faculty member," says a fellow MU professor.

Alumnae Anniversary  
Faculty Award

## Mary J. Neitz

Associate Professor, Sociology

As a member of the Department of Sociology and a leader in women's studies issues, Mary Jo Neitz has contributed extensively to the education of women at Mizzou.

"She has inspired, supported and challenged hundreds of young women through her teaching and advising," writes sociology Chairman Jim McCartney. "She has received national and international recognition for her scholarship on women's spirituality. Locally, her central involvement in committees and administrative work at MU has advanced the status of women on campus."

Neitz has added to the campus curriculum about women's issues, initiating and teaching several courses that focus on women and gender. Although she teaches other major courses in the sociology curriculum, "in all courses she infuses a feminist perspective to stimulate students to rethink their taken-for-granted views," McCartney says.

Her focus is women's religious experience in all its variety. She is author of

several books, including *Charisma and Community: A Study of Religious Commitment within the Catholic Charismatic Renewal*, an analysis of women's roles in the charismatic Catholic movement, that received high praise from reviewers.

Her service to the University extends beyond her research and teaching. She serves as a role model for her students and gives them a great deal of her time.

"On a campus that sometimes has ignored and even resisted the full incorporation of women, her numerous contributions have made an important difference," McCartney says.

The Alumnae Anniversary Faculty Award has been presented since 1970. It was established to celebrate the 100th anniversary of the admittance of women to the University. It is presented to a faculty member whose professional performance provides a role model for female students.

Chancellor's Award for  
Outstanding Research and  
Creative Activity in  
Creative and Performing Arts  
and the Humanities

## Elaine J. Lawless

Professor of English

Elaine Lawless' ethnographic research spans a variety of disciplines: religious studies, English, the theater, folklore, sociology, anthropology, communication, women's studies, human and environmental sciences.

The breadth of her knowledge is suggested in the fact she serves on master's and doctoral committees in each of these areas.

During her 12 years at Mizzou, she has taught survey of women's literature, women's folklore and feminist theory, themes in folklore, introduction to folklore and others. She has a particular interest in "women's verbal art" and has found that female writers, particularly ethnic ones, work to maintain their ties to the oral tradition.

She is frequently invited to speak at major universities for audiences of folklorists, anthropologists and other groups. She is a visible force in the American Folklore Society and serves on its executive board. She also was elected to serve as general editor of the folklore society's monograph series,

which publishes scholarly new books in the field of folklore.

The Chancellor's Award for Outstanding Research and Creativity in the Creative and Performing Arts was established in 1979 to acknowledge outstanding accomplishments by mid-career faculty. Four broadly defined disciplinary areas were established and two awards are given each year. Next year, awards will be given in the behavioral and social sciences and in the physical and mathematical sciences.

Chancellor's Award for  
Outstanding Research and  
Creative Activity in the  
Biological Sciences

## Kathleen J. Newton

Associate Professor,  
Biological Sciences

Colleagues say the chancellor's award for outstanding biological research could have been created with Kathleen Newton in mind. Although she is in the development phase of her career, Newton already has made several outstanding contributions to her field.

She has established her world-class research program by daring to be different. Since she came to Mizzou in 1984, Newton has embarked on a new avenue of research that will transform her field and bring her even greater international acclaim.

Newton has developed a unique experimental system to study the interaction of mitochondrial and nuclear genomes. By analyzing a set of mitochondrial mutants — called the "non-chromosomal stripe mutants" — she has established the importance of mitochondrial function to normal plant survival.

At the molecular level, two of these mutants disrupt genes coding for ribosomal proteins, and two others affect components of the mitochondrial electron transport chain. The latter two mutants also upset chloroplast biogenesis and function.

Thus, they have exposed a hitherto unrecognized link between the energy gener-

ating machinery of the mitochondria and the photosynthetic apparatus of the chloroplast. Most important, this class of mutants represents the only avenue to continue to explore this crucial inter-organellar interaction.

Newton's research program has been funded continuously by national agencies since 1984. At one point, her research was funded simultaneously by the National Institutes of Health, the National Science Foundation and the Department of Energy. She also has received major research support from the McKnight Foundation and from Monsanto. Newton held the prestigious NSF Presidential Young Investigator Award from 1988 to 1993.

The Chancellor's Award for Outstanding Research and Creative Activity was established in 1979 to acknowledge outstanding accomplishments by mid-career faculty members.

## Provost's Outstanding Junior Faculty Teaching Award

### David Schenker

Assistant Professor, Classical Studies

His students say it's rare when even a single person misses one of the sessions for David Schenker's course on classical civilization. Schenker joined the MU faculty in 1991 and quickly built a reputation as an exceptional teacher. Students flock to his classes because of the thoughtful lectures and the lively discussions.

"His consistently splendid record has been compiled over a variety of courses that would challenge even the most seasoned full professor," says an associate. "At a time when most junior colleagues still are wrestling with a small core of necessary offerings, David has developed into one of the most versatile — as well as most respected — teachers on this campus."

Schenker's course offerings range from ancient Greek language and large lecture sections of the introductory mythology class to a peace studies class on conflict in the ancient world.

"David did not fall into a routine of doing certain courses, but has continually sought new courses to do," says a colleague. In

addition, Schenker carries a heavy load of extracurricular teaching, from giving presentations at area schools to organizing a summer class for classics graduate students.

His students say they spend almost as much time talking with Schenker about class material outside the class. They say his classes are charged with excitement because of his depth of knowledge and his obvious concern for each student.

"Professor Schenker constantly assured me that my words were essential to the dialogue of the course, that what I had to say would change the direction of the discussion. For once, a discussion section was based in idea exchange — actual discussion. It was superb," says a former student.

The Outstanding Junior Faculty Teaching Award recognizes faculty with no more than five years of service for teaching excellence and dedication to the teaching and learning process.

## Provost's Outstanding Junior Faculty Teaching Award

### Carol Ward

Assistant Professor, Anthropology

Her students and her fellow professors think of Carol Ward as a model teacher, full of enthusiasm and information. They say she's the best Mizzou has to offer.

The key, other faculty say, is her ability to engage her students. "Before they know what has happened, they are involved in science of the very best sort," says a colleague. "She has made accessible to them the stuff of science. They hardly have time to contemplate how hard such work is supposed to be. They are too excited about the results of their experiment, or the consequences of their paper."

A wide variety of MU students have had an opportunity to share that excitement with Ward. With a dual appointment in anthropology and also pathology, Ward teaches large lecture sections of physical anthropology, upper-level courses and graduate seminars in anthropology, as well as basic anatomy classes for students in health-related professions.

"What sets Carol apart is the fact that she is able to teach to a vast range of audiences — physical therapy students, undergraduates in the first course in bioanthropology, undergraduate McNair scholars, graduate students returning to studies after years of being housewives or business people," says a colleague. "More to the point, she does approachable teaching while maintaining a first-rate research program."

Students say Ward, in addition to being an excellent teacher, adds another dimension by encouraging and supporting them as they reach for their goals. "It was simply her kind and helpful manner outside of class that taught me professors are people too," says a former student.

The Outstanding Junior Faculty Teaching Award recognizes faculty with no more than five years of service for teaching excellence and dedication to the teaching and learning process.

## Catherine Paine Middlebush Professorship in the Fine and Performing Arts

### Frank Stack

Professor, Art

During his 32 years at Mizzou, Frank Stack has established himself as an accomplished artist, author, lecturer and studio professor.

He is well-known as a landscape and figure watercolorist and has had many one-artist shows. His paintings are in a number of private collections and national and international museums.

He is also a skilled illustrator, lending his talents to a number of books and magazines throughout his career. The 1993 *Comics Journal* reproduced more than 30 of his drawings. Recently, he illustrated the books *American Splendor* and *Our Cancer Year* which was released in October of last year to rave reviews.

Stack is nationally recognized for his work in comics which he writes and draws. He wrote and drew *Dorman's Doggie*, a weekly syndicated strip, from 1976-78. It was reprinted as a comic book and is currently in print, as is his *Amazons* comic book. He is a regular contributor to magazine anthologies and his story about William Shakespeare, "The Bard Must Die," was nominated for an industry Harvey Award as the best single story of 1993.

Other scholarly activities in the area of

popular culture include a biography of classic cartoonist V.T. Hamlin (creator of *Alley Oop*) and editorship of a series of reprint volumes of Hamlin's comic strip.

He regularly teaches three undergraduate courses a semester in addition to his work with graduate students. His watercolor and graduate painting classes are in particularly high demand.

"His work, particularly his water color, is outstanding and certainly his cartoons have won him considerable reputation on a national level," one of his colleagues writes. "He is a fine example for his students, not simply in terms of his work but for his large knowledge and appreciation of art and artists, as well as literature. His is a stimulating and discerning mind."

## Byler Distinguished Professor Award

### Kim Wise

Professor, Molecular Microbiology  
and Immunology

Kim Wise has distinguished himself in many ways since becoming a member of the MU faculty in 1980. He is recognized as a leader not only in his department, but throughout the medical school and the interdisciplinary community of MU molecular biologists.

He is a scholar who has made numerous, significant contributions to scientific understanding of the biology, genetics and biochemistry of mycoplasma, organisms that are causative agents of many of man's worst afflictions, possibly including AIDS. His work has received continuous federal funding since 1979, and he currently holds six NIH grants totalling more than \$600,000 annually. He has received honors from the University of Zurich, the NIH, the International Organization for Mycoplasma and the American Society for Microbiology. In 1989 he was awarded the Chancellor's Research Award at Mizzou.

Wise is also a dedicated teacher who has mentored 12 doctoral students and post-doctoral fellows who have established distinguished records of their own as scientists and educators.

He serves MU in other important ways.

He leads the campuswide Molecular Biology Program, is a member of the medical school research council and served on the provost and chancellor search committees.

"Dr. Wise has the qualities that engender respect among students, staff, colleagues and administrators," writes one of his associates. "He is an influential faculty member because he has enormous credibility. He is also a successful scientist who is not wrapped up in promoting his own career, but gives generously of his time and efforts to improve the University, as a work environment and as an excellent institution of higher education that serves the students, the state and the nation as well."

The Byler Distinguished Professor Award honors a faculty member for demonstrating outstanding abilities, performance and character. The award was made possible by Dr. and Mrs. William H. Byler, who established the fund in the late 1960s.

# RETIREES

ASSOCIATION

## Tax info for retirees

Some MU retirees now are using provisions described in Missouri statute 143.124 to obtain a reduction in their taxable state income. Statute 143.124 refers to the taxability of annuity, pension or retirement allowances provided by the state of Missouri, the United States, its political subdivisions or any state. Potential adjustments can go back to the time of enactment, July 1989. There are eight articles in the statute but the key provisions that may affect retirees' state income tax liabilities are:

■ Article 3. For the tax years beginning on or after Jan. 1, 1990, there shall be subtracted from Missouri adjusted gross income, determined pursuant to section 143.121, the first \$6,000 of retirement benefits received by each taxpayer:

(1) If the taxpayer's filing status is single, head of household or qualifying widow(er) and his or her Missouri adjusted gross income is less than \$25,000; or

(2) If the taxpayer's filing status is married filing jointly and the combined Missouri adjusted gross income is less than \$32,000; or

(3) If the taxpayer's filing status is married filing separately and his or her Missouri adjusted gross income is less than \$16,000.

■ Article 4. To determine the maximum Missouri adjusted gross income limits referenced in this section, any Social Security benefits included in Missouri adjusted gross income shall be subtracted. But Social Security benefits shall not be subtracted for purposes of other computations under this chapter and are not to be considered as retirement benefits for purposes of this section.

Retirees are referred to Part II of the Missouri State Income Tax Form A and may wish to contact their tax consultant to determine if they are eligible and have taken advantage of this allowance. If not, they have the option of preparing amended state income tax returns. — *By Bob Breitenbach, vice president and program chairman, MU Retirees Association.*

Tim Rodgers, a steeplejack with Frank Sager & Sons of St. Louis, paints the top of the Jesse Hall dome Friday in preparation for the 100th anniversary of Jesse Hall and Francis Quandrangle. The 188-foot-high cone was last painted in 1988.

Terry Bamer photo

## FOR THE RECORD

The 'For the Record' column gives MU departments and units the opportunity to advertise used or unneeded equipment for sale. There is no charge for this service. Send your notice to John Beahler at 407 Reynolds Center, or call 882-5918.

A **CAMPUS SAFETY SURVEY** is in the mail to all faculty and staff. The study, conducted by the MU's Business and Public Administration Research Center, will examine employee opinions on campus safety and related matters. "The survey focuses on personal security on campus and awareness of law breaking," says Susan Aitkens, project director. Responses will be tallied as they come in, and Aitkens urges faculty and staff to return their completed surveys by May 18. To replace a lost or defective survey form, or with questions, contact Aitkens at 882-4805.

**WORKERS' COMPENSATION** at the University will undergo changes in policy and procedure in the near future. GenComp, a subsidiary of GenCare Sanus, has been contracted to manage patient care for employees injured on the job. Supervisors will be encouraged to take a more active approach in reporting of work-related injuries which will enable the University to meet reporting requirements with the state, lower the cost of medical

treatment and ensure the employee gets the type of care necessary in a reasonable period of time.

Informational sessions have been scheduled for 9:30 a.m., 11 a.m., 1:30 p.m., and 3 p.m. on Wednesday, May 17th, in the Memorial Union Auditorium to assist supervisors and employees in the transitional phase of this program.

With questions, call Arlis Saunders, 882-7019.

**"TEENS AND TOUGH DECISIONS"** is the subject of an education workshop offered by University Hospital and Clinics and the Missouri Department of Health. It will provide accurate, up-to-date information to support individuals working with the adolescent population. The eight-hour workshop also will provide participants an insight into the many considerations and dilemmas facing teenagers today.

The workshop will be offered twice. On June 1, it will be presented in Macon and on June 8 in Osage Beach. For more information, call Jill Walters at 882-8438.

## Parking & Transportation Services

Turner Ave. Garage, Level 2  
882-4568

Parking lot regulations will be enforced during finals week and intersession. Summer employees may purchase permits for intersession at our office, Turner Ave. Garage, Level 2.

Families and friends of graduating students will be arriving for the various commencement ceremonies.

These folks will be touring campus and may need assistance finding a building or parking space. Please welcome these guests to campus by offering assistance or directing them to our office.

- Racing and/or pounding heartbeat or chest pressure
- Shortness of breath or a sensation of smothering
- Sweating, hot flashes or chills
- Fear of dying or doing something uncontrolled
- Trembling, shaking, numbness or tingling sensations
- Feeling dizzy, unsteady, light-headed or faint
- Nausea or abdominal discomfort

If you suffer from **FOUR OR MORE** of these symptoms that develop suddenly and reach a peak within 10 minutes, you may suffer from recurrent unexpected

## PANIC ATTACKS

The University of Missouri-Columbia Division of Psychiatry is conducting a study of a new investigational medication for the treatment of panic attacks. If you suffer from panic attacks and are interested in being a study participant

Please Call (314) 882-0408

# MIZZOU PEOPLE

Have you been promoted, won an award or presented a paper recently? The 'People' column wants to know about it. Send your news to Susan Salzer at 407 Reynolds Center. But please be patient; we receive many entries, and publish them in the order in which they are received.

## Appointments & Promotions

**Daniel R Longo**, associate professor of family and community medicine, has been appointed associate editor of *Hospital and Health Services Administration*. Longo also has been nominated to the editorial board of *Journal of Health Care Finance*, and has become a member of the American College of Medical Quality.

**Lynn Blinn Pike**, associate professor of human development and family studies, has been appointed to the Columbia City Council Substance Abuse Advisory Commission. She will serve through Nov. 1, 1995.

**Bea Smith**, dean and professor of human and environmental sciences, has been appointed to the legislative committee of the Commission on Food, Environment, and Renewable Resources of the National Association of State Universities and Land Grant Colleges.

**Steven C. Zweig**, associate professor of family and community medicine, has been appointed by Gov. Mel Carnahan to the Governor's Advisory Council on Aging for a term ending in 1997.

## Awards & Honors

The following staff members at University Hospital and Clinics received March Monthly Achievement Awards: **Penny Busker**, ambulatory services; **Debbie Bennet**, Children's Hospital and women's center; **Ron Gere**, facilities services; **Treece Efird**, financial and facilities planning; **Mark Peterson**, heart center and general administration; **Robin Klotz**, medicine center; and **David Holmes**, trauma/surgery center.

The following staff members received April Monthly Achievement Awards: **Vicki Austin**, ambulatory services; **Linda Buchheit**, Children's Hospital and women's center; **Marsha Williams**, facility services; **Hon In**, heart center and general administration; **Linda Friedrich**, medicine center; and **Bonnie Black**, trauma/surgery center.

The following staff members have been named March Staff Members of the Month: **Vanessa Hughes**, driver for distribution; **June Lenger**, staff nurse at the Health Information Center in Columbia Mall; and **Barb Brinkman**, speech pathologist at Rusk Rehabilitation Center.

The following staff members have been named April Staff Members of the Month: **Don Dilse**, building trades supervisor; **Terry Blase**, nurse at Rusk Rehabilitation Center; and **Dorothy Treaster**, medical office assistant at Cancer Screening Services at Ellis Fischel Cancer Center.

**Mariana Barreneches**, art education, won third place in the three-dimensional category of the "Women in the Arts" exhibit March 20-30 in Brady Commons Gallery.

**Bob Birkenholz**, associate professor of agricultural economics, is president-elect of the American Association for Agricultural

Education ('94-'95). **Birkenholz** and **Leon Schumacher**, assistant professor of agricultural education, will co-chair the national agricultural education research meeting in December 1995 in Denver.

**Brooke Cameron**, professor of art, won second place in the print media category of the "Women in the Arts" exhibit March 20-30 in Brady Commons Gallery. Cameron's print "June 4, 1989 — Tiananmen Square" has been accepted into the Barbara Bay Memorial Exhibition at the Jewish Community Center of Los Angeles.

**Mike Chippendale**, professor of entomology, was elected a fellow of the Entomological Society of America.

**R. Bede Clark**, assistant professor of art, ceramic work "Covered Jar" was accepted in the national juried exhibition, "Feats of Clay VIII" to be held at the Lincoln Arts Center, Lincoln, Calif. May 20-June 17.

**Jim Crossley**, senior buyer for procurement/materials management, was chosen the Missouri Association of Public Purchasing's "Buyer of the Year for 1994."

**Christine Doerr**, graduate teaching assistant of art, has been awarded a portfolio review by the curatorial staff at the Museum of Photographic Arts, San Diego, Calif.

## Grants & Fellowships

**Lynn Silipigni Connaway**, assistant professor of library and informational science, received the 1995 American Library Association Carrol Preston Baber grant for the research project "Organized Access to Engineering Internet Resources Using Indexing Principles." Connaway also serves as adviser to the OCLC project, "Building a Catalogue of Internet Resources," funded by the U.S. Department of Education.

**Arshad Husain**, professor of psychiatry, and **John C. Reid**, professor of medical informatics, received a multimedia grant award for "Teachers as Therapists" from the Digital Media Research & Development Center.

**Lynn Blinn Pike**, associate professor of human development and family studies, received a \$40,000 grant from the Children's Trust Fund for the second year of "Resource Mothers," a child abuse prevention project.

**Tony Prato**, professor of agricultural economics and director of the Center for Agricultural Resource and Environmental Systems (CARES), has received a \$35,000 grant titled "Economic and Environmental Impacts of Alternative Floodplain Management Schemes for St. Charles County, Missouri" from the McKnight Foundation.

**Ronald A. Ratti**, professor of economics, has been awarded a Fulbright senior grant by the Korean-American Educational Commission for research in Korea.

**John R. Roberts**, professor of English, has received a NEH grant to fund a part-time research assistant for two years beginning June 1.

## National & International Presentations

**Abdullahi Ibrahim**, professor of history, participated in a review of the progress made on the development of the exhibition of African History and Culture project (African Voices) at the Smithsonian April 27-28. He also served on the review panel.

**John C. Reid**, professor of medical informatics, **Richard Robinson**, professor of curriculum and instruction, **CarolAnne M. Kardash**, associate professor of educational and counseling psychology, and **Robbie Scholes**, educational and counseling psychology, presented "Why Patients Don't Understand Written Material" in February at the fourth annual School of Nursing Patient Education Conference.

**Anne Rudloff Stanton**, assistant professor of art history, presented "The Tree of Jesse and the Holy Kinship in the Queen Mary Psalter" March 30 at the annual meeting of the Medieval Academy of America in Boston. Stanton also will present "Isabella as the Audience: the Sacred and the Vernacular in the Isabella Psalter in Munich" May 5 at the 30th International Congress on Medieval Studies in Kalamazoo, Mich.

## Publications

**R. Berliner**, senior research scientist at the research reactor, **Mihai Popovici**, research scientist, research reactor, and **William B. Yelon**, group leader of magnetic and crystal structures group, research reactor, are authors of "Two-Bent-Crystal Technique in Neutron Small-Angle Scattering" accepted for publication in the *Journal of Physics and Chemistry of Solids*.

# MIZZOU WEEKLY

Vol. 16

No. 30

A publication of the University of Missouri-Columbia faculty and staff, published every Thursday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of University Affairs, 407 Reynolds Alumni and Visitor Center, 882-7357. News deadline is noon Thursday the week before publication. Annual subscriptions are available for \$20.

Editor: Susan Salzer  
Assistant editor: John Beahler  
Director of Advertising: Tanya Stitt  
Graphic editor: Nancy Daniel

Printed with soy ink on recycled newsprint containing 90 to 100 percent post-consumer waste.

## STUDENT POTTERY SALE

Thursday, May 4

10 a.m. - 5 p.m.

A &amp; S Mall

between GCB and Brady  
Rain Site: The Craft Studio

203 Brady Commons

Sponsored by

MUCK -

Missouri University Clay Klub  
and the

MSA/GPC Craft Studio

Call 882-2889 for more information.

## Invest a stamp...Save a bundle

For the price of a stamp, you can get the latest edition of the federal government's free **Consumer Information Catalog**. It lists more than 200 free or low-cost publications on federal benefits, jobs, health, housing, education, cars, and more.

So stamp out ignorance with our free Catalog. Send your name and address to:  
**Consumer Information Center, Department SB, Pueblo, Colorado 81009**

## ALZHEIMER'S DISEASE

The University of Missouri, Division of Neurology is conducting a research study with a drug called Tacrine. Tacrine (Cognex) was approved in for the treatment of Alzheimer's Disease. The purpose of this 16 week study is to gain more information about this medication.

If you qualify for the study you will receive free outpatient medical treatment, medication and laboratory work associated with this study.

Minimum qualifications:

- at least 50 years of age
- are not a woman of child bearing potential
- have not previously taken Tacrine (Cognex)

For more information, please call

**314-882-8040**

# CALENDAR

Send calendar items in Campus Mail to  
Mizzou Weekly Calendar, 407 Reynolds Center,  
by noon Thursday the week before publication.  
Events are free and open to the public unless otherwise noted.

## Conferences

### Wednesday, May 10

**NURSING CONFERENCE:** "Nocturnal Confusion" and "You Don't Have to Go Home From Work Exhausted" will be offered from 7:45 a.m.-noon at the Holiday Inn East-Holidome. For cost and registration information, call 882-0215.

### Tuesday, May 16

**Seventh ANNUAL HOME HEALTH NURSING CONFERENCE:** "Home Care Nursing Issues" will be offered from 7:30 a.m.-3:45 p.m. at Ramada Inn. Cost: \$119. To register, call 882-0215.

### Monday, May 22

**NURSING CONFERENCE:** "Managed Care: Nursing Challenges and Opportunities" will be offered from 7:30 a.m.-4:30 p.m. at the Holiday Inn Executive Center. Cost: \$140. For registration information, call 882-0215.

### Wednesday, May 24

**NATIONAL AGRICULTURAL BIOTECHNOLOGY COUNCIL CONFERENCE:** "Genes for the Future" will be offered May 24-26 at MU. Cost: \$175. To register, call 882-2429.

### Wednesday, June 7

**NURSING CONFERENCE:** "Biofeedback and Pain Management" and "The ABCs of Chronic Pain" will be offered from 7:45 a.m.-noon at the Holiday Inn East-Holidome. For cost and registration information, call 882-0215.

## Courses

### Thursday, May 4

**TAI CHI CLASS:** Tai Chi will be offered from 8:45-9:45 a.m. Thursdays in the Community Room in Columbia Mall. For information, call 882-6565.

**CHILDBIRTH CLASS:** "Refresher Childbirth" will be offered from 7-9 p.m. Thursdays, through May 25 in the seventh-floor classroom at Ellis Fischel Cancer Center. Cost: \$30. To register, call 882-6973.

### Monday, May 8

**NURSING EXTENSION:** "Advanced Physical Assessment" will be offered May 8-9 at the St. Louis Airport Hilton. For cost and registration information, call 882-0215.

**CHILDBIRTH CLASS:** "Beginning Childbirth" will be offered from 7-9 p.m. Mondays, through June 25, in the seventh-floor classroom at Ellis Fischel Cancer Center. Cost: \$45. Breast-feeding session only, \$5. To register, call 882-6973.

### Tuesday, May 9

**CHILDBIRTH CLASS:** "Beginning Childbirth" will be offered from 7-9 p.m. Tuesdays, through May 23, in the seventh-floor classroom at Ellis Fischel Cancer Center. Cost: \$45. Breast-feeding session only, \$5. To register, call 882-6973.

### Thursday, May 11

**TAI CHI CLASS:** Tai Chi will be offered from 8:45-9:45 a.m. Thursdays in the Community Room in Columbia Mall. For information, call 882-6565.

**CHILDBIRTH CLASS:** "Refresher Childbirth" will be offered from 7-9 p.m. Thursdays, through May 25, in the seventh-floor classroom at Ellis Fischel Cancer Center. Cost: \$30. To register, call 882-6973.

### Monday, May 15

Summer Repertory Theatre

## MY FUNNY VALENTINE

*The Songs of Rodgers & Hart*

June 30, July 1, 5, 7, 9, 12, 18, 21, 25

NEW YORK TIMES: "A champagne-fizz of an evening  
... wise, mocking, lovely, tuneful,  
and always bewitching."

## STANTON'S GARAGE

*by Joan Ackerman*

July 6, 8, 11, 14, 16, 19, 22, 26

A play about fragile hearts and good will that will lift your  
heart and put a smile on your face ... A slice of life in  
Mid-Missouri

## THE CAR

*by Carol Wright Fuaase*

July 13, 15, 20, 23, 27, 28, 29

This comedy is set in southern Missouri between 1953 and  
1976, and features a 1954 Hudson automobile. An original  
play by this award-winning playwright, it received a staged  
reading at LaMama LaGalleria in New York City in  
December, 1994.
