

# MIZZOU

## WEEKLY

University of Missouri-Columbia July 27, 1995

**W**ith this issue, *Mizzou Weekly* goes on vacation. It will be back Thursday, Aug. 24. Meanwhile, use the coupon in this issue to let us know what's coming up so we can be working on the fall semester calendar.

## Minority students research careers

*Instead of working at an ordinary summer job, a group of high school and college minority students are taking part in medical research.*

**T**hrough the Premedical Sciences Enrichment Program and the Minority High School Student Research Apprentice Program, students get an early exposure to medical school and to careers in the health-care field.

For six weeks, students take classes and conduct research while paired with a researcher and/or physician mentor at the medical school. Participants in the college program presented posters of their research. Their topics included: cloning a new gene for an improved Haemophilus Influenzae vaccine for children; collaborative practices between physicians and advanced-practice nurses; and reducing wound infections in orthopedic surgery patients.

Seven college students, selected from 40 applicants, are participating in the Premedical Sciences Enrichment Program. The program, in its ninth year, is designed primarily for juniors and seniors who are currently in a pre-med curriculum.

Its goals are to prepare students for the MCAT, the Medical College Admissions Test, and to provide enrichment for courses students will take in the future. Students also complete coursework in physics, chemistry and biology, and work to improve their learning strategies and test-taking skills. They receive preparation for medical school admission procedures and interviews.

The program has "a tremendous payoff" for the students, said Jacqueline Cooper, director of summer programs. Exposure to the school's problem-based curriculum, access and interaction with professors, which is uncommon on many university campuses, the MCAT preparation and journal-type research, give students an edge in the area of scholarly pursuit. The exposure to various medical specialties that most students aren't

aware of until their first or second year of medical school is also a benefit, Cooper said.

Participants in the Minority High School Student Research Apprentice Program, in its 12th year, also work on a research project, with an emphasis on laboratory, hands-on, work. Students spend at least three full-time days a week in a lab with their preceptors. "It gives them an opportunity to experience what laboratory research is like in the sciences," Cooper said. "They also have exposure to many opportunities in the health-related professions, which enables them to start making some decisions about the direction their college education will take."

The high school students also prepare for the American College Testing program, or ACT, and participate in a writing-intensive course that includes African-American literature, which many may not get a chance to study at their high schools, Cooper said. In addition, students live in campus residence halls, which provide a good introduction to college life. Seminars on medical school life, the curriculum, the application process, requirements and financial assistance are all designed to give students a clear picture what it takes to pursue a health-related career. Nine students were selected from 114 qualified applicants to participate in this year's high school program, funded by the National Institutes of Health, the University of Missouri System, the MU Provost's office and the School of Medicine. Participants in both programs must be Missouri residents.

**A**nyone wanting information about participating in next year's programs should call 882-1566, or write the Office of Medical Education, School of Medicine, MA202 Health Sciences Center.

## A new, improved Quad

*Francis Quadrangle is getting a new look in honor of its 100th birthday.*

**FRANCIS QUADRANGLE IS WEARING** its first century well. Now the University is preparing Mizzou's most famous landmark for its second hundred years.

As part of the face lift, monuments that honor the two individuals most closely identified with the Quad — Richard Jesse and David Francis — will flank the north portico of Jesse Hall. A new granite monument in a garden patio just west of the north portico will honor the building's namesake, former president Richard Jesse. The new stone marker also will commemorate the 100th anniversary of Francis Quadrangle.

An 1892 fire that destroyed old Academic Hall kindled the beginnings of the Quad and the academic buildings that make up the Red Campus. Richard Jesse had been University president for barely a year when the fire

See Quad, Page 2

As part of the centennial celebration and as a preview to the National Hot Air Balloon Championships, 3,000 to 5,000 spectators came to Francis Quadrangle July 14 to see a dozen balloons light the Columns and Jesse Hall.

**LAW SCHOOL TO OFFER  
MEDIATION TRAINING**

The Center for the Study of Dispute Resolution at the School of Law will offer general mediation skills training at the law school from 3:45 p.m. to 9:30 p.m. on Sept. 8 and continuing at 8:30 a.m. to 5 p.m. on Sept. 9. The training is free to the public or \$100 to those wanting to enhance their professional skills. To register, call 882-2052.

**CAMPUS MAPS  
AVAILABLE**

An updated map of the MU campus is now available from Visitor Relations. Five copies will be mailed to each department and specific offices in the near future. As many as 100 additional copies may be purchased from Visitor Relations by IDO at a cost of 5 cents each. Orders of more than 100 should be ordered directly from printing services. For more information, call Shirley Delbert at 882-6333.

**STUDENTS AND THEIR  
FAMILIES MAY NEED  
YOUR HELP**

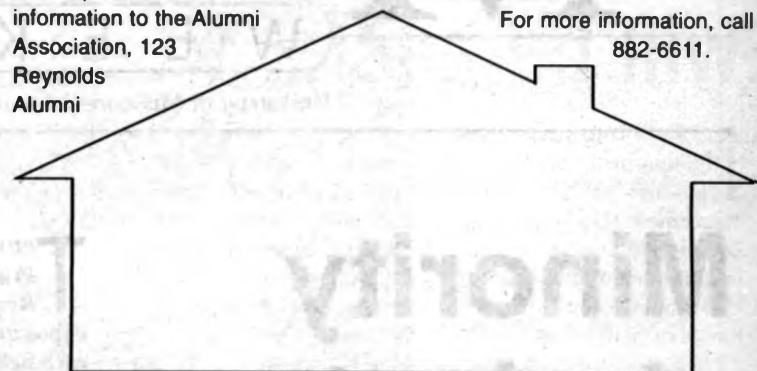

The opening of the fall semester is fast approaching. This year, opening weekend will coincide with the Hot Air Balloon National Championships to be held in Columbia Aug. 18 - 27. It is possible that students' parents will be unable to find hotel accommodations because 70 percent of all Columbia hotel space already is booked.

MU faculty and staff are asked to consider hosting the family of a student in their homes for an

evening. The MU Alumni Association will link volunteer families with those families needing accommodations. If you are interested in serving as a host Aug. 19-20, please forward this information to the Alumni Association, 123 Reynolds Alumni

Center: Name; work phone; home phone; department; home address; number of persons you could host; dates you could host; special considerations; directions to your home from MU.

For more information, call 882-6611.

**Quad**

From Page 1

guttled Mizzou's main academic building. Jesse quickly became the point man in a communitywide effort to rebuild MU bigger and better than before.

Missouri Governor David Francis was an important ally who threw the political and financial support of the state behind the rebuilding efforts. In 1924 a memorial fountain in Francis' honor was placed on Ninth Street. The fountain overlooked the Quad at the time, but when Jesse Auditorium was built it insulated the monument from the Quad.

The two monuments will be placed on brick-edged, concrete patios surrounded by semi-formal gardens with perennial flowers, woody shrubs and flowering trees, says Tom Flood, MU grounds superintendent. The original tombstone of David Barton, Missouri's first senator, currently is located west of the portico. That marker will be moved approximately 70 feet northwest to a site between Jesse Hall and the Engineering Building.

**Other components of the Quad face lift include:**

- Completing a permanent irrigation system. In past years the grounds crew had to haul in sprinklers and long lengths of hose each time they watered the Quad. The new system "is more efficient in terms of manpower and water, and it does a better job," Flood says. One historical footnote: When the crew dug trenches for the irrigation pipe, they unearthed a number of ammunition casings that most likely came from Academic Hall. When the old administration building burned, 14,000 rounds of ammunition stored in a second-floor armory exploded.
- Updating the lights that illuminate the Columns at night. Smaller, more energy efficient lights will replace the old ones. The project included removing large bushes from around the lights. "The bushes originally were planted to screen the light fixtures, but visually they reduced the grandeur of the Columns," Flood explains. Now, the uncluttered sweep of green lawn leading up to the Columns will make the campus' most enduring landmark stand out even more.
- Conservation work on the north entrance to the Quad at Elm and Eighth streets.

It's all in the presentation.

# Biological materials will be easier to transfer

In an effort to streamline the exchange of biological materials between researchers in the non-profit arena, the Association of Technology Managers (AUTM) and the National Institutes of Health have prepared a Uniform Biological Material Transfer Agreement (UBMTA) and implementing documentation. Researchers at institutions signing the master agreement need only to complete the UBMTA implementing letter to transfer materials to another institution that has signed the master agreement. All four UM campuses have signed the master agreement and will be listed on the master list that soon will be available on the World Wide Web.

If you are contemplating transfer of research materials to another university, a federal laboratory or other non-profit agency or institution, please call University Patents and Licensing at 882-2821 to find out if the other party has agreed to the UBMTA. If they have, you need only to complete the implementing letter and forward it through the campus grants office for signature prior to shipping the materials.

# Government travelers to get 100% discount

Beginning Aug. 8, all state and local government entities will receive a 10 percent discount from selected airlines when travel is for official business. The discount applies only for domestic flights.

The action is the result of an antitrust settlement brought by attorneys general from all 50 states. The airfare discount will be in effect for 18 months or until the value of all discounts granted equals \$40 million.

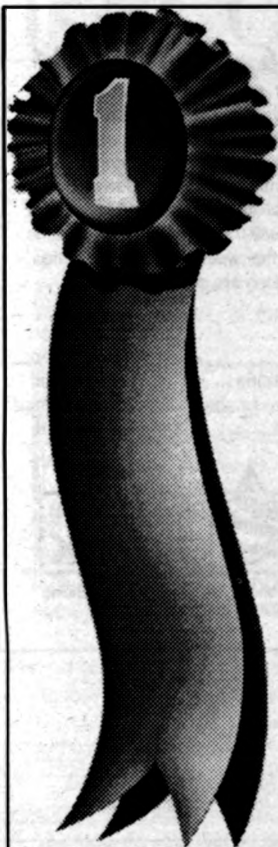

"All towns, cities and other governmental entities should consider this discount when planning ticket purchases for regularly scheduled travel in the coming year," Missouri Attorney General Jay Nixon said. "Purchasing tickets when this discount is in effect could save your

entity thousands of dollars that can be put to other uses in your community."

To take advantage of this discount, ticket purchasers should tell the travel agent that the purchase is part of program code "multistate" with a CRS code of MS10.

Participating airlines are: Alaska Airlines, American Airlines, Continental Airlines, Delta Airlines, Northwest Airlines, Trans World Airlines, United Airlines, USAir. A number of commuter airlines, including TransWorld Express, also are participating.

Use of the discount for travel other than official government business may constitute fraud and violators will be prosecuted.

The Hearnes Center Administration Office is proud to announce the beginning of their **Employee of the Month Program**. The program is being enacted to recognize the outstanding work of individuals who do an extraordinary job and go beyond what is already required. The Hearnes Center is delighted to announce the first person to receive this distinguished honor is **Shirley Dean Garrett**, Lead Custodian. Shirley more than deserves this honor for the responsibility he takes on in the absence of the supervisor.

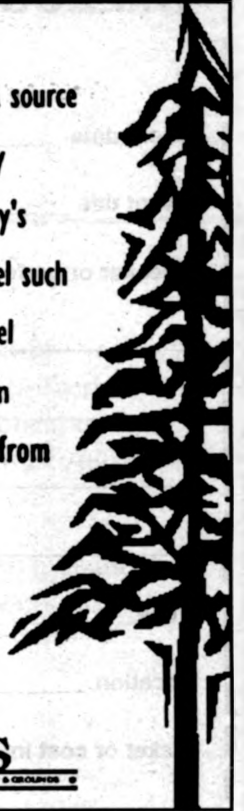

Shirley goes the extra mile to make sure the job is complete by taking any shift to do what is needed to be done. In the event a patron has a question, Shirley will do his best to help. Shirley has been with the University for 30 years in September and is a full time custodian at the Hearnes Center. **Congratulations Shirley, we are proud to have you as part of our team.**

## CAMPUS FACILITIES 2000

NEW IDEAS FOR THE NEXT CENTURY

Shredded tires. Paper waste. These may be a source of energy tomorrow. Campus Facilities Energy Management is preparing for the next century's energy demand by researching alternative fuel such as shredded tires and paper pellets. These fuel sources may save money and reduce waste in landfills. A new idea for the next century from Energy Management.

## Parking & Transportation Services

Turner Ave. Garage, Level 2

# Kids are our specialty

A unique place, Children's Hospital cares for the special physical, emotional and developmental needs of children and their families. As a hospital within a hospital, Children's Hospital is strengthened by the resources of University Hospital and Clinics, including its Level I Trauma Center and The Staff for Life helicopter service. Children's Hospital, with more than 100 beds, offers:

- Neonatal and pediatric intensive care units — the most sophisticated units available in mid-Missouri
- More than 30 specialties for children
- The region's only pediatric surgeons
- Neonatal transport team
- Adolescent unit
- General pediatrics unit
- Pediatric rehabilitation unit
- In-hospital school program
- Child life therapy

Call 882-7500 for more information.

## MIZZOU WEEKLY

Volume 16 Number 34

A publication of the University of Missouri-Columbia faculty and staff, published every Thursday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of University Affairs, 407 Reynolds Alumni and Visitor Center, 882-7357. News deadline is noon Thursday the week before publication. Annual subscriptions are available for \$20.

# Heads Up safety program wins national award

An MU project designed to slow down youthful speeding offenders received a national award July 11 from the U.S. Department of Transportation during a ceremony in Washington, D.C.

Michelle Gibler, coordinator of the Missouri Heads Up program at the MU School of Medicine; Penny Bailey, the program's assistant coordinator; and Dan Needham, director of the Missouri Division of Highway Safety, returned to mid-Missouri with the National Highway Traffic Safety Administration's top national award for youth programs.

The Missouri Heads Up Traffic Offenders Program, supported by the Missouri Division of Highway Safety, won the award for its education of high-risk drivers. The program's main goal is to prevent traumatic motor vehicle injuries, especially head and spinal cord injuries. High-risk offenders are sentenced by the courts to spend a day at the Hospital and Clinics' Level I trauma center. The program is unique in that the participants get a first-hand view of the consequences of motor vehicle trauma by actually following the path they would take if they were seriously injured in a car crash. Throughout the day, participants meet with physicians, nurses and therapists who care for trauma patients. In addition, and perhaps most importantly, participants get to know several young crash survivors who share their own stories of trauma and the long journey back.

"I am a crash survivor myself," Bailey said, "so I have a vested interest in convincing the people who come through our program how

important safe driving habits are."

Those habits include wearing safety belts, driving the speed limit and driving sober. Last year in Missouri, 1,089 people were killed and 81,027 were injured in traffic crashes, according to the Missouri Highway and Transportation Department.

"We are really proud of this program and its success," Needham said. "Michelle and Penny do a fantastic job and are wonderful, enthusiastic safety advocates."

One 22-year-old male participant in the program wrote, "I think this was an outstanding program and I believe if there were more programs like this for young people, you would really see a difference in the number of young people being killed or injured every year. I can't thank you enough for sending me to the program; it changed my life."

NHTSA administrator Ricardo Martinez, M.D., was presented the award at the Washington, D.C. ceremony.

Missouri Heads Up is best known for the innovative safety programs it presents at high school assemblies throughout the state. The speeding offenders program was conceived in the late 1980s by Macon County Judge James Foley, who was frustrated with the number of young offenders coming through his court. Offenders from Macon, Boone, Clark and Linn counties currently take part in the program, and Cole County is expected to be added to that number soon. Other cities, including Cape Girardeau, Springfield and Alberta, Canada, have since founded similar programs.

## ALZHEIMER'S DISEASE

The University of Missouri, Division of Neurology is conducting a research study with a drug called Tacrine. Tacrine (Cognex) was approved in for the treatment of Alzheimer's Disease. The purpose of this 16 week study is to gain more information about this medication.

If you qualify for the study you will receive free outpatient medical treatment, medication and laboratory work associated with this study.

Minimum qualifications:

- at least 50 years of age
- are not a woman of child bearing potential
- have not previously taken Tacrine (Cognex)

For more information, please call

**314-882-8040**

## FOR THE RECORD

The 'For the Record' column gives MU departments and units the opportunity to advertise used or unneeded equipment for sale. There is no charge for this service. Send your notice to John Beahler at 407 Reynolds Center, or call 882-5918.

**The Career Center needs your help** in its effort to expand volunteer opportunities for students. When you need volunteers for a position, notify the center and the information will be posted on the volunteer board and campus internet. Students will contact your agency directly. To post a position, call 882-JOBS. With questions about the program, call Angela Pace, 882-6801.

**Several books** by faculty in the College of Agriculture, Food and Natural Resources were omitted from the list published June 29 in *Mizzou Weekly*. They are:

Barnes, R.F.; Miller, D.A.; and Nelson, C.J., curator's professor, editors, 1995. *Forages, Volume I. An Introduction to Grassland*

Send calendar items in Campus Mail to *Mizzou Weekly Calendar*, 407 Reynolds Center, by noon Thursday the week before publication. Events are free and open to the public unless otherwise noted.

## Concerts and Plays

### Thursday, July 27

**SUMMER REPERTORY THEATRE:** *The Car* will be presented at 8 p.m. July 27, 28 and 29 in Rhynsburger Theatre. For ticket information, call 882-PLAY.

### Friday, August 4

**CONCERT:** Summer Singers and the Missouri Symphony Society will present a concert version of Puccini's *La Boheme* at 8 p.m. at Missouri Theater. Tickets can be purchased at the Symphony Society Box Office. For information, call 882-2604.

## Conferences

### Monday, Aug. 7

**HAZARDOUS WASTE INSTITUTE:** "Hazardous Waste Management Summer Institute" will be offered Aug. 7-11 in W1000 Engineering Building East. Cost: \$795 for entire institute Aug. 7-11, \$575 for second section Aug. 8-11. To register call 1-800-776-1044. For information, call Virginia Nettleton at 882-3266.

### Tuesday, Aug. 15

**NURSING CONFERENCE:** "PICC Line Insertion and Management" will be offered from 7:30 a.m.-4 p.m. at the Days Inn University Center. For cost and registration information, call 882-0215.

## Courses

### Tuesday Aug. 8

**CHILDBIRTH CLASS:** "Beginning Childbirth" will be offered from 7-9 p.m. Tuesdays, Aug. 8-Sept. 26 at Ellis Fischel Cancer Center. Cost: \$45, breast-feeding session only \$5. To register, call 882-6973

### Tuesday, Aug. 22

**PATHOLOGY COURSE FOR ADVANCED PRACTICE NURSES:** "Interpretation of Laboratory Tests" will be offered from 7:45 a.m.-3:45 p.m. at Days Inn University Center. For cost and registration information, call 882-0215.

### Wednesday, Aug. 23

**PATHOLOGY COURSE FOR ADVANCED PRACTICE NURSES:** "Clinical Immunology" will be offered from 7:45 a.m.-3:45 p.m. at Days Inn University Center. For cost and registration information, call 882-0215.

### Thursday, Aug. 24

**CHILDBIRTH CLASS:** "For Big Kids Only," a free program to prepare children ages 2 to 10 for their new sibling, will be offered from 6:30-8:30 p.m. in the SameDay Surgery Center at University Hospital and Clinics. A video, snacks and tour are included. To register, call 882-6973.

## Exhibits

### BINGHAM GALLERY:

- "One Thing and Another," the works of Jennifer Wiggs, visiting assistant professor of art, will be on display through July 29.
- "Artistic Introspection," the works of James Crow, graduate student and master of fine arts candidate, will be on display July 31 through Aug. 11.

A reception will be held from 4-6 p.m. July 31 in Bingham Gallery.

The gallery, located in the Fine Arts Building, is open from 10 a.m.-4 p.m. weekdays.

**BRADY COMMONS GALLERY:** The Brady gallery, located in 203 Brady Commons, is open from 10 a.m.-5 p.m. weekdays.

**MUSEUM OF ANTHROPOLOGY:** The museum, located in Swallow Hall, is open from 9 a.m.-4 p.m. weekdays.

### MUSEUM OF ART AND ARCHAEOLOGY:

Ongoing exhibits:  
• "Aspects of Antiquity"  
• "Expressions of Africa: Selections from the Permanent Collection"  
• "Isms and Others in the Twentieth Century III"

- "Waterways West: Photographs from the Missouri River Portfolios" will be on display through August 13.

The museum, located in Pickard Hall, is open from 9 a.m.-5 p.m. Tuesday through Friday, Thursday 6-9 p.m. and noon-5 p.m. Saturday and Sunday.

**ROGERS GALLERY:** The gallery, located in 148 Stanley Hall, is open from 8:00 a.m.-4:00 p.m. weekdays.

### STATE HISTORICAL SOCIETY:

- "Thomas Hart Benton: World War II, 1942-1945" will be on display in the gallery through July 31.
- "Three Missouri Photographers: Edward C. Collings, Dan Hoagland and Andy Tau" will be on display through July 31.
- "A Historical Salute to Women in Missouri Politics" will be on display in the reading room of the manuscript collection, 23 Ellis Library during August. The gallery is open 8:30 a.m.-4 p.m. weekdays. The corridors are open from 8 a.m.-4:30 p.m. weekdays and 9 a.m.-4:30 p.m. Saturday.

### UNIVERSITY HOSPITAL MAIN LOBBY and ELLIS FISCHEL CANCER CENTER LOBBY:

Basketry, ceramics, drawing, fiber arts, painting, photography and stained glass works of artists who are members of the hospitals and clinics staff

# ATTENTION HEINKEL COMPUTING SITE USERS!!!

**ON AUGUST 5, 1995, THE MISSION OF THE HEINKEL  
COMPUTING SITE WILL BE REDIRECTED TO BRING YOU  
NEW SERVICES.**

**WHY?**

Campus Computing is restructuring the space for other functions to better serve the students, faculty, and staff at MU. This will mean more access to digital media services, more training facilities, and adequate space for the Help Desk staff. As a result, the existing workstations in the Heinkel site will be relocated to other computing sites.

**WHERE CAN I FIND MORE INFORMATION?**

Details concerning the repurposing of the Heinkel site are posted on the World Wide Web at [http://www.missouri.edu/cc/heinkel\\_info.html](http://www.missouri.edu/cc/heinkel_info.html), or you can call the Help Desk at 882-5000.

**WHAT WILL BE AVAILABLE?**

- The Help Desk will answer questions and add new user IDs.
- The phone number will remain 882-5000.
- The Xerox 3700 laserprinter will remain in 23 Heinkel Building.
- Software distribution (ProComm, SLIP, and virus protection).

**WHAT IS COMING?**

- A digital media work area.
- An additional training area.
- Improved Help Desk space.

**IF YOU HAVE QUESTIONS OR CONCERNS, PLEASE CALL THE CAMPUS COMPUTING HELP DESK AT 882-5000.**
