Page 2: Chancellor Charles Kiesler recognized individual faculty members during his Oct. 24 state-of-the-campus address.

Promotion and tenure under review

A special committee, with representatives from every school and college on campus, has begun a review of the tenure and promotion process at MU. The committee was appointed this fall by Provost Ed Sheridan, who says the review is designed to help sustain a strong promotion and tenure system at MU.

"The complex and changing nature of academia demands a tenure system that is responsive to myriad needs," Sheridan says. "MU is creating a committee to explore our current system as well as other models that may be more appropriate for various schools and

colleges within the University."

Among the issues the group will review are: alternative tenure-track models, possible post-tenure review systems, procedures for dealing with impaired faculty, and the policy for stopping the tenure clock.

In addition, the provost has asked committee members to examine all current promotion and tenure policies in an effort to discern problem areas or major discrepancies in policy. The review group will make recommendations for campus consideration.

"MU will maintain a strong promotion and tenure system to protect and sustain

the faculty," Sheridan says. "Tenure and promotion are two of the most important features of our academic community, marking the extraordinary talent and high attainment of the faculty of this AAU and Carnegie I research university."

Elaine Lawless, professor of English, is chairperson of the review committee. She says the group will likely submit a preliminary report to Sheridan by next spring and continue to work on the review through the academic year. At its first meeting last month, the group was divided into subcommittees to explore individual topics.

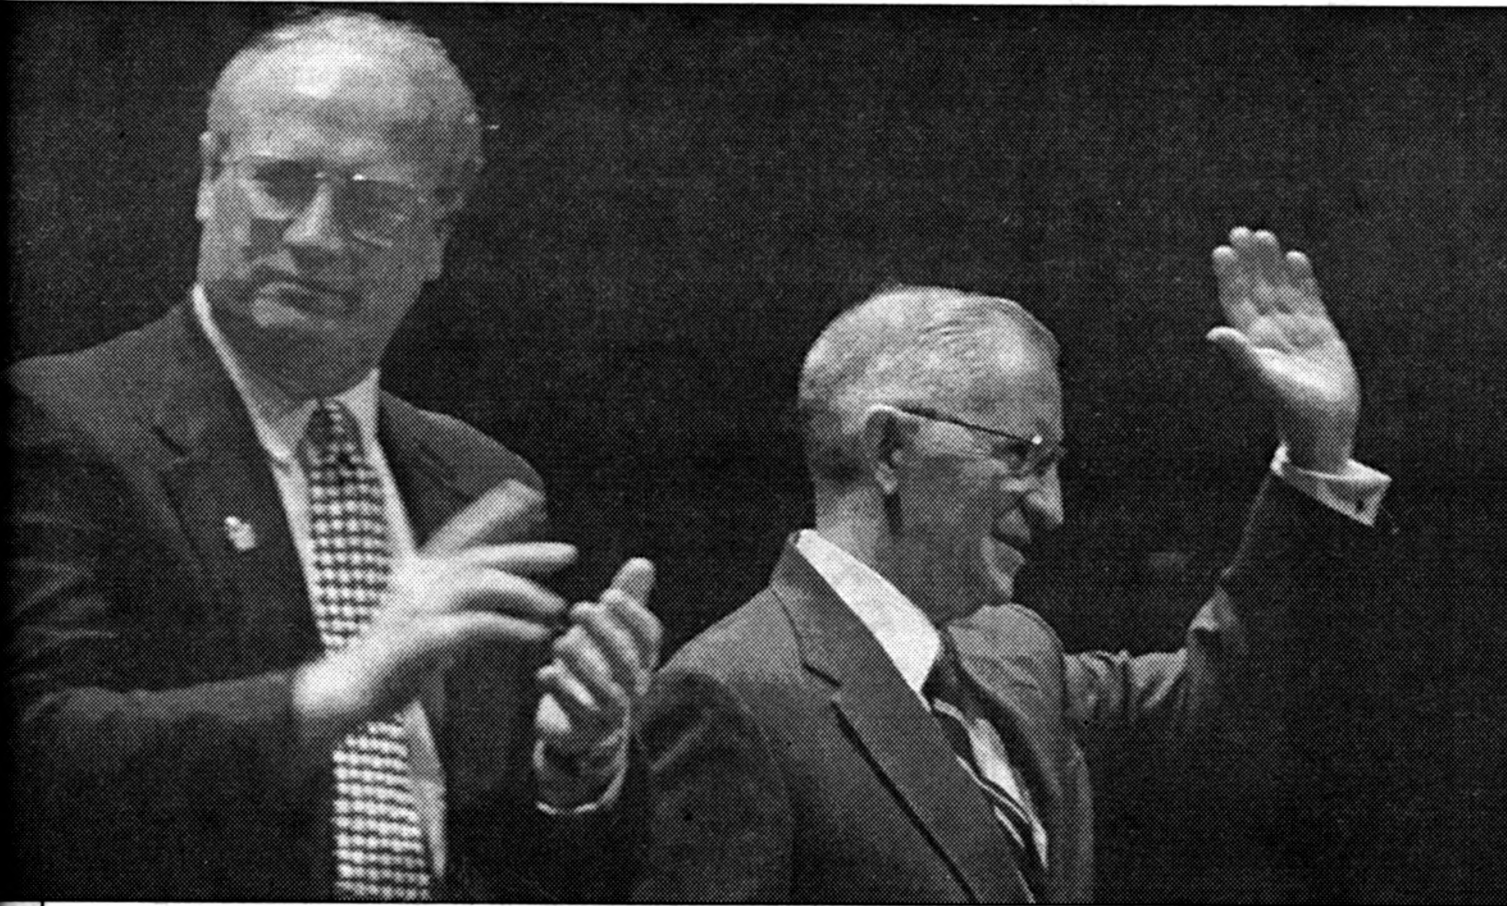

"Provost Sheridan wants us to look at

how flexible or inflexible the tenure process is at MU," Lawless says. "Is it reasonable to keep a very standard five-year tenure track in place? The provost is asking us to review that.

"I hear him totally talking about flexibility, but still having extraordinarily high standards for tenure and promotion."

And although subcommittees are tackling individual topics, many of the issues are interlocking, Lawless says. "I think none of these can be looked at in isolation." For example, stopping the clock on tenure could have an impact on other areas. "That may influence how we look at formulas for teaching, research and service," she says.

Members of the promotion and tenure review committee are on page 8.

Associate Professor Rick Hardy, left, welcomes H. Ross Perot to his political science class as professor for a day on Wednesday in Jesse Auditorium.

Brock Williams photo

H. Ross Perot, professor

Erstwhile (and future?) presidential candidate H. Ross Perot tells it his way during a visit to Rick Hardy's political science class.

By Curt Wohleber

Billions of dollars of fiscal irresponsibility in Washington.

Billionaire industrialist and 1992 independent presidential candidate H. Ross Perot told MU students yesterday that politics-as-usual has to change before their generation winds up paying the price of decades of fiscal irresponsibility in Washington.

Perot came to MU as the "professor for a day" for classes taught by Rick Hardy, MU associate professor of political science. Interested faculty and staff also attended the lecture, filling to capacity the 1,700-seat Jesse Hall auditorium.

Hardy praised Perot as an "innovator, problem-solver, mold breaker, and independent thinker." Perot announced earlier this year that he is establishing a new national political party that will nominate a presidential candidate in 1996. Perot himself ran as an independent candidate against George Bush and Bill Clinton in 1992, garnering 19 percent of the popular vote—the second-highest of any independent candidate in American history.

Perot fired off salvos of dire statistics and opinion poll results to paint a bleak portrait of a nation facing a

mounting trade deficit, a bloated federal budget, and the epidemic loss of domestic manufacturing jobs. "Any CPA would conclude that we are bankrupt," he said.

Perot called for campaign finance reform, a comprehensive restructuring of Social Security, congressional term limits, a national referendum on all tax increases, a four-month campaign season, and sophisticated computer studies of proposed overhauls of the nation's tax system.

"Ninety-three percent of the American people don't think they're getting their money's worth" out of government, he said.

While Perot leveled his harshest criticism against Republican and Democratic politicians, he also criticized the American voters for being too easily manipulated by clever sound bites and slick media packaging of political platforms. Critics have accused Perot himself of trying to seduce voters with calculated folksiness and appealing but overly simplistic political remedies. He said too many Americans today looked up to the wrong heroes, embracing athletes and show business figures while ignoring the profound contributions of people like fellow Texan Jack Kilby, inventor of the integrated circuit.

Perot, a former Navy officer, turned to politics four years ago after earning billions in the real estate, investment and computer industries. He predicted that in 1996 his new party would mount a serious challenge in the presidential election and hold enough "swing votes" to decide the outcome of Senate and congressional races between Democrats and Republicans.

At the end of the address Perot fielded questions from the audience. Political science Chairman Birol Yesilada handed Perot a plaque honoring him with an honorary professorship in American government.

Faculty kudos

Chancellor Charles Kiesler delivered his annual state-of-the-campus address to the general faculty on Tuesday, Oct. 24. His speech will appear in its entirety in *Mizzou Weekly's* Nov. 9 issue.

As is his custom, the chancellor concluded his remarks by recognizing special achievements by individual faculty members:

College of Agriculture, Food and Natural Resources

Robert Sharp, associate professor of agronomy, recently was selected to head the prestigious panel that allocates millions of dollars under the National Research Initiative. Sharp is internationally recognized for his research on drought-tolerant crops.

Edward H. Coe, professor of agronomy, has been named Outstanding Scientist of 1995 by the U.S. Department of Agriculture's Agricultural Research Service. The award places Coe, a USDA geneticist, among the research agency's top four senior scientists nationwide. Coe is recognized for his research in corn genetics and for starting a national corn

genetics data base.

Judy Wall, professor of biochemistry, has been appointed editor in chief of *Applied and Environmental Biology*.

Curtis J. Nelson, professor of agronomy, has been named president of the American Society of Agronomy

College of Arts and Science

Michael Porter, associate professor of communication, is one of 18 faculty selected nationwide to attend the National Academy of Television Arts and Sciences Seminar, Nov. 8-11, 1995, in Los Angeles.

John Miles Foley, professor of English and classical studies, has been awarded his sixth grant from the National Endowment for the Humanities for more than \$71,000. The NEH grant was one of 202 awards totaling \$17.6 million. Endowment grants are awarded on a competitive basis; Foley's grant was the sole award given in Missouri for the fourth quarter of 1995.

Henry Sullivan, professor of Romance languages, has been awarded one of 40 prestigious visiting fellowships at Clare Hall at Cambridge University in England for the 1995-96 academic year.

College of Business and Public Administration

Everett Adam, professor of management, received the 1995 Shingo Prize for Excellence in Manufacturing Research for his article, "Alternative Quality Improvement Practices and Organization Performance," which appeared in the *Journal of Operations Management*.

Jim Parker, Price Waterhouse/Silvoso Professor of Accountancy, received an Undergraduate Teaching Innovation Award, presented by the American

Taxation Association and sponsored by the Arthur Andersen public accounting firm.

College of Education

The William Gruhn Forrest Long Middle Level Education Recognition Committee presented the award for Distinguished Service and Leadership in Improving Middle Level Education to **Jerry Valentine**, professor of educational leadership and policy analysis. This recognition has been given only six times in the past 16 years.

The National Science Foundation has awarded Associate Professor **Barb Reys**, Professor **Bob Reys**, and Assistant Professor **David Barnes**, all from the Department of Curriculum and Instruction, a \$938,492, three-year grant from a teacher enhancement fund to work with mathematics and middle-level teacher education.

College of Engineering

In the past year, two research proposals submitted by **Kayvan Sadra**, assistant professor of electrical and computer engineering, have been ranked No. 1 nationally by the National Science Foundation, which went on to fund the projects. Sadra is conducting research in optoelectric devices.

Professor **John Miles** and Associate Professor **Satish Nair** of the Department of Mechanical and Aerospace Engineering have received a grant from NASA to help design the next generation of space suits. They are developing several thermal models, using computer programs and artificial intelligence to simulate conditions astronauts would face while orbiting Earth, walking on the moon or exploring Mars.

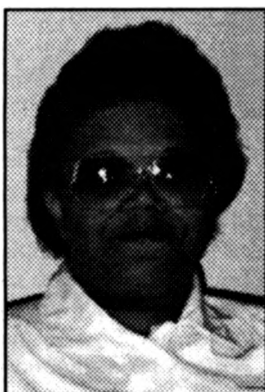

Parking & Transportation Services

Sat: 9 a.m. - 5 p.m.
Sun: Noon - 10 p.m.

Stop by Brady Food Court after 4:00 p.m. and you'll be driven to a frenzy by all the special bargains on your favorite foods! This offer good for a limited time only.

 Chicken Salad Sandwich 99¢	 Any Specialty Pizza & a Medium Drink \$2.99
 WHOPPER™ 99¢	 2 Tacos (original/soft) plus 32 oz. soda \$1.99

Curators Professor **Sudarshan Loyalka** has received a \$562,000 grant from the National Science Foundation to fund graduate traineeships in particulate systems engineering. One of the program's goals is to bring more women and minorities into the field.

Graduate School

Charles Sampson, associate dean of the Graduate School, is the project director for the Heartland's Alliance for Minority Participation which involves the four UM campuses and the UM System, two state universities and two community colleges in Missouri. The alliance won funding from the National Science Foundation in the amount of \$4.9 million and is one of only five such alliances in the country selected for NSF funding this year. The

impetus for the award stems from MU's efforts, spearheaded by Sampson, to increase opportunities for Missouri minority students in academic disciplines where they traditionally are under-represented.

James Rhyne, director of the MU Research Reactor and professor of physics, received the award of *Docteur Honoris Causa* from the University Henri Poincare, located in the province of Lorraine in France. Rhyne was the single American among the five recipients chosen to receive the award, which is presented every five years.

School of Law

Edward Hunvald, professor, was awarded the Loyd E. Roberts Memorial Prize in the Administration of Justice.

Timothy Heinsz, has been awarded prestigious visiting fellowships at Clare Hall at Cambridge University in England and at Santa Clara University in California during the 1995-96 academic year.

School of Medicine

David Mehr, assistant professor of family and community medicine, received a four-year, \$240,000 grant award from the Robert Wood Johnson Foundation's Generalist Physician Scholars Program.

Sinclair School of Nursing

Susan Taylor, professor, was awarded the outstanding alumna of the year by Alverno College, Milwaukee.
Rose Porter, associate dean, received the

United Way's Campaign Chair Award for her inspiring leadership in the University of Missouri campaign, 1994-95.

College of Veterinary Medicine

M. Harold Laughlin, chair of veterinary biomedical sciences, is the principal investigator on a \$6.8 million program project grant from the NIH which involves faculty from veterinary medicine, medicine and the Dalton Cardiovascular Research Center. Investigators will examine the influences of physical exercise on coronary artery function. Dean **H. Richard Adams** is editor of the *Seventh Edition of Veterinary Pharmacology and Therapeutics*.

CLASSIFIEDS

SERVICES

PhD in English with 20 years college teaching, experience in editing, will edit books, monographs, dissertations, major papers or presentations. Telephone 445-6690.

COUNSELING/PSYCHOTHERAPY.

Marital, relationship, personal, educational, vocational; 25 years experience with faculty, staff, students. Sliding fee scale. Don Eggeman, psychologist, 1205 University Ave. (next to parking garage), Suite 400. 449-6190.

WRITE STUFF PRODUCTIONS

Professional proofreading, editing, and document design services. Reasonable rates, excellent references, and 72-hour turnaround on most jobs. Let us produce your departmental newsletter! Write Stuff Productions 443-4502 or WriteStuff@thoughtport.com

Wireless Home Security saves money. No monthly fees. Prices as low as \$250. Use your voice or remote control to turn on unit, lighting and appliances. Free demonstration. Call 442-5317.

WANTED

Going on sabbatical?

Canadian doctor pursuing further education wanting to rent fully furnished home from January - June, 1996. With wife and two preschool children. Non-smokers. Phone 446-4379.

Librarian seeking nice place to live near colleges or downtown. Can move now or near the end of the year. Responsible, quiet, friendly. Might consider being a housemate. Call 499-4567

FOR RENT

Nice two-bedroom home in town, attached garage, washer and dryer hookups, 449-2282.

The Classified Section is open to faculty, staff and retirees. A home phone number is required. No refunds for cancelled ads.

Ads must be typed.

Rates: 30-word maximum \$3.

Publication deadlines:

Nov. 3 deadline for Nov. 9 issue

University Physicians welcomes

to the General Pediatrics Clinic at University Physicians-Green Meadows

Sandra Antonovic, M.D.
Shiv Someshwar, M.D.

Dr. Antonovic received her medical degree from the University of Southern California, Los Angeles, in 1990. She completed her residency at the Children's Hospital of Los Angeles. She is board certified in pediatrics. Dr. Antonovic's

clinical interests are general pediatrics, early childhood development, skin disorders and respiratory problems.

Dr. Someshwar received his medical degree from the University of Delhi, New Delhi, India, in 1988. He completed his residency at the University of Missouri-Columbia. His clinical interests are general and referral pediatrics. He scored above

the 95th percentile in the 1994 American Board of Pediatrics in training exam.

Dr. Antonovic, Dr. Someshwar and the following faculty physicians at the General Pediatrics Clinic are accepting new patients. For an appointment, please call 882-4730.

**Pediatric
Medicine**

**Paul
Bernhardtson,
M.D.**

Board certified in: Pediatrics, 1993
Clinical interests: General child care, developmental delays and attention deficits.

**Adolescent
Medicine**

**Paul
Robinson,
M.D.**

Dr. Robinson sees patients between the ages of 11 and 22.
Board certified in: Pediatrics, 1987
Clinical interests: General adolescent care, adolescent gynecology and pregnancy prevention, and primary care for adolescents with special needs.

**Adolescent
Medicine**

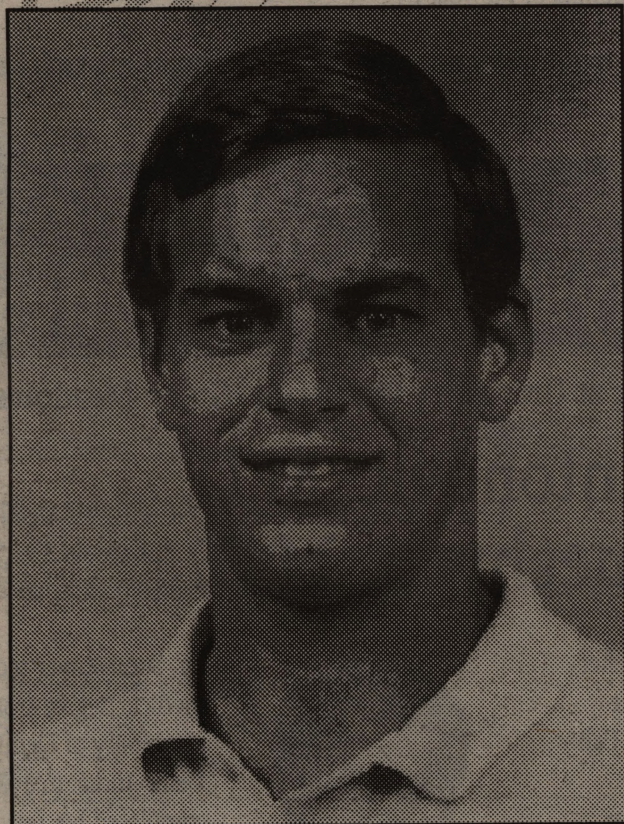

**George
Sotiropoulos,
M.D.**

Dr. Sotiropoulos sees patients between the ages of 11 and 22.
Board certified in: Pediatrics, 1987
Clinical interests: General adolescent care, physical activity in children with chronic illness, exercise-induced asthma and sports injuries.

FOR THE
RECORD

Pre-nominations for 1996 faculty awards are due on the dates indicated.

- Dec. 1, 1995: Chancellor's Award for Outstanding Faculty Research and Creative Activity; President's Award for Research and Creativity (intercampus competition).
- Jan. 8, 1996: Curators' Professorships; Distinguished Teaching Professorships; Byler Distinguished Professor Award; William T. Kemper Fellowships for Teaching Excellence; Provost Award for Creative Extension Programming by New Faculty; Provost Award for Outstanding Achievement in Extension and Continuing Education; Provost Outstanding Junior Faculty Teaching Award; Maxine Christopher Shutz Award and Lecture for Distinguished Teaching.
- Jan. 8, 1996 (intercampus competition): Thomas Jefferson Award; Presidential Award for Outstanding Teaching.

The Peace Studies Program, with the approval of the Friends of Peace Studies, has established an award for MU faculty. The award will be given each year for at least the next three years to a faculty member who has significantly advanced the cause of peace through teaching, research or community service. This recognition of achievement carries a \$500 award.

Letters of nomination and supporting materials should be sent by Dec. 15 to John F. Galliher, director of peace studies, 19 Parker Hall.

CALENDAR

Send calendar items in Campus Mail to
Mizzou Weekly Calendar, 407 Reynolds Center,
by noon Thursday the week before publication.
Events are free and open to the public unless otherwise noted.

Concerts & Plays

Friday, Nov. 3

SZEKELY-SCHENE RECITAL DUO: Eva Szekely, violin, and Daniel Schene, piano, will perform at 8 p.m. in the Whitmore Recital Hall.

Saturday, Nov. 4

BUDER WOODWIND QUINTET: The graduate student ensemble will perform at 7 p.m. in the Whitmore Recital Hall.

Conferences

Friday, Nov. 3

NURSING CONFERENCE: "Clinical Drug Trials: Getting Started" will be offered Nov. 3-4 at Best Western Columbia Inn. For registration and cost information, call 882-0215.

Tuesday, Nov. 7

NURSING CONFERENCE: "Advanced IV Therapy Concepts Knowing the Ropes: In and Out of the Hospital" will be offered from 7 a.m. - 4 p.m. at the Holiday Inn East-

Holidome. For registration and cost information, call 882-0215

Thursday, Nov. 9

NURSE EDUCATOR CONFERENCE: "Teaching, Testing, and Technology" will be offered from 8:30 a.m. - 4:15 p.m. at the Best Western Columbia Inn. For registration and cost information, call 882-0215

Courses

Thursday, Nov. 2

CHILDBIRTH CLASSES: "Refresher Childbirth" will be offered from 7 - 9 p.m. Nov. 2, 9, 15, and 16, at the Ellis Fischel Cancer Center. Cost is \$30. To register, call 882-6973.

Saturday, Nov. 4

WOMEN'S CENTER FALL WORKSHOPS: "Women & the 'Net'" will be offered from 1 - 3 p.m. in Room 107 Townsend Hall. SHOWME or MISSOU1 account must be obtained prior to workshop. Registration is required. To register, call 882-6621.

Monday, Nov. 6

CHILDBIRTH CLASSES: "Beginning Childbirth" will be offered from 7 - 9 p.m. Mondays, Nov. 6 through Dec. 18, in the Ellis Fischel Cancer Center. Cost is \$45 for course and \$5 for the breastfeeding session. To register, call 882-6973.

Wednesday, Nov. 8

GRANDPARENTING IN THE '90s: Class will be offered from 7 - 9 p.m. at the Ellis Fischel Cancer Center. Cost is \$10. To register, call 882-6973.

Exhibits

BINGHAM GALLERY: "French Suite," the work of William A. Berry, will be on display until Nov. 3. The gallery, located in the Fine Arts Building is open from 10 a.m. - 4 p.m. weekdays.

ELLIS LIBRARY: "U.S. Senatorial Races—On the Campaign Trail with Eagleton and Truman" will be on display in Room 23 Ellis Library, now through Nov. 30. Hours are from 8 a.m. to 4:45 p.m. Monday through Friday and Tuesday evenings until 9 p.m.

UNIVERSITY HOSPITALS AND CLINICS: "Art For Life," the works of Nora Campbell and Jane Mudd, will be on display in the main lobby concourse at University Hospital and Clinics through Jan. 3.

Films

Friday Nov. 3

Monday, Nov. 6

MSA/GPC FILM: *Silverlake Life: The View From Here* will be shown at 7 and 9:30 p.m. in Ellis Auditorium. Cost: \$1.50.

Friday, Nov. 10

MSA/GPC FILM: *Death and the Maiden* will be shown at 7 and 9:30 p.m. in Ellis Auditorium. Cost: \$2 advance, \$2.50 at the door.

Lectures & Seminars

Thursday, Nov. 2

BUSINESS SERVICES SEMINAR:

"Accounting Services / Forms" will be presented from 8:30 a.m. to noon in Room S203 Memorial Union.

"Accounting Services — Reading FBMO90/91" will be presented from 1 - 4:30 p.m.

Campus Computing

Short Courses

The following non-credit short courses are free of charge and open to MU faculty, staff and graduate students unless otherwise noted. Participants may be enrolled in no more than two courses at one time. Registration is required and is done on a first-come, first-served basis. To enroll, please call 882-2000. NOTE: When an ID is required for a class, participants should obtain the ID *prior to registering for that class* (call the Help Desk at 882-5000 for ID information). **For the complete Fall Semester Short Course schedule, see Uniform Resource Locator (URL) http://www.missouri.edu/cc/cc_classes/cc_courses/.**

FOUNDATIONS OF COMPUTERS

NOVEMBER 6 AND 13, 9:00 AM - NOON

Through lecture and hands-on exercises, the student will learn the fundamentals in both IBM and Macintosh platforms of computer hardware, what they do and how they function; different categories of software applications; terminology and basic computer manipulation; and disk and drive preparation for file management. The student will learn to interpret computer advertising and jargon to make educated decisions about purchasing and upgrading. The course will also include a discussion of how computers are linked together in networks through which they can share resources and information. The course concludes with a complete presentation of the University's computing facilities, training and where to get help.

INTERNET CONCEPTS

5: NOVEMBER 10, 1:30 - 3:30 PM

This basic Internet lecture/demonstration course covers the general concepts for individuals with little or no experience with the Internet. Ideal for beginning users who want to gain a better understanding of how things work behind the scenes. Although the course is a lecture rather than hands-on format, participants will learn about the broad spectrum of activities that one may do with Internet access. Participants will compare the differences between text-only and graphical user interfaces, and between modem and backbone connection. Specifically, participants will learn the concepts behind the email, telnet, and File Transfer Protocol (FTP) functions, as well as World Wide Web functions. Other than a desire to learn and basic computer

experience, there are no prerequisites. Undergraduates may enroll for this course on a space-available basis.

HANDS-ON INTERNET: MIZZOU1

1: NOVEMBER 7, 9:00 AM - NOON

This hands-on course is for individuals who have secured a MIZZOU1 account with the Campus Computing Help Desk (882-5000); therefore, we teach this course from the perspective of using basic Internet protocols from the interface available through a host account. In addition to this text-only basis of Internet navigation, participants will explore the Internet using SLIP software. Class time will be spent navigating the Internet using Telnet, and searching the World Wide Web with Netscape. File Transfer Protocol (also called Fetch) will be discussed in relation to a SLIP connection, but individual user procedures will differ depending on the type of account and connection in use. Prerequisites: You must have a MIZZOU1 ID and password *prior to registration for the class -- a cc:Mail account will not be sufficient!* Please bring a formatted 3.5" diskette to class.

HANDS-ON INTERNET: SHOWME

1: NOVEMBER 8, 9:00 AM - NOON

This hands-on course is for individuals who have secured a SHOWME account with the Campus Computing Help Desk (882-5000); therefore, we teach this course from the perspective of using basic Internet protocols from the interface available through a host account. In addition to this text-only basis of Internet navigation, participants will explore the Internet using SLIP software. Class time

will be spent navigating the Internet using Telnet, and searching the World Wide Web with Netscape. File Transfer Protocol (also called Fetch) will be discussed in relation to a SLIP connection. Prerequisites: You must have a SHOWME ID and password *prior to registration for the class -- a cc:Mail account will not be sufficient!* Please bring a formatted 3.5" diskette to class.

INTRODUCTION TO MAILBOOK (RICEMAIL)

NOVEMBER 9, 1:00 - 4:00 PM

MailBook (formerly known as RiceMail) is the software that makes possible for you to communicate by email on the MIZZOU1 mainframe computer. In this course you'll learn how to compose, edit and spell-check email notes and send them to an individual or group of people. You'll also learn to organize your email by sorting it into notebooks, and time-saving methods such as using nicknames in place of full email addresses. Prerequisite(s): Foundations of Computers course or knowledge of file management with Macintosh or Windows, mouse skills and a MIZZOU1 ID are required *prior to the beginning of the class*.

GRAPHING WITH MS EXCEL 5.0

1: NOVEMBER 7, 1:00 - 4:00 PM

This hands-on course will introduce graphing options in the Microsoft Excel 5.0 application. Topics covered include manipulating different graph types, formatting, modifying and editing graphs, and printing considerations. Prerequisite(s): Introduction to Excel or experience with Excel spreadsheets.

CHEMICAL ENGINEERING SEMINAR: Charles B. Muchmore, Southern Illinois University, will present "Mechanical Engineering and Energy Process" at 3:40 p.m. in W0009 Engineering Building East.

GENETICS AREA PROGRAM SYMPOSIUM ON "GENETICS, SOCIETY AND THE LAW": Bruce Weir, North Carolina State University, will present "The Use of DNA in Forensic Science: Statistical Issues" at 3:40 p.m. in Room 18 Tucker Hall.

Friday, Nov. 3

CLASSICAL STUDIES LECTURE: John Younger, professor of classical studies at Duke University, will present "Gender and Sexuality on the Parthenon Frieze" at 6 p.m. in Room 106 Pickard Hall.

ENTOMOLOGY SEMINAR: Salvador Vitanza, graduate student, will present "Those Pesky Mosquitoes and How You Can Fight Back" at 2:40 p.m. in Room 2-7 Agriculture Building.

GEOLOGY LECTURE: Terry Plank, University of Kansas, will present "The Ins and Outs of Arc Volcanoes: Sediment Recycling at Subduction Zones" at 3:40 p.m. in Room 108 Geological Sciences Building.

INTERDISCIPLINARY PLANT GROUP SEMINAR: Marta Laskowski, University of California-Berkeley, will present "Molecular and Cellular Events in Meristem Development" at 2:40 p.m. in Room 18 Tucker Hall.

MEDIEVAL AND RENAISSANCE STUDIES LECTURE: Joan Holladay, University of Texas, will present "Wooden Women: Reconstructing St. Ursula's Virgin Band in the 13th and 14th Centuries" at 4 p.m. in Pickard Auditorium.

Saturday, Nov. 4

ORGANIZATION VALUES SEMINAR: John Younger, professor of classical studies at Duke University, will present "Value of Gay, Lesbian, and Bisexual Organizations within Academia and the Professions" from 1 - 4 p.m. in the Joplin/Boone Room of Memorial Union.

Monday, Nov. 6

BIOCHEMISTRY LECTURE: David Ash, Temple University School of Medicine, will present "Catalysis On Binuclear Mn(II) Centers: Hydrolytic and Redox Activities of Liver Arginase" at 3:40 p.m. in Room 50 Chemistry Building.

SOIL AND WATER RESOURCES SEMINAR: Wenzheng Du, soil and atmospheric science, will present "Soil Solution of Cu and Zn" from 3:40-4:30 p.m. in Room 133 Mumford Hall.

Tuesday, Nov. 7

BIOLOGICAL SCIENCES SEMINAR: George Uetz, University of Cincinnati, will present "Life on a Common Thread: Behavioral Ecology of a Colonial Web-Building Spider" at 3:40 p.m. in Room 18 Tucker Hall.

WAKONSE COLLOQUIUM: Tom Dougherty, professor of management, will present "Companies To Work For" at 5:15 p.m. in Hatch Hall.
