Jump start

National summer program at MU prepares minority law students.

Forty-eight pre-law minority students from 25 different states arrived at MU earlier this month to get a jump on law school. The students will stay at MU for the next six weeks as part of the Council on Legal Education Organization's (CLEO) national law school preparation program.

"This is the fifth time MU has hosted the CLEO program, and each time it's helped bring more national visibility to our law school," said Gerald Beechum, career services director for the law school. Beechum and

Bob Bailey, assistant dean, are co-directors of the summer institute.

"Programs like CLEO are great for the law school and the University in general, because they spread Mizzou's academic word. We hope CLEO participants look at MU as a top law school option and that eventually more law school applicants from all around the country will consider attending Mizzou," Beechum said.

More than 900 students applied to the CLEO program this year. The application process is much like that for law school. Students were considered by their LSAT scores, GPA, application and letters of recommendation. Participants are attending classes and seminars, and staying in a residence hall on the MU campus. The classes include Criminal Procedure, Employment Discrimination and Legal Writing.

The students also will be attending seminars on how

MIZZOU'S MISSION ENHANCEMENT:

Representatives from across campus continue to refine MU's strategic planning process. The most recent draft of the campus mission enhancement proposal is available online at: <http://www.missouri.edu/~muwww/enhancement/>

A chart that highlights the main features is printed on Page 5 of this issue of *Mizzou Weekly*. Comments on the plan may be directed to the Chancellor's Office, 105 Jesse Hall; or to Professor Tom Dougherty, chair of the Strategic Planning Advisory Council, 13B Middlebush Hall. Drafts of the proposal will continue to be discussed by the UM president and general officers through June and July, and will be taken up at a special meeting of the Board of Curators in July. The plan will be submitted to the state Coordinating Board for Higher Education in late September.

to study in law school and career options in the legal profession. Participating MU law school faculty include Professors Ed Hunvald, Michael Middleton and Jim Ritzen.

"We hope the students will get a jump start on their law school success by being mentally prepared for the rigors and demands of law school," said Bailey. "This program is designed to give participants their first taste of law school and to help students succeed in their law school experience."

Mastering the field

Engineering grants encourage top students to stay at Mizzou and attend graduate school.

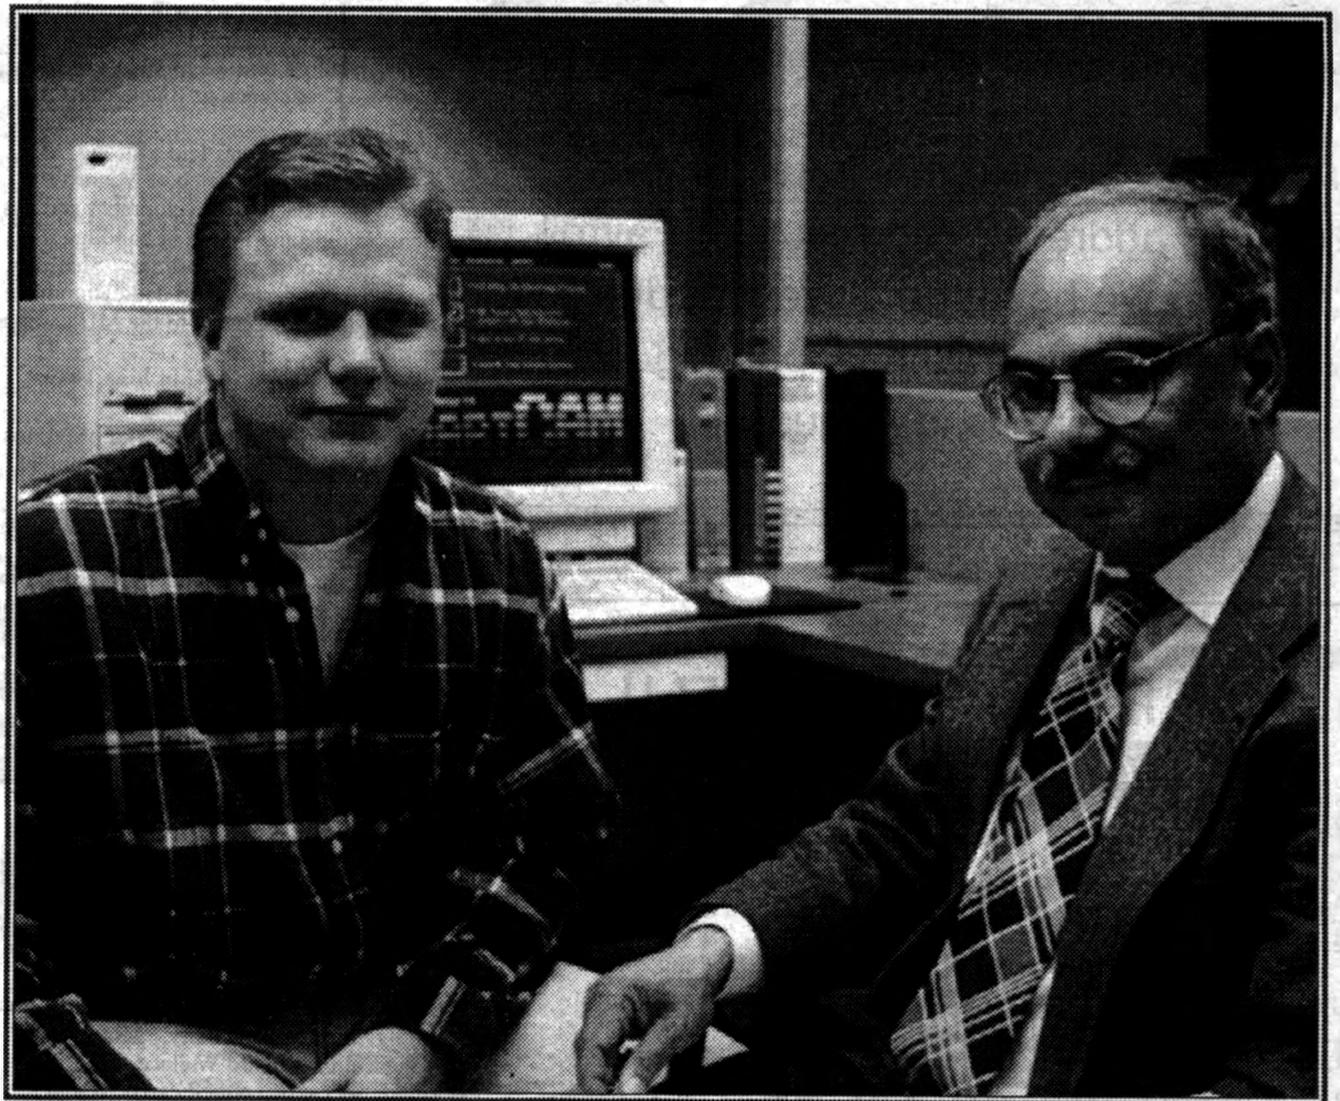

Rick Winberry had been thinking of staying at MU for graduate school, but he wasn't quite sure. The senior in mechanical engineering from Imperial, Mo., was carrying a 3.0 grade-point average, which he knew could help him land a good job with his bachelor's degree. "And yet, something in me wanted to go for my master's," he says.

Now, Winberry has decided to stay on and pursue a graduate degree under the direction of Sherif El-Gizawy, associate professor of mechanical engineering. And one of the things that helped him reach that decision was a \$1,000 Undergraduate Research Scholars Grant awarded by the College of Engineering.

Last winter, Winberry was given the grant and began working with El-Gizawy on the computer-aided design of a landing gear system for a small airplane. It's the sort of project that typifies a good master's program: a focus on research and a one-on-one relationship with a faculty mentor.

"I'm really enjoying it," Winberry says. "We're taking this landing gear system from beginning to end: design, manufacturing, quality control. I thought, 'If this is what graduate school is going to be like, I want to be a part of it.'"

That's precisely the point, says Bill Miller, professor and chair of nuclear

College of Engineering photo

engineering, who is coordinating the new program with Andy Blanchard, director of research in the college. The standard appointment is \$1,000 per semester, and students are expected to work 10 hours each week in the labs.

"We have nine scholars this first year, all of them top juniors or seniors," Miller says. "We're encouraging them to go to graduate school, and to let them know there's no reason why they shouldn't go here. By beginning these

projects as juniors or seniors, they're getting a jump start on graduate-level research."

El-Gizawy, for one, is happy that Winberry is staying. "For years, I've encouraged our top students to obtain their master's degrees," he says, "but it's not easy when they're getting good job offers with their bachelor's degrees.

"Still, more and more companies are looking to hire someone with an advanced degree and research

Engineering senior Rick Winberry, left, will be staying at Mizzou to pursue his master's degree in computer-aided design under the direction of Associate Professor Sherif El-Gizawy.

experience, and the MS holder will almost always draw a higher salary. It really benefits the student to stay."

HONORING EXCELLENCE

The School of Journalism will recognize former dean Roy Fisher's many contributions to journalism education with a ceremony to rename Gannett Auditorium in his honor. Fisher, the former editor-in-chief of the *Chicago Daily News*, served as journalism dean from 1971 to 1982. The University community is invited to join Dean Emeritus and Mrs. Fisher at the ceremony, which will be held at 10:30 a.m. Monday June 30 in the newly-named Fisher Auditorium.

PROVOST RECEIVES NATIONAL AWARD

Provost Edward Sheridan recently received the 1997 Distinguished Career Contributions to Education and Training Award from the American Psychological Association. The award honors a psychologist for major contributions to education and training throughout his or her career. The APA's awards committee chose Sheridan based on his accomplishments as psychology chair at Northwestern University Medical School, dean of arts and science at the University of Central Florida and provost of MU. Sheridan also was recognized for

the impact he has had on the field of health psychology through his leadership of several national conferences and through his publication of numerous articles.

"Each of us in higher education is committed to encouraging new generations and new horizons in our disciplines," Sheridan said. "I believe in the value of psychology to society and I am very appreciative of being recognized by APA for my contributions."

CAREER ACCOMPLISHMENTS

Friends and colleagues of Robert Tsutakawa will honor the professor of statistics at a retirement dinner to recognize his 29 years of service to MU. The

dinner will be held at 6 p.m. Saturday, July 19 in the Reynolds Alumni Center. For information about attending the event, call 882-6376.

PLEASE DON'T LITTER.

Morrison leaves vice provost post

Vice provost for minority affairs and faculty development KC Morrison will step down from his position to return to research and teaching, Provost Ed Sheridan announced last week. A search to fill the position will start in the fall, Sheridan said.

Morrison, who has served as vice provost for eight years, will move to the department of political science on Aug. 1 and will start a term as president of the National Conference of Black Political Scientists.

"KC Morrison has laid a strong foundation for the Office of Minority Affairs and Faculty Development and has done an outstanding job in handling a wide range of responsibilities," Sheridan said. "His leadership and dedication have truly made a difference to the MU campus community."

Since coming to MU in June 1989, Morrison has handled broad responsibilities for policies and programs in minority affairs, faculty development and academic retention.

Some of his notable accomplishments include: providing leadership for the institutional diversity plan that resulted in a 300 percent increase in minority student recruitment; establishment of the office of Academic Retention Service to support minority student retention and creation of an institutional Retention Council; conversion of the International Teaching Assistant program into a broader office of faculty development—the Program for Excellence in Teaching; and creation of the MU to the Future Program for diversity training of faculty, staff and students.

"As the University's first vice provost for minority affairs and faculty development, KC Morrison has done great things for this University," MU Interim Chancellor Richard Wallace said. "His many successes, which can be found all across this campus, have benefitted numerous MU programs and students."

In addition to providing program leadership, Morrison also has handled faculty searches and appointments, academic leaves and sabbaticals, and promotion and tenure. He has directed and supported many campus diversity programs including Black History Month, Women's History Month, Asian American Week, Hispanics of Today Conference, the annual Martin Luther King Program and the annual campus Pow Wow.

"My time at MU has been one of the most comprehensive learning experiences

in my career. It has been full and fulfilling," Morrison said. "I have worked on a range of difficult challenges here, but whatever my success, it has owed to great help from so many members of this community. The teams of faculty, staff, students, administrators, alums, and others with whom I have worked on so many issues have contributed, I like to think, to a better place."

Throughout his administrative career, Morrison has remained active in the research arena. He has published in political science journals and currently serves as immediate past president of the African Association of Political Scientists and as president-elect of the National Conference of Black Political Scientists. His research expertise in West African politics and black American politics has led to three books, *Black Political Mobilization*, *Leadership, Power and Mass Behavior*; *Housing the Urban Poor in Africa*; and *Ethnicity and Political Integration*. He was chair of Afro-American Studies at Syracuse University before coming to MU.

MIZZOU WEEKLY

Volume 18 Number 33

A publication for University of Missouri-Columbia faculty and staff, published every Thursday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of University Affairs, 407 Reynolds Alumni and Visitor Center, 882-7357. News deadline is noon Thursday the week before publication. Annual subscriptions are available for \$20.

Judy Grundler, left, and Anastasia Becker collect cereal leaf beetle eggs and larvae for their field insectaries. The researchers are working cooperatively on an Integrated Pest Management program to grow beneficial wasps that parasitize the beetle's larva and eggs.

Bug off

Researchers raise a bumper crop of beneficial wasps.

Two tiny wasps being raised at MU insectaries might be the state's best protection against the cereal leaf beetle, a pest that infests wheat, oats, corn, rice and a variety of grasses.

One wasp species, *Anaphes flavipes*, lays its egg inside the egg of the beetle and prevents it from hatching. The other wasp lays its eggs in the cereal beetle larva and destroys it. That wasp is *Tetrastichus julis*.

"We call him T.J.," said MU extension

entomology research specialist Anastasia Becker, who works on the interagency project with Judy Grundler, a biological control expert with the Missouri Department of Agriculture.

The wasps resemble their larger cousins, although they are smaller than the dot on an "i." But they are natural parasites to the cereal leaf beetle, which is common in Europe and Asia and has been found in 33 states. It was first reported in Missouri in 1972.

Becker and Grundler have set up field insectaries at MU's Bradford Farm near Columbia and Greenley Research Center at Novelty, Mo. Their goal is to raise wasps for distribution to farmers who find their fields infested with the cereal leaf beetle.

"It's a long-term thing," said Grundler. "Once you get insectaries established, you

can glean from them every year. What we're trying to do is to speed up the natural biological control processes."

The two researchers gather beetle eggs and larvae from fields, then dissect the larvae and determine whether the wasps have laid their eggs within. If so, they will distribute the parasitized larvae on plants in their insectary plots. The eggs are gathered and examined under a microscope. Parasitized eggs are put in "houses" fashioned from cardboard ice-cream cartons. Posted at canopy level in the field, the parasite houses contain a wet sponge to keep the eggs moist and holes that will allow the wasps to escape when they emerge, as adults, from the beetle eggs.

Grundler was an entomological researcher at MU until a year ago, when the state agriculture department, hoping to

reduce the use of chemical pesticides, chose her to launch an integrated pest management program. A joint project with MU entomology was logical, she said, because "it's much easier to control what happens in the university fields" than on those held by private landowners.

The insectary at Bradford Farm consists of plots of wheat and three plantings of oats to provide "a continuous supply of succulent material for the beetles," said Becker, a member of the MU Integrated Pest Management team. "You can't have the wasps without their hosts." The field's border of red clover produces nectar, "an excellent food source for the beneficial wasps," she said.

Even the fencerow serves a purpose: "It's a safe harbor for the insects over the winter," said Bradford Farm director John Poehlmann.

The cereal leaf beetle and the wasps are native to Europe and Asia. The beetle appeared in North America in the early '60s and infested fields in Michigan, Indiana and parts of Illinois. Entomologists went to Europe and brought back the beneficial wasps.

"Both wasps made it into Missouri on their own, so we know they can handle our varied weather," Becker said. By introducing the wasp wherever the cereal leaf beetle appears, researchers like Grundler and Becker help to keep the voracious bug under control.

"Nature keeps itself in pretty good balance," Grundler said. "We're just trying to help it stay one step ahead of the insect pest."

FREE DELIVERY!

HEARNES CENTER JESSE AUDITORIUM

Congratulations to Bill Thornton.

He has been voted Hearnese Center/Jesse Auditorium June Employee of the Month. Mr. Bill has been with the University for 45 years, 24 of those years at the Hearnese Center. He is willing to go out of his way to help others and he volunteers to come into the office to help out when needed. Mr. Bill makes his way around the office to see how everyone is doing. People in our office know that they can count on Mr. Bill if anything needs to be done. We applaud him for his dedication!

Thank you Bill for a job well done!
JUNE
EMPLOYEE OF THE MONTH

Building the free press

Stuart H. Loory, vice president of Turner International Broadcasting, will join the journalism faculty this fall as the first Lee Hills Chair in Free-Press Studies.

Loory has spent the last 17 years with Cable News Network (CNN) and its parent, Turner Broadcasting System, after a long career as reporter, correspondent and editor at several major U.S. newspapers.

The Lee Hills Chair in Free-Press Studies was established with a \$1.1 million gift from Lee Hills, former chairman of the board and chief executive officer of Knight-Ridder Newspapers, and his wife, Tina. The state of Missouri matched the Hills' gift. The chair was designed to develop programs of teaching and research aimed at understanding and publicizing the role of a free press in democratic societies.

"Stuart Loory is the ideal person to launch the Lee Hills Chair program, one who will build an exciting program with significant impact," Hills said. "He is that rare combination of a leader in his field who has distinguished himself as a print journalist and also as a broadcast journalist, both nationally and internationally."

"His international credentials are exceptional," Hills said. "He has a good understanding of free-press issues everywhere."

For the past two years, Loory has been head of the Turner Broadcasting consulting office in Moscow, helping advise Public Russian Television in the transition from a socialist to a free market economy. He previously had helped establish TV6 Moscow, the first independent television station in Moscow, a joint venture of Turner Broadcasting and a Russian firm.

"Journalism throughout the world

faces crises of self-confidence and credibility," Loory said. "The Lee Hills Chair will develop courses and programs to help solve these problems while strengthening the sanctity of the First Amendment and the traditions of the free press."

Loory joined CNN in 1980, only four months after its founding, and served as the vice president and managing editor of its Washington Bureau. He opened CNN's first Moscow bureau and was its first Moscow correspondent, from 1983 to 1986.

He also founded and for four years was in charge of CNN World Report, an innovative program that offers uncensored and unedited reports from journalists around the globe.

Ted Turner, chairman of CNN, praised Loory's contributions to CNN and Turner Broadcasting. "Stu Loory has been a valuable member of our company for nearly 17 years. Stu's contributions have left their mark not only on CNN and Turner Broadcasting but also on the practice of a free press throughout the world," Turner said.

During his print career, Loory held positions as managing editor for the *Chicago Sun Times*; White House correspondent for the *Los Angeles Times*; science writer for *The New York Times*; and Moscow bureau chief, Washington correspondent and science writer for the *New York Herald Tribune*.

His books include *The Secret Search for Peace in Vietnam* (with David Kraslow), *Defeated: Inside America's Military Machine* and *Seven Days that Shook the World: The Collapse of Soviet Communism* (with Ann Imse). He holds a bachelor's degree from Cornell University and a master's degree from the Columbia University Graduate School of Journalism.

Care.

Heart of Missouri Mental Health Services is pleased to announce it has joined University of Missouri Health Sciences Center.

As partners in health care, we will support the advancement of mental health services in mid-Missouri and strive to keep programs available at the local level.

Heart of Missouri Mental Health Services offers crisis response services, community psychiatric rehabilitation programs and adult outpatient services through a network of 10 counseling centers. Our counseling centers are located in Boone, Carroll, Chariton, Cooper, Howard, Moniteau, Morgan, Pettis, Randolph and Saline counties.

For more information about our services, please call (573) 884-1515.

Strengthening Missouri through research, creativity, advanced educational experiences

Mission enhancement focus	Enhancing the connections among graduate programs, research and the undergraduate experience	Enhancing selected Interdisciplinary graduate, professional, research and creative programs		Leading the transition to the global information age by applying research and new technologies to Missouri's needs
		Strengthening health, agricultural productivity through the life sciences	Enhancing the quality of life through research on economic education and social issues	
Focal points for action	<ul style="list-style-type: none"> ◆Preparing undergraduates for the knowledge-based economy through hands-on research and creative experiences ◆Providing additional support for (a) graduate student stipends to enhance the selection of the finest students and reduce time to degree completion and (b) full-time faculty to reduce reliance on graduate teaching assistants for undergraduate instruction and to facilitate student learning experiences ◆Strengthening programs for high ability students ◆Developing opportunities for all students to understand changing world conditions and the global economy ◆Implementing innovative approaches to prepare students as future leaders for Missouri, the nation and the world 	<ul style="list-style-type: none"> ◆Preventing and treating heart disease, cancer, cystic fibrosis, and other crippling illnesses ◆Improving patient care through application of new research, surgical, and behavioral motivation techniques ◆Improving rural health care ◆Strengthening services to the elderly (ElderCare) ◆Enhancing crop and food production through new knowledge applied to the food and fiber system ◆Expanding research activities focused on nutrition 	<ul style="list-style-type: none"> ◆Preventing and treating addictive behaviors ◆Identifying social and behavioral foundations for family strength and vitality ◆Providing research analysis for public policy decisions ◆Using research to expand partnerships with elementary and secondary education ◆Facilitating resolution of conflicts and disputes in legal matters ◆Developing strategies for community and organizational change in adapting to new social, economic, and structural conditions 	<ul style="list-style-type: none"> ◆Developing and applying advanced technologies to enhance communications throughout the state, nation, and world ◆Extending access to MU's instructional programs through collaboration and distance education ◆Expanding MU's applied research efforts to address complex problems in agriculture, the natural environment, business, and mass media ◆Implementing partnerships at home and abroad to enhance Missouri's competitiveness in the world economy
Examples of program strengths	<ul style="list-style-type: none"> ◆General Education ◆Honors College ◆Selected programs which involve undergraduates in research, provide leadership development opportunities, and/or foster a global orientation ◆Writing Across the Curriculum ◆Creative Writing ◆Residential Learning Communities ◆Program for Excellence in Teaching and the Learning Center 	<ul style="list-style-type: none"> ◆Food for the 21st Century (F21C) ◆Molecular Biology ◆Comparative Oncology and Radiopharmaceuticals ◆Dalton Cardiovascular Research Center ◆Cystic Fibrosis Research Center ◆Rural Health Care ◆Division of Biological Sciences (Genetic Regulation of Growth and Development; Evolution and Neural Control of Behavior) 	<ul style="list-style-type: none"> ◆Policy research centers in agriculture, education, health care, human development, and communities ◆Alternative Dispute Resolution Center ◆Center for the Study of Organizational Change and B&PA Research Center ◆Mathematics Education ◆Interprofessional Education Initiative ◆Department of Psychology (focus on addictive behaviors and Counseling Psychology) ◆Center for Advanced Social Research 	<ul style="list-style-type: none"> ◆School of Journalism ◆MoAES Outlying Research Centers ◆Geographic Information Analysis ◆MU Extension/Office of Social and Economic Data Analysis ◆Missouri Watershed Initiative ◆Computational Mathematics ◆Small Business Development Center ◆Telecommunication and Information Technologies
Budget request	\$5 million total over four years, beginning in 1998-99	\$14 million total over four years, beginning in 1998-99	\$10 million total over four years, beginning in 1998-99	\$6 million total over four years, beginning in 1998-99
Expected outcomes for all areas	<p>◆ENHANCED FACULTY PRODUCTIVITY AND OVERALL PROGRAM QUALITY, as evidenced by (a) increased external funding for research and creative projects, (b) higher levels of philanthropic support for programs of distinction, (c) increased number of graduate and professional programs recognized nationally and internationally for their excellence, and (d) widespread recognition of faculty accomplishments (e.g., more invited presentations nationally and internationally, increased recognition for creative and professional achievements).</p> <p>◆ENHANCED QUALITY OF GRADUATE EDUCATION, as evidenced by (a) higher ability levels of entering students, (b)</p>	<p>attraction of more students from premier undergraduate and master's programs, (c) enhanced placement of doctoral and other degree recipients in AAU and Research I universities and in other appropriate positions, (d) a high level of student satisfaction with their respective graduate programs, (e) career success, based on follow-up studies appropriate to the field of study, and (f) increased numbers of graduates in selected fields.</p> <p>◆ENHANCED QUALITY OF UNDERGRADUATE EDUCATION, as evidenced by (a) a higher percentage of undergraduate classes conducted by full-time faculty, (b) an increase in the fraction of undergraduates involved in research and creative activities and in international</p>	<p>programs, (c) improved placement of degree recipients in the job market and in graduate and professional programs, (d) a high level of student satisfaction with the undergraduate experience, (e) career success, based on employer surveys and other data, and (f) increased retention and graduation rates.</p> <p>◆IMPROVED SERVICES TO MISSOURI, as evidenced by (a) increased involvement of faculty and students with the legislative and executive branches in the shaping of public policy, (b) increases in the number of applied research efforts which yield direct benefit for Missourians (e.g., crop yield and food production, business efficiencies, digital formatting of geographic data), (c) a</p>	<p>stronger leadership role for MU in improving the economic, health, and social welfare of Missouri's citizens (e.g., improved rural health care via telemedicine and expanded services for the elderly), (d) increased enrollments through extension and other off-campus programs designed to enhance educational access, (e) increases in partnerships with business and other organizations to improve quality of life for Missourians, and (f) high levels of satisfaction expressed by recipients of MU's programs and services (e.g., surveys of ElderCare participants)</p>

CALENDAR

Send calendar items by Campus Mail to
Mizzou Weekly Calendar, 407 Reynolds Center,
by noon Thursday the week before publication.
Events are free and open to the public unless otherwise noted.

Concerts & Plays

SUMMER REPERTORY THEATER:

Mizzou's professional summer theater series continues its 29th season. All performances in the Rhynsburger Theatre. For ticket information, call 882-PLAY.

• "The Best Little Whorehouse in Texas" presents a view of small-town vice and corruption. Performances on June 28 and July 1, 2, 8, 10, 15, 18, 23, 26 and 31 at 8 p.m. and June 29 and July 27 at 2 p.m.

• "1940s Radio Hour" recreates a live radio broadcast from New York City's Hotel Astoria that features pop music of the era. Performances on July 5, 9, 11, 16, 19, 24, 29, and Aug. 1 at 8 p.m. and July 6 and 20 at 2 p.m.

• "Wedding Band" presents a romantic tragedy about an enduring and illegal love affair in a city on the South Carolina coast. Performances on July 12, 17, 22, 25 and 30 at 8 p.m. and July 13 at 2 p.m.

Thursday, June 26

SUMMER CONCERT: "The Music of Beach and Bach," directed by David Rayl, will begin at 8 p.m. in the sanctuary of the Sacred Heart Catholic Church. The concert will feature the MU Summer Singers performing *Grand Mass in E-Flat Major* by Amy Marcy Cheney Beach, and the MU Summer Chamber Orchestra performing Bach's *Concerto for Two Harpsichords and Strings*.

Conferences

Thursday and Friday, July 8 & 9

NURSING CONFERENCES:

• "Advanced IV Therapy" will be offered from 7:30 a.m.-4 p.m. today.

• "PICC Line Insertion and Management" will be offered from 7:30 a.m.-4 p.m. tomorrow.

Both conferences will be held at the Ramada Inn, 1100 Vandiver Dr. For cost and registration information, call 882-0215.

Courses

Tuesday, July 8

COMPUTING SHORT COURSE:

"Foundations of Computers" will be offered from 8:30-10:30 a.m. in 266 Heinkel. The two-part course will continue at the same time and location July 15. The course will be offered again July 9 and 16 from 8:30-10:30 a.m., and July 10 and 17 from 1:30-3:30 p.m. Registration by Campus Mail or fax is required; for information, call 882-2603.

Wednesday, July 9

MIZZOU TELECOM SEMINARS:

• "Using Telephone Features Effectively" will be offered from 9-11 a.m.

• "Using MU Voice Mail Effectively" will be offered from 1:30-3:30 p.m.

Both courses will be held in the Parking and Transportation office training room on the

second level of Turner Avenue garage. Pre-registration is required; call 882-5525.

Friday, July 11

COMPUTING SHORT COURSE: "Internet Fundamentals Including Netscape Basics" will be offered from 8:30 a.m.-12:30 p.m. in 266 Heinkel Building. The course will be offered again July 14 and 21 from 8:30-10:30 a.m., July 17 from 1-5 p.m., and July 18 from 1-5 p.m. Registration by Campus Mail or fax is required; for information, call 882-2603.

Exhibits

MUSEUM OF ANTHROPOLOGY:

"Photography by Eldon Leiter: Ancient Maya Art and Architecture" is on display. The museum's exhibits focus on Native American cultures and the history and prehistory of Missouri. The museum, located in 100 Swallow Hall, is open from 9 a.m.-4 p.m. weekdays and 10 a.m.-3 p.m. Saturday.

MUSEUM OF ART AND ARCHAEOLOGY:

• "Parallel Visions: Contemporary Russian and American Painting" is on display through June 15.

• "The Time of Her Life: Jane Austen's Era" is on display through Sept. 21.

• "The Floating World: Japanese Art of the Late Edo" will be on display July 12-Sept. 28.

Ongoing exhibits:

• "The Mark Rothko Loan"

• "Isms and Others in the Twentieth Century"

• "The Saul and Gladys Weinberg Gallery of Ancient Art"

• "Early Christian and Byzantine Gallery"

• "European and American Gallery"

• "Expressions of Africa"

The museum, located in Pickard Hall, is open from 9 a.m.-5 p.m. Tuesday through Friday, 6-9 p.m. Thursday, noon-5 p.m. Saturday and Sunday. Closed Mondays and national holidays.

STATE HISTORICAL SOCIETY:

• Works by the late Fred Shane will be on display in the gallery through August. Shane taught art at MU from 1938 to 1971; the exhibit includes drawings, paintings, mural studies and sketches. The gallery is open from 8:30 a.m.-4 p.m. weekdays.

• "Decades: 1887 - 1997," a collection of editorial cartoons, is on display in the east-west corridor. The corridors are open from 8 a.m.-4:30 p.m. weekdays and 9 a.m.-4:30 p.m. Saturday.

Lectures & Seminars

Monday, July 7

CARDIOVASCULAR RESEARCH

SEMINAR: Wolfgang Graier, professor of medical biochemistry at the University of Graz in Austria, will present "Subplasmalemmal Calcium Control Unit and Its Contribution for Differential Activation of Endothelial Cells at 11:40 a.m. in 133 Dalton Cardiovascular Research Center.

Wednesday, July 9

MIDDAY GALLERY EVENT: Lynn DuBard, a graduate student in art history and archaeology, will present "Earthworks: Cultural Materialism" at 12:15 p.m. in the Museum of Art and Archaeology in Pickard Hall.

Monday, July 14

CARDIOVASCULAR RESEARCH

SEMINAR: Wade Welsons, associate professor of veterinary biomedical sciences, will present "Significance of Estrogenic Endocrine Disruptors in Animals and Humans" at 11:40 a.m. in 133 Dalton Cardiovascular Research Center.

Meetings

Thursday, June 26

STAFF ADVISORY COUNCIL: Group meets at 1:15 p.m. in S206 Memorial Union.

FACULTY COUNCIL: Group meets at 3:40 p.m. in S110 Memorial Union.

Special Events

Thursday, July 10

SAFE SITTERS PROGRAM: This two-part class today and tomorrow from 9 a.m.-4 p.m. in the Old Alumni Center teaches youngsters ages 11 to 13 to handle emergencies when caring for young children. Sponsored by Children's Hospital, the classes will be offered at the same times and location on July 17 and 18, Aug. 7 and 8, and Aug. 14 and 15. Cost: \$30. With questions, call 882-6565.

RETIREES ASSOCIATION

- Local legislators will discuss how legislation is introduced in the Missouri General Assembly at a meeting of the MU Retirees Association personal finance group at 10 a.m. July 7 in S207 Memorial Union.
- The association's executive committee will meet at 1:30 p.m. July 8 in S204 Memorial Union, followed by a meeting of the board of directors at 2 p.m. in S110 Memorial Union.
- MU retirees may volunteer to serve on the Alternatives to Violence Program by calling Pat Wixom at 441-0426 for details or to enroll.

Bequest will endow chair in U.S. politics

Hicks and Martha Griffiths, alumni of the College of Arts & Science, have made plans to establish a chair in political science through a bequest. The money will be used to attract an eminent scholar to the College of Arts & Science.

"The Hicks and Martha Griffiths Chair in American Politics is a testimony to the lives of two extraordinary people," Dean Larry Clark said. "Their bequest will benefit future generations of students and carry on the tradition of excellence the Griffiths embodied as a son and daughter of Mizzou."

Martha Griffiths, former lieutenant governor of Michigan and advocate of the Equal Rights Amendment, and her late husband, Hicks Griffiths, a noted political campaign strategist and attorney, met as

undergraduate students on the MU campus, where they graduated with bachelor's degrees in 1934. Both received their law degrees from the University of Michigan.

The Griffiths formed a law firm together that continues today. Both were elected to public office, but Hicks preferred the challenge and strategies involved in campaign management. In 1948, he managed G. Mennen Williams' successful campaign for the governorship of Michigan, and supervised several of his wife's campaigns including two state legislative terms and two terms as lieutenant governor of Michigan.

Martha earned national acclaim as a member of Congress, giving Michigan a strong voice in shaping federal tax, social security and trade laws. Hicks formed the Michigan Democratic Clubs, with chapters throughout the state. He served as an elected precinct delegate, party chairman of a congressional district and as state chairman of the Democratic Party of Michigan.

At MU, the Griffiths were the first scholars brought in as part of the William Francis English Scholar-in-Residence program when they returned to campus in 1990. The first alumni named to the

honorary position in the College of Arts & Science, the duo lectured to classes in their respective areas of interest and in political science, where both spent their professional lives.
