Columbia, Missouri

### The Directory

The Department of Geology of the University of Missouri has compiled a directory of all Geology Alumni. Graduation lists, alumni file lists, post-card returns from alumni, membership lists of national organizations, and various other sources of information have been used to compile the list and to establish up-to-date addresses. Only those persons who have received a degree from the University of Missouri with a major in Geology are included.

We realize that the directory will contain mistakes and will omit some persons that should be included. Many addresses will be out of date by the time the directory can be printed and mailed. We beg your indulgence and ask you to report to us all mistakes found. The record will be continued and a second edition will be issued within a few years.

The directory consists of an alphabetical list of alumni and a listing according to year of graduation.

An asterisk in front of the name denotes that the person is deceased.

The directory has been printed and distributed by the University of Missouri Alumni Association. We hope the users of the directory will continue their support of the Alumni Achievement Fund and, if they so desire, will designate contributions for use by the Department of Geology.
