MU retirees honored for service to campus and community

Retirees Association members raise more than \$2 million for university

THOUGH POPULAR CULTURE tends to gravitate toward the young and ephemeral, the University of Missouri recognizes that retirees often possess time-tested wisdom worth hearing.

At the Chancellor's Retirees Luncheon May 23, R. Bowen Loftin told hundreds of MU retirees that he would seek their counsel as he goes forward in his role as chancellor.

"I reach out to you for help," Loftin said in the Columns Ballroom in the Reynolds Alumni Center.

He also praised the retired faculty and staff for their volunteer work in the community and, in some cases, as part-time MU workers.

While the young are busy earning a living and raising families, seniors pick up the slack through good works in the region. "The communities we live in need you," he said.

During the presentation, Ken Hutchinson, who retired in 2008 as the vice president of human resources at the University of Missouri System and is currently president of the Retirees Association, presented an oversized check from retirees to MU. The check was for more than \$2 million, raised through MU's faculty-staff fundraising campaign, It's My Mizzou.

Rose Porter, who served as

PHOTO BY ROB HILL

dean of the Sinclair School of Nursing from 1998 to 2008 and retired in 2010, thanked MU and the UM System for keeping the Retirees Association's members informed of campus happenings. More than half of the 1,000 members receive *Mizzou Weekly* online, thanks to the efforts of Chris Koukola, the assistant to the chancellor for University

Affairs who retired Jan. 31, 2014. Porter said that those not receiving *Mizzou Weekly* need to update their email addresses. Visit mura-missouri.com for more.

Robert Schwartz, UM System chief of staff, announced the launch of UM Connection, a quarterly retiree electronic newsletter for all four campuses with an email list of 5,000. The email will

include upcoming retiree events and announcements.

"Retirees represent a vital part of the university family,"

See RETIREES on Page 3

Interim Title IX coordinator named

LINDA BENNETT, an associate professor in the College of Education, has been named interim Title IX coordinator, Chancellor R. Bowen Loftin announced Monday in an internal email.

Bennett, a special assistant to the provost, will serve in the full-time position through summer.

Her duties involve:

- Overseeing the university's compliance efforts related to Title IX, including coordinating any investigations of complaints and identifying and addressing any patterns or systemic problems revealed by such complaints
- assisting in reviewing current policies and procedures related to Title IX compliance and developing appropriate campus organizational structures, policies and procedures to ensure compliance

See TITLE IX on Page 3

Upcoming decisions in Jefferson City to impact MU's budget

Two bills involving university building projects await governor action

CHANCELLOR R. BOWEN LOFTIN talked to Faculty Council June 5 about the challenges of MU's fiscal 2015 budget, as well as the unexpected problems of this year's budget that ends June 30.

In May, Gov. Jay Nixon announced an additional \$35 million in withholdings to state funding for public schools and universities. The governor had hoped that the state's education allocation would receive needed funds from 2013-14 lottery sales and gaming receipts. But the numbers didn't add up. The May cuts came on the heels of a \$22 million withholding from education announced weeks earlier.

Because of withholdings, MU's state funding loss for fiscal 2014 is about \$4 million, Loftin told council members.

Loftin is working with administrators to figure out where to get the money to make up for the

loss of state funds. He is looking at reserves across campus, he said.

Meanwhile, MU's fiscal 2015 budget could be greatly impacted by actions in Jefferson City in coming weeks.

Administrators are awaiting Nixon's actions on the fiscal 2015 budget bills, passed by lawmakers in May and that must be signed by Nixon before July 1. Nixon's original budget plan announced in January 2014 assumed revenue growth of 5.2 percent; the Missouri House and Senate approved in May a budget based on 4.2 percent revenue growth.

Both plans now appear to be optimistic as the state is looking at a shortfall of nearly 2 percent from what was budgeted for the current fiscal year that ends June 30, said Marty Oetting, director of University of Missouri System's Office of Government Relations.

Also, two capital improvement bills passed by lawmakers

involving MU building projects await Nixon's action this month. The projects include \$38.5 million from bond proceeds to renovate and expand Lafferre Hall and \$10 million from general revenue to match private funds for an applied learning center at the

Chancellor Loftin is working with administrators to determine where to find the money to make up for the loss of state funds for fiscal 2014.

Trulaske College of Business. "It's hard to make decisions with all the uncertainty," Loftin said.

The UM System's fiscal 2015 budget includes the strategic faculty-funding plan, which will finance the hiring of high-caliber

faculty. The goal is to increase the quality of research and teaching and MU's standing in the Association of American Universities.

Money for the plan comes from both state funds and reallocation of 2 percent of the general operating budget. All units, offices and departments will have their budgets cut 2 percent beginning July 1. Some departments and offices have requested a waiver, but all requests have been denied except when it impacted scholarships and campus safety, Loftin said.

At an April 3 meeting, some council members expressed concern over the 2 percent reallocation. Loftin said last week he is creating an advisory committee made up of staff, students and faculty. Members will be charged with examining factors surrounding the reallocations.

"This will not be a simple group to be on," Loftin said.

Courses & Workshops

Registration is required online at training.missouri.edu or call 882-5000.

THURSDAY, JUNE 12

Computer Training

"iPad for the University" will be offered at 8:30 a.m. in 25 Arts & Science.

SATURDAY, JUNE 14

Computer Training

"IBM SPSS: Basics" will be offered at 8:30 a.m. in 18 Arts & Science.

"Excel 2013: Functions" will be offered at 8:30 a.m. in 25 Arts & Science.

TUESDAY, JUNE 17

Computer Training

"Photoshop CS6: Advanced Techniques" will be offered at 1 p.m. in 18 Arts & Science.

"Illustrator CS6 3: Tracing Techniques" will be offered at 1 p.m. in 25 Arts & Science.

"Photoshop CS6: Video" will be offered at 3 p.m. in 18 Arts & Science.

WEDNESDAY, JUNE 18

Computer Training

"HTML5 & CSS 1b: Styling and Publishing" will be offered at 8:30 a.m. in 25 Arts & Science.

"Word 2013: Formatting Thesis and Dissertation" will be offered at 1 p.m. in 25 Arts & Science.

THURSDAY, JUNE 19

Computer Training

"PowerPoint 1a: Introduction" will be offered at 8:30 a.m. in 25 Arts & Science.

"PowerPoint 1b: Shapes and Proof-

ing" will be offered at 10:30 a.m. in 25 Arts & Science.

"Photoshop CS6 1a: Introduction to Photoshop" will be offered at 1 p.m. in 18 Arts & Science.

"Access 2013 Part 1: Fields and Tables" will be offered at 1 p.m. in 25 Arts & Science.

"Photoshop CS6 1b: Layers and Style" will be offered at 3 p.m. in 18 Arts & Science.

TUESDAY, JUNE 24

Computer Training

"Excel 2013: Charts and Graphics" will be offered at 8:30 a.m. in 25 Arts & Science.

"Webinar: Word Thesis and Dissertation for Mac" will be offered at noon online.

"Photoshop CS6: Advanced Projects 1" will be offered at 1 p.m. in 18 Arts & Science.

"Dreamweaver CS6 1a: Introduction" will be offered at 1 p.m. in 25 Arts & Science.

"Photoshop CS6: Advanced Projects 2" will be offered at 3 p.m. in 18 Arts & Science.

"Dreamweaver CS6 1b: Images and Links" will be offered at 3 p.m. in 25 Arts & Science.

WEDNESDAY, JUNE 25

Computer Training

"HTML5 & CSS 2a: Links and Graphics" will be offered at 8:30 a.m. in 25 Arts & Science.

THURSDAY, JUNE 26

Computer Training

"PowerPoint: Charts & Customization" will be offered at 8:30 a.m. in 25 Arts & Science.

"PowerPoint: Graphics & Animation" will be offered at 10:30 a.m. in 25 Arts & Science.

"Photoshop CS6 2a: Size and Color" will be offered at 1 p.m. in 25 Arts & Science.

"Access 2013 Part 2: Forms" will be offered at 1 p.m. in 18 Arts & Science.

"Photoshop CS6 2b: Changing Color" will be offered at 3 p.m. in 25 Arts & Science.

"Access 2013 Part 3: Reports" will be offered at 3 p.m. in 18 Arts & Science.

Exhibits

Bingham Gallery:

The gallery, located in the Fine Arts Building, is open 8 a.m.-5 p.m. Monday-Friday.

Ellis Library Colonnade:

Colonnade exhibits may be viewed during regular Ellis Library hours.

Museum of Anthropology:

The museum closed April 18 at its location in Swallow Hall. No opening date has been set at its new location, Mizzou North.

The Grayson Archery Collection will be on display in the exhibit hall and the Museum Support Center on Rock Quarry Road through July 10.

Museum of Art and Archaeology:

The Cast Gallery is open at Mizzou North.

State Historical Society:

"Thomas Hart Benton's American Mythologies" will be on display through Oct. 31.

The gallery, located in Ellis Library, is open 8 a.m.-4:45 p.m. Monday-Friday, and 8 a.m.-3:30 p.m. Saturday.

Special Events

THURSDAY, JUNE 12

Tenth Annual Women's Health Update for APNs: A forum for APNs to discuss the latest evidence in the primary care management of women who are obese including reproductive and urinary health, perinatal outcomes, exercise, nutrition, promoting healthy lifestyle changes and cardiovascular complications. For more information visit nursingoutreach.missouri.edu/womens14.aspx

2014 Hot Summer Nights Festival: The largest classical and pop summer festival in the Heartland featuring the Missouri Symphony Orchestra Kirk Trevor, music director and conductor through July 12. For more information visit mosymphonysociety.org/hot-summer-nights.

SATURDAY, JUNE 14

Third Annual Safe Kids Discovery Day: The free carnival-style event 9:30 a.m. to 12:30 p.m. in the MU Women's and Children's Hospital Health Pavilion parking lot at 404 Keene St. features live stage acts and booths that promote child safety and injury prevention. For more information, visit muhealth.org/safekids or call Sheila Robertson at (573) 875-9216.

THURSDAY, JUNE 19

Quail and Pollinator Field Day: This free workshop is designed for landowners, students, quail enthusiasts and native-plant enthusiasts. Meet experts and take in exhibits. Food and drink provided upon completed evaluation. Field tours will include native plant identification, field borders and pollinator

enhancement beginning at 1 p.m. in the Bradford Research Center. For more information contact Tim Reinbott at ReinbottT@missouri.edu.

WEDNESDAY-FRIDAY, JUNE 25-27

Thirteenth Annual Cambio de Colores: Latinos in the Heartland Conference: This year's theme, "Growing Together in New Destination Areas," fosters discussion of research and best practices to assist integration in areas with a recent influx of immigrants.

Speakers will deal with health, education, change and integration, civil rights and political participation and entrepreneurship and economic development. The conference takes place at the Reynolds Alumni Center. For more information, visit cambiodecolores.org.

CLASSIFIEDS

FOR LEASE

Luxury condo in the Grasslands. 2 bedrooms, 2 and a half bathrooms, attached garage. Furniture included. 443-6677

BURIAL PLOTS

2 adjacent burial plots in Memorial Park's garden section. \$1,500. 289-2105

For a limited time, and while space allows, classified ads are FREE for MU faculty, staff and retirees, and \$9 for the general public, for up to a 30-word line ad.

- Home phone number or email address required.
- Deadline: Noon Thursdays
- No refund given for cancelled ads. To submit ad, call 884-1278 or email mizzouweekly@missouri.edu

MIZZOU WEEKLY

Volume 35 No. 31

EXCELLENCE

We aspire to an excellence which is approached through diligent effort, both individual and collective. Pursuing excellence means being satisfied with no less than the highest goals we can envision. Pursuing excellence involves being informed by regional, national, and global standards, as well as our personal expectations. We recognize and accept the sacrifices, risks, and responsibilities involved in pursuing excellence, and so we celebrate each other's successes. We commit ourselves to this process in an ethical and moral manner.

IN BRIEF

Benefits blog

Have questions about employee pay? Health benefits? Retirement? Wellness programs?

In May, the Total Rewards department of the University of Missouri System launched the Let's Talk Total Rewards blog to provide a place where the community of the four campuses can share ideas and questions about myTotal Rewards.

Faculty, staff, students, retirees and alumni are welcome to share their ideas and questions.

Each blog post includes a byline and a short profile at the end of the post. Many of the bloggers work in the Total Rewards department, but guest bloggers are invited to contribute.

Check out the site at umsystem.edu/newscentral/totalrewards.

From RETIREES on Page 1

Schwartz said. "I express to you my appreciation."

Receiving the Faculty Retiree of the Year Award was Don Day of MU Extension. Though he retired in 2002, he remains active with extension and in the community.

He has also been part of three missions to El Salvador to aid refugees. Though he's given a lot of hours helping the struggling people, Day said, "they have given me so much more."

Receiving the Staff Retiree of the Year Award was Phyllis Miller, who worked in the College of Education for 21 years. "I enjoyed going to work almost every day," Miller said.

Each recipient was nominated by their peers and received a plaque and check for \$1,000.

From TITLE IX on Page 1

- developing training on Title IX issues for employees and students

A full-time investigator will also be hired.

Previously, Noel English, director of the MU Equity Office, handled Title IX coordination among other duties.

Making the position full time and adding an investigator will enhance MU's ability to examine campus reports of sexual assault, administrators say.

Linda Bennett

Celebration of Teaching speaker challenges instructors to be creative

Professor Cathy Davidson touts the Internet as a teaching tool

CATHY DAVIDSON likens the rise of the Internet to the invention of writing and, centuries later, mass printing. The Internet is a revolution in communication, and it's not going away. So higher education instructors better get on board, whether they are fans of the Internet or not.

"Our 19-year-old students don't care if life was better before the Internet," Davidson said of the wistfulness of some instructors.

Davidson challenged MU instructors gathered in Jesse Hall Auditorium May 20 to rethink their teaching approaches. "Take inventory of your habits and drop those that don't serve you," said Davidson, an expert on the history and future of communication technologies.

Davidson, this year's keynote speaker at MU's Celebration of Teaching event, carved out a career as a teacher and lecturer on new ideas and methods for higher-education learning and workplace development.

From 1998 to 2006, Davidson was vice provost for interdisciplinary studies at Duke University. Until recently she was a professor of English and of interdisciplinary

studies at Duke.

In July, she starts at the City University of New York as director of the Futures Initiative, a system-wide program to develop collaborative innovations in higher education. Her most recent book is *Now You See It: How Technology and Brain Science Will Transform Schools and Business for the 21st Century* (Viking, 2011).

During her lecture, Davidson was quite the provocateur. She called into question the standardized method of learning that she and most of the audience members mastered on their paper trail through undergraduate, graduate and doctoral studies.

Traditional education in America is based on theories and strategies developed between the 1860s and 1920s, she said. During this period, standardized testing was created that was easy to grade and administer to a large number of students.

Over the decades, some education experts have taken swings at standardized testing. The hardest hit piñata has been multiple choice, which, while time-efficient, can contain ambiguously phrased questions and limit students' ability

to show subject knowledge.

Multiple choice has been characterized as a measurer of "lower-order skills," while problem-solving and "higher-order reasoning skills" are better measured in essays and papers, Davidson said.

Davidson didn't advocate ending standardized testing, but she did encourage instructors to think about other ways of measuring student learning. She challenged instructors to "transform critical thinking into creative contribution" from students. "Encourage students to lead the way" in their education, she said.

Davidson received the most applause when she warned that emphasis on STEM (science, technology, engineering, math) was "taking creativity out of schools."

This led to the issue of the Web. Yes, the Internet can be abused. Studies show that the Internet can corrode attention span, reading comprehension and eat up hours in trivial Web surfing. Even though the Internet offers more information than ever before at people's fingertips, teenagers and young adults still lack basic knowledge of history, geography and politics,

Cathy Davidson

to name a few. A 2010 poll found that only 12 percent of high school students have a basic understanding of American history.

But the Internet is not going away. So how do educators utilize it? Davidson asked the audience to think long and hard and creatively about harnessing digital media as a teaching tool, and to venture beyond their preconceived notions of instruction.

"Learn, unlearn and relearn," Davidson said.

Alumni and friends can leave their mark at Traditions Plaza

CONSTRUCTION of Traditions Plaza on Carnahan Quadrangle is scheduled to begin in July, with its dedication set for Oct. 24 during Homecoming.

The amphitheater, located along Conley Avenue on the north side of the quadrangle, will be the site of concerts and events.

Employees and alumni can have their name inscribed on a paver in the plaza at prices beginning at \$175.

Proceeds from the inscription program, sponsored by the Mizzou Alumni Association (MAA), help to financially support Home-

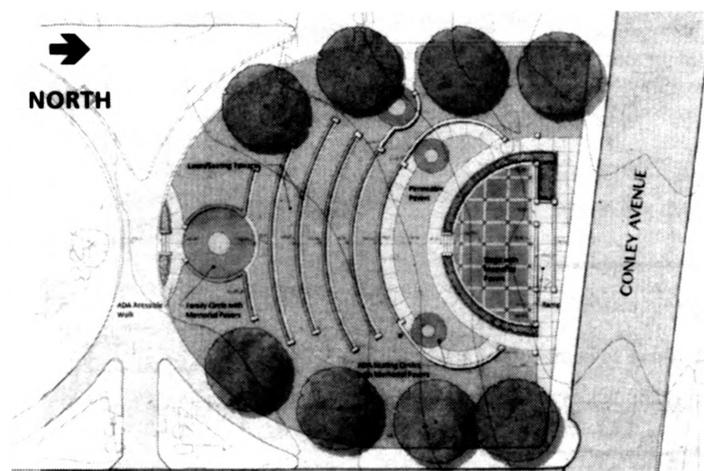

coming, Tiger Walk, Tap Day, MAA student scholarships and other campus needs.

"We learned through the Tiger Plaza and the Mizzou Legacy Walk projects that alumni and friends love having their name on campus in some form or fashion," said Todd McCubbin, MAA executive director.

Learn how take part at mizzou.com/traditionsplaza.

Bird's Eye View

Traditions Plaza, an amphitheater project on Carnahan Quadrangle along Conley Avenue, is expected to be dedicated during Homecoming on Oct. 24.
