HONORS COLLEGE SPONSORS THREE FILM SERIES THIS FALL

The Honors College is sponsoring a total of three film series this fall. One of the series, a group of distinguished foreign and American films, is being shown free according to a schedule published in the Aug. 25 Faculty Bulletin.

The second series is the "Civilisation" series which played to capacity crowds during both the winter semester and the summer session. The 13 films of this group will be shown free; each film will be screened three times, at 7, 8 and 9 pm on Wednesday nights in 210 GCB.

Sept. 6:	The Frozen World	Oct. 25:	The Light of Experience
Sept. 13:	The Great Thaw	Nov. 1:	The Pursuit of Happiness
Sept. 20:	Romance and Reality	Nov. 8:	The Smile of Reason
Sept. 27:	Man--The Measure of All Things	Nov. 15:	The Worship of Nature
Oct. 4:	The Hero As Artist	Nov. 29:	The Fallacies of Hope
Oct. 11:	Protest and Communication	Dec. 6:	Heroic Materialism
Oct. 18:	Grandeur and Obedience		

The third series has an admission charge of 75¢ and a definite schedule of films through September. The remainder of the series will be published at a later date. This series will be screened on Friday and Saturday evenings in the Memorial Union Auditorium at 7 and 9 p.m.

Sept. 8-9:	"Gimme Shelter" directed by the Maysle Brothers and starring The Rolling Stones. A cinema verite of the Altamont disaster as the antithesis of Woodstock.
Sept. 15-16:	"Brewster McCloud" directed by Robert Altman and starring Bud Cort and Sally Kellerman. Allegory about an entrapped youth who tries to rise above his condition with a pair of mechanical wings.
Sept. 22-23:	"Targets" directed by Peter Bogdanovich and starring Boris Karloff. An aging horror movie star confronts a psychopathic sniper.
Sept. 29:	"Lolita" directed by Stanley Kubrick and starring Peter Sellers and James Mason. An insidious black comedy from the Nabokov novel.
Sept. 30:	"The Wild One" directed by Lazlo Benedek and starring Marlon Brando. Introduction of the Brando mystique and the motor cycle genre.

GRADUATE SCHOOL AND RESEARCH NOTES

Research Involving Human Subjects

Effective Aug. 10 by authority of Executive Order No. 10 from President Ratchford, it is "the policy of the University of Missouri that all research projects which involve human experimentation shall be subject to review and approval by an appropriate, officially appointed, human experimentation committee prior to project initiation, and without respect to the source of funding or sponsorship. This policy shall include all faculty, staff and student research regardless of source of support.

"In the event that such research includes the use of radioisotopes in humans, it shall also be reviewed by an appropriate human use subcommittee of the University Radiation Safety Committee.

"Human experimentation is defined as being any research which may put an individual at risk, or who may be exposed to physical, psychological, sociological or other harm as a result of his participation in a research project."

On the Columbia campus review of proposals involving human subjects is performed by one of two committees. All proposals originating within the School of Medicine or the School of Veterinary Medicine are reviewed by the Medical Center "Committee for Review of Proposals Involving Human Subjects." Proposals originating in other divisions are reviewed by the campus-wide "Committee for Review of Proposals Involving Human Subjects."

In all cases of projects involving human experimentation--research, training or demonstration--project directors should complete Form UM-UW No. 190 and forward it to Dean Herbert Goldberg, chairman of the Medical School committee, or to Dean Robert Culpepper for the campus-wide committee. When projects are being submitted for funding by a granting agency, a copy of the proposal to be submitted should accompany form No. 190. This material should be submitted to the appropriate committee at least two weeks prior to any deadline date for submission of a project proposal.

Form UM-UW No. 190 is available in most departmental offices. If your department does not have it, call Carol McQuary in the Graduate School, 882-6311.

Summer Research Fellowship Reports

Faculty members who received a summer research fellowship from the University for the summer of 1972 are hereby reminded that a final report on the research project is due to be submitted to Robert C. Culpepper, associate dean, Graduate School, by Oct. 1.

ACLS FELLOWSHIPS--The American Council of Learned Societies makes fellowship awards for scholars to engage in research in philosophy (including the philosophy of law and science); aesthetics; philology, languages, literature, and linguistics; archaeology; art history and musicology; history (including the history of science, law and religions); cultural anthropology; and folklore. Programs with a predominantly humanistic emphasis in economics, geography, political science, psychology, sociology and the natural sciences will also be considered. Fellows must be able to devote at least six continuous months to full time work on a project. Awards are approximately \$12,000. Deadline for applications is Oct. 15.

ACLS STUDY FELLOWSHIPS--These are designed to assist young humanities scholars in enlarging their knowledge by study inside or outside the humanities but in disciplines other than their present specialization. The ACLS makes awards for a maximum of one year with a stipend of approximately \$8,000. Deadline for applications is Nov. 1.

ACLS GRANTS IN AID--This program provides support for significant humanistic research. Grants are to be used to advance specific programs. Funds may be used for a scholar's essential personal expenses such as personal travel and maintenance away from home; research and clerical assistance; or reproduction or purchase of materials, etc. Stipends will not exceed \$2,500. The deadlines for applications are Sept. 30 and Feb. 15.

GUGGENHEIM FELLOWSHIPS--The Guggenheim Foundation provides fellowships for scholars and artists in any field of knowledge or artistic creation to engage in research under the freest possible conditions. Appointments are ordinarily made

for one year and stipends average about \$10,000. Deadline for applications is Oct. 15. Write: John Simon Guggenheim Memorial Foundation, 90 Park Ave., N. Y., N. Y. 10016.

NATIONAL COMPUTER NETWORK--Research proposals which deal with the concept, feasibility and problems of a national computer network for education, research and science information services are being solicited by the National Science Foundation. Studies have been supported by the Foundation for several years; it now wants to expand these efforts to explore in more depth the resource-sharing potential of a national network in support of research and education. Special attention will be given to proposed collaborative efforts for the development of new and effective approaches to resource sharing. One aspect of the expanded research will explore the extent to which the network could satisfy individual campus needs for computing and science information service. Interested applicants should submit a preliminary proposal for discussion purposes prior to submitting a formal application. The Graduate School has a suggested list of research topics and guidelines for preparing preliminary applications.

ALCOHOL ABUSE STUDIES--The National Institute on Alcohol Abuse and Alcoholism is looking for organizations with the qualifications to conduct studies on several different aspects of alcoholism and alcohol abuse. The Graduate School has a listing of projects and requests for proposal numbers and due dates on which completed forms must be returned. Requests for proposal forms on any of these projects may be obtained by writing the National Institute of Mental Health, Parklawn Bldg., Room 7C-26, 5600 Fishers Lane, Rockville, Md. 20852.

(For further information on any of the above programs, call Mrs. Carol McQuary, Graduate Office, 882-6311.)

KBIA-FM PROGRAM HIGHLIGHTS

- Sept. 3 6 a.m. Sunday Symphony features Mozart, Prokofiev, Beethoven, Britten, Tchaikovsky, Mendelssohn and Ligetti.
- 12:30 p.m. Composer's Forum features Howard Rovics, professor of music at C. W. Post College and member of the composition faculty of the Manhattan School of Music.
- 1:30 p.m. Special of the Week: concerts from Radio Nederland, the BBC and Deutsche Welle. The five-string banjo and folk styles on the folk music section.
- 5 p.m. Bookbeat: Lynn Eden discusses her new book "Crisis in Watertown."
- 7:30 p.m. Boston Symphony Orchestra: Schumann's Symphony #2 and excerpts from Prokofiev's Romeo and Juliet.
- 9:30 p.m. The role of the lawyer and major issues of today's courtroom procedures will be discussed by host Buckley and guest William M. Kunstler, noted civil disobedience attorney.
- Sept. 4-8: 9 a.m. Accent on Music: Mon.--Kodaly, Martinon, Mozart. Tues.--Mozart, Mussorgsky, Offenbach. Wed.--Mozart, Paganini, Bartok. Thurs.--Mozart, Bartok, Berlioz, Beethoven. Fri.--Mozart, Bizet, Brahms.
- 1 p.m. The World of Music: Mon.--Liszt, MacDowell, Mahler. Tues.--Mozart, Liszt, Lutoslawski, Mahler. Wed.--Mendelssohn, Bartok, Orff, Prokofiev. Thurs.--Prokofiev, Bottesini, Borodin, Porter. Fri.--Mozart, Nielsen, Prokofiev, Beethoven, Bach.
- 7:30 p.m. Stereo Concert Hall: Mon.--Berlioz. Tues.--National Public Radio Concert featuring John Cage and David Tudor in a program of their own compositions. Wed.--Cleveland Orchestra Concert plays Weber, Beethoven and Brahms. Thurs.--Mozart, Bruck. Fri.--Dvorak and Mahler.
- 9:30 p.m. KBIA News Hour: Mon.--Karen Sloan, president of Columbia chapter of ZPG. Tues.--Randall Torgerson, professor of agriculture, discusses farmers' cooperatives. Wed.--Grant Neds, partner in Neds-Warlow advertising agency, talks about small ad agencies. Thurs.--Mary Dimmock, Pittsburgh librarian and scholar/fan of The Rolling Stones, is the guest. Fri.--Coach Harry Smith discusses why athletes should be gentlemen, not mercenaries.

CALENDAR

- Sept. 1, 8: Public viewing of Physics Observatory, every clear Friday after dark.
- Sept. 3: Student Activities Free Flick: "Little Big Man," 5:30 & 8:30 p.m., Jesse Auditorium. UMC ID.
- Sept. 4: Labor Day holiday.
- Sept. 5: Honors College Free Film Series: "The Searchers," 7:30 p.m., Arts and Science Auditorium.
- Sept. 5: Student Activities Environmental Program: The Club of Rome Report, 7:30 p.m., 210 GCB.
- Sept. 6: Student Activities Free Flick: "Tobacco Road," 8 p.m., Jesse Auditorium. UMC ID.
- Sept. 6: Honors College "Civilisation" Film Series: "The Frozen World," 7, 8 & 9 p.m., 210 GCB.
- Sept. 6-8: Systems of Justice Conference, 8 a.m., Memorial Union.
- Sept. 7: Dr. Wil Grant to speak on "Black Man's Contribution in the Natural Sciences," 8 p.m., Jesse Auditorium. Sponsored by the Legion of Black Collegians.
- Sept. 8-9: Honors College Film Series (75¢ admission): "Gimme Shelter," 7 & 9 p.m., Memorial Union Auditorium.
- Sept. 8: Swine Day, 8 a.m., Livestock Center.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

CLIFTON CORNWELL

BULLETIN IN BRIEF

Vol. 2, No. 2 Published by the Office of the Dean of Faculties Sept. 8, 1972

C. BRICE RATCHFORD will be officially invested as President of the University of Missouri at 2 p.m. Friday, Sept. 15 in Jesse Auditorium. Dr. Durward B. Varner, president of the University of Nebraska, will be the principal speaker. All members of the faculty are invited to attend. Classes will not be dismissed officially, but faculty wishing to attend the ceremony are encouraged to arrange another time for their 1:40 and 2:40 classes to meet. Students are also welcome at the ceremony.

THE UNIVERSITY CLUB will hold its first meeting of the year Wednesday, Sept. 13 at a luncheon in the Small Ballroom of the Memorial Union at noon. Guest of honor and speaker will be A. G. Unklesbay, Vice-President for Administration. Faculty, administrative officers and staff, armed services commissioned officers on duty with ROTC programs, retired faculty and staff and curators living in Columbia are invited to attend with spouse, and to become members of the Club. There will be several luncheon meetings during the year and other activities including a dinner theater with the Fortnightly Club. Reservations for the luncheon may be phoned to Judy Devlin, 882-3721, by Monday, Sept. 11. Cost of the luncheon is \$2 collected at the door. Annual University Club dues are \$5 and may be mailed to John Tolan, secretary-treasurer, 413 Clark Hall.

GRADUATE SCHOOL AND RESEARCH NOTES

NATO POSTDOC FELLOWSHIPS--NSF has announced competition for the 1973 awards for NATO Postdoctoral Fellowships in Science. In cooperation with the Dept. of State, the Foundation plans to award 55 NATO Fellowships. Application deadline is Oct. 23. This program, for citizens or nationals of the U.S., is designed for individuals who have received their doctorates within the past five years. Twelve-month stipends are \$7,500. For application materials write: NATO Postdoctoral Fellowship Program, Div. of Graduate Education in Science, National Science Foundation, Washington, D.C. 20550.

NATO SENIOR FELLOWSHIPS--This program enables institutions in the U.S. to send senior staff to study new scientific research techniques and developments at research and education institutions in other NATO countries. Approximately 30 awards will be offered in 1972-73. Tenures are normally limited to from 1 to 3 months. Applications are available until Jan. 31. For more information, write the above address.

MATH CONFERENCES--NSF is seeking proposals for five-day regional conferences on subjects of current research interest in the mathematical sciences. Conditions of the program are unchanged from last year. Proposals should be sent by Dec. 1 to Mathematical Sciences Section, (attn: Dr. William H. Pell), National Science Foundation, 1800 G. St., N.W., Washington, D.C. 20550.

NSF NEW OFFICES--An Office of Experimental Research and Development Incentives and a National Research and Development Assessment Program Office have been established to initiate new actions and relationships to enhance U.S. research and development. For detailed information, call Mrs. McQuary.

SCIENTISTS, ENGINEERS--NSF, through a special program funded by the Agency for International Development, will provide support for individual U.S. scientists and engineers to apply their experience to problems of development in the so-called developing countries. An individual may apply through his institution for a grant to teach or do research for nine to twelve months in an academic institution of a developing country. Grants provide up to \$15,000 plus air travel. Closing date for submission of proposals is Dec. 15.

OE ADULT EDUCATION--Nov. 30 is the deadline for the submission of grant applications for special experimental demonstration and teacher-training projects under the Adult Education Act. Application forms and instructions may be obtained by contacting the Div. of Adult Education, Bureau of Adult, Vocational and Technical Education, Office of Education, Washington, D.C. 20202.

FOREIGN STUDIES--West Germany and Japan have announced the formation of multi-million dollar foundations to support studies of interest and concern to their two countries and the U.S. The Japan Foundation, funded initially at \$32 million, will be formally established in Japan Oct. 1 and will place emphasis on personnel exchange and Japanese studies in the U.S. Applications to the foundation may be addressed to Information Section, Embassy of Japan, 2514 Mass. Ave., N.W., Washington, D.C. 20008. The German Marshall Fund has been established by the German Bundestag as a memorial to the Marshall Plan, with funds to support comparative research on industrial societies and the study of problems of international relations common to Europe and the U.S. The fund's headquarters are presently located with the Carnegie Endowment at 1717 Mass. Ave., N.W., Washington, D.C. 20036. Acting president is Guido Goldman of Harvard.

(For more information on any of the above programs call Mrs. Carol McQuary, Graduate Office, 882-6311.)

TO: ALL UNIVERSITY FACULTY AND STAFF
SUBJECT: MENTAL HEALTH CONSULTATION SERVICES

Counseling Services is continually attempting to broaden the range and improve the quality of helping resources available to students. In order to assist University faculty and staff in dealing with student problems that occur on an individual level, or that may relate to the nature of student life in general, the Counseling Services professional staff serve as consultants to faculty, administrators, residence hall personnel and others who provide student service functions.

In making their mental health knowledge available to all University personnel, Counseling Services consultants are available at any hour on an emergency basis, or through scheduled meetings, to help with problems or questions of a non-urgent nature.

Consultation services include such areas as mental health crisis situations where immediate professional intervention is needed, mental health aspects of teaching or advising, or implementation of programs which have psychological implications.

In conjunction with the transfer of the Mental Health Clinic to the Counseling Service in 1971, emergency psychological services are available to all University students, faculty and staff who may need immediate professional assistance. Consultation about a student, or personal assistance may be obtained on an immediate basis by calling the Counseling Services number, 882-6601, at any hour including weekends and holidays. Non-emergency mental health consultation concerning individual students may be arranged by calling Dr. Clyde A. Crego, coordinator of clinical services, or his secretary, Mrs. Betty Rodgers, at 882-6601.

Consultation concerning broader aspects of campus-community mental health such as relate to student life, academic advising, program implementation, or which may relate to questions of a general psychological nature, may be obtained through contacting Mr. Don Eggeman, Outreach Program coordinator, at 882-4255 or 882-6601.

Assistance in improving coordination of various student services concerned with student mental health may be obtained through contacting Mr. Eggeman, Dr. Crego or myself.

Cordially,
Paul T. King, Ph.D.
Director, Counseling Services

KBIA-FM PROGRAM HIGHLIGHTS--91.3 mhz

- Sept. 9: 9 a.m. Accent on Music: Mozart, Brahms, Chopin, Debussy.
 1 p.m. Opera: full length recorded performance of Tchaikovsky's "Eugene Onegin." The Bolshoi Opera sings it in Russian. Followed by "Vocal Scene": An Hour of Lullabies.
 5 p.m. Missouri Forum: "Wheels" Kiele, Republican candidate for Secretary of state, will discuss his candidacy.
 5:30 p.m. University Close-Up: Ardath Emmons, Vice-President for Research discusses the University's membership in the Argonne Universities Assn.
 7:30 p.m. Stereo Concert Hall: Nielsen and Ravel.
- Sept. 10: 6 a.m. Sunday Symphony: Bach, Brahms, Beethoven, Verdi, Mozart.
 12:30 p.m. Composer's Forum: Guest is Joan Tower, teacher at C. W. Post College and the Greenwich House in New York.
 1:30 p.m. Special of the Week: Deutsche Welle concerts featuring Stravinsky and Hindemith, and Telemann. BBC Promenade Concert: New World Symphony. Folk Music section: Country Blues.
 7:30 p.m. Boston Symphony: Beethoven and Strauss; two Wagner selections.
 9:30 p.m. Firing Line: Harpsichord virtuoso Fernando Valenti discusses baroque and renaissance music compared to contemporary work. Valenti will perform works by Bach and Scarlatti.
- Sept. 11-15: 9 a.m. Accent on Music: Mon--Beethoven, Mozart, Barber. Tues--Beethoven, Bach, Dvorak. Wed--Beethoven, Copeland, Mozart. Thurs--Beethoven, Desenclos, Penderecki. Fri--Beethoven, Messian, Adam.
 1 p.m. World of Music: Mon--Beethoven, Chopin, Dvorak, Enesco. Tues--Beethoven, Chopin, Dvorak, Elgar. Wed--Beethoven, Dvorak, Elgar, Sibelius. Thurs--National Press Club luncheon: Joseph A. Bierne, president of the Communications Workers of America. 2 p.m.--World of Music: Beethoven, Elgar. Fri--Beethoven, Dvorak.
 7:30 p.m. Stereo Concert Hall: Mon--all-Debussey program. Tues--Interlochen Arts Academy concert recorded live at the Kennedy Center for the Performing Arts. It will be preceded by "First Hearing." Wed--Cleveland Orchestra with guest pianist Andre Watts. Thurs--"On the Importance of Being Satie." Fri--Scriabin, Prokofieff.
 9:30 p.m. KBIA News Hour: Mon--a visit on the set of "Tom Sawyer." Tues--a conversation with Mo. Students Assn. president Dan Viets. Wed--a look at the high cost of getting settled in Columbia. Thurs--a discussion on counseling: spiritual or psychological? Fri--excerpts from a panel discussion entitled "The Free Press: How Free?" held at the recent American Bar Assn. meeting in San Francisco.

CALENDAR

- To Sept. 29: Art Exhibit: Polish Movie Posters, Memorial Union.
- To Sept. 22: Art Dept. Exhibit: Midwest Sculptors, Fine Arts Gallery.
- To Sept. 22: Stephens College presents its permanent art collection at Davis Art Gallery, Stephens College.
- Sept. 8, 15: Public viewing of Physics Observatory, every clear Friday after dark.
- Sept. 8, 9: Honors College Film (75¢ admission): "Gimme Shelter," starring The Rolling Stones. 7 & 9 p.m., Memorial Union Aud. Tickets on sale before film starts.
- Sept. 10: Student Activities Free Flick: "The Battle of Britain," 5:30 & 8:30 p.m., Jesse Aud. UMC ID admits.
- Sept. 11: Student Activities Outdoor Band Concert, 8 p.m., Francis Quadrangle.
- Sept. 12: Honors College Free Film: "Forbidden Games," France, 1952; directed by Rene Clement. 7:30 p.m., A&S Aud.
- Sept. 13: University Club luncheon, noon, Small Ballroom, Memorial Union. A. G. Unklesbay, Vice-President for Administration, is honored guest and speaker. See front page for reservation and dues information.
- Sept. 13: Edward Siegel, acting director, nuclear medicine section, School of Medicine, to speak on "Observations on the Formation and Utilization of Thyroidal Hormones in Cultured Human Cells," 3:40 p.m., 115 Tucker Hall.
- Sept. 13-16;
19-23: Stephens College Playhouse presents "Amelie" by Georges Feydeau, 8:15 p.m., Stephens College Playhouse. Single admission, \$2.50.
- Sept. 13: Student Activities Free Flick: "If," 8 p.m., Jesse Aud. UMC ID admits.
- Sept. 13: Honors College "Civilisation" Film: Part II, "The Great Thaw," 7, 8 & 9 p.m., 210 GCB. Free.
- Sept. 15: Official Presidential Investiture Ceremony for C. Brice Ratchford, 2 p.m., Jesse Hall. See front page for class dismissal statement.
- Sept. 15, 16: Student Activities Film (75¢ admission): "Woodstock," 8 p.m., Jesse Aud. Tickets on sale at Jesse Hall ticket window before show begins.
- Sept. 15, 16: Honors College Film Series (75¢ admission): "Targets," directed by Peter Bogdanovich, starring Boris Karloff. 7 & 9 p.m., Memorial Union Aud. Tickets on sale before film starts.
- Sept. 15, 16: Honors College Film Series (75¢ admission): "Brewster McCloud," directed by Robert Altman. 7 & 9 p.m., Memorial Union Aud. Tickets on sale before film starts.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

Faculty

UNIVERSITY OF MISSOURI-COLUMBIA

BULLETIN IN BRIEF

Vol. 2, No. 3 Published by the Office of the Dean of Faculties Sept. 15, 1972

GRADUATE SCHOOL AND RESEARCH NOTES

INVENTION DISCLOSURE

The University of Missouri, in order to fulfill its obligation to disseminate new knowledge, and at the same time to protect its rights and interests and those of its faculty and students and the people of the state, has formulated certain rules and regulations. These Patent Regulations have been adopted by the Board of Curators and are a part of the employment contract. Each faculty member should familiarize himself with these regulations.

University personnel are obligated to report inventions, potentially patentable concepts or related discoveries to the University-wide Patent Committee using a standard Disclosure of Invention form (UM-UW No. 16, Feb., 71). Since scholars are unlikely to know with certainty whether or not an invention, a potentially patentable concept or discovery qualifies, they should report any that might be in any way related.

Faculty members who have a need to contact persons outside the University regarding patents and related matters should first contact the Office of the Associate Dean of the Graduate School for Research for advice on current policies and practices.

The Patent Regulations, in booklet form, and invention disclosure forms are available from department chairmen, deans, the Office of the Associate Dean of the Graduate School for Research and the chairman of the Patent Committee.

NSF RESEARCH PARTICIPATION--The Undergraduate Research Participation program provides support for college-level activities that increase the opportunities for undergraduate students and institutions to obtain experience with investigative project-centered education designed for each student as an individual. Such experience may take the form of research, research participation or independent study. The Graduate Office has recently received the new guidelines and forms for the 1972 program. Deadline for applications is Oct. 16.

WHITE HOUSE FELLOWS--President Nixon this week announced the opening of competition for 1973-74 White House Fellowships and an extra effort to find women applicants. The program was established in 1964 and annually selects a group of persons between the ages of 23 and 36 to receive first-hand, high level experience in the federal government. Applications will be accepted until Dec. 15. Forms and additional information can be obtained from: President's Commission on White House Fellows, The White House, Washington, D. C. 20500.

OWRR RESEARCH--The Office of the University Director for the Water Resources Research Center has received materials for applying for the allotment projects and

matching grants for 1973. Both matching grant and allotment proposals are submitted through the Director's Office since a relevancy statement by the Director is required. Title II proposals are submitted directly through the University Grants Office to the Dept. of the Interior, but the Director's Office can furnish assistance. Matching grant proposals, complete with data form, should be submitted to the Director's Office by Oct. 16. Allotment project proposals, which should be in essentially final form to give the committees adequate information for evaluating the project, should be submitted to the Director by Feb. 1. For further information on these projects, contact Dr. George Smith, Director, Water Resources Research Center, 424 Clark Hall, 882-3421.

FORD FOUNDATION--The Ford Foundation and the National Fellowships Fund have announced the opening of competition for the fellowships programs for minority students for the 1973-74 year. These programs consist of graduate fellowships for American Indians, Black Americans, Mexican Americans and Puerto Ricans. Application deadline is Jan. 5. For information write: Ford Foundation, 320 East 43rd St., N. Y., N. Y. 10017.

KBIA-FM PROGRAM HIGHLIGHTS--91.3 mhz

KBIA has a monthly program guide for those who would like more detailed listening information. The KBIA staff will be glad to put your name on its mailing list if you do not already receive the guide. Drop a note to KBIA, Jesse Hall.

- Sept. 16: 9 a.m. Accent on Music: Beethoven, Dutilleux and Morley.
1 p.m. Opera: "L'Italiana in Algeri" by Rossini. "Vocal Scene" follows with a discussion of the American baritone.
5 p.m. Missouri Forum: For the first time in the history of Mo. Forum, statewide candidates will debate the issues. James Spainhower, Democrat, and George Parker, Republican, candidates for state treasurer, will face each other and press.
5:30 p.m. University Close-Up: Bonnard Moseley, vet pathol associate professor and part-time weather prophet is featured. Also, an outsider's view of the educational experience in UMC's School of Veterinary Medicine.
7:30 p.m. Stereo Concert Hall: Bruckner and Haydn.
- Sept. 17: 6 a.m. Sunday Symphony: Bach, Mozart, Sibelius, Cavalli, Schubert and Beethoven.
12:30 p.m. Composer's Forum: Jazz musician Dave Brubeck is the guest.
1:30 p.m. Special of the Week: Dutch Concert Hall features Berlioz and Tchaikovsky; contemporary music from Deutsch Welle; BBC's Promenade Concert features Schubert and Brahms; folk music section completes the program.
5 p.m. Bookbeat: Harold Krents talks about his autobiography "To Race the Wind," his story of graduating from Harvard Law School cum laude despite being blind since nine.
7:30 p.m. Boston Symphony Orchestra: Michael Tilson Thomas conducts performances of Glinka, Borodin and Beethoven.
9:30 p.m. Firing Line: Buckley talks with exiled Greek leader Andreas Papandreou about the government crisis in Greece.
- Sept. 18-22: 9 a.m. Accent on Music: Mon--Bach, Schumann, Debussy. Tues--Elgar, Handel, Rossini. Wed--Bach, Gliere, Prokofieff. Thurs--Faure, Poulenc, Tchaikovsky. Fri--Giuliani, Corelli, Mendelssohn.
1 p.m. World of Music: Mon--Beethoven, Respighi, Saint-Saens. Tues--Beethoven, Respighi, Saint-Saens, Schubert. Wed--Beethoven, Schubert, Schumann. Thurs--Beethoven, Schubert, Scriabin, Bruckner. Fri--National Press Club Luncheon: guest is Gen. Motors Chairman Richard Gerstenberg. 2 p.m.--World of Music features Beethoven, Schubert and Scriabin.
7:30 p.m. Stereo Concert Hall: Mon--all-Beethoven program. Tues--NPR Concert of the Week features Stockholm concert at opening of U. N. Conference on the Environment.

A chapter of Phi Kappa Phi, national scholastic honorary, was installed at UMC in July. Officers of the group are still interested in hearing from members initiated at other chapters. If you are a member and have not yet notified the UMC chapter, please send the following information to Prof. Gayle Adams, 212 Elec Engr.

CALENDAR

- To Sept. 22: Art department exhibit: Midwest Sculptors, Fine Arts Gallery.
- Sept. 15-16; 19-23: Stephens College Playhouse presents "Amelie" by Georges Feydeau, 8:15 p.m., at the Playhouse. Single admission, \$2.50.
- Sept. 15: Investiture Ceremony for University President C. Brice Ratchford, 2 p.m., Jesse Auditorium. Faculty are encouraged to attend and to set another time for their afternoon classes to meet.
- Sept. 15, 22: Public Viewing of Physics Observatory, every clear Friday after dark.
- Sept. 15, 16: Student Activities Film: "Woodstock," 8 p.m., Jesse Auditorium. Tickets 75¢ at Jesse Hall ticket window before show starts.
- Sept. 15, 16: Honors College Film Series: "Brewster McCloud," 7 & 9 p.m., Memorial Union Auditorium. 75¢ admission.
- Sept. 16: State 4-H Day, 8:30 a.m., Memorial Union.
- Sept. 16: Workshop of the Mo. Chapter of the American Assn. of Teachers of German, 9 a.m., General Classroom Bldg.
- Sept. 16: Student Activities Show-Me Saturday Trip to Six Flags Over Mid-America. Transportation by University bus. Tickets \$1.50 at Memorial Union ticket window a week before trip.
- Sept. 16: Dr. Nathan Trainin, the Weizmann Institute of Science, Rehovot, Israel, to speak on "Mechanism of Action of the Thymic Humoral Factor," 10:40 a.m., M253 Medical Sciences. Sponsored by the division of biological sciences.
- Sept. 17: Open House at Columbia Art League, 12 N. 10th St., 3-5 p.m. to introduce new show featuring artists Gail Rutherford, William Haupt and Robert Bussabarger. Show runs to Sept. 29.
- Sept. 17: Student Activities Free Flick: "They Might Be Giants," 5:30 & 8:30 p.m., Jesse Auditorium. UMC ID admits.
- Sept. 18: Dr. P. V. Sukhatme, department of statistics, to speak on "Recent Trends in Food Availability and Their Implications," 3:40 p.m., 104 A&S.

- Sept. 18: Dr. A. P. Toliver, department of biochemistry, University of California-Davis, to speak on "Contact Inhibition of Tumor Cells," 3:40 p.m., M253 Medical Sciences. Sponsored by the division of biological sciences.
- Sept. 18: University Concert Series: Christopher Parkening, guitarist, to perform, 8:15 p.m., Jesse Auditorium. Single admission, \$2.50, \$3.
- Sept. 18: Student Activities Outdoor Band Concert, 8:15 p.m., Francis Quadrangle.
- Sept. 18-19: Art Show for first semester, Memorial Union Large Ballroom.
- Sept. 19: Dr. P. V. Sukhatme, department of statistics, to speak on "The Protein Problem," 3:30 p.m., 104 A&S. Sponsored by the division of biological sciences.
- Sept. 19: Dr. A. P. Toliver, department of biochemistry, University of California-Davis, to speak on "Membrane Associated DNA in Hela Cell," 3:40 p.m., 18 Tucker Hall. Sponsored by the division of biological sciences.
- Sept. 19: Dr. Keith H. Byington, associate professor of pharmacology, to speak on "Hemolysis of Red Cells," 3:40 p.m., M401 Medical Sciences. Sponsored by the division of biological sciences.
- Sept. 19: Honors College Free Film: "The White Sheik," Italy, 1952. Directed by Frederico Fellini. 7:30 p.m., A&S Auditorium.
- Sept. 19: Student Activities Environmental Program: "Logging--The Clear-Cutting Controversy," 7:30 p.m., GCB Auditorium.
- Sept. 19: Columbia Art League General Meeting, 8 p.m., 12 N. 10th St. Review of the last 15 years of CAL activities featuring slides and discussion. Refreshments. Members and visitors urged to attend.
- Sept. 20: Educational Business Fair: representatives of 54 local and national firms to set up booths in Middlebush Hall, 9:30 a.m. to 3:30 p.m. to give an overall look at opportunities in businesses. Sponsor is Marketing Forum, collegiate chapter of American Marketing Assn.
- Sept. 20: Legion of Black Collegians Speaker: Curtis Lyle, 8 p.m., Middlebush Auditorium. UMC ID admits.
- Sept. 20: Honors College "Civilisation" Film Series: "Romance and Reality," 7, 8 & 9 p.m., 210 Gcb. Free.
- Sept. 20: Student Activities Free Flick: "Lord Jim," 8 p.m., Jesse Auditorium. UMC ID admits.
- Sept. 21: Student Activities Speaker: Joseph Heller, 8 p.m., Jesse Auditorium. UMC ID admits.
- Sept. 22: Student Activities Pop Concert: Ken Loggins and Jim Messina, 8 p.m., Brewer Fieldhouse. Tickets \$1.50 at Memorial Union ticket window.
- Sept. 22-23: Honors College Film Series (75¢ admission): "Targets," 7 & 9 p.m., Memorial Union Auditorium.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Vol. 2, No. 4

Published by the
Office of the Provost for Academic Affairs

Sept. 29, 1972

HIGHLIGHTS OF BOARD OF CURATORS MEETING HELD SEPT. 22 IN COLUMBIA:

*Announced that the University is asking the Missouri General Assembly to appropriate \$117,304,570 in state funds toward the 1973-74 general operating budget of the University and its four campuses.

*Announced that a capital improvements request of \$112,885,000 is being made to the Missouri General Assembly for the 1973-74 fiscal year.

*Approved a reorganization plan for the Columbia campus, with the plan including the designation of a vice-chancellor, a provost for academic affairs, a provost for health affairs and a provost for administration.

*Heard a report by President Ratchford on the naming of an 8-member committee to assist in the search for a chancellor for the St. Louis campus.

*Approved a plan to reorganize the UMC Medical Center administrative operation.

*Heard a report by President Ratchford that the 1972-73 general operating budget of the University is \$147,664,907.

*Approved a plan to change the name and reorganize the School of Business and Public Administration on the Columbia campus. The new name is the College of Administration and Public Affairs.

*Heard an announcement by President Ratchford that the patient admission policy will be expanded at the University Hospital and Clinics in Columbia.

*Approved expanding the student exchange system of the Mid-Missouri Associated Colleges from 30 hours per semester per institution to a total of 200 hours at the tuition costs of the parent campuses.

*Heard a report by Vice President Guy H. Entsminger that \$3.3 million in gift funds were received by the University Development Fund during the 1971-72 fiscal year.

JOHN G. NEIHARDT, Nebraska's poet laureate and UMC poet in residence and lecturer in English from 1949 to 1965, was awarded an honorary doctor of letters from Midland Lutheran College, Fremont, Nebr., Sept. 19. That date was also designated "Neihardt Day" in Fremont. The event coincided with the release of the first volume of Neihardt's autobiography, "All Is But a Beginning," published by Harcourt, Brace and Janovich. The 91-year-old poet has been the recipient of many national and midwestern literary honors and was a particular favorite of UMC students while a faculty member here. Neihardt's three daughters are residents of the Columbia area.

INTERNATIONAL MENUS geared to American tastes are being featured on Sunday evenings at the Memorial Union cafeteria. Chinese food will be served Oct. 1 with Italian fare scheduled for Oct. 8. Ken Applegate, food service manager, says a seafood night is planned for the near future. He emphasizes that American food is offered with the featured international menu of the evening. Also, all dishes are served cafeteria-style at the Union's regular cafeteria prices. Decorated with items appropriate to the national menu being featured, the cafeteria provides an interesting opportunity for gastronomes and their families.

THE OFFICE OF Conferences and Short Courses, now quartered in the Hearnes Multi-purpose Building, wishes to notify the campus of its Centrex telephone numbers. Please clip and save the following information.

GRADUATE SCHOOL AND RESEARCH NOTES

ENGINEERING RESEARCH--Broader opportunities for new engineering faculty to conduct research with industry, government, or research organizations are reflected in new guidelines for the National Science Foundation's Engineering Research Initiation Program. The program is designed for faculty members who have had no substantial research support. The major change in the 1973 program is the opportunity for research by faculty members who may or may not hold a doctorate degree. One option supports only academic research on campus. Another supports both academic research and research in an off-campus environment. For more information write: Engineering Research Initiation Program, Div. of Engineering, NSF, Washington D. C. 20550. Application deadline is Dec. 1.

NSF GRAD FELLOWSHIPS--Five hundred new graduate fellowships will be awarded by NSF in the spring of 1973. The application deadline is Nov. 27. For application information call Dean Anderson in the Graduate School, 882-6311.

MEDICAL EDUCATION--The National Fund for Medical Education is offering fellowships to encourage and aid young MDs interested in academic careers in medicine. The fellowships carry a stipend of \$15 - \$20,000 a year for the study of "some of the broad problems related to medical education. Areas of interest might include governance, curriculum, methods of instruction, admissions procedures and policies." Deadline for applications for fellowships to be awarded for the year beginning July 1, 1973 is Nov. 30. Forms and information may be obtained from: National Fund for Medical Education, 2 W. 46th St., New York, N.Y. 10036.

PUBLIC MEDIA--National Endowment of the Arts Public Media Program Education grants, maximum \$10,000, are intended to "develop curricula for courses in schools and colleges and sponsor accredited workshops and seminars designed for in-service training of film teachers." Grants up to \$3,000 are available for university film school assistance to graduate students. Applications for grants for fiscal 1973 are due Oct. 15. Further information is available from: Public Media Program, National Endowment for the Arts, Washington, D.C. 20506.

TRANSPORTATION RESEARCH--A new research program to increase the involvement of universities in the solution of transportation problems has been announced by the Dept. of Transportation. The program is funded at \$4 million in fiscal 1973. It will be administered by the newly created Office of University Research and will complement existing DOT university research programs. It will support problem-oriented transportation research by faculty and graduate students in fields related to transportation. The objective of the program is to encourage the development of interdisciplinary university teams for the social, technological, environmental, scientific, political, economic, management planning, engineering and legal fields. For further information call Mrs. McQuary in the Graduate School, 882-6311.

EAST-WEST CENTER--The East-West Center, Honolulu, Hawaii, is offering all-inclusive grants supporting graduate study at the University of Hawaii leading to master's and doctoral degrees. Grantees are expected to participate in one of the Center-directed research, training, field education and intercultural programs in cross-cultural communication, population dynamics, culture and language learning, food systems and technological management and development. For further information, contact Dr. Mohammad S.K. Ghouri, Mo. Institute of Psychiatry, 5400 Arsenal St., St. Louis, Mo. 63139.

RESEARCH COUNCIL MEETINGS--During the coming academic year the University Research Council plans to meet the first Friday after the first Monday of each month. Applications for Research Council support should be submitted approximately ten days before the meeting date.

KBIA-FM PROGRAM HIGHLIGHTS--91.3 mhz

- Sept. 30: 9 a.m. Accent on Music: Mozart's Violin Concerto No. 4 in D; Bartok's Miraculous Mandarin Suite; Trio in B-flat Major for Piano, Violin and Cello; and Brahms' Variations and Fugue on a Theme by Handel.
- 1 p.m. Opera: Mozart's The Magic Flute will feature Pilar Lorenagar, Chrisina Deutekom, Hermann Prey, Stuart Burrows, Martti Talvela and Dietrich Fischer-Dieskau. Vocal Scene will feature Joseph Schmidt and Michael Bohnen.
- 5 p.m. Missouri Forum: Democrat James Kirkpatrick, incumbent Secretary of State, will discuss his reelection campaign and his past four years years in office.
- 5:30 p.m. University Close-Up: Noise pollution, the University's Extension Division and the character of students past and present will be the topics this week.
- 7:30 p.m. Stereo Concert Hall: Albinoni's Flute Concerto in G Major; C. P. E. Bach's Sinfonia in B Flat, WQ 82, Nos. 2 & 5; and Haydn's The Creation.
- Oct. 1: 6 a.m. Sunday Symphony: Janacek's Missa Glagolitica; Delius' Requiem; R. Strauss' Metamorphosen; Durufle's Toccata from Suite Opus 5; Shankar's Concerto for Sitar and Orchestra; A. Stradella's Concerto in D Major for Trumpet and Two Orchestras; and D'Indy's Symphony on a French Mountain Air for Orchestra and Piano.
- 12:30 p.m. Composer's Forum: Music of Elie Siegmeister, professor of music and composer in residence at Hofstra University, is featured.
- 1:30 p.m. Special of the Week: Works by German composers Wolfgang Fortner and Gustav Mahler: Triplum and Fourth Symphony in G Major, respectively. BBC Promenade Concert: Dvorak's Serenade in D Minor, Opus 44, and Beethoven's Symphony No. 8 in F Major. Folk Music Section: Ballads in bluegrass.

- 5 p.m. Bookbeat: Host Robert Cromie visits with Stephen Birmingham about his book, "The Late John Marquand." Marquand, a well-known literary figure, was instrumental in starting Birmingham's career.
- 7:30 p.m. Boston Symphony: Bach's Brandenburg Concerto Nos. 2 & 5; Orchestra Suite No. 2 and Cantata No. 191. Recorded live at Berkshire Festival. Seiji Ozawa conducts.
- 9:30 p.m. Firing Line: McGovern's campaign strategist Frank Mankiewicz discusses the McGovern phenomenon. Mankiewicz was Robert Kennedy's press secretary in 1966 and a newspaper and television commentator until joining the McGovern campaign.
- Oct. 2-6: 9 a.m. Accent on Music: Mon--Beethoven's Sonata No. 18 in E Flat, Opus 31, No. 3; Ravel's Gaspard de la Nuit; Schubert's Glaube, Hoffnung und Liebe. Tues--Beethoven's Sonata No. 9 in E Opus 14 No. 1; Ravel's Pavane for a Dead Princess; Grieg's Piano Concerto in A Minor. Wed--Beethoven's Piano Concerto No. 5 "Emperor"; Ravel's Quartet in F Major; Handel's Concerto for Woodwind and Organ. Thurs--Beethoven's Sonata No. 23 in in F Minor, Opus 57; Ravel's La Valse; Dvorak's The Slavonic Dances, Opus 46. Fri--Mozart's Quartet No. 16 in E Flat Major; Albion's Concerto in D Major, Opus 6, No. 6 for Trumpet.
- 1 p.m. World of Music: Mon--Prokofiev's Concerto No. 5 in G, Opus 55; Rachmaninoff's Symphony No. 1 in D Minor, Opus 13; Beethoven's String Quartet No. 10, Opus 74, "Harp." Tues--Rachmaninoff's Symphony No. 2; Beethoven's Sonata No. 31 in A Flat for Piano, Opus 110; Saint-Saens' Carnival of the Animals. Thurs--Rachmaninoff's Concerto No. 1 for Piano; Beethoven's String Trio in G, Opus 9 No. 1; Ravel's Daphnis and Chloe (complete ballet). Fri--1 p.m. National Press Club Luncheon: guest is Fletcher Knebel, author of "Dark Horse." 2 p.m. World of Music: Liszt's Concerto No. 2 in A Major; Kodaly's Dances of Galanta; Kalinnikov's Symphony No. 1 in G Minor.
- 7:30 p.m. Stereo Concert Hall: Mon--Rossini's Overture to "La Giza Ladra"; Mendelssohn's Symphony No. 3 in A Minor, Opus 56; Dvorak's Piano Trio in B-flat Major. Tues--The Amsterdam Concertgebouw Orchestra will play Bruckner's Symphony No. 5 in B-flat Major as NPR's Concert of the Week. Wed--The Cleveland Orchestra will play Hadyn's Symphony No. 87, Poulenc's Gloria and Boito's Prologue to "Mefistofele." Thurs--Dvorak's Scherzo Capriccioso, Opus 66; Strauss' Salome's Dance; Rossini's Reshighi-La Boutique Fantastige Suite. Fri--Strauss' Also Sprach Zarathustra, Opus 30; Holst's Folksong Suite.
- 9:30 p.m. KBIA News Hour: Mon--to be announced. Tues--Judge Robert Brady, President of the Board of Curators, and a student and faculty member will be available for live phone-in questions. Wed--Rent-rip-off. Thurs--Plight of the senior citizen. Fri--Sex education for college students. (10 p.m. Monday only: Ford Hall Forum: Buckminster Fuller, prominent environmentalist, will lecture on "Humans in Universe.")

CALENDAR

- To Oct. 15: Art department exhibit: Prints from Germany, Fine Arts Gallery.
- To Oct. 23: Stephens College art faculty exhibit, Davis Art Gallery, Stephens College.
- Sept. 29: Honors College Film Series (75 cents admission): "Lolita," 7 & 9 p.m., Memorial Union Auditorium.
- Sept. 29: Stephens College Arts Series presents the Minnesota Orchestra, Stanislaw Skrowaczewski conducting, 8:15 p.m., Stephens College Assembly Hall. Single admission, \$2.50-\$5.
- Sept. 30: Honors College Film Series (75 cents admission): "The Wild One," 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 1: Columbia Art League reception for exhibitor Will Freund, 3-5 p.m., 12 North 10th St.
- Oct. 1-21: Columbia Art League Exhibit: Paintings of Will Freund, associate professor of art at Southern Illinois University and formerly of Stephens College art faculty.
- Oct. 1: Student Activities Free Flick: "Midnight Cowboy," 2:30, 5:30 & 8:30 p.m., Jesse Auditorium. Admission by UMC ID.
- Oct. 2-6: MSA Blood Drive, 11:30-4:15 p.m., 208 Brady Commons.
- Oct. 3: Honors College Social Biology lecture: "Environmental Contamination and Biological Systems," Mostafa S. Fahim, professor of obstetrics and gynecology, 1:40 p.m., 18 Tucker Hall.
- Oct. 3: Student Activities Band Concert on Francis Quadrangle, 7 p.m., weather permitting.
- Oct. 3: Honors College Free Film: "Shadows of Forgotten Ancestors," Russian. 7:30 p.m., A&S Auditorium.
- Oct. 3: Student Activity Environmental Program: "Pesticides and Herbicides," 7:30 p.m., GCB Auditorium.
- Oct. 3: University Symphony Orchestra, Eugene Gratovich, violinist, 8:15 p.m., Jesse Auditorium.
- Oct. 4-7;
11-14: "A Delicate Balance," Edward Albee's Pulitzer Prize-winning play, 8:15 p.m., University Theater. Tickets, \$2.
- Oct. 4: Honors College "Civilisation" series: "The Hero as Artist," 7, 8 & 9 p.m., 210 GCB. Free.
- Oct. 4: Student Activities Free Flick: "The Hired Hand," 8 p.m., Jesse Auditorium. Admission by UMC ID.
- Oct. 4: Nursing Management of Patient Care, S203 Memorial Union. Sponsored by Office of Continuing Medical Education.
- Oct. 4-5: Child Development and Child Psychiatry Conference, Medical Center. Sponsored by Office of Continuing Medical Education.
- Oct. 5-6: Issues Facing the Health Facility Today. Sponsored by the Office of Continuing Medical Education.

- Oct. 5: Plant Physiology Group Seminar, papers at AIBS, Cryobiology, Horticulture and Phytobiology meetings, 11:40 a.m., 115 Tucker. Sponsored by the division of biological sciences.
- Oct. 5: Social Biology lecture: "Populations and Their Genetic Control," William F. Sheridan, professor of biological sciences, 1:40 p.m., 18 Tucker Hall.
- Oct. 5: Gerald E. Auten, economics instructor and faculty research assistant, to speak on "Where the Public Gets Its Money," 8 p.m., Student Lounge, Neff Hall. Sponsored by the School of Journalism and the College of Administration and Public Affairs.
- Oct. 5: John R. Brobeck, department of physiology, the School of Medicine, University of Pennsylvania, to speak on "Neural Control of Bioenergetics," 8 p.m., Memorial Union Auditorium. 11th annual Samuel Brody Memorial Lecture.
- Oct. 5: Astronomy film series: "The Force of Gravity" explains planetary motion, tides and satellite motion. 4 p.m., 126 Physics and 8 p.m. Oct. 6 in 126 Physics if weather is cloudy.
- Oct. 6: Public viewing of Physics Observatory, every clear Friday after dark.
- Oct. 6-30: AIA Art Show, Brady Commons.
- Oct. 6-30: Reta Shacknove art exhibit, Memorial Union.
- Oct. 6-7: Honors College Film Series (75 cents admission): "The Magic Christian," starring Peter Sellers and Ringo Starr. 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 6: Women-A Multifaceted Role, Memorial Union, 9 a.m. Sponsored by Phi Chi Theta of the College of Administration and Public Affairs.
- Oct. 6-7: Midwest Conference on Endocrinology and Metabolism, Memorial Union, 8 a.m.
- Oct. 6: University Concert Series: Guarneri String Quartet, 8:15 p.m., Jesse Auditorium. Single admission, \$3, 2.50.
- Oct. 7: Show-Me Saturday Trip to Grant's Farm and the St. Louis Riverfront. Sponsored by Student Activities. Open to faculty, staff and students. Transportation by University bus. Tickets \$1.50 available a week before the trip from Memorial Union ticket window.
- Oct. 8: Anthropology films on prejudice: "Willie Catches On" shows how the seeds of prejudice are planted at an early age; "Forgotten America" deals with the Indian's alienation from society and examines urban and reservation problems and suggests ways of improving the situation. 2 p.m., Memorial Union Auditorium. Free.
- Oct. 8: Student Activities Free Flick: "The Owl and the Pussycat," 2:30, 5:30 & 8:30 p.m., Jesse Auditorium. Admission by UMC ID.
- Oct. 10: Honors College Free Film: "Yojimbo," Japan. 7:30 p.m., A&S Aud.
- Ongoing: Instruction in ATS and CPS (Interactive Terminal Systems) given on an individual basis to faculty, staff and graduate students on no-credit, no-fee basis. For instruction, call Tom Phillips, 2 Math Sciences, 882-4481 or 882-6284. Sponsored by the Computer Center.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

BULLETIN IN BRIEF

Vol. 2, No. ⁵ Published by the Office of the Provost for Academic Affairs Oct. 9, 1972

October 5, 1972

REPORT FROM THE FACULTY COUNCIL TO THE UMC FACULTY

During the current fall semester the faculty have experienced erosion of morale which comes close to despair. The Council has attempted to analyze the present situation with the objective of offering constructive criticism of what we sincerely believe to be the wrong direction of organization and operation of a university and, more importantly, to present a plan to the faculty and the administration for the redirection of cooperative effort.

During the past few years we have witnessed an erosion of those faculty responsibilities and powers which are not only traditional in American Universities, but which are recognized in our By-Laws and approved by the Board of Curators. As in all professional institutions, self governance, peer evaluation and policy determination characterized, and should still characterize, the operations of the faculty. Such provisions may be found in Article II of the Faculty By-Laws.

Many cases of deterioration and erosion of responsibility are minor in that they directly affect only one faculty member or one program. However, certain others affect faculty responsibility very broadly, and when both the major and minor cases are considered collectively and chronologically they indicate a dramatic, progressive and accelerating invasion of faculty and campus authority. Inevitably the question must be asked, how far will this trend go before the situation becomes completely intolerable.

Among these events the following are outstanding in the recent past. Each of them represents a loss, to a greater or lesser degree and to a larger or smaller proportion of the faculty, of what are proper faculty functions. Each has been followed by a significant drop in faculty morale. In chronological order, we have witnessed: rejection of a faculty vote on the academic calendar (1969), the rescinding of an agreement (made by representatives of students, faculty and campus administration) which substantially reduced the possibility of violence in the spring of 1970, the effecting of new admission requirements beginning in the fall of 1971, the requirement of fees for group meetings

(particularly including "learned, educational, professional and scientific organizations") without regard to the educational implications (1971). The latter two were effected without proper faculty consultation.

However, none of the above mentioned impositions match in significance the impact of the Role and Scope statement of December 1971 or the recent, and equally threatening, Recommended Pattern for Doctoral Centers document. We believe that it is the considered judgment of the vast majority of the faculty that these plans would severely depress the quality of doctoral education in the MU system and plunge the University into inferiority at all educational levels. These plans, if effected, would clearly violate the fundamental principle of faculty determination of educational policy and indeed would undermine our effectiveness in fulfilling our professional and ethical responsibilities as educators.

Coincident with the decimation of faculty authority there has been a rapid increase in the centralization of authority represented by all of these items, both imposed and proposed. In addition, the recent Board action in the "Hutchins' case" signifies a further increase of centralized authority and is clearly inconsistent with generally accepted principles of proper university governance. We view increasing centralization of authority as an alarming trend in higher education. It requires a higher proportion of already minimal funds to be diverted from the educational process to administration and it ignores the unfavorable experience of other state educational systems.

For this complex and rapidly deteriorating situation there is no single contributing cause. Nevertheless, it is probably true that the University of Missouri system developed physically and administratively much more rapidly than did the rationale for its structure. Indeed, even now we have only the fundamental assumptions that there is to be "One university with four campuses" and that "The University of Missouri will be a comprehensive institution of higher learning but no individual campus will be." We feel that there is a tremendous void of explanation regarding the meaning or the logical and educational foundation of these statements. If the various Role and Scope plans constitute attempts to interpret these assumptions then we must protest with every device at our disposal because they limit the development of other campuses and simultaneously destroy a sound, integrated and established Graduate School on this campus. To produce four widely separated, incomplete and weak clusters of doctoral programs is not a sensible way of developing a viable and successful community of scholars knit together by a network of multidisciplinary ties.

In our opinion the university-wide administration has taken drastic actions without convincing rationale. Whether such actions were deliberate attempts to build a top-heavy authority or were necessary as emergency measures is not the important issue. The fact is that we are in a system organization and there is little probability of returning to a former structure as many faculty would enthusiastically prefer. Our sister campuses are entitled to grow and to develop in ways such that they can best serve the needs of the state. So must the UMC campus.

Your Faculty Council will work in all possible ways to seek to have your views heard and acted upon in all matters vital to the future of the University and this campus. We have, for example, already initiated and held face-to-face discussions with the President and the Chancellor in one meeting characterized

by a frank and honest airing of viewpoints. All participants have expressed a desire to continue these discussions and we intend to do so.

We believe that the university-wide administration and the Board of Curators are deeply committed to making our university a more effective institution of higher learning. However, it is our contention that the process is being effected in a manner that is educationally and financially indefensible.

It is our considered opinion:

It is essential, insofar as possible, that the organization of the University be decentralized. This means, as far as concerns educational policy, that as many decisions as possible should be in the hands of the academic department or division involved. It is to the department and the division that the individual teacher has the greatest allegiance and responsibility and this responsibility and allegiance should be recognized to the greatest extent possible.

1. We recommend that steps be taken to insure that as many matters as possible are handled and decisions made at the departmental and divisional level.

The administrative structure of the University is already based on these units. Some departments and divisions are small enough for the entire faculty to participate actively and collectively in determining questions of academic policy. There are also departmental and divisional policy committees which can provide an effective structure for faculty consideration and decision making.

It is also true that there are matters affecting the entire campus which cannot be left exclusively to the departments or divisions. With a faculty of our size it is exceptionally unwieldy to use the general faculty meeting for all of the decisions that need to be considered by the campus faculty.

2. We recommend the establishment of a proportionally representative campus faculty group empowered to deal with those limited matters which need to be decided at a campus wide level.

We are also part of a state wide university system and there are a few matters of academic policy which must be uniform throughout the system. Examples are general admissions requirements, the academic calendar, general rules for transfer of credit, etc. These, however, are still matters requiring some degree of faculty consideration and decision.

3. We recommend the establishment of a proportionally representative system-wide faculty group empowered to deal with those limited matters which need to be decided at a university-wide level.

If there is to be proper consideration and implementation of any university reorganization, such groups as recommended above must be established in order that there can be representative and responsible faculty decision making and advice. The steps recommended above should be taken prior to the adoption or approval of any Role and Scope, Doctoral Center or similar documents. If the recommendations are followed, there will then be faculty organization (with complementary administrative organization) covering all levels.

The emphasis of reorganization proposals has been on doctoral programs. While such programs are of vital importance to the University, we feel there is another area which should be given priority in consideration. That is the area of undergraduate education. Immediate action needs to be taken to strengthen the quality of the undergraduate program on all campuses. It is this area which involves the educational opportunities for the greatest number of Missouri citizens seeking higher education and it is this area which should be of first priority. In addition to steps to improve the quality, steps should be taken to induce some degree of standardization of the various bachelor degree programs in order to facilitate easy transfer of students from one campus to another.

It is also important that the administration and faculty at all levels work together on the problems of developing and improving graduate programs throughout the University. Such programs should provide for growth taking into account the unique capabilities, needs and aspirations of each campus without a concomitant deterioration of any campus. All campuses must share in the development.

This statement is being made to inform the members of the University community of our deep concern about the fundamental changes occurring in the University. The trends indicated are a lessening of the authority of the faculty and an increase in centralization of authority and control. We shall continue to work for a reversal of these trends and a return to normal university procedure with a high degree of decentralization and where the faculty plays its proper role in determining educational policy.

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 6 Office of the Provost for Academic Affairs Oct. 16, 1972

A TELEPHONE NUMBER for Tom Perrin, Conferences and Short Courses, was listed incorrectly in the Sept. 29 Bulletin-in-Brief. The correct number should be 882-3356.

A NEW RECREATIONAL and competitive sport, orienteering, will be the subject of a workshop sponsored by health and physical education Oct. 21-22. The sport involves learning the use of map and compass to find one's way in cross-country and wilderness areas. Instructor will be Ken Ackerman, Southern Illinois University. There is no charge for UMC faculty who wish to participate. The workshop will involve instruction in map reading and compass use. Films will be shown. A Sunday morning woods hike will be an orienteering competition for participants. For more information, call Marge Meredith, Women's Gym, 882-4016.

STAFF BENEFITS pre-retirement planning program for faculty and staff will hold its first fall session on Monday and Tuesday evenings Oct. 23 and 24. Faculty and staff enrolled previously in the program who had missed one or more sessions may make them up if they wish. Call 882-3683 for information.

UNIVERSITY CLUB will gather at noon Oct. 25 in the Small Ballroom of the Memorial Union for its monthly meeting. Dave Dugan, director of KBIA-FM, will discuss the inside story of TV news, KBIA's progress and future plans, and since he is part of the KMOX football broadcast team, he will also talk about Missouri football. Dugan, before coming to UMC last year, was affiliated with CBS TV and radio news for 15 years.

Guests are welcome. Additionally, the Club wishes to encourage new members to join. The group is an educational and social fellowship of University faculty and staff interested in promoting the University's welfare. Membership dues are \$5 annually payable to John Tolan, 413 Clark Hall.

Luncheon reservations should be phoned to Judy Devlin, 2-3721, by Oct. 24. Price of the buffet is \$2 collected at the door.

GRADUATE SCHOOL AND RESEARCH NOTES

SUMMER FELLOWSHIPS DEADLINE--The University Research Council has announced that the deadline for receipt of applications for the University's Summer Research Fellowships will be Nov. 28. Application forms may be obtained from Dean Culpepper's office, 217 Jesse Hall.

NSF EXPERIMENTAL RESEARCH--The National Science Foundation has announced a new program intended to provide a focus in the federal structure for experimental research and development to learn how to influence the rate of technological innovation in the private and public service sectors of the economy. Prior to submitting informal proposals, a descriptive letter should be submitted outlining the intended aims, participants, feasibility and mechanisms for coordinating the proposed research. All information should be addressed to the Office of Experimental Research and Development Incentives, National Science Foundation, Washington, D. C. 20550. Call Mrs. McQuary for further information.

DOT DEADLINE EXTENDED--The Dept. of Transportation has extended the deadline for the submission of proposals for its new university transportation research program

until Dec. 1. The Graduate Office has recently received the guidelines for submitting applications for this program. (See Bulletin-in-Brief, Sept. 29.)

RESEARCH ON THE ELDERLY--The Health Services and Mental Health Administration is soliciting grant applications from public and nonprofit organizations to research ways to improve the quality of long-term care, reduce unnecessary institutionalization, improve manpower utilization, and make more appropriate use of all types of facilities and long-term care programs for the elderly. Grant application deadlines are Nov. 1, and Feb. 1. Application kits and guidelines for preparing proposals may be obtained by contacting the National Center for Health Services Research and Development, Health Services and Mental Health Administration, Dept. of Health, Education, and Welfare, Parklawn Building, Room 15-A-35, 5600 Fishers Lane, Rockville, Md. 20852.

NEH POSTDOC FELLOWSHIPS--The National Endowment for the Humanities provides fellowships to give young scholars and teachers who have just completed or are just completing their professional training an opportunity to undertake historical, social or cultural studies of U.S. ethnic minorities under guidance of experienced faculty advisors. Maximum stipend is \$10,000. Deadline is Nov. 6.

EXPERIMENTAL DETAILS NEEDED--Dr. George Eaves, in his paper "Who reads your project-grant application to the National Institutes of Health?" says that one of the common reasons for disapproval of an application is "a lack of sufficient experimental detail..." In applications for research grants and for all DHEW grants which propose to use human subjects, this lack may not just delay approval until the missing information is supplied, but may result in an unfavorable recommendation based on the apparent failure of the applicant to recognize serious hazards to subjects.

The Institutional Relations Branch, Div. of Research Grants, charged with the responsibility for administering the DHEW policy on the protection of human subjects, corroborates Eaves' findings. The Branch notes that the questions of ethics and undue hazards to subjects, raised by DHEW review groups, arise because insufficient details are provided in the review proposal. When such questions have been asked by an institutional review committee, clarification of the proposal should be included in the grant application or added to applications already submitted. Responsibility for providing complete and accurate information lies with the applicant investigator.

(For further information on any of the above programs, call Mrs. Carol McQuary, Graduate School, 882-6311.)

KBIA-FM Program **Highlights**--91.3 mhz

- Oct. 16-20:
- 9 a.m. Accent on Music: Mon--English lute music; Quantz; Gershwin. Tues--Wnorinen; Wood; Dvorak. Wed-- Bartok; Liszt; Beethoven. Thurs--Weill; Liszt; Lutyens. Fri--Hummel; Mulet; Malipiero.
 - 1 p.m. World of Music: Mozart; Debussy; Glinka. Tues--Casella; Porter; Copland. Wed--Dvorak; Wagner; Tchaikovsky. Thurs--Weber; Rossini; Schoenberg. Fri--Shostakovich; Mozart; Liszt.
 - 7:30 p.m. Stereo Concert Hall: Mon--Shostakovich; Wagner; Schumann. Tues--NPR Concert of the Week plays Mozart, Dukas, Stravinsky and Strauss. Wed--Cleveland Orchestra plays all Tchaikovsky program. Thurs--Bloch; Tchaikovsky; Copland. Fri--Haydn; Prokofief; Mozart.
 - 10 p.m. Ford Hall Forum: (Mon only) Isaac Asimov will discuss population control: "Ladies, You Shall Overcome."
- Oct. 21:
- 9 a.m. Accent on Music: Kodaly; Liszt; Mozart.
 - 1 p.m. Opera: Puccini's Madame Butterfly. Leontyne Price and Richard Tucker. Vocal Scene follows with "The Duets of De Luca."
 - 5 p.m. Missouri Forum: James Spain, Demo candidate for attorney general, will appear before the press panel.
 - 5:30 p.m. University Close-Up: personality profile of Sam Richie and his work in community development in Montgomery-Hyde Park, St. Louis.
 - 7:30 p.m. Stereo Concert Hall: A contemporary Russian concert.
 - 9:30 p.m. Just Jazz: first in a six-part series covering the history of jazz. This week: 1917-1929; includes the first jazz recording ever made.

CALENDAR

- To Oct. 21: Columbia Art League Exhibit features painting of Will Freund, formerly of the Stephens College art faculty, now at Southern Illinois University.
- To Oct. 30: Reta Shacknove art exhibit, Memorial Union.
- To Oct. 30: AIA Art Show, Brady Commons.
- To Nov. 3: Art Dept. Exhibit: Three painters: Alison McMaugh, James Adley and Stan Shafer, Fine Arts Gallery.
- Oct. 17: Honors College Free Film: "A Man Escaped," France, 1956. Directed by Robert Bresson, 7:30 p.m., A&S Auditorium.
- Oct. 17: AAUW dinner meeting, 6:30 p.m., Holiday Inn East. Betty McCaskill, city councilwoman, and Mrs. Laurence Bell, National Board of Presbyterian Women, will discuss "Beliefs into Action." Make reservations by Oct. 16 to Mrs. William Albrecht, 449-5129.
- Oct. 18: Sam Aldrich, soil fertility specialist, University of Illinois, to speak on "Environmental Decision Making in a Democratic Society," 1:40 p.m., 200 Waters.
- Oct. 18: Honors College "Civilisation" Series: "Grandeur and Obedience," 7, 8 & 9 p.m., 210 GCB. Free.
- Oct. 18: Student Activities Free Flick: "Rebel Without A Cause," 8 p.m., Jesse Auditorium.
- Oct. 19-20: Astronomy Film Series: "The Nearest Star," Thurs-4 p.m.; Fri-8 p.m.; when clouds prevent observing; 126 Physics.
- Oct. 20-21: Honors College Film (75¢ admission): "The Touch," 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 20: Student Activities Friday Night Movie(75¢ admission): "Joe," 8 p.m., Jesse Auditorium. Tickets at Jesse Hall window before show.
- Oct. 21: Cultural Assn. of India film: "Anand" (Joy), 7:15 p.m., A & S Auditorium. Free.
- Oct. 22: Student Activities Free Flick: "The Andromeda Strain," 5:30 and 8:30 p.m., Jesse Auditorium.
- Oct. 21-22: Resident Boone Co. amateur and professional artists to show work in 14th Annual Exhibit at Boone Co. National Bank. All media accepted. Application blanks available at Columbia Art League, 12 N. 10th St.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 7

Office of the Provost for Academic Affairs

Oct. 20, 1972

CHANCELLOR SCHOOLING on Oct. 19 requested appointment of faculty and student members to a 25-member University Assembly to advise him on matters of importance and assume responsibility for the functioning of the standing committee system. He asked Dr. Owen Koeppel, chairman of the Faculty Council, to select 10 members from the faculty, and Dan Viets, president of the Missouri Student Assn., to make appointments of 10 students. In both cases, Dr. Schooling asked that some members be named to two-year terms to provide continuity of membership. Five other members representing the administration will be appointed by the chancellor after consultation with the Council of Deans. The Assembly is to meet monthly during the academic year and at such other times as may be necessary. The first charge of the Assembly will be a review of standing committees and development of a revised committee system. A continuing responsibility will be evaluation of the functioning of the committee system, with committee reports reviewed by the Assembly and the chancellor being advised regarding committee recommendations.

A "UN DINNER" will be held Oct. 24 in celebration of United Nations Day. The event will take place in the Missouri United Methodist Church from 6 to 8 p.m. Sponsored by several local organizations, the dinner is a potluck or "bring your own dish" affair. That is, everyone attending is invited to cook and bring an international dish of food to be served that evening. Those who are unable to provide a dish, however, can attend. An admission charge of 50¢ for students and \$1 for each family will be charged those who do not bring a prepared food with them. A short program will be presented that evening and babysitting facilities will be provided.

HOMECOMING WEEK-END at UMC will provide plenty of opportunities for things to do and see. The following is a list of scheduled events:

Friday, Oct. 27: 1:30-6 p.m.: International Bazaar on the grassy area between Read and Gentry Halls. Students from countries all over the world will tend booths displaying varied arrays of national symbols and artifacts. International students will explain cultural traditions surrounding the items. Many will also cook and serve samples of their country's typical foods. Live entertainment will also be featured. Free and open to the public. 8 p.m.: "Yeoman of the Guard," Gilbert & Sullivan classic complete with chorus and 34-piece orchestra. One of the Student Activities Broadway Play Series. Tickets, \$2 from Student Activities Tickets, 211 Read Hall. 9 p.m.: Snake dance beginning at the Kappa Alpha house, 1301 University, and going to practice field, where a bonfire will be featured.

Saturday, Oct. 28: House decorations--four women's dorms and seven Greek groups--will be on display. 9 a.m.: Homecoming parade will contain 15 bands, two floats, the queen and her attendants and a number of political candidates. Parade route is through campus and downtown. 9-11 a.m.: International Bazaar continues; see details above. 9-11 a.m.: Student-faculty-alumni reception in the Large Ballroom, Memorial Union. Sponsored by AWS and the Alumni Assn. 11 a.m.: Alumni luncheon, Small ballroom, Memorial Union. Tickets, \$2.50 from Steve Roszell, 882-6611. 1:30 p.m.: Homecoming game, UMC vs. Colorado. Halftime show features crowning of the queen, awarding of prizes for best house service project and best house decoration. 8 p.m.: Student Activities concert features Judy Collins at the Hearnes Building. Tickets, \$2.50, \$3 and \$3.50.

CLASSES WILL BE DISMISSED at 12:30 p.m. Nov. 22 for the Thanksgiving recess. They will resume at 7:40 a.m. Nov. 27. University administrative offices will remain open until 5 p.m. Nov. 22 but will be closed Nov. 23 and 24. Arrangements will be made to carry on essential services while offices are closed.

THE NEW CHEMISTRY BUILDING will be dedicated at 2 p.m. Nov. 8. Dr. Linus Pauling, winner of the Nobel Prize in chemistry and the Nobel Peace Prize, and Dr. Anne Jane Harrison, a University alumna recently appointed to the National Science Board, will speak. Pauling will discuss "Chemistry in Medicine" at 4 p.m. in Jesse Auditorium. Dr. Harrison will speak at a private banquet at 6:30 p.m. in the Memorial Union. The dedication event is being held in conjunction with the Eighth Midwest Regional Meeting of the American Chemical Society Nov. 8-10 at the University.

CALENDAR

- To Oct. 30: Reta Shacknove art exhibit, Memorial Union.
- To Oct. 30: AIA art show, Brady Commons.
- Oct. 19-20: Astronomy Film Series: "The Nearest Star," Thurs-4 p.m.; Fri-8 p.m. when clouds prevent observing; 126 Physics.
- Oct. 20-21: Honors College Film (75¢ admission): "The Touch," 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 20: Student Activities Friday Night Movie (75¢ admission): "Joe," 8 p.m., Jesse Auditorium. Tickets at Jesse Hall ticket window.
- Oct. 20-21; 24-28: Stephens College Playhouse presents "Cactus Flower," 8:15 p.m., except for 9:15 curtain Oct. 20; Stephens College Playhouse. Admission, \$2.50.
- Oct. 21: Cultural Assn. of India film: "Anand" (Joy), 7:15 p.m., A&S Auditorium. Free.
- Oct. 22: 8:30 Student Activities Free Flick: "The Andromeda Strain," 5:30 & 8:30 p.m., Jesse Auditorium.
- Oct. 23: Biological Sciences Divisional Seminar: Dr. Emiliano Cabrere-Juarez, Instituto Politecnico Nacional Mexico, to speak on "Near Visible Light Effects in Haemophilus Influenzae and Its Purified Transforming DNA," 11:40 a.m., 18 Tucker Hall.
- Oct. 23: Edmund De Chaska, professor emeritus of Spanish, Iowa University, to speak on "Aspects of Structure and Form in Don Quixote," 3:45 p.m., Memorial Union Auditorium. Sponsored by romance languages.
- Oct. 24: Social Biology lecture series: "Territoriality, Crowding and Aggression in Man: Fact and Fantasy Distinguished," Donald J. Farish, biological sciences, to speak, 1:40 p.m., 18 Tucker Hall.
- Oct. 24: Student Activities Band Concert, 7 p.m., Francis Quadrangle, weather permitting.
- Oct. 24: Honors College Free Film: "Horsefeathers," 1932, starring the Marx Brothers. 7:30 p.m., A&S Auditorium.
- Oct. 25: University Club luncheon, noon, small ballroom, Memorial Union. Dave Dugan, KBIA director, to speak. Tickets, \$2; reservations to Judy Devlin, 413 Clark Hall by Oct. 24.

- Oct. 25: Aquatic Ecology lunch and discussion: David Johnson to lead discussion on "Pond Culture and Pond Culture Fish," 12:30 p.m., Conference Room, Stephens Hall.
- Oct. 25: Honors College "Civilisation" series: "Light of Experience," 7, 8 & 9 p.m., 210 GCB.
- Oct. 25: Student Activities Classical Concert: Seymour Bernstein, 8 p.m., Jesse Auditorium. Free.
- Oct. 25: Peter de Mendelssohn, novelist and critic, to lecture in English on "Hermann Hesse: How He Began," 8 p.m., Memorial Union Aud.
- Oct. 26: Social Biology lecture series: "Methods and Consequences of Population Control," Roger de Roos, biological sciences, to speak, 1:40 p.m., 18 Tucker Hall.
- Oct. 26: Ag Chemistry 100 GH lecture series: "Fate of Agricultural Chemicals in Plants," Dr. Walter Aue, ag chemistry, to speak, 3:40 p.m., 1 Tucker Hall.
- Oct. 26-27: Astronomy Film Series: "Light Sources and Their Spectra," Thurs-4 p.m.; Fri-8 p.m., when clouds prevent observing; 126 Physics.
- Oct. 26: Student Activities International Cooking Class, Cuban food, 203 Gwynn, 7 p.m.
- Oct. 26: Business Journalism and Public Affairs lecture series: E. E. Liebafsky, professor of economics, to speak on "Manpower Problems in Contemporary America," 8 p.m., Student Lounge, Neff Hall.
- Oct. 27: Honors College Film (75¢ admission): Festival of Silent Horror Movies, 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 27: Student Activities Broadway Play Series: "Yeoman of the Guard," 8 p.m., Jesse Auditorium. Tickets, \$1-\$3, at Memorial Union ticket window.
- Oct. 28: Graduate Record Exam to be administered.
- Oct. 28: Student Activities Concert: Judy Collins, 8 p.m., Hearnes Building. Tickets, \$2.50, \$3, \$3.50.
- Oct. 28: Honors College Film Series (75¢ admission): "Spirits of the Dead," 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 29: Daylight Savings Time ends.
- Oct. 29: University Concert Series: St. Louis Symphony to perform, 3 p.m., Jesse Auditorium. Tickets, \$2.50, \$3.
- Oct. 29: Student Activities Halloween Special: "The Telltale Heart," "Wait Until Dark" and "Psycho" 5 & 9 p.m., Jesse Auditorium.
- Oct. 30: Collegium Musicum to perform, 8:15 p.m., Recital Hall, Fine Arts Building. Sponsored by the department of music.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Items may be submitted to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882,6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 8 Office of the Provost for Academic Affairs Oct. 27, 1972

A GENERAL FACULTY MEETING has been scheduled for Friday, Nov. 10 at 3 p.m. in Jesse Auditorium. On the agenda will be the chancellor's report to the faculty and two matters referred to the faculty from the Faculty Council: consideration of a proposed Faculty Tenure Committee rule, and consideration of the establishment of a proportionally representative campus faculty group which would assume the legislative powers of the University faculty.

THE COLLEGIUM MUSICUM will perform Oct. 30 at 8:15 p.m. in the Recital Hall of the Fine Arts Building. Following the concert, the Friends of the Collegium will hold its first reception at the home of Dean and Mrs. Andrew C. Minor, 919 Timberhill Road, Shepard Hills. All members are invited to attend.

A UNIVERSITY ASSEMBLY LECTURE has been scheduled for Nov. 2. Hector F. DeLuca, professor and chairman of biochemistry, University of Wisconsin, will speak on "Biochemistry and Physiology of Vitamin D" at 4 p.m. in the Memorial Union Auditorium. The lecture is sponsored by Dalton Space Sciences Research Center; the departments of biochemistry, agricultural chemistry, and poultry husbandry; the nutrition area program; and the Veterans Administration Hospital.

ADVANCE REGISTRATION for the winter semester, for the information of all faculty advising students, will be held Nov. 6-10, and Nov. 13-15. Advance registration is restricted to currently enrolled students only.

A VISITING LECTURER will be on campus Nov. 14-16. He is Prof. Theodosius Dobzhansky, University of California-Davis, and member of the National Academy of Sciences. He will speak on "The Evolutionary Uniqueness of Man" at 8 p.m. in Room 126 Physics Nov. 14. Dr. Dobzhansky will be available to faculty and students on Nov. 15 from 9:30 to 11:30 a.m. in 111 Tucker Hall, and from 1:30 to 3:30 p.m. in 235 Electrical Engineering. Dobzhanski, a geneticist, is being sponsored by the Graduate School, The College of Engineering, biological sciences and environmental health.

JOHN MCGOWAN, provost for administration, is temporarily quartered in 101 Jesse. Within a month, he and his staff expect to move into permanent quarters in 110 Jesse. His non-revolving telephone numbers are 882-6492 and 882-6493.

CALENDAR

- Oct. 27: Honors College Film (75¢ admission): Festival of Silent Horror Movies, 7 & 9 p.m., Memorial Union Auditorium.
- Oct. 27: Student Activities Broadway Play Series: Gilbert & Sullivan's "Yeoman of the Guard," 8 p.m., Jesse Auditorium. Tickets, \$1-\$3 at Memorial Union ticket window.
- Oct. 27;
Nov. 3: Public viewing of Physics Observatory, 8 p.m., 126 Physics. If weather is cloudy, an astronomy film will be screened.
- Oct. 28: Graduate Record Exam to be administered.
- Oct. 28: Honors College Film Series (75¢ admission): "Spirits of the Dead," 7 & 9 p.m., Memorial Union Auditorium.

- Oct. 28: Student Activities Concert: Judy Collins, 8 p.m., Hearnese Building. Tickets, \$2.50-\$3.50.
- Oct. 29: Daylight Savings Time ends.
- Oct. 29: University Concert Series: St. Louis Symphony to perform, 3 p.m., Jesse Auditorium. Tickets, \$2.50, \$3.
- Oct. 29: Student Activities Halloween Special: "The Telltale Heart," "Wait Until Dark" and "Psycho," 5 & 9 p.m., Jesse Auditorium.
- Oct. 30: Collegium Musicum to perform, 8:15 p.m., Recital Hall, Fine Arts Building. Friends of the Collegium to hold their first reception at the home of Dean and Mrs. Andrew C. Minor, 919 Timberhill Road, Shepard Hills, after the concert. All members cordially invited to attend.
- Oct. 31: Social Biology lecture series: "Social and Economic Costs of Environmental Controls," speaker to be announced, 1:40 p.m., 18 Tucker Hall.
- Oct. 31: Biological Sciences lecture: "Techniques of Solubilization and Reconstitution of Biological Membranes," Ron Walkenbach, pharmacology graduate student, to speak, 3:40 p.m., M404 Med Sciences.
- Oct. 31: Student Activities Band Concert, Francis Quadrangle, 7 p.m., weather permitting.
- Oct. 31: Honors College Free Film: "Pierre Le Rou," 7:30 p.m., A&S Aud.
- Oct. 31: Student Activities Environment Program: "Government and Environment," 7:30 p.m., GCB Auditorium.
- Nov. 1: Honors College "Civilisation" series: "Pursuit of Happiness," 7, 8 & 9 p.m., 210 GCB.
- Nov. 1: Student Activities Free Flick: "Through a Glass Darkly," 8 p.m., Geology Auditorium.
- Nov. 1: Biological Sciences lecture: "Phenylalanine to Tyrosine Energy Transfer in Angiotensin II," Camillo Ghiron, associate professor of biochemistry, to speak, 3:40 p.m., 115 Tucker Hall.
- Nov. 1: Student Activities Speaker: Reid Buckley, 8 p.m., Jesse Auditorium.
- Nov. 1-30: Museum of Art and Archaeology exhibit: In Honor of India's Silver Jubilee of Independence, a display on the first floor of Ellis Library.
- Nov. 1-3: Music department's opera workshop to present "Of Thee I Sing," music by George Gershwin, 8:15 p.m., Hall Theater. Tickets \$2 at the door before performances.
- Nov. 2: Social Biology lecture series: "Food, Water and Human Populations," Roger de Roos, biological sciences, to speak, 1:40 p.m., 18 Tucker.
- Nov. 2: Business Journalism and Public Affairs lecture series: James Trieschmann, assistant professor of finance, to speak on "Matters of Insurance," 8 p.m., Student Lounge, Neff Hall.
- Nov. 2: University Assembly Lecture: Hector F. DeLuca, professor and chairman of biochemistry, University of Wisconsin, to speak on "Biochemistry and Physiology of Vitamin D" at 4 p.m., Memorial Union Auditorium. Sponsored by space sciences; biochemistry, ag chemistry and poultry husbandry; nutrition area program; and the VA Hospital.

- Nov. 2: Business Journalism and Public Affairs lecture series: "Community Based Corrections," Robert L. Perry, director of Reality House, and George Brown, program coordinator, to speak, 4 p.m., Student Lounge, Neff Hall.
- Nov. 2-3: Astronomy Film Series: "To the Ends of Time," Thurs-4 p.m.; Fri-8 p.m., when clouds prevent observing, 126 Physics.
- Nov. 3: Stephens College Opera Workshop: Stephens students in leading roles will present well-known scenes from operas, accompanied by the Stephens Symphony Orchestra. 8:15 p.m., Auditorium, Stephens South Campus.
- Nov. 3: Student Activities Friday Night Movie: "The Heart Is a Lonely Hunter," 8 p.m., Jesse Auditorium. Tickets, 75¢ at Jesse Hall ticket window 30 minutes before show begins.
- Nov. 3-4: Honors College Film Series (75¢ admission): "Decameron," 7 & 9 p.m., Memorial Union Auditorium.

HOME COMING ACTIVITIES

Friday, Oct. 27: 1:30-6 p.m.: International Bazaar on the grassy area between Read and Gentry Halls. Students from countries all over the world will tend booths displaying a varied amount of national symbols and artifacts. 6:30-9:30 p.m.: Bus tours of Homecoming decorations start at 6:30 p.m. and run every 15 minutes. Tours leave from southeast corner of parking lot behind the Hearnes Building and cost 25¢ per person. 9 p.m.: Snake dance beginning at the Kappa Alpha house, 1301 University, and going to practice field, where a bonfire will be featured.

Saturday, Oct. 28: 9 a.m.: Homecoming parade will contain 15 bands, two floats, the queen and her attendants and a number of political candidates. Parade route is through campus and downtown. 9-11 a.m.: International Bazaar continues; see details above. 9-11 a.m.: Student-faculty-alumni reception in the large ballroom, Memorial Union. 11 a.m.: Alumni luncheon, small ballroom, Memorial Union. 1:30 p.m.: Homecoming game, UMC vs. Colorado. Halftime show features crowning of the queen, awarding of prizes for best house service project and best house decoration, as well as a halftime show by Marching Mizzou.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 9

Office of the Provost for Academic Affairs

Nov. 10, 1972

A FACULTY-STUDENT committee is at work identifying candidates for the post of Provost for Academic Affairs. B. W. Kingrey, dean of the School of Veterinary Medicine is chairman. Committee members are : William Bondeson, associate professor of philosophy and director of the Honors College; Laurence Hedlund, assistant professor of dairy husbandry; Edward Hunvald Jr., professor of law; Wilbur R. Miller, chairman of practical arts and vocational-technical education; W. Roy Utz, chairman of mathematics; graduate student Larry McBee; and undergraduate students Cynthia Anthony and David Kampschmidt. Candidates will be sought nationwide, according to Dean Kingrey, who issued a call to members of the University community to submit names and biographical material for committee consideration.

A SEARCH COMMITTEE comprised of students and faculty is also seeking nominations from the University community and the public for the position of Dean of Student Affairs. The committee is headed by James Holleran, associate dean of the College of Arts and Science. Members are Douglass Tate, director of faculty development; and faculty members Ray Lansford, Virginia L. Fisher and William Wiecek. Student committee members are Andy B. Onderdonk, Steve Parrish, Barbara Kerr and Charles R. Gross. Names of prospective candidates should be forwarded to Holleran at 210 Jesse Hall. Suggestions as to the responsibilities of the office are also being accepted. Some indication of the individual's qualifications should also be submitted if possible.

A UNIVERSITY ASSEMBLY LECTURE sponsored by the departments of housing and interior design, computer science and fine arts is scheduled for Nov. 17. Ken Knowlton, a member of Bell Laboratories, will speak on "Computer Produced Designs and Movies" at 8 p.m. in the Auditorium of the General Classroom Building. Knowlton is an innovator in the area of computer graphics and will show slides and movies of several experimental graphic languages he has devised.

AAUP, COLUMBIA CHAPTER, will hold an open meeting Wednesday, Nov. 15, at 7:30 p.m., in the Arts and Science Auditorium on two current faculty concerns: faculty development and the faculty retirement benefits system. Douglass Tate, director of Faculty Development Projects will discuss and answer questions about the Affirmative Action Plan and the recent specific guidelines from HEW. John Pascucci, professor of finance, will discuss and answer questions about his current investigation of the University's faculty retirement benefits system's financial soundness and relationships to Internal Revenue Service regulations. The University community at large is invited to attend and to participate.

GRADUATE SCHOOL AND RESEARCH NOTES

SUMMER FELLOWSHIPS IN EDUCATION--The American College Testing Program offers summer fellowships to encourage research in higher education and to support development of young researchers. Candidates must have a doctorate in education, psychology, economics, sociology, statistics, or measurement, with at least one year of postdoctoral experience, and must have a developed interest in substantive or theoretical problems of higher education. Stipend is \$3,000 plus \$500 moving and travel allowance for at least 90 days' residence in Iowa City. Deadline for applications is Jan. 22. Write: Dr. Melvin R. Novick, Committee on

Summer Fellows, Research and Development Div., The American College Testing Program, P. P. Box 168, Iowa City, Ia. 52240.

INTERNATIONAL STUDIES CENTERS--Proposal guidelines for comprehensive international studies centers authorized under Title VI of the National Defense Education Act have been issued by the Office of Education's Institute of International Studies. The centers must be of high academic quality, serving undergraduate and graduate students, elementary and secondary school teachers, junior colleges and the business community. Proposal deadline is Dec. 15. The Graduate School has guidelines or write: Robert C. Suggs, Div. of Foreign Studies, Institute of International Education, Office of Education, HEW, Washington, D. C. 20202.

ELECTIONS ADMINISTRATION--The Office of Federal Elections has announced it will accept proposals from faculty members and doctoral candidates interested in investigating administration of elections in the U. S. Particular interest is in studies of personnel working on election boards, voter registration practices and vote counting. Inquire of Gary Greenhalgh, Office of Federal Elections, General Accounting Office, Room 6314, 441 G. St., N. W., Washington, D. C. 20548.

NSF, FOREIGN RESEARCH--NSF's share of excess foreign currencies for the current fiscal year has risen to \$7 million, compared with \$3 million the previous year. Nations in which the funds may be used are Burma, Egypt, Guinea, India, Pakistan, Poland and Tunisia. For details, ask for "NSF Special Foreign Currency Program, Information for U. S. Scientists," from Ofc. of International Programs, NSF, Washington, D. C. 20550, or the Graduate School.

VOCATIONAL EDUCATION--The Office of Education has a Nov. 18 deadline for fiscal 1973 vocational education research and development grants. Obtain guidelines and instructions for applications from the Bureau of Adult, Vocational and Technical Education, Ofc. of Education, Washington, D. C. 20202.

PESTICIDES--The bill amending the federal Insecticide, Fungicide and Rodenticide Act to authorize the Administrator of the Environmental Protection Agency to award grants and contracts to develop biological integrated alternatives for pest control has been signed by President Nixon as P. L. 92-516.

PUBLIC HEALTH SERVICE--Principal investigators are urged to place their names at the top of each page of their proposals, as described in the instructions for preparing applications for submission to the Div. of Research Grants. Applications are reproduced at NIH and occasionally are intermixed at the print shop. Having a name on each page will help assure that each proposal is assembled as submitted.

OTHER DEADLINES--NSF graduate fellowships, Nov. 27; NSF student-originated studies, Nov. 30; NSF research initiation, Dec. 1; White House Fellows Program, Dec. 1; NIH research career development, Dec. 1; NATO fellowships in the humanities and social sciences, Dec. 1; NSF regional math conferences, Dec. 1; NIH fellowships, Jan. 2.

CALENDAR

- Nov. 10: General Faculty Meeting, 3 p.m., Jesse Aud. On the agenda will be the Chancellor's report to the faculty and two matters referred to the faculty from the Faculty Council: consideration of a proposed Faculty Tenure Committee rule and consideration of the establishment of a proportionally representative campus faculty group which would assume the legislative powers of the University faculty.
- Nov. 10: The Honorary Chemistry Club will become the Beta Iota chapter of Phi Lambda Upsilon during installation ceremonies in the Chemistry Library wing of the New Chemistry Building, 6 p.m.
- Nov. 10-11;
15-18: University Theatre to present Arthur Schnitzler's "La Ronde," 8:15 p.m., University Theatre. Tickets, \$2.
- Nov. 10-11: Honors College Film (75¢ admission): "The Clowns," 7 & 9 p.m., Memorial Union Aud.
- Nov. 10: Stephens College Arts Series: Bathsheva Dance Company of Israel to perform, 8:15 p.m., Stephens College Assembly Hall. Tickets, \$2.50-\$5.
- Nov. 10: University Concert Series: Paul Doktor, violist, to perform, 8:15 p.m., Jesse Aud. Tickets, \$2.50-\$3.
- Nov. 12: Anthropology Film Series: "To Find Our Life: The Peypte Hunt of the Huichols of Mexico," 2 p.m., Memorial Union Aud.
- Nov. 12: Columbia Art League to open new show featuring Jerry Berneche, Lillian Boyle, John Weller and Shirley Lenhardt, with a reception for the public from 3 to 5 p.m., at the gallery at 12 N. 10 St.
- Nov. 12: Student Activities Free Flick: "Dr. Strangelove," 5:30 & 8:30 p.m., Jesse Aud.
- Nov. 13: Student Activities Speaker: Jack Anderson, 8 p.m., Hearnes Building.
- Nov. 14: University Club Luncheon: Lloyd Berry, dean of the Graduate School, to speak on the Graduate School. Luncheon begins at noon, Small Ballroom, Memorial Union. Tickets, \$2 collected at the door. Reservations by Nov. 13 to Judy Devlin, 882, 3721.
- Nov. 14: Social Biology Lecture Series: "Legal Aspects of Environmental Control," Peter N. Davis, School of Law, to speak, 1:40 p.m., 18 Tucker Hall.
- Nov. 14: Geneticist Dr. Theodosius Dobzhansky will discuss "The Evolutionary Uniqueness of Man," 8 p.m., 126 Physics. Sponsored by Environmental Health Surveillance, biology, engineering and the graduate school.
- Nov. 14: Student Activities Environmental Program: "Art and the Computer," 8 p.m., GCB Aud.
- Nov. 14: Stephens College Chamber Music Series: Stephens College music faculty to perform, 8:15 p.m., Stephens Aud, South Campus. Tickets, \$1.
- Nov. 14: Honors College Free Film: "The Harder They Fall," 7:30 p.m., A&S Aud.
- Nov. 14: Music department concert: University Symphony Orchestra to perform, 8:15 p.m., Jesse Aud.
- Nov. 15: Parnassus Reading Hour: "Is Nothing Sacred?" 4:14 p.m., Gentry Hall Student Theater.

- Nov. 15: Kappa Delta Pi, honorary education fraternity, to hold initiation banquet and meeting, 6:30 p.m., N214-215 Memorial Union. Tom Mills, professor of music and associate director of Alumni Activities, will speak. Buffet, \$3.
- Nov. 15: Honors College "Civilisation" series: "The Worship of Nature," 7, 8 & 9 p.m., 210 GCB.
- Nov. 15: Open Meeting of AAUW, UMC chapter, 7:30 p.m., A&S Aud. Douglass Tate, director of Faculty Development Projects, will discuss the Affirmative Action Plan and the recent specific HEW guidelines. John Pascucci, professor of finance, will discuss his investigation of the University's faculty retirement system's financial soundness and relationships to IRS regulations.
- Nov. 15: Student Activities Free Flick: "The Silence," 8 p.m., Jesse Aud.
- Nov. 16: Biological Abstracts Users Seminar, 8:40-10 a.m.; 1-2:40 p.m., 107 Stewart Hall. Open to all interested faculty, staff and students.
- Nov. 16: Dr. Larry Hannah, Monsanto Chemical Co., to speak on "Obtaining an Herbicide Label," 1:40 p.m., S8 Memorial Union. Sponsored by agronomy.
- Nov. 16: Ag Chemicals and Man Lecture Series: George Smith, director of water resources, to speak on "Effects of Agricultural Chemicals on Water Quality," 3:40 p.m., 1 Tucker Hall.
- Nov. 16: Business Journalism and Public Affairs Lecture Series: Raymond Dockweiler, assistant professor of accountancy, to speak on "Nature of Corporation Reports," 4 p.m., 11 Walter Williams.
- Nov. 16-17: Astronomy Film Series: "Bohr Atom and Quantum Optics," Thurs-4 p.m.; Fri-8 p.m., 126 Physics.
- Nov. 16: International Film Series: "Mandabi," 7:30 p.m., Library Aud.
- Nov. 16: Business Journalism and Public Affairs Lecture Series: David Leuthold, associate professor of political science and director of Public Opinion Survey Unit, to speak on "Politics and the Newsman," 8 p.m., Student Lounge, Neff Hall.
- Nov. 17: Owen Gingerich, professor of astronomy and the history of science, Harvard University, to speak on "The Copernican Revolution," 7:30 p.m., 114 Physics. Sponsored by Sigma Xi and the O. M. Stewart Fund.
- Nov. 17: Student Activities Broadway Play: "Marigolds," winner of the 1971 Pulitzer drama prize, 8 p.m., Jesse Aud. Tickets, \$1-\$3 on sale at Student Activities, Read Hall.
- Nov. 17: University Assembly Lecture: Ken Knowlton, Bell Laboratories, to speak on "Computer Produced Designs and Movies," 8 p.m., GCB Aud. Sponsored by housing and interior design, computer science and fine arts.
- Nov. 17: Faculty cello recital: Carleton B. Spotts to play, 8:15 p.m., Recital Hall, Fine Arts Building.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 9

Office of the Provost for Academic Affairs

Nov. 17, 1972

STRIKE REPORT: Circuit of Boone County on Wednesday, Nov. 15, issued a temporary injunction on ordering Public Service Employees Local #45 in Columbia and Local #1272 in Kansas City to have their members "report to work at normally assigned times and refrain from further participation in an unlawful work stoppage or strike or coercive activity designed, intended or having the effect of interfering" with the normal operations of the University. The court further ordered that while the unions are in compliance with the order, representatives of the University are to "meet and discuss at reasonable times and places" with representatives of the locals "issues relative to working conditions and other conditions of employment of employees of the University of Missouri" who are members of the locals.

A trial on the Permanent Injunction was set for 9 a.m. Dec. 5, 1972, in Circuit Court.

(Editor's Note: The text of Chancellor Schooling's Nov. 10 report to the faculty on the University's position regarding the strike by Local 45 will be carried in full in Campus Columns off the press today. In addition, the Columns will carry the chronology of the events of the strike, updated through Nov. 15.)

DECEMBER 26 has been set as the floating holiday. University employees will thus have a four-day weekend at Christmas and a three-day weekend for New Years, as University offices will be closed Jan. 1. Arrangements will be made to carry on essential services which cannot be temporarily suspended.

A FACULTY-STAFF BLOOD DRIVE has been scheduled for Nov. 20 in the Trophy Hall of Brewer Field House from 12 noon to 5:15 p.m. Those wishing to insure no delay in giving blood may call the Red Cross office, 445-1313, for an appointment.

A UNIVERSITY ASSEMBLY LECTURE will be held Dec. 12. Dr. George Beadle, professor emeritus, University of Chicago, will speak on "The Mystery of Maize: An Inter-Disciplinary Saga," at 3:40 p.m., in the Memorial Union Auditorium. Dr. Beadle's appearance is sponsored by the departments of agronomy, animal husbandry, anthropology, poultry husbandry and the division of biological sciences.

A DEMONSTRATION of PADAT (Psychological Abstracts Direct Access Terminal) will be held in 212 McAlester, Tuesday, Nov. 21, at 2:30 p.m. Two psychologists from the American Psychology Association's central office will be here to demonstrate PADAT, a computer-based bibliographic search technique for psychology abstracts.

THE FORESTRY CLUB'S annual Christmas Tree Sale will begin at noon on Wednesday, Dec. 13 and continue through Saturday, Dec. 16. Hours are 8 a.m. to 9 p.m. daily. The location will be the MFA parking lot at South Fifth and Locust Sts. Missouri-grown Scotch pine trees will be featured; fresh-cut greenery boughs and decorated and plain wreaths may also be purchased. For additional information call 882-7045.

THE FACULTY-BULLETIN-IN-BRIEF will not be published the week of Thanksgiving vacation. The next faculty publication will be the monthly Faculty Bulletin on Dec. 1. Deadline for information for it will be Nov. 22.

CALENDAR

- Nov. 21 David Soren, assistant professor of archaeology, to speak on "Urban Development at Utica, Tunisia," 8 p.m., 120 Physics Bldg. Sponsored by departments of art history/archaeology and classical studies.
- Nov. 21 Boone County Assn. for Mental Health presents a scene from "Homecoming" by Harold Pinter, dealing with sexual conflict and sibling rivalry. After the reading a discussion of the play will be led by Dr. Robert Jones, a member of the Mid-Missouri Mental Health Center. Students of Dr. William F. West, chairman of Theater Arts at Stephens College are presenting the reading.
- Nov. 21 University Assembly Lecture: Ari Van Tienhoven, Cornell University, to speak on "Neuroendocrinology of the Ovulatory Cycles of the Fowl," 3:40 p.m., S203 Memorial Union. Sponsored by poultry husbandry, physiology and biological sciences.
- Nov. 22: Classes will be dismissed for the Thanksgiving holiday at 12:30 p.m. Some University calendars erroneously reported a later time.
- Nov. 24 Public Viewing of Physics Observatory, if weather is clear.
- Nov. 27 Boone County Assn. for Mental Health presents a scene from "Mrs. Warren's Profession" by George Bernard Shaw dealing with independency and self-sufficiency on the part of a woman. After the reading, a discussion of the play will be led by Dr. Maarten Nieuwenhuizen, a member of the Mid-Missouri Mental Health Center. Students of Dr. William F. West, chairman of Theater Arts at Stephens College are presenting the reading.
- Nov. 27-
Dec. 15 Contemporary Japanese Posters Exhibit, Davis Art Gallery, Stephens College.
- Nov. 27-
Dec. 15 Annual Exhibit of the UMC Art Faculty, Fine Arts Gallery.
- Nov. 28 Ag Chemicals and Man Lecture Series: James Whitley, Missouri Dept of Conservation, to speak on "A Conservationist Looks at Agricultural Chemicals," 3:40 p.m., 1 Tucker Hall.
- Nov. 28 Honors College Free Film Series: "The Bandits of Orsoglo," 7:30 p.m., A&S Aud.
- Nov. 28 Student Activities Environmental Program: "Mere Survival is Not Enough for Man," 7:30 p.m., 126 Physics.
- Nov. 28 Social Biology Lecture Series: Michael R. Sandford, City of Columbia, to speak on "The Attitudes of Local Government to Environmental Problems," 1:40 p.m., 18 Tucker Hall.
- Nov. 29 Honors College "Civilisation" Series: "The Fallacies of Hope," 7,8 & 9 p.m., 210 GCB.
- Nov. 29-30 Stephens College Playhouse Series presents Henrik Ibsen's "Peer Gynt," 8:15 p.m., Stephens College Playhouse. Admission, \$2.50.
- Nov. 29 Student Activities Free Flick: "East of Eden," 8 p.m., Jesse Aud.
- Nov. 30 Business Journalism and Public Affairs Lecture Series: Paul E. Junk, professor of economics, to discuss "The Changing Role of Banking," 8 p.m., Student Lounge, Neff Hall.
- Nov. 30 Business Journalism and Public Affairs Lecture Series: Barbara Kerr and Allan Tacker, co-directors of Everyday People; and Janet Bopp, Council of Columbia Health Coalition, to discuss "Today's Youth Culture," 4 p.m. 111 Walter Williams.

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 10

Office of the Provost for Academic Affairs

December 8, 1972

SPECIAL CHRISTMAS EVENTS scheduled in the next week include: Dec. 10--The University Singers to present their 21st annual Christmas Concert, 3 p.m., Jesse Auditorium. Dec. 11: The fourth Parnassus Reading Hour will feature Donovan Rhynsburger, professor of speech and dramatic art, reading Charles Dickens' "A Christmas Carol," 1:15 p.m., Memorial Union Auditorium. Dec. 13: The Singations will perform a program of Christmas music at the University Club luncheon at noon in the large ballroom of the Memorial Union. Cost of the special Christmas buffet is \$2. See calendar for reservation information.

MIZZOU'S PERFORMANCE in the Fiesta Bowl will be televised on Channel 17 at 7 p.m., Dec. 23.

A WINTER GRADUATE CONVOCATION has been scheduled by the Graduate School for Dec. 20 at 1:30 p.m., in the Livestock Center. Speaker will be C. Edmund Marshall, professor of agronomy. Faculty are invited to attend and to robe for the processional.

GRADUATE SCHOOL AND RESEARCH NOTES

OWRR TITLE II PROPOSALS -- The Office of Water Resources Research has identified the following major subject areas for priority research support in fiscal year 1974: 1) analysis of planning, managerial, financial operating and regulatory policies of water resources institutions; 2) water resources policy and political institutions; 3) hydrologic systems analysis; 4) urban and metropolitan water resources problems; 5) ecologic aspects and environmental consideration of water resources planning and management; 6) evaluation of economic importance of various uses of water, cost allocation, cost sharing, pricing and repayment; 7) analysis and evaluation of water resources projects; 8) ground-water supply, management, and protection; 9) protection and rehabilitation of estuarine resources; 10) thermal loading problems; 11) water demand considerations. In addition the Office seeks solutions to the nation's water problems and any approach or idea which holds promise of providing solutions to those problems will be given consideration for funding under the Title II provisions. Deadline is Jan. 10.

TELECOMMUNICATIONS -- NSF's Div. of Social Systems and Human Resources of the Research Applications Directorate has announced eight one-year planning grants averaging \$75,000 each for new groups in the field of problem-focused policy research in telecommunications. Awards will be made on a competitive basis. The objectives of the grant program are to bring together researchers in the several disciplines relevant to telecommunications policy studies; to carry out an exploratory project useful to federal, state or local decision-makers; to produce alternative agenda for new telecommunications policy research; and to develop specific proposals for telecommunications research that will be submitted to appropriate federal, state or local agencies. Deadline is March 1. The Graduate Office has guidelines for proposal preparation.

SOCIETAL IMPACT OF COMPUTERS -- NSF has announced establishment of a Computer Impact on Society Section within its Office of Computing Activities to support research to help understand the impact computers have on our way of life. The new section is comprised of two programs. The Impact on Organizations Program will be concerned with research projects to improve our understanding of the role of computers in management and decision-making at all levels, while the Impact on the Individual Program will study the ways in which computers affect our work patterns and life styles. Dr. Peter G. Lykos, a chemistry professor on leave from the Illinois Institute of Technology, Chicago, will head the new Section. The

Organizations Program will be run by Dr. Fred Weingarten, formerly of the Institute for Educational Computing, Claremont Colleges, and the Individual Program will be directed by Dr. M. Granger Morgan, a University of California assistant professor of applied physics and information science. Inquiries concerning the new section may be sent to the Computer Impact on Society Section, NSF, Washington, D. C. 20550

R & D INCENTIVES -- NSF has announced a new program to provide experimental evidence concerning various incentives which the federal government might use to increase the application and use of science and technology in the civil sector. The Foundation recognizes that not enough is known about the actual social, institutional, and economic consequences of innovation incentives to safely mount a national effort. Consequently, the purpose of this new program is to determine, by experiment, the actual effects of various incentive mechanisms for increasing the rate of transfer of new technology to goods and services manufactured and consumed in the private and public sectors. For guidelines call Mrs. McQuary or write; Office of Experimental R & E Incentives, NSF, Washington, D. C. 20550.

WILDLIFE FEDERATION -- The National Wildlife Federation and the American Petroleum Institute are supporting a joint program of fellowships in environmental conservation. The fellowships support studies involving an interface between petroleum and the management and conservation of natural resources. Stipends are \$4,000. Applications must be submitted before Dec. 31. For application blanks write: Executive Vice President, National Wildlife Federation, 1412 Sixteenth Street, N.W., Washington, D.C. 20036.

OCCUPATIONAL HEALTH RESEARCH -- Amended regulations covering research and demonstration grants as set forth in the Occupational Safety and Health Act of 1970 have been issued by the Health Services and Mental Health Administration. Under the new rules grants will be awarded for pilot or full scale studies investigating conditions (psychological included) affecting safety and health, and methods of inhibiting or eliminating these conditions. Proposals will be considered on the basis of their usefulness and significance, the competence of the staff and adequacy of the facilities to be employed in the project, and the estimated cost. Grants will not offer complete support for any project.

SCIENCE COURSE IMPROVEMENT -- NSF has announced some new directions for the Science Course Improvement Program for undergraduate education. Support will no longer be given for the development of specific curriculum materials to be used in the standard lecture - laboratory teaching format. The program is now concerned with the development and demonstration of new alternatives in scientific education and of associated specialized course materials to bring about a greater choice of options for a wider range of students. Projects for the development of course materials in interdisciplinary fields and emerging, non-traditional scientific fields will be given priority. For further details call Mrs. McQuary.

TRANSPORT OF OXIDANTS -- The Environmental Protection Agency is looking for an organization to conduct experimental studies in the field of light hydrocarbons to determine the background concentration and to determine to what extent oxidant is transported beyond urban areas. The oxidant measurements will be primarily concerned with ozone formation and transport. A vertical distribution of these pollutants is also desired. RFP No. DU-73-B345 applies. Write:

Environmental Protection Agency, Contracts Management Division, Durham Contract Operations, Attn: Mail Stop NCCM-6, Research Triangle Park, North Carolina 27711.

DIGESTIVE DISEASES AND NUTRITION CENTERS -- The National Institute of Arthritis, Metabolism, and Digestive Diseases has announced it will support a number of Digestive Diseases and Nutrition Centers to carry out research initially in the areas of obesity, peptic ulcer, hepatitis, and cirrhosis. Other areas of research will be supported later. The objectives of the centers are to develop new and multidisciplinary research approaches to human digestive and nutritional diseases and to acquire new knowledge for improved diagnosis, treatment and prevention. Applications should be prepared on Form 398, Application for Research Grant. A special deadline has been set for April 1, but letters of intent should be sent by Jan. 1.

(For more information on above programs, call Mrs. Carol McQuary, 882-6311)

CALENDAR

- To Dec. 20: Antique Greeting Cards Exhibit, Brady Commons
- Dec. 8: Astronomy Film Series: "Universe from Palomar," 8 p.m.,
126 Physics.
- Dec. 8: Honors College Film Series: "I'm All Right, Jack," and
"Heaven Above," 7 & 9 p.m., Memorial Union Aud. 75¢ adm.
- Dec. 8, 15: Public Viewing of Physics Observatory, 8 p.m., 126 Physics,
if weather is clear.
- Dec. 9: University Theater presents "Tituba's Children," 8 p.m.,
University Theater, Fine Arts Building. Tickets, \$2.
- Dec. 8, 9: Student Activities Flick: "The Ballad of Cable Hogue," 8 p.m.,
Jesse Aud. 75¢ admission.
- Dec. 9: Graduate Record Exam to be administered.
- Dec. 9: Honors College Film Series: "Bloody Mama," 7 & 9 p.m.,
Memorial Union Aud. 75¢ admission.
- Dec. 9: Student Activities Flick: "Joe," 8 p.m., Jesse Aud. 75¢ adm.
- Dec. 10: University Singers to present their 21st annual Christmas
Concert, 3 p.m., Jesse Auditorium.
- Dec. 10-11: Student Activities Free Flick: "King Kong," 5:30 & 8:30 p.m.,
Jesse Auditorium.
- Dec. 12: Ernest B. Brown Jr., department of physiology, University of Kan-
sas Medical Center to speak on "Potassium Metabolism and Acid-Base
Regulation," 11:40 a.m., M437 Med Sciences. Sponsored by the
department of physiology.
- Dec. 12: University Assembly Lecture: George Beadle, President and professor
emeritus, University of Chicago, to speak on "The Mystery of Maize:
An Interdisciplinary Saga," 3:40 p.m., Memorial Union Auditorium.
- Dec. 12: Honors College Film Series: "Paths of Glory," 7:30 p.m., A&S
Auditorium.
- Dec. 12: Woodwinds Ensemble Concert, 8:15 p.m., Recital Hall, Fine Arts
Building.

- Dec. 13: George Beadle to speak on "Genetics: Some Personal Recollections," 9:30 a.m., 18 Tucker Hall.
- Dec. 13: The Singasons to entertain with Christmas music at the University Club luncheon meeting, noon, large ballroom, Memorial Union. Reservations by Dec. 12 to Judy Devlin, 2-3721. Cost is \$2 collected at the door. All University faculty and staff and spouses are invited to attend.
- Dec. 13: Student Activities Free Flick: "Reefer Madness," 7, 8:15 and 9:30 p.m., Jesse Auditorium.
- Dec. 13: Violin Recital: Nancy Chau to perform, 8:15 p.m., Recital Hall, Fine Arts Building.
- Dec. 13-16: Forestry Club's annual Christmas tree sale, 8 a.m.-9 p.m. daily, MFA parking lot, South Fifth and Locust. \$1 per foot; also featuring fresh-cut greenery and decorated and plain wreaths. Call 882-7045 for additional information.
- Dec. 14: Course for In-Service Nursing Educators, Memorial Union. Sponsored by the Office of Continuing Medical Education.
- Dec. 14-15: Astronomy Film Series: "Radio View of the Universe," Thurs-4 p.m.; Fri-8 p.m., if weather does not permit viewing; 126 Physics.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 11 Office of the Provost for Academic Affairs December 15, 1972

CHANCELLOR SCHOOLING said at the faculty meeting Dec. 13 that departments should prepare their responses to President Ratchford's Dec. 9 Role and Scope statement by Jan. 1. The Chancellor invited individual faculty members' comments, preferably through departmental response, but if individual comments do not fit within the framework of the departmental response, faculty members may send their own statements either to the Chancellor or to Owen Koepe, chairman of the Faculty Council.

A WINTER GRADUATE CONVOCATION has been scheduled by the Graduate School for Dec. 20 at 1:30 p.m. in the Livestock Center. Speaker will be C. Edmund Marshall, professor of agronomy. Faculty are invited to attend and to robe for the ceremony.

THE COLLEGE OF ENGINEERING will hold its Graduating Senior Recognition Convocation in Jesse Auditorium at 7 p.m. Dec. 15. Speaker for the event will be Dr. Walter C. Daniel, newly appointed Vice-Chancellor. Immediately following the convocation there will be a reception for graduates, faculty members and guests in Room N201-202 of the Memorial Union.

THE OFFICE OF the Assistant Provost for Program Development and Resource Management, Frank S. Quattrocchi, is now located in 305 Jesse Hall. Phone numbers are 882-4252 or 882-4842.

ORIENTATION for the winter term will be held Jan. 11. Registration will be held Jan. 11 and 12, and classes will begin Jan. 15.

MIZZOU'S PERFORMANCE in the Fiesta Bowl will be televised on Channel 17 at 7 p.m., Dec. 23.

A LINE WAS OMITTED from the Dec. 4 Faculty Bulletin statement by President Ratchford to the Board on the recent strike. In the second paragraph the sentences should have read: "Rulings by the Missouri Supreme Court on this matter have established the fact that the University cannot enter into such agreements. Furthermore, because the University is a body established by the Constitution of the State of Missouri, the University is not subject to Section 105.500 (House Bill 166), under which the Union is seeking a signed agreement."

THE NEXT PUBLICATION for faculty will be the Faculty Bulletin Jan. 12. The deadline for information for that issue will be Jan. 5.

GRADUATE SCHOOL AND RESEARCH NOTES

POPULATION POLICY--The Ford and Rockefeller Foundations have jointly announced support for the third year of a program of awards to support social science and legal research on population policy. Suggested research areas: Interaction of population variables and law; interaction of population variables and economic policies; interaction of population variables and social, cultural, and political

change; population distribution; present and past population policy; zero population growth. This listing is intended to be suggestive rather than exhaustive. Other research proposals that fall within the general focus of the program will also be considered on their merits. There are no standardized application forms, but a format is suggested in the program announcement. Proposals deadline is Feb. 1.

ENVIRONMENTAL EDUCATION--The Office of Environmental Education will provide partial support to organizations for projects in curriculum development and personnel training for environmental community education programs. Grants will be a maximum of 80 per cent of required funding and will not exceed \$10,000. Application deadline is Jan. 31. For information write: Office of Environmental Education, Office of Education, 400 Maryland Ave., S.W., Washington, D. C. 20202. (phone 202-755-7682)

FILMMAKING GRANTS--The American Filmmakers Institute has announced Dec. 31 as the deadline for filmmaking grants. Films must be made in the U. S. and may be either 16mm or 35mm. Applicants for the \$500 to \$10,000 grants must demonstrate a creative and original approach to the project as well as technical competence. Information may be obtained from: American Film Institute, 401 Doheny Road, Beverly Hills, Calif. 90210.

NLM GRANTS--Grants for special scientific projects related to the analysis documentation, and evaluation of cultural, scientific, or social advances in health sciences are supported by the National Library of Medicine. The purpose is to encourage studies by qualified individuals or institutions that may be expected to increase and improve the distribution and utilization of knowledge. Stipends usually provide salary for the investigator, plus an allowance for clerical assistance and travel as required. Applicants must have access to resources at NLM or another large research library. Application deadline is Feb. 1. Forms and information may be obtained from: Chief, Research and Training Division Extramural Programs, National Library of Medicine, 8600 Rockland Pike, Bethesda, Md. 20014.

(Editor's Note: Deadline for Bulletin-in Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

BULLETIN IN BRIEF

Vol. 2, No. 12 Published by the Office of the Provost for Academic Affairs January 15, 1973

University of Missouri - Columbia

OFFICE OF THE CHANCELLOR

Telephone
314-882-3387

105 Jesse Hall
Columbia, Mo. 65201

9 January 1973

TO: Members of the Faculty
FROM: H. W. Schooling

A campus response to the December 9, 1972 statement, The University of Missouri: Its Future, has been forwarded to President Ratchford. While the administration assumes responsibility for the response submitted, it is the product of thoughtful suggestions received from many members of the faculty and the Graduate Faculty. Copies of minutes of the Faculty Council and the Graduate Faculty have been included in the campus response forwarded to the President.

The response, appearing in this issue of the Faculty Bulletin, emphasizes the importance of maintaining campus integrity in the development of the Campus Academic Plan and urges deferred deadlines to make possible the appropriate involvement of the faculty in the planning process. We have asked that references to the "shall and may" program designations be clarified and would expect to resolve in the Campus Academic Plan the uncertainties these designations have raised. In the meantime, it is expected that existing programs will continue, pending necessary program reviews and determinations in the Campus Academic Plan. Commitments to students already enrolled or subsequently enrolling in such programs will be honored.

You will note that while we are proposing a limited number of substantive changes in the December 9 document, we are urging the clarification of statements that have been subject to disparate interpretations, have proposed a change in the selection and terms of office of the elected members of the Doctoral Council and have suggested modification of some of the reporting deadlines.

I believe our response is a constructive one and suggests meaningful ways to strengthen the document as a useful instrument in the planning of the future of the University of Missouri. Certainly that is our intent.

Response of the Columbia Campus to the
December 9, 1972 Statement, The University of Missouri: Its Future

The Columbia Campus recognizes the significance of the December 9, 1972 statement, and appreciates its several constructive features. It fully supports the emphasis upon cooperation between the four campuses and is pleased with the identification of major strengths in many of the programs on this campus. We accept the responsibility for developing a Campus Academic Plan, believing that within broadly prescribed parameters, academic decisions can best be made at the level where they must be implemented.

We believe that the emphasis upon cooperation between campuses, the easy transfer of students, and the pooling of faculty capabilities is an effective way to develop a broad community of effort and at the same time maintain the necessary autonomy and integrity of individual campuses. From this base each campus can make its maximum and proper contribution to the mission of the total university and can realize its unique contribution to its own community. Although no campus can be complete unto itself, still each must be a coherent academic unit. If Campus Academic Plans capitalize upon the local resources, aspirations, and needs, while at the same time they are developed with an awareness of programs on other campuses, then the total university program can be a comprehensive one, effectively serving the needs of the state and its citizens.

We recognize that no document can anticipate all pertinent issues nor can it be precise enough to avoid differing interpretations of its intent. We believe that much of the detail required in a long range plan can and should be developed in the Campus Academic Plans which are called for in the document. The present Role and Scope statement can best serve to provide the broad parameters for such planning. For example, we believe that the Campus Academic Plan must show the relationships between programs and the essentialness of interdisciplinary effort. In instances where the December 9 document makes a definitive statement, as with Aerospace Engineering, the Campus Academic Plan should review and reflect upon such matters. Likewise we believe the campus plan must recognize the inter-relatedness of undergraduate and graduate programs and the integration of masters and doctoral programs in many of the disciplines. We believe the campus plan must emphasize the importance of the liberal arts, including the humanities, as an essential component of the intellectual experience on a university campus, with their contributions to the appropriate preparation of students in the professional schools.

From campus discussion of the document a number of questions have emerged regarding procedures to be followed in the selection of the members of the doctoral faculty and their accountability, responsibilities of the doctoral faculty and its relationships to campus graduate faculties, and certain issues regarding accreditation. We cite these as examples of important problems which will require continuing consideration.

We are proposing a limited number of substantive changes in the December 9 document, with the suggestion that attention be given to the clarification of some statements which are subject to quite disparate interpretations. We are also suggesting a modification of some of the reporting deadlines which we believe are unrealistic.

Specific Matters of Concern

1. Because the "shall and may" program designations for each campus have been widely misunderstood, we propose that an effort be made to clarify section V. B. We believe if it were stated that the "shall and may" designations are only for the purpose of assisting individual campuses in the preparation of their academic plans, some of the confusion and apprehensions would be alleviated. It is our understanding that whereas a "shall" is for the time being, a mandatory requirement that the campus offer a designated program, a "may" program has equal status in the Campus Academic Plan. We further understand that future budgetary allocations are not related to the "shall and may" designations and that the fact there seems to be more "may" program designations in certain areas than "shall" programs in no way implies a predetermined University-wide or campus priority.

2. Doctoral Program evaluations proposed in Section IV. E. should be deferred until Campus Academic Plans have been appraised. A continuing evaluation of doctoral programs over the next five years will be more valuable than the crash program proposed. The Doctoral Council is an appropriate body to establish a review schedule and direct the evaluation process.

3. There should be widespread and thoughtful faculty participation in the development of the Campus Academic Plan with opportunity for review at various levels before submission of the plan to the Academic Planning Council. In order to permit such careful development and review, we respectfully urge a revision in the time schedule for the preparation and submission of the Campus Academic Plan. We urge that the deadline for the submission of campus plans be deferred until December 15, 1974.

We expect to initiate the planning process at the departmental level with each School or College submitting its academic plan to a Campus Review Council before consideration by the Chancellor. Once the Chancellor has approved the Campus Academic Plan, we believe it important that the faculty have an opportunity to react to it before it is submitted to the Academic Planning Council. These steps take time. We do not believe any one of them can be eliminated. Developing a workable and responsible Campus Academic Plan is a most important task. It must be done well and in such a way as to generate faculty confidence and merit faculty support. The Columbia campus is a complex one with many programs involved.

4. The University Doctoral Council should be as representative as possible of the total University doctoral faculty. For this reason we propose that the doctoral faculty elect the eight faculty members to serve on the Council with each campus to have at least one member. We suggest, further, that terms be of three years duration with members ineligible to serve more than two consecutive terms. We propose that the duration of the initial term be determined by lot, with two members serving for one year, three for two years, and three for three years. The ad hoc Doctoral Council would be expected to conduct the election for the permanent Council.

5. The emphasis upon increased departmental efforts in extension and continuing education is appropriate. However, as this effort is enlarged, the delivery system for such education must be increasingly responsive to direction through the regular academic channels for review and approval of degree programs. Specific decisions regarding extension programs should await formal evaluations and the development of Campus Academic Plans.

6. Inter-campus research should be encouraged at all levels, in both formal and informal ways. Administration of such cooperative efforts should reside with the campuses unless they are unable to serve the program needs.

7. Our attention has been called to what we believe are, in some cases, oversights in the identification and description of certain programs and the resources of the Columbia campus as related to these programs:

a) The importance of computer science in today's technology and research and the extensive personnel and physical resources already available on the campus justifies the participation of the Columbia campus in baccalaureate and master's degree level programs in computer science.

b) A broad interpretation of administration of justice clearly implies the need for resource input such as only a Law School or a School of Social Work could provide. We believe this should be recognized in the development of academic plans of other campuses, in addition to UMSL.

c) Certain important programs on our campus have been placed in a general program grouping where it is difficult to clearly identify them. We refer to specific foreign language programs such as French, Spanish, and German identified under the general rubric, "foreign languages" and certain programs in speech identified as Speech and Hearing Sciences. A major program, Accountancy, in the general area of Business and Public Administration is likewise not specifically identified. We would expect to identify these and like programs more sharply in our academic plan.

d) There is justification for considering the BFA and the MFA degrees in art as appropriate baccalaureate and master's level degrees in studio art and we will be communicating this interest to you.

The Columbia Campus recognizes it must play an important role if the University is to meet the expectations and needs of Missouri's citizens and the scholarly world. We support rigorous pursuit of quality and the efficient use of resources. We look forward to the development of a Campus Academic Plan that achieves these objectives. We believe the December 9 document sets forth the necessary planning parameters for such an effort.

TO: Members of the Faculty

The Executive Committee of the Faculty Council has examined responses from individual faculty members, departments and divisions to the December 9, 1972 statement "The University of Missouri: Its Future." We have had two meetings with Chancellor Schooling, members of his staff and representatives from the Graduate Faculty Senate. We support the campus response found in this issue of the Faculty Bulletin. It represents the joint work of faculty representatives and administrators. We hope that this response will serve to strengthen those portions of the December 9 statement that encourage campus integrity and autonomy. We are aware that many specific concerns have not been included in this report. However, copies of all individual, departmental and divisional responses have been included as part of the campus response to the President. Further, we interpret the statement as indicating that most of these concerns can be appropriately resolved on the campus. This then adds to the importance of the development of the UMC Campus Academic Plan. The Faculty Council, in its statement of December 14, 1972, has pledged to do all it can to assure appropriate faculty input during the preparation of this plan.

Members of the Executive Committee of the Graduate Faculty Senate have helped revise the attached document. We endorse it fully as a response that makes important suggestions for interpreting and improving the President's document of December 9th.

As representatives of the Senate, we have a special concern for matters affecting research and graduate education. We must, therefore, protest the fact that the President's document of December 9th calls for increased administration and increased control of research and academic programs by the University Wide Administration. These steps we view as damaging to the academic purpose.

Increased administration almost inevitably requires administrative response from faculty members, thereby decreasing the time, energy, and enthusiasm they can devote to their main task. Furthermore, the central administration is no less than three levels removed from actual research. While they may have a broad view of research programs, their ability to focus on the needs of any given project is inherently low. It is to be expected, therefore, that many of their decisions will be made for reasons of administrative conveniences even though these decisions hinder research.

We believe that a University can never be better than the sum of its parts—that it depends for its quality on that of its individual faculty. What detracts from the faculty's efforts damages the University.

A handwritten signature in dark ink, appearing to read 'Marc de Chazal', written in a cursive style.

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 13 Office of the Provost for Academic Affairs January 19, 1973

THE JOHN M. DALTON RESEARCH CENTER will be dedicated in ceremonies at 10 a.m., Jan. 25. Named for the former Missouri governor who died last July 8, the Center in Research Park will be the site of the ceremonies. A coffee in its Seminar Room will precede the program. President C. Brice Ratchford will preside at the program; speakers will include Judge Robert G. Brady, representing the Board of Curators, Dr. Ardath Emmons, vice president for research, Chancellor Schooling and Graduate Dean Lloyd Berry. A plaque will be unveiled and a tour of the Center will be conducted following the ceremony.

CHANGES IN SOCIAL SECURITY RATES effective Jan. 1, 1973 have necessitated revision of estimated percentages for fringe benefits, according to Don Hoehle, Fiscal Business officer. Previously 5.2% of the first \$9,000 of personal income, the rate is now 5.85% of the first \$10,800. The new estimated percentages to be used are: 14% of salary and wages for all full-time employees; and 5.85% of salary and wages for students, part-time employees and summer salaries for faculty on nine-month appointment.

A NEW POLICY on journal loans has been announced by Dwight Tuckwood, acting director of libraries. The Faculty Library Committee has approved the policy which went into effect Jan. 15. (1) Circulating journals will be loaned to faculty for approximately two weeks, eligible for recall after one day. The date due will be two weeks from the Friday following the date loaned. (2) No renewals on journal loans will be made at the circulation desk. (3) Bound Undergraduate Library journals will be loaned overnight, as they are now.

Reasons for the change in loan policy are the recent cancellations of duplicate journal subscriptions and the frequency of complaints by patrons who do not find the journals needed because they are out on loan. Also, the decision was based on a study of journal loans by Public Services personnel for a one year period, and on the policies of other academic libraries of comparable size and purpose.

NOTICE TO FACULTY MEMBERS FROM INDIA--A plan to utilize the services of Indian scholars in their home country while on leave from U.S. or other foreign institutions has been announced. Opportunities exist for specialists in all branches of the University. The details have been given by Mr. P. Sivalingam, Director of Technical Education, Tamil Nadu, in a letter to Dean Elmer Kiehl, College of Agriculture. Anyone interested in the details can get them through that office.

MEMBERSHIPS are currently available for faculty, staff, students and alumni in the Aero Tigers Flying Club. The group is a University-affiliated organization. If interested contact one of the following: Robert C. Culpepper, 205 Jesse, 2-6311; Franklin Figg, 350 Hearnes, 2-3066; and Charles Turner, E19 Medical Center, 2-3981.

GRADUATE SCHOOL AND RESEARCH NOTES

PLEASE NOTE: The Research Council, at its last meeting, established a regular meeting date for the second semester. This date will be the first Friday after the first Monday of each month. Next meeting date is Feb. 9. Applications to be considered at this meeting should be submitted to Dean Robert Culpepper, Graduate School, 205 Jesse Hall, by Jan. 26.

PROPOSED RULES FOR NIE -- Proposed regulations for the new National Institute of Education were published Jan. 8 in the Federal Register. Interested persons may submit written comments, suggestions or objections about the 34 pages of proposed regulations within 30 days to the NIE Management Task Force, Room 627, Reporters Bldg., 300 Seventh Street, S.W., Washington, D.C. 20202. Mrs. McQuary has a copy of the Register.

In a Nov. 27, 1972 news release HEW announced the intention of the education institute to direct its financial support to individual education programs and away from laboratories, centers and institutions. Inquiries may be sent to: National Institute of Education, Reporters Bldg., 7th and D Sts., S.W., Washington D.C. 20201.

ACLS DEADLINES -- The American Council of Learned Societies makes Grants-in-Aid to scholars to provide funds in support of significant humanistic research. Stipends will not exceed \$2,500 and are for the scholar's personal expenses in connection with a specific research project. Deadline for applications is Feb. 15.

The ACLS also makes grants for study of East European Languages. The purpose of these grants is to enable scholars to gain a degree of competence in the language for research and teaching purposes. Support is given for study of the languages of the following countries: Albania, Bulgaria, Czechoslovakia, Greece (Modern Greek), Hungary, Poland, Romania and Yugoslavia. Maximum stipend for study at a summer institute is \$1,000. Deadline for applications is Feb. 1. Application forms should be requested before Jan. 25.

Grants are made by the ACLS ranging from \$2,000 to \$5,000 in support of conferences for the advancement of research in the East European field. Costs may include administrative expenses as well as travel and maintenance of participants. Applications should be submitted by Feb. 15 to American Council of Learned Societies, 345 E. 46th St., New York, N.Y. 10017.

OCEAN STUDY POSTDOC AWARDS -- The Woods Hole Oceanographic Institution provides an opportunity for recent doctorates in the sciences and engineering to become better acquainted with oceanography and to apply skills toward a better understanding of the nature of the oceans. Stipends start at \$9,500 for one year plus limited additional support for equipment, travel, etc. Deadline for applications is Feb. 15. Write: Woods Hole Oceanographic Institution, Fellowship Committee, Woods Hole, Mass. 02543, or call Dean Anderson, Graduate School, for application forms.

POPULATION CHANGE -- The Behavioral Sciences Branch, Center for Population Research, National Institute of Child Health and Human Development, has a requirement for studies on the economic and environmental consequences of changes in population size, age-sex structure, and geographic distribution in the U.S. RFP NICHD-BS-73 -11 will be issued Jan. 19 with a due date of March 9. Write: Grants and Contracts Management Branch, National Institute of Child Health and Human Development, National Institutes of Health, Landow Bldg., Room A-609, 7910 Woodmont Ave., Bethesda, Md. 20014.

(For further information, call Mrs. Carol McQuary, Graduate School, 882-6311)

COMPUTER CENTER SHORT COURSES

These non-credit, no-fee short courses are being offered during the winter semester to faculty, staff and graduate students. To enroll in any of these courses, telephone the Computer Center receptionist, 882-6284.

TSO (Section 1)--meets each Tuesday, Thursday and Friday, Jan. 30-Feb. 23, from 8:40-9:30 a.m., 119 GCB. Instructors: Tom Phillips, Bob Nugen.

TSO (Section 2)--meets Monday through Friday, Jan. 29-Feb. 16, 4-5 p.m., 223 GCB. Instructors: Tom Phillips, Bob Nugen.

Job Control Language (JCL)--meets Monday through Friday, Feb. 26- March 9, 223 GCB. Instructor: Bob Nugen.

PL/1 Programming--meets Monday through Friday, March 19- April 6, 4-5 p.m., 223 GCB. Instructor: Wayne Spencer.

FORTTRAN Programming--meets Monday through Friday, April 9-April 27 (except April 20), 4-5 p.m., 223 GCB. Instructor: Jack Naylor.

UNIVERSITY CLUB UPCOMING EVENTS

Jan. 29: 7:30 p.m., University Club quarters, west end, lower level of Gentry Hall. "Federal Income Tax" is the topic for this session on financial matters sponsored by the Fortnightly Club. Speaker is Lawrence Schreiber, in charge of the local IRS office. Fortnightly members and spouses, University Club members and spouses and any other interested parties are invited.

Feb. 8: Fortnightly and University Club Dinner-Theater. Dinner in the Union Ballroom is at 5:45 p.m.; cost is \$4.25 each. At 8 p.m. in Jesse Auditorium "Godspell" will be presented. It is a musical based on the gospel according to St. Matthew and is an MSA activity presentation of the touring company. Tickets are \$3 each and reservations for "Godspell" must be made by Jan. 22. Deadline for dinner reservations is Feb. 3. Order tickets for either or both events from Mrs. Robt. Cozad, 911 Yale, 445-6286, or Mrs. Chas. P. Merilan, 1509 Bouchelle, 442-4434. Make checks payable to Fortnightly Club and enclose a stamped, self-addressed envelope with order.

Feb. 13:	"Arsenic & Old Lace"	7:30	Geol. Aud.
Feb. 13-14:	Civilisation-Man: Measure of All Things	7,8	210 GCB
Feb. 16-17:	"The Wild Child" 75¢	7,9	Geol. Aud.
Feb. 18:	"Sous Les Toits de Paris" (French)	8	204 GCB
Feb. 19:	Pioneers of Modern Painting-Rousseau	7,8	210 GCB
Feb. 20:	"Tokyo Story"	7:30	Geol. Aud.
Feb. 20-21:	Civilisation-Hero as Artist	7,8	210 GCB
Feb. 23-24:	"The Conformist" 75¢	7,9	Geol. Aud.
Feb. 25:	"El"(This Strange Passion) (Mexican)	8	204 GCB
Feb. 26:	Pioneers of Modern Painting-Munch	7,8	210 GCB
Feb. 27:	"Sunset Boulevard"	7:30	Geol. Aud.
Feb. 27-28:	Civilisation-Protest & Communication	7,8	210 GCB
March 2-3:	"Marat/Sade" 75¢	7,9	Geol. Aud.
March 4:	"Les Bonnes Femmes" (French)	8	204 GCB
March 6:	"Diary of a Country Priest"	7:30	Geol. Aud.
March 6-7:	Civilisation-Grandeur & Obedience	7,8	210 GCB
March 20:	"Lady Killers"	7:30	Geol. Aud.
March 20-21:	Civilisation-Light of Experience	7,8	210 GCB
March 23-24:	"Bananas" 75¢	7,9	Geol. Aud.
March 25:	"Les Petits Soldats" (French)	8	204 GCB
March 27:	"Asphalt Jungle"	7:30	Geol. Aud.
March 27-28:	Civilisation-Pursuit of Happiness	7,8	210 GCB
March 30-31:	"The Garden of the Finzi Continis" 75¢	7,9	Geol. Aud.

(Continued on next page; please detach and post this schedule.)

CALENDAR

- To Feb. 2: Art department exhibit: Church and Temple Rubbings, Fine Arts Gallery.
- To Feb. 9: Art exhibit: Paolo Soleri, archaeologist, on the theme, "The Merging of Architecture and Archaeology," Davis Art Gallery, Stephens College.
- Jan. 19: Student Activities Movie (75¢): "The Omega Man," 8 p.m., Jesse Auditorium.
- Jan. 19, 26: Public telescope viewing night, 8 p.m., 126 Physics, if weather is clear.
- Jan. 20: Graduate Record Exam to be administered.
- Jan. 21: Student Activities Free Flick: "Diary of a Mad Housewife," 2:30, 5:30 & 8:30 p.m., Jesse Auditorium.
- Jan. 22: Deadline for reservations to attend "Godspell" Feb. 8 with the Fortnightly/University Clubs at 8 p.m., Jesse Auditorium. Tickets \$3 each. (One hundred seats reserved on main floor; after these are filled reservations will be accepted for the front balcony and a 25¢ refund will be made.) Dinner in the Union Ballroom precedes the theater. Cost for dinner is \$4.25 each; dinner reservations due by Feb. 3. (See details below.)
- Jan. 23: University Assembly Lecture: Juan Orrego-Salas, professor of composition and Latin American music historian, Indiana University, to speak on the history of Latin American music, 8:15 p.m., Recital Hall, Fine Arts Building.
- Jan. 24: Student Activities Free Flick: "491," 7:30 p.m., Jesse Aud.
- Jan. 24-27;
Jan. 30-31;
Feb. 1-3: Stephens College Playhouse presents Tennessee Williams' "Summer and Smoke," 8:15 p.m., Stephens College Playhouse. Tickets, \$2.50.
- Jan. 25: Dalton Research Center dedication, 10 a.m., Research Park.
- Jan. 25: CAPA management department lecture: Lemuel R. Boulware, management specialist, to speak on "The Manager as Thought-Leader," 2:30 p.m., 12 Middlebush. Reception to follow in the Faculty-Alumni Lounge, Memorial Union. Address and reception open to public.
- Jan. 25: Roller Derby: Pioneers vs. Renegades, 7:30 p.m., Hearnes Building. Tickets \$4, \$3 and \$2 on sale at the Memorial Union ticket window starting Jan. 22.
- Jan. 26: O. M. Stewart Lecture: Dr. Charles Laverick, Argonne National Laboratory, to speak on "Energy, Applied Superconductivity and Future Society," 4 p.m., 126 Physics.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

April 1:	"Second Breath" (French)	8	204 GCB
April 3:	"Ugetsu" (Japanese)	7:30	Geol. Aud.
April 3-4:	Civilisation-Smile of Reason	7,8	210 GCB
April 6-7:	"Repulsion" 75¢	7,9	Geol. Aud.
April 8:	"The Burmese Harp" (Japanese)	8	204 GCB
April 10:	"And Then There Were None"	7:30	Geol. Aud.
April 10-11:	Civilisation-Worship of Nature	7,8	210 GCB
April 13:	"Singin' in the Rain" 75¢	7,9	Geol. Aud.
April 14:	"Bedazzled" 75¢	7,9	Geol. Aud.
April 15:	"The Green Wall" (Peruvian)	8	204 GCB
April 17:	"Day of Wrath"	7:30	Geol. Aud.
April 17-18:	Civilisation-Fallacies of Hope	7,8	210 GCB
April 20-21:	TO BE ANNOUNCED		
April 22:	"The Merry Widow" (American)	8	204 GCB
April 24:	"The Lower Depths"	7:30	Geol. Aud.
April 24-25:	Civilisation-Heroic Materialism	7,8	210 GCB
April 27-29:	"Sorrow and the Pity" \$1	7	Jesse Aud.
April 29:	"Street of Shame" (Japanese)	8	204 GCB
May 1:	"Touch of Evil"	7:30	Geol. Aud.
May 4-5:	"King of Hearts" 75¢	7,9	Geol. Aud.

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 14 Office of the Provost for Academic Affairs January 26, 1973

MOLECULAR BIOPHYSICS LECTURE SERIES--The Graduate School and the departments of biochemistry, chemistry and physics are sponsoring this new series. The first of the lectures will be presented by Dr. Benno Schoenborn of Brookhaven National Laboratories. Schoenborn's subject will be "Neutron Scattering Studies of Proteins and Protein Complexes." It will be heard at 4 p.m. in 120 Physics on Wednesday, Jan. 31. Additional information can be obtained from Prof. R. N. Loepky, 304 Chemistry.

REP. WILLIAM ROY (KANS.) will speak on "The Outlook in the 93rd Congress for Health Care Legislation" at 1:30 p.m. in the Medical Center Auditorium on Friday, Feb. 2. His talk is sponsored by a health care systems design training grant and the department of industrial engineering.

PLEASE NOTE: Last week's Bulletin-in-Brief reference to Social Security rates omitted a statement applying the rates to grant and contract proposals. The correct statement should read:

PERCENTAGES FOR FRINGE BENEFITS FOR GRANT AND CONTRACT PROPOSALS--Changes of OASI (Social Security) rates effective 1-1-73 necessitate revision of estimated percentages for fringe benefits. The new estimated percentages to be used are: 14% of salary and wages for all full-time employees; and 5.85% of salary and wages for students, part-time employees and summer salaries for faculty on nine-month appointment.

GRADUATE SCHOOL AND RESEARCH NOTES

NIE RESEARCH GRANTS -- The new National Institute of Education has announced that it will award \$7-\$10 million this spring for support of field-initiated education research. Researchers are being invited to submit proposals on topics "promising to extend knowledge about American education" in nationwide competition. Categories of grants are:

SELECTED DISCIPLINES RESEARCH: Support will encourage anthropologists, economists, political scientists and persons interested in legal issues to apply their expertise to education problems. Each of the four competitions in this area will support ten-15 projects averaging about \$50,000 for up to three years. Applicants are asked to submit prospectuses by Feb. 17.

GRANTS FOR RESEARCH IN EDUCATION: An undetermined number of grants and contracts of varying size will be provided for research by established investigators in fields other than the selected disciplines. Awards will be based on the proposal's technical quality and educational significance, the investigator's qualifications, and the adequacy of his research facilities. Support will be provided for up to three years.

SMALL GRANTS RESEARCH: Grants and contracts of up to \$10,000 will be awarded to qualified but less experienced or established researchers in any field. In addition to the adequacy of available research facilities and the quality and significance of the proposal, criteria for selection include the probability of completing the proposed work within 18 months and within the research budget estimate. Applicants in the last two areas are asked to submit formal proposals postmarked by March 1. Mrs. McQuary has guidelines and application forms, or write: Field

Initiated Studies Program, National Institute of Education, Code 600, Washington, D.C. 20202.

MUNICIPAL SYSTEMS -- NSF's Research Applied to National Needs (RANN) program has announced it will provide up to \$1.5 million for the systematic evaluation of policy related research concerned with municipal systems, operations and services. A number of one-year awards not to exceed two equivalent man years of effort will be made under the program. Proposals must be received by 5 p.m. March 5 to qualify. Mrs. McQuary has guidelines.

RECYCLING -- Research and development sources are sought to identify and study the most important technological problems inhibiting the increased use of recovered materials by manufacturers. Interested institutions should submit a statement of their qualifications and experience. Closing date for submission of responses is Jan. 31. Refer to: RFP-C1-73-0049. Replies to: Negotiated Contracts Branch, Contracts Management Division, National Environmental Research Center, Environmental Protection Agency, Cincinnati, O. 45268.

ANTIPILEPTIC DRUGS -- The National Institute of Neurological Diseases and Stroke is looking for organizations interested in conducting studies of the chronic toxic effects of the marketed antiepileptic drugs, diphenylhydantoin and phenobarbital. The studies must demonstrate in humans or animals one or more of the following: mechanisms of chronic toxicity, teratogenesis, carcinogenesis and tolerance. Request for proposal forms may be obtained by contacting Paul H. Dickerson, Contracting Officer, Bldg. 36, Room 4D-04, National Institute of Neurological Diseases and Stroke, National Institutes of Health, Bethesda, Md. 20014.

EDUCATIONAL TV -- Organizations capable of conducting a short-term study to analyze and make recommendations regarding the future shape, role and direction of educational broadcasting facilities programs administered by the Office of Education are being asked to contact the Office. The study is planned to provide detailed recommendations regarding educational telecommunications broadcast facilities program policy and operational issues. Proposal forms may be obtained from C.E. Perry, Dept. of Health, Education and Welfare, Office of Education, Office of Administration Contracts and Grants Div., Room 1077, Federal Office Bldg., No. 6, 400 Maryland Ave. SW, Washington, D.C. 20202. Interested parties should include a self-addressed gummed label with RFP 73-16 printed on the bottom edge.

CORONARY ARTERY BYPASS SURGERY -- Proposals for controlled studies to evaluate the effectiveness of coronary artery bypass surgery for improving the blood supply to blood-deprived areas of heart muscle and for relieving angina pectoris are being solicited by the National Heart and Lung Institute's Clinical Cardiac Disease Branch. The studies will be carried out in two parts. Part One will involve the development of detailed protocols for collaborative studies comparing the bypass surgical procedure with medical management in sharply defined groups of patients. Part Two, the definitive studies, will be undertaken after the protocols have been approved. The notice appeared in an HEW News Release.

(For further information on the above programs, call Mrs. Carol McQuary, Graduate School, 882-6311)

CALENDAR

- Jan. 28: MSA Student Activities Free Flick: "One Day in the Life of Ivan Denisovich," 2:30, 5:30 & 8:30 p.m., Jesse Aud.
- Jan. 29-30: MSA Art Lending Library, 8 a.m.-6 p.m., Memorial Union Large Ballroom. \$3 per piece per semester.
- Jan. 29: Lectures in Language and Literature Series: Dr. Mary Lago, lecturer in English, to speak on "Decadence Redeemed: Max Beerbohm Looks at the 1890s," 8 p.m., Memorial Union Small Ballroom.
- Jan. 29: University Concert Band to perform, 8:15 p.m., Jesse Aud.
- Jan. 30: MSA Student Activities Speaker: Alvin Toffler, author of "Future Shock," to speak on "Education in the Future Tense," 8 p.m., Jesse Auditorium.
- Jan. 30: Stephens College Chamber Music, 8:15 p.m., Windsor Auditorium, Stephens College. Admission, \$1.
- Jan. 31: Molecular Biophysics Lecture Series: Dr. Benno Schoenborn, Brookhaven National Laboratories, to speak on "Neutron Scattering Studies of Proteins and Protein Complexes," 4 p.m., 120 Physics. Sponsored by the Graduate School and the departments of biochemistry, chemistry and physics.
- Jan. 31: MSA Student Activities Free Flick: "The Point," 7:30 p.m., Geology Auditorium.
- Jan. 31: University Concert Series: Roberta Peters, soprano, to perform, 8:15 p.m., Jesse Auditorium. Tickets, \$2.50, \$3.
- Feb. 1-2: Astronomy Film Series: "The Violent Universe--Part 3," 4 p.m. Thursday, 8 p.m. Friday, 126 Physics.
- Feb. 2: Public Telescope Viewing Night, 126 Physics, if weather is clear. If not, astronomy film **above** will be shown.
- Feb. 2: Rep. William Roy (Kans.) to speak on "The Outlook in the 93rd Congress for Health Care Legislation," 1:30 p.m., Medical Center Auditorium. Sponsored by health care systems design training grant and the department of industrial engineering.
- Feb. 3: Deadline to purchase dinner tickets for the Fortnightly and University Clubs' dinner-theater evening Feb. 8. Order tickets from Mrs. Robt. Cozad, 911 Yale, 445-6286, or Mrs. Charles P. Merilan, 1509 Bouchelle, 442-4434. Make checks payable to Fortnightly Club and enclose a stamped, self-addressed envelope. Cost of the dinner is \$4.25 per person and the event begins at 5:45 p.m.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 15

Office of the Provost for Academic Affairs

February 1, 1973

THE ROTARY CLUB of Columbia is seeking young men and women as candidates for Rotary Foundation educational awards for study abroad in 1974-75. Four types of educational awards are offered: graduate fellowships, for those 20-28 years old, with a bachelor degree or equivalent; undergraduate scholarships for those 18-24 years old with a minimum of two years of university level work but without a bachelor degree; technical training awards, for those 21-35 years old with a secondary education and at least two years' work experience; and teachers awards for those 25-50 years old who have been engaged as full time teachers of the mentally, physically or emotionally handicapped for at least two years at the time of the application.

Each award covers round-trip transportation, educational and living expenses for one academic year, and if necessary, funds for intensive language training. Further information is available from the chairman of the local Rotary Foundation Committee, Prof. A. E. Schroeder, germanic and slavic languages, 882-4328 or 882-3359. The application deadline date is Feb. 15.

CALENDAR

- Feb. 2: Astronomy Film Series: "The Violent Universe--Part 3," 8 p.m., 126 Physics.
- Feb. 2: MSA Student Activities Concert: "Friends in Concert" a folk music group, to perform at 8 p.m., Jesse Auditorium. Free.
- Feb. 2: MSA Student Activities Movie: "McCabe & Mrs. Miller," 8 p.m., Jesse Auditorium. 75¢.
- Feb. 2-3: Two special repeat performances of Edward Albee's "A Delicate Balance," 8:15 p.m., University Theater, Fine Arts Building. Tickets, \$2.
- Feb. 2, 9: Public Telescope Viewing Night, 126 Physics, 8 p.m., if weather is clear.
- Feb. 4-23: Art department exhibit: "Two Painters: Howard Rogovin and Gretchen Caracas," Fine Arts Gallery.
- Feb. 4: First in a series of programs on the life and culture of India: Mary Lou Bussabarger to present a talk and a demonstration on Hatha-Yoga. Bussabarger was in India for two years and studied Yoga in Calcutta. She presently teaches Yoga at the Columbia Art League. Program is at 2 p.m. in the Assembly Rooms of the Daniel Boone Regional Library. Sponsored by the Library and UMC's South Asia Program. See Feb. 9 Faculty Bulletin for more events in the series.
- Feb. 4: MSA Student Activities Movie: "Catch 22," 2:30, 5:30 & 8:30 p.m., Jesse Auditorium. Free.

- Feb. 5: Impersonator Tom Noel to perform as Mark Twain in "Mark Twain Tonight," Westminster College, Fulton, 8 p.m., Champ Auditorium. Free.
- Feb. 5: MSA Student Activities Concert: Lewis Bellson's Super Band, featuring key musicians from the west coast Tonight Show band, to perform, 8 p.m., Jesse Auditorium. Band will conduct a workshop for UMC Studio and Stage Bands at 3:30 p.m. Tickets for 8 p.m. concert are \$1.50 and \$2.
- Feb. 6: Boyd. E. Terry, assistant professor of surgery, to present an illustrated lecture on electrical hazards and electrical safety, 7:30 p.m., Electrical Engineering Auditorium. The talk will cover hospitals, industries and the home.
- Feb. 6: MSA Student Activities Speaker: Maya Angelou, 8 p.m., Jesse Aud.
- Feb. 7: Office Pediatrics, 8:30 a.m., Medical Center Auditorium. Sponsored by the Office of Continuing Medical Education.
- Feb. 7: Nursing Management of Patient Care, 9 a.m., S203 Memorial Union. Sponsored by the Office of Continuing Medical Education.
- Feb. 7: Biological Sciences lecture: John W. Twente, associate professor of biology, to speak on "Endocrines and Hibernation," 11:40 a.m., 103 Animal Science Research Center.
- Feb. 7: Biological Sciences Seminar: Russell V. Brown, geneticist, to speak on "Inherited Hemolytic Anemia in the Dog," 3:40 p.m., 115 Tucker Hall.
- Feb. 7: MSA Student Activities Movie: "Titticut Follies," 7 p.m., 204 GCB. Free.
- Feb. 8: DR Scott Memorial Lecture in Accountancy: Newman T. Halvorsen, consultant for Ernst & Ernst and member of the Accounting Principles Board, to speak on "The APB and the FASB: Performance vs. Prospects," 2:40 p.m., S203 Memorial Union.
- Feb. 8: Biological Sciences Seminar: Rollin Sparrowe, assistant professor of biological sciences, to speak on "Endangered Species of Wildlife," 3:40 p.m., 18 Tucker Hall.
- Feb. 8-9: Astronomy Film Series: "The Violent Universe--Part 4," 4 p.m., Thurs. and 8 p.m., Fri., 126 Physics.
- Feb. 8: MSA Student Activities Broadway Play Series: "Godspell," 8 p.m., Jesse Auditorium. Tickets, \$1, \$3.
- Feb. 8: Art history, archaeology, anthropology, classical studies lecture: Melvin Fowler, University of Wisconsin-Milwaukee, to speak on "The Evolution of Pre-Columbian Civilization in Central Mexico," 8 p.m., 120 Physics.
- Feb. 9: Biology 2 Movie of the Week: "Can We Live to be One Hundred," 9:40 a.m., 322 Tucker.
- Feb. 9: MSA Student Activities Concert: Gordon Lightfoot to perform, 8 p.m., Hearnese Building. Tickets, \$2.50-3.50.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 16 Office of the Provost for Academic Affairs February 16, 1973

ARTS AND SCIENCE BANQUET TICKETS will be on sale in the Arts and Science Dean's Office, 210 Jesse, until the date of the banquet Feb. 28. Price is \$3.50. The 5:45 p.m. banquet in the large ballroom is open to UMC faculty, staff and guests.

THE UMC SYMPOSIUM ON BLACK STUDIES Feb. 23-24 will feature Mrs. Frankie Muse Freeman at a University Assembly Lecture at 8 p.m. Feb. 23 in the Memorial Union. Mrs. Freeman, who is a member of the U.S. Commission on Civil Rights, will speak on "Civil Rights in the '70s". The purpose of the symposium is to discover ways to develop Black Studies programs. It is sponsored by the Black Studies Committee of the College of Arts and Science and the Graduate School and will be attended by faculty members from all institutions of higher learning in Missouri.

MO-MAIDS will present a synchronized swim show March 1-3. The show, entitled "Tripping Out," will be presented at 8 p.m. at the University swimming pool. Tickets will be sold for 50¢ each from Feb. 26 through March 2 at the Memorial Union and Brady Commons.

STATE INCOME TAXES will be the focus of discussion at a tax seminar sponsored by the Fortnightly Club. Michael J. Scanlan, assistant professor of accountancy, will serve as an information resource and discussion leader for the event to be held Feb. 19 at 7:30 p.m., in the new University Club quarters, west end, lower level of Gentry Hall. Members of Fortnightly, their spouses, University Club members and any other interested parties are invited to attend.

GRADUATE SCHOOL AND RESEARCH NOTES

ENVIRONMENTAL EDUCATION -- The Office of Education has issued a standard application form, OMB No. 80-R0186, to be used by institutions interested in applying for environmental education grants. All applications must be received by March 1. An original and two copies of the form must be submitted. Mrs. McQuary has the forms.

LIBRARY ASSOCIATE TRAINING -- The National Library of Medicine has announced March 1 as the deadline for applications for its Postgraduate Library Associate Training Program. The program provides one year of intensive training, an opportunity to take local university courses, and experience with various library and information systems. Applicants must be U.S. citizens with a master's degree in library science and reading competence in a modern foreign language. Application materials may be obtained by contacting the Employee Development Specialist, National Library of Medicine, 8600 Rockville Pike, Bethesda, Md. 20014.

ENVIRONMENTAL REVIEW AND ANALYSIS -- The Federal Power Commission is inviting institutions to submit statements of qualifications and experience for assisting the staff of the Federal Power Commission in the conduct of environmental studies related to applications filed with the FPC under the Federal Power Act and the Natural Gas Act. Contractors will assist the FPC staff by conducting surveys, investigations and analyses into the environmental and related effects of construction and operation of non-federal hydroelectric projects and transmission facilities. Activities will require the collection and evaluation of oceanographic,

limnological, meteorological and geological data; biological and ecological information; land use allocation and resource management data; demographic, recreational use and architectural engineering information; and investigations into energy system relationships and reliability. The tasks can include any or all of the above and are not necessarily limited to these. Anyone interested should submit information by March 2 to: Dr. Richard F. Hill, Advisor on Environmental Quality, Federal Power Commission, 441 G. Street, N.W., Washington, D.C. 20426. Cite FPC Syn 0173 (OEQ)

NSF GUIDE TO PROGRAMS -- The Graduate Office has recently received a new Guide To Programs, Fiscal Year 1973, from the National Science Foundation. This publication is for sale by the Superintendent of Documents, US Government Printing Office, Washington, D.C. 20402, for \$1.50.

PROJECTS INVOLVING HUMAN SUBJECTS-- The Institutional Relations Branch, Division of Research Grants, National Institute of Health recently issued a letter to all university officers responsible for institutional implementation of DHEW policy on protection of human subjects, pointing up the problem of lack of sufficient information in proposals for review committees to assess adequately the potential benefits and risks of the research.

Grants Administration Policy not only specifies that no grant or contract for an activity involving human subjects shall be made unless the application for such support has been reviewed and approved by an appropriate institutional committee, but also states that since the welfare of subjects is a matter of concern to the DHEW as well as to the institution, no grant or contract shall be made unless the proposal for such support has also been reviewed and approved by an appropriate professional committee within the responsible component of the Department.

The policy further states that this review must establish that the activity as described in the proposal, will not interfere with or impair the rights and welfare of the subjects, nor involve risks that outweigh either potential benefits to the **subjects** or the expected value of the knowledge sought, nor deny the rights of the subject to adequate and appropriate informed consent.

It is therefore imperative that investigators include in proposals not only an adequate description of the research procedures, but also information concerning selection of subjects, protection of their rights and welfare, methods of obtaining their informed consent, and provisions for protecting confidentiality of information and identity of subjects.

In cases where institutional committees need to obtain more information from the investigator, this additional information should be sent to DHEW, either as part of the proposal or as an appendix. Ultimate responsibility for providing adequate information lies with the applicant investigator.

The campus Director of Research would also like to call to the attention of investigators the need for submitting Form 190, "Information for Committee Review of a Project Involving Human Experimentation", along with a copy of the proposal in all cases involving the use of human subjects. The use of this form is of immense help to the committee members reviewing the project. Form 190 may be obtained from your departmental office or from Mrs. McQuary in the Graduate Office, 882-6311. Departments should order the form from the University Storeroom.

(For further information on any of the above items, call Mrs. Carol McQuary, Graduate School, 882-6311)

ANCIENT LAMPS ON EXHIBIT

The Museum of Art and Archaeology opens an exhibit of ancient lamps Feb. 16 in the Cast Gallery, 325 Jesse Hall.

The development of the terra cotta lamp is presented, beginning with some of the earliest lamps. The tops of later lamps were elaborately decorated in relief with different patterns or scenes from mythology, religion or contemporary social life. Such scenes provide insight into the daily lives of the people. Also represented in the exhibition are two other materials used for making ancient lamps--bronze and glass.

The Cast Gallery is open from 8 a.m. to 5 p.m. Monday through Friday.

(At left: early Christian lamp, North Africa, fifth century A. D. The fish symbolizes water and the rite of baptism.)

CALENDAR

- Feb. 16, 23: Public Telescope Viewing Night, 8 p.m., 126 Physics, if weather is clear.
- Feb. 16-17: Stephens College Arts Series: Rogers and Hammerstein's "Carousel" to be performed, 8:15 p.m., Stephens College Assembly Hall. Tickets, \$2.50-\$5.
- Feb. 18: University Concert Series: St. Louis Symphony to perform, 3 p.m., Jesse Auditorium. Tickets \$2.50-\$3.
- Feb. 18-March 2: Columbia Art League presents an exhibition of photography by Gene Baumann in the Betty Robins Gallery of the Art League Building, 12 N. 10th St.
- Feb. 19: Fortnightly Club Tax Seminar: Michael J. Scanlan, assistant professor of accountancy, to act as consultant and discussion leader on "State Income Taxes," 7:30 p.m., University Club quarters, Gentry Hall. Fortnightly, University Club members, and any other interested persons are invited to attend.
- Feb. 19: United States Army Chamber Ensemble to present free concert, 8:15 p.m., Jesse Auditorium.
- Feb. 21: Edward H. Coe, division of biological sciences, to speak on "Regulation of Gene Function in Development," 2:40 p.m., 115 Tucker.
- Feb. 21: MSA Student Activities Film: "To Kill a Mockingbird," 7 p.m., Jesse Aud.
- Feb. 21: Arts and Science Week Event: Vine Deloria Jr., author of "Custer Died for Your Sins," to speak on "The Concept of Creation in Religion," 8 p.m., Ellis Library Aud.
- Feb. 21: Esterhazy String Quartet recital, 8:15 p.m., Recital Hall, Fine Arts Building.

- Feb. 21-24: Arts and Science Week Event: University Theater to present "A Cry of Players," 8:15 p.m., University Theater. Tickets, \$2.
- Feb. 21-24; 27-28; March 1-3: Stephens College Playhouse presents "Marigolds," 8:15 p.m., Stephens College Playhouse. Tickets, \$2.50.
- Feb. 22: Seminar in Wildlife Ecology: David Turner to speak on "Deer Movements at Swan Lake Refuge," 3:40 p.m., 18 Tucker.
- Feb. 22: Andre B. Borle, department of physiology, School of Medicine, University of Pittsburgh, to speak on "The Mitochondrion and the Control of Cellular Calcium Homeostasis," 4 p.m., 133 Dalton Center. Sponsored by the Mineral Club and the Dalton Center.
- Feb. 22, 23: Astronomy Film Series: "The Violent Universe--Part 5," Thurs. 4 p.m.; Fri-8 p.m., 126 Physics.
- Feb. 22: Business-Journalism and Public Affairs Lecture Series: William J. Bayer, registered representative of Stix & Co., to speak on "Roles of the Stockbroker," 4 p.m., Walter Williams Hall.
- Feb. 22: Program on photocopying copyrighted materials. William Passano, chairman of the board of Williams and Wilkins Co.; and Paxton Price, librarian of the St. Louis Public Library, to speak for and against. Prof. Peter Davis, Law School, to moderate. 7:30 p.m., Memorial Union Aud.
- Feb. 22: Business-Journalism and Public Affairs Lecture Series: Robert L. Perry, director of Court services for Boone Co., to speak on "Juvenile Courts and Corrections," 8 p.m., Neff Hall Lounge.
- Feb. 23: Biology 2 Movie of the Week: "Cell Respiration" and "Photosynthesis and Respiration Cycle," 9:40-10:30 a.m., 322 Tucker.
- Feb. 23-24: Symposium on Black Studies.
- Feb. 23: University Assembly Lecture and main speaker for Symposium on Black Studies: Mrs. Frankie Muse Freeman, attorney and member of the US Commission on Civil Rights, to speak on "Civil Rights in the 70s," 8 p.m., Memorial Union Aud.
- Feb. 23: Department of health and physical education to present a program of modern dance drama and comedy: "UMC Dancers in Concert," 8:15 p.m., Jesse Aud. Tickets, \$1 at the door.
- Feb. 24: Graduate Record Exam to be administered.
- Feb. 24: MSA Student Activities Broadway Play Series: "Antigone," 8 p.m., Jesse Aud. Tickets \$1-\$3.
- Feb. 25: Collegium Musicum Chamber Orchestra to present a concert in memory of Ellsworth Macleod, professor of piano, 1924-1969, 3:30 p.m., Recital Hall, Fine Arts Building.
- Feb. 28: University Club Luncheon, noon, 214-215 Memorial Union. Thomas Lloyd, director of the University of Missouri Press, to speak on "The Scholar and His Publisher." Tickets \$2 collected at the door. Reservations by Feb. 27 to Judy Devlin, 882-3721.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 17 Office of the Provost for Academic Affairs February 23, 1973

WILLIAM BONDESON, director of the Honors College since 1969, has been named director of the General Studies Program effective at the start of the second semester. Also announced by Chancellor Schooling was the appointment of Paul Nelson, speech and dramatic art faculty, as head of the Honors College replacing Bondeson.

The new General Studies Program will lead to a bachelor of General Studies degree and is designed to serve the needs of students whose preparation or aims are not well served by traditional programs.

Enrollment in the program will be limited to 25 students at the outset. Selection of those students (who will generally enter the program in their sophomore year) is taking place during the current semester with their entrance into the program slated for the start of the 1973-74 year.

Governance of the general studies program will be vested in a council appointed by Arts and Science Dean Yanders. The council will include faculty members from several disciplines, students and eventually persons from outside the University community. The council will evaluate the applicants and attempt to select the entering class on the basis of need for specialized instruction. Some of the considerations will be unusual cultural background, vocational plans that involve study in several disciplines, interruption of formal education, and job experience that could substitute for general academic requirements.

A class of 25 will be admitted to the general studies curriculum each year, meaning the maximum enrollment will be 100 students. A review of the program will be made during the fourth year.

Faculty and students interested in the general studies program are urged to contact William Bondeson in 422 GCB.

NIGHT LIFE COURSES BEGINNING SOON

Non-credit "Night Life" courses are starting to get underway. Those interested in enrolling may do so between now and the first meeting of the course or may enroll at the first meeting of the course. Further enrollments will be closed thereafter. For further information call Barbara Maier, 344 Hearnese, 882-4796.

UNIVERSITY OF MISSOURI-COLUMBIA

faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 19 Office of the Provost for Academic Affairs March 16, 1973

GENERAL FACULTY MEETING--a meeting of the University faculty will be held March 29 at 3:40 p.m. in Middlebush Auditorium. The agenda will include a report from the Chancellor and a report from the Honorary Degree Committee.

A REMINDER FROM THE GRADUATE SCHOOL--the Graduate Faculty Senate approved (May 14, 1970) that in order to be able to direct a Master's degree a faculty member must belong to Graduate Faculty. The Nominating Committee of GFS requests that all applications for Graduate Faculty membership (master's level) be submitted to the Graduate Office not later than Wednesday, March 28, for action by the Committee on March 30.

"PIONEERS OF MODERN PAINTING" will be given a second showing beginning Monday, March 19 in 210 GCB. "Pioneers" is a series of six 45-minute films, each devoted to the work of a single painter, outlining his life and analyzing his major works. The showings will be at 7 and 8 p.m. The schedule is as follows:

March 19-Manet
March 26-Monet
April 2-Cezanne
April 9-Seurat
April 16-Rousseau
April 23-Munch

STATISTICAL LABORATORY MOVES--the Statistical Laboratory, formerly located at 0055 Mechanical Arts, has moved to the first floor of the house at 709 Missouri. A lab assistant will be on duty from 1 p.m. to 5 p.m., Monday through Friday, and 9 a.m. to noon on Saturday. All the facilities formerly available will be present at the new location. The lab phone number is 882-3630. All who may have need of the lab's facilities are encouraged to use them.

SUMMER SESSION AND FALL SEMESTER ADVANCE REGISTRATION have been scheduled for April 9-13. Advance registration is restricted to currently enrolled students only.

TEXTBOOK REQUEST FORMS for the summer and fall semesters have been distributed to academic department chairmen. For the first time, the MSA book pool has also received a request form to assist students who wish to exchange texts.

Summer request forms must be returned to Will Connor, University Book Store, by March 26. Fall text information is requested by April 2 for all courses for which information is available. Information received by these dates will enable stores to repurchase books from students for reuse and to purchase more used books before ordering new books from the publisher. A used book saves the student about 25% of the cost of a new text.

Below titles listed on request forms, list all special instructions or comments. For example: "New edition, expect heavier sales," "Was short this title last semester," etc. Requests for teacher copies of texts should be made on desk copy request forms available from the bookstores.

A UNIVERSITY ASSEMBLY LECTURE scheduled for March 22 will feature Dr. John A. Tracy, head of the accounting division of the Graduate School of Business Administration, University of Colorado. He will discuss "Are We Accountants Communicating with Anyone Else Than Ourselves?" He will speak at 2:40 p.m. in S203 of the Memorial Union. All interested persons are invited. The lecture is part of the department of accountancy's DR Scott Memorial Lectures in Accountancy.

GRADUATE SCHOOL AND RESEARCH NOTES

ETHICAL AND HUMAN VALUE RESEARCH -- The National Endowment for the Humanities and the National Science Foundation have announced sponsorship of proposals on the ethical and human value implications of science and technology. They will consider "fresh approaches in support of scholarly activities in this field" on a selected, limited basis. Activities may include research and other forms of scholarly investigation, together with conferences, colloquia, seminars, etc. Proposals may be submitted to either the NEH or NSF, depending on their primary orientation. Inquiries should be directed to: Program of Science, Technology and Human Values, Office of Planning, National Endowment for the Humanities, Washington D.C. 20506; or Ethical and Human Value Implications Program, National Science Foundation, Washington, D.C. 20550.

YOUTHGRANTS -- Application deadline for National Endowment for the Humanities (NEH) Youthgrant Awards for projects beginning after Sept. 1, is May 19. The awards are intended for the "support of humanities projects initiated and conducted by young people." College and high school students are eligible. Academic degrees or affiliation are not a requirement. Individuals may apply directly but are encouraged to apply through nonprofit organizations. Grants are usually under \$5,000 with \$10,000 the maximum. The Endowment urges interested persons to make preliminary inquiries at least two months before submitting a formal application. Inquiries to: Youthgrants in the Humanities, National Endowment for the Humanities, Washington, D.C. 20506.

FOREIGN AREA FELLOWSHIPS -- Proposals for future Inter-American Research Training Seminars will be accepted from postdoctoral scholars in Latin America, the Caribbean and the U.S. until May 1 by the Foreign Area Fellowship Program. The FAFP will also accept proposals for future Collaborative Research Training Projects from advanced scholars in Latin America, the Caribbean, and the U.S. until May 1. Information and forms from: Foreign Area Fellowship Program, 110 East 59th St., New York, N.Y. 10022.

SENIOR FULBRIGHT-HAYS -- The Committee on International Exchange of Persons has announced plans to award approximately 550 grants for lecturing and advanced research in more than 75 countries during 1974-75, funded under the Fulbright-Hays authorization. Applicants must be U.S. citizens with a doctorate or college teaching experience in the social sciences. Application deadline for both research and lecturing awards is July 1. Registration forms from: Senior Fulbright-Hays Program, Committee on International Exchange of Persons, 2101 Constitution Ave., Washington, D.C. 20418

PHASEOUT OF NIH RESEARCH TRAINING PROGRAMS -- The National Institutes of Health have announced the termination of all research training programs of the Institutes and Research Divisions, as reflected in the FY 1974 budget. Within certain limitations, the NIH will honor existing commitments to individuals presently supported by these training programs. This announcement refers to all training grants, fellowships, traineeships, Research Career Development Awards, and all special academic awards. Under the phaseout plan no new training program will be started unless a firm commitment was made prior to Jan. 29, 1973.

SIGNATURE REQUIREMENTS FOR NIH GRANT APPLICATIONS -- 1. Effective immediately, the requirement for signature of the principal investigator or program director on the first page of an application for grant support is abolished. The box requesting such signature should be left blank when an application is prepared. 2. The requirement for the signature of an individual authorized to sign for

the applicant institution remains in effect. 3. To distinguish between the responsibilities of the applicant institution and the principal investigator or program director, the latter will sign following the description of the proposed project or the summary progress report as assurance to the institution and the awarding agency that he or she will accept responsibility for the scientific and technical conduct of the project if a grant is awarded to the applicant institution. 4. The following statement should be inserted immediately after the description of the proposed plan on new and renewal grant applications and at the end of the summary progress report for non-competing continuation applications:

The undersigned agrees to accept responsibility for the scientific and technical conduct of the project and for provision of required progress reports if a grant is awarded as the result of this application.

Date

Principal Investigator or
Program Director

5. Applications not bearing both required signatures are incomplete and will be returned for signature before processing.

EVALUATION OF HUMAN RESOURCES POLICY-RELATED RESEARCH -- A very large body of policy-relevant research on human resources has been developed over the last quarter century. This body of research has not been evaluated comprehensively with respect to technical quality, utility for policy makers, and potential for codification. Much of the research is difficult to locate; therefore, it cannot be applied in decision-making. Systematic and rigorous evaluation of this literature and experience are necessary to provide a synthesized base of information which can be used by policy and decision-making organizations at all levels of Government. The National Science Foundation lists twenty-one categories for which evaluation proposals may be submitted. Proposals must be submitted by April 20. Call or write for Program Announcement No. 73-7, National Science Foundation, Washington, D. C. 20550, Attn: Administrative Services Office, Distribution Section, phone 202/632-4128.

(For information on any of the above programs, call Mrs. CARol McQuary, Graduate School, 882-6311)

CALENDAR

- Through March: South Asia Photographic Exhibit: "The Todas and Their Buffaloes," Ellis Library, Main Vestibule. Forty photos taken by Prof. Wm. A. Noble, geography dept. Photos depict the environment and funeral rites of the Todas, a pastoral group in the Nilgiri Hills of South India.
- March 16: Dr. Peter Ramwell, Georgetown University School of Medicine, to speak on "Prostaglandins as Biochemical Regulators," 4 p.m., Medical Center Auditorium.
- March 16, 23: Public Telescope Viewing Night, 8 p.m., 126 Physics, if weather is clear.
- March 16: Mid-Missouri Camera Club: Larry Gray of the St. Louis Camera Club to present a program on prints, 8 p.m., Columbia Art League, 12 N. 10th St.
- March 18: MSA Free Flick: "Midsummer Night's Dream," 5:30 & 8:30 p.m., Jesse Auditorium.
- March 19-
April 6: Paintings of Merrill Cason and prints of Brooke Cameron, Fine Arts Gallery.

Approved Instruction Sessions Calendar for 1974-75

(Continued from other side)

Summer 1975

Four Week Session I:

Registration and Orientation
 Classwork begins, 7:30 a.m.
 Session closes, 5:00

Mon., June 9
 Tues., June 10
 Thurs., July 3

Number of Class Sessions:
 (excluding examinations,
 registration and holidays)

	M	T	W	Th	F	S
a.m.	3	4	4	4	3	3
p.m.	3	4	4	4	3	--

Four Week Session II:

Registration
 Classwork begins, 7:30 a.m.
 Session closes, 5:00 p.m.
 Summer Commencement Evening

Mon., July 7
 Mon., July 7
 Fri., Aug. 1
 Fri., Aug. 1

Number of Class Sessions:
 (excluding examinations,
 registration and holidays)

	M	T	W	Th	F	S
a.m.	4	4	4	4	4	3
p.m.	4	4	4	4	4	--

CALENDAR FOR 1974-75 WAS APPROVED BY THE GENERAL FACULTY
 AT ITS MEETING MARCH 8, 1973

- March 19: MSA Environmental Program: "The Ecology of the Green Revolution," 7:30 p.m., Memorial Union Auditorium.
- March 19-
April 6: Computer Center Short Course: PL-1 Programming, Monday through Friday, 4-5 p.m., 223 GCB. Instructor: Wayne Spencer. To enroll call 882-6284. Non-credit, no-fee for faculty, staff and graduate students.
- March 20: Dr. J. Stephen Jones, University of London, London, England, to speak on "Ecological Genetics and Natural Selection in Land Snails," 3:40 p.m., 1 Tucker Hall. Biological sciences divisional seminar.
- March 21: Charles W. Ferguson, University of Arizona associate professor, to speak on "Dendrochronology: The Study of Tree Rings," 11:30 a.m., 2-7 Agriculture. Sponsored by the School of Forestry student council and Xi Sigma Pi forestry honorary society.
- March 21: Charles W. Ferguson, University of Arizona, to speak on "Dendrochronology in Ecological Research," 3:40 p.m., 2-7 Agriculture.
- March 21: MSA Free Flick: "The Lady Vanished," 7 p.m., Jesse Auditorium.
- March 21: International Cooking Class: Thailand, 7 p.m., 203 Gwynn.
- March 21: Charles W. Ferguson, University of Arizona, to speak on "The Ancient Bristlecone Pines of Western U. S.: Their Impact on Archaeological, Ecological and Radiocarbon Studies," 7:30 p.m., 114 Physics.
- March 21: SMSU String Quartet, 8:15 p.m., Recital Hall, Fine Arts Building.
- March 22:
o Dr. Merrill Kaufmann, University of California-Riverside, to speak on "Plant Water Stress: Is a Prediction Better Than a Guess?" 12 noon, 18 Tucker. Sponsored by Graduate School and plant physiology group.
- March 22: Seminar in Wildlife Ecology, 3:40 p.m., 18 Tucker. North American Wildlife Conference, Midwest Benthological Society annual meeting.
- March 22: Charles W. Ferguson, University of Arizona, to speak on "Calibration of the Radiocarbon Time Scale and Its Effect on the Pre-History of Europe," 3:40 p.m., 113 A&S.
- March 22: MSA Speaker: Barry Commoner, 8 p.m., Jesse Auditorium.
- March 22: Business Journalism and Public Affairs Lecture Series: Gerald E. Auten, instructor and faculty research assistant in economics, to speak on "Where the Public Gets Its Money," 8 p.m., Neff Hall.
- March 23: Biology 2 Movie of the Week: "Meiosis--Sex Cell Formation," "Mutation," 9:40-10:30 a.m., 322 Tucker Hall.
- March 23: Home Economics Recognition Convocation, 2:30 p.m., 114 Physics.
- March 23: MSA Student Activities Concert: Stephen Stills-Manassas to perform, 8 p.m., Hearnes Building. Tickets at Brewer and Hearnes ticket windows for \$3.50 and \$4.50.
- March 23: Faculty Vocal Recital: Virginia Pyle to perform, 8:15 p.m., Recital Hall, Fine Arts Building.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 20

Office of the Provost for Academic Affairs

March 23, 1973

THE HUMAN PERFORMANCE LABORATORY is presently looking for 10-15 males who have a strong interest in becoming highly physically fit and would be available for at least two years. A commitment to exercise at least three times a week and preferably five or six times per week will be necessary to achieve high fitness. Participants are to be under 40 years of age and not excessively overweight. Individuals must be medically sound and have no history of orthopedic or other problems which might be a deterrent to regular vigorous exercise, particularly running.

The program will involve a series of treadmill tests to evaluate fitness initially and regularly throughout the exercise program period. Exercise will be prescribed commensurate with the participants' ability, supervised initially, and modified as fitness improves. The primary purpose of this program is to validate a fitness test longitudinally. In cross sectional evaluations the test has shown excellent promise as a measure of the transient state of conditioning of individuals in contrast to an inherited capacity to perform endurance work. Interested persons should contact Ben R. Londeree, 36 Rothwell Gym, 882-6892 or 882-4021.

DR. NEVITT SANFORD, psychologist and educator, of international renown, will speak at a buffet banquet Monday March 26, in the large ballroom of the Memorial Union. The 6:30 p.m. affair is sponsored by scholastic honorary Kappa Delta Pi and is open to all interested persons. Tickets at \$3 each are in Room 208 Hill Hall. Reservations may be made by calling 882-4027.

Sanford is visiting the campus primarily to meet with scholars working in his area of interest. He was professor of psychology and education director for the Institute for Study of Human Problems at Stanford University from 1961-70. He is currently researching and writing in academic culture and the teacher's development. He is author of "The Authoritarian Personality," "Self and Society," and "Where College Fail." He also directed and edited "The American College."

DR. HAROLD M. ROSE, chairman of urban affairs, University of Wisconsin-Milwaukee, will be on campus March 29. He will deliver a public lecture and hold a seminar on Black Suburbanization and research on Black America. See calendar for details.

A UNIVERSITY ASSEMBLY LECTURE has been scheduled for March 29 at 3:40 p.m., in 1 Tucker Hall. Fred Stutinsky, who holds the doctor of medicine and the doctor of science degrees and is affiliated with the University of Louis Pasteur, Strasbourg, France, will speak on "The Posterior Lobe Hormones and Their Possible Participation in Stress Reactions." The lecture is sponsored by veterinary anatomy, dairy husbandry, romance languages and the division of biological sciences.

OCCUPATIONAL THERAPY will hold an open house from 2 to 5 p.m. Sunday April 1 on the fourth floor of McHaney Hall. Students will demonstrate the procedures and techniques therapists use to teach handicapped patients how to function in daily life. The event will also include exhibits and demonstrations of several crafts which therapists use to help patients regain the use of their muscles.

A UNIVERSITY ASSEMBLY LECTURE has been scheduled in connection with the 15th annual Missouri Conference on History to be held April 6-7. Lecturer is Robert G. Waite, of Williams College, who will speak on "Hitler's Sexual Abnormality: A Problem in

Psychobiography," at 8:30 p.m., in the Memorial Union Auditorium.

Those interested in attending the conference itself, which is being held at the Ramada Inn may get further details from Dr. Richard Kirkendall, 882-7265. There is an enrollment fee for the conference of \$2.50.

A SYMPOSIUM ON MATHEMATICAL BIOLOGY, sponsored by the Graduate School, the School of Medicine, mathematics and biological sciences, will be held April 5-6. The program will consist of five one-hour lectures and a panel discussion on the following topics: abstract cell models, mathematical models for enzyme cascades, electrical double layer theory and muscle contractions, exceptions to the competition exclusion principle, and dynamical aspects of morphogenesis. The panel will broadly discuss aspects of mathematics in the life sciences. Watch next week's calendar for speakers and details.

THE FIFTH ANNUAL STADLER GENETICS SYMPOSIUM has been scheduled for April 13-14. The symposium has gained world-wide stature in its short history. The registration fee for UMC faculty, staff and students is waived so that as much local participation as possible can occur. April 13 will be highlighted by discussion groups on five genetics topics: recombination, transformation, immunogenetics, subcellular genetics and social aspects of genetics. An evening talk will be on "Eugenics Revisited: The Case of Germinal Choice." On April 14 topics will include "Tryptophan Photoproduct as a Biological Probe," "The Genetics, Evolution and Expression of Antibody Molecules," "Uptake of DNA by Bacteria and Eukaryotes," "Studies of Recombination in Yeast," "Genetic Unity and Biochemical Diversity in Genetic Recombination Mechanisms," "Membranes and Mutations in *Chlamydomonas reinhardtii*," and "Judges, Genes and Man." Watch for speakers and specific times of talks in forthcoming Bulletins-in-Brief.

INTERESTED FACULTY are invited to the 2 p.m. April 13 reading of student papers in competition for the \$100 prize sponsored by the American Society for Microbiology meeting at the Holiday Inn East. The winner of the prize will be announced at a 7 p.m. banquet at the Inn April 14.

CALENDAR

- March 23, University Theatre presents a children's play, "The King and the Cup,"
24: 4:30, 7 p.m. Friday and 10 a.m., 1 and 3 p.m. Saturday. Tickets 50¢
at University Theatre box office.
- March 25: Collegium Musicum to perform, 3:30 p.m., First Baptist Church, Columbia.
(originally scheduled for Recital Hall, Fine Arts Building)
- March 25-30: College of Administration and Public Affairs Week
- March 25: South Asia Program Series: Martha Ashton, Chicago, will present a slide,
lecture and dance demonstration on Yakshagana, the South India folk-dance
drama, 2 p.m., Daniel Boone Regional Library.

- March 26: Biometerology Colloquium: Dr. William Lowry, University of Illinois, to speak on "Urban Influences on Climate," 9:10 a.m., Memorial Union Auditorium. Sponsored by the Graduate School, atmospheric science, and University Extension. 10:30: Dr. Frederick Sargent, School of Public Health, University of Texas, to speak on "Impact of Climate on Human Health," Memorial Union Auditorium. 1:15 p.m.: Dr. Theodore Bond, ARS-USDA, Clay Center Nebr., to speak on "Animal Production as Influenced by Climate Variability," Memorial Union Auditorium. 2:45 p.m.: Dr. Helmut Landsberg, University of Maryland, to speak on "Contributions of Biometerology Studies to Health," Memorial Union Auditorium.
- March 26: Dr. Nevitt Sanford, psychologist and educator, to speak at buffet banquet, 6:30 p.m., large ballroom, Memorial Union. Tickets, \$3, 208 Hill Hall. Reservations, 882-4027.
- March 26: Father Walter J. Ong, S.J., professor of English, St. Louis University, to speak on "Media and the Evolution of Consciousness," 7:30 p.m., Memorial Union Auditorium.
- March 26: Lectures in Language and Literature Series: M. Gilbert Porter, assistant professor of English, to speak on "Neo-Transcendentalism in the Contemporary American Novel," 8 p.m., Small Ballroom, Memorial Union. Coffee precedes at 7:30 p.m.
- March 26: University Concert Band to perform, 8:15 p.m., Jesse Auditorium.
- March 26: Dr. Ernest B. Brown Jr., department of physiology, University of Kansas Medical Center, to speak on "Potassium Metabolism and Acid-Base Regulation," 11:40 a.m., room M-437 Medical Sciences. Sponsored by the department of physiology.
- March 27: Arthur C. Clarke, co-author of "2001: A Space Odyssey," to speak on "Life in the Year 2001," 8 p.m., Jesse Auditorium.
- March 27: Nineteenth Century Studies Symposium: William V. Holtz, professor of English, to speak on "From Happy Valley to Walden Pond and Beyond: Johnson and Thoreau in a Modern View," 8 p.m., Electrical Engineering Auditorium.
- March 27: Records Seminar and Microfilm Exhibition, Hearnes Building.
- March 28: Nineteenth Century Studies Symposium: Merrill D. Peterson, Jefferson Foundation Professor at the University of Virginia, to speak on "From Jefferson to Emerson: The Question of Intellectual Transition," 8 p.m., Geology Auditorium.
- March 28: MSA Student Activities Classical Concert: Aeolian Chamber Players, 8 p.m., Jesse Auditorium.
- March 28: Faculty Vocal Recital: Robert Collett to perform, 8:15 p.m., Recital Hall, Fine Arts Building.
- March 28: Dr. Alice J. Burton, Saint Olaf College, Northfield, Minn., to speak on "The Structure and Replication of the Small Bacteriophages, ϕ R and ϕ X174," 2:40 p.m., 115 Tucker. Divisional Seminar.
- March 28: MSA Free Flick: "Knife in the Water," 7 p.m., Geology Auditorium.
- March 29: Dr. Larry L. Rockwood, department of zoology, University of Michigan, Ann Arbor, to speak on "Effects of Seasonality on the Ecology of Leaf Cutting Ants," 12:40 p.m., room 1 Tucker. Divisional seminar.

- March 29: University Assembly Lecture: Fred Stutinsky, doctor of medicine and science, affiliated with the University of Louis Pasteur, Strasbourg, France, to speak on "Posterior Lobe Hormones and Their Possible Participation in Stress Reactions," 3:40 p.m., 1 Tucker Hall. Sponsored by veterinary anatomy, dairy husbandry, romance languages and the division of biological sciences.
- March 29: Wildlife Ecology seminar: Kay Drobney to speak on "Mercury in Fish-Eating Birds," 3:40 p.m., 18 Tucker.
- March 29: Dr. Harold M. Rose, chairman, department of urban affairs, University of Wisconsin-Milwaukee, to speak on "Recent Trends in Black Suburbanization," 3:40 p.m., Geology Auditorium.
- March 29: Dr. Harold M. Rose, University of Wisconsin-Milwaukee, to conduct a seminar/colloquium on research on Black America, 8 p.m., McAlester 212.
- March 29: Nineteenth Century Studies Symposium: Osmund Overby, professor of art history and archaeology, to speak on "Jefferson and the Arts in America," 8 p.m., Ellis Library Auditorium.
- March 29: Medieval and Renaissance Studies Symposium: Claudia Kren, associate professor of history, and Charles G. Nauert Jr., professor of history, to speak on "The Medieval University: An Introduction," 8 p.m., 210 GCB.
- March 29-30: Stephens College Resident Dance Company to perform, 8:15 p.m., Auditorium
30: South Campus, Stephens College. Tickets, \$2.
- March 30: Biology 2 Movie of the Week: "What is a Cell?" and "Cell--Structural Unit of Life," 9:40-10:30 a.m., 322 Tucker.
- March 30: Gerald M. Friedman, professor of geology, Rensselaer Polytechnic Institute, and distinguished lecturer of the American Assn. of Petroleum Geologists, to speak on "Original and Secondary Pores in Sedimentary Reservoir Rocks: Relationship to Calcium Carbonate Cements," 3:40 p.m., 108 Geology.
- March 31: Open Rehearsal of St. Louis Symphony, 10 a.m., Jesse Auditorium.
- March 31: Rehearsal with half of St. Louis Symphony and the University Orchestra, 1:15 p.m., Jesse Auditorium.
- April 1: Original compositions by UMC students and faculty read by half of St. Louis Symphony, 10 a.m., Jesse Auditorium.
- April 1: Occupational Therapy Open House, 2-5 p.m., fourth floor McHaney Hall.
- April 1: St. Louis Symphony Matinee Concert, 3 p.m., Jesse Auditorium.
- April 1: MSA Concert: Paul Butterfield's Better Days band with guitarist Luther Allison, 7 p.m., Jesse Auditorium. Tickets \$3, \$3.50 and \$4 at Memorial Union ticket window.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 21

Office of the Provost for Academic Affairs

March 30, 1973

JEFFERSON DAY will be observed this year on April 13 with ceremonies in the foyer of Jesse Hall. Recipient of this year's \$1,000 award from the Robert Earll McConnell Foundation endowment is Ernest Manheim, professor of sociology at UMKC. Ceremonies will begin at 10:30 a.m. and faculty are encouraged to allow their interested students to attend.

TAP DAY will be observed April 18 with ceremonies beginning at 9:15 a.m. at the columns. If weather is bad, the event will be moved to Jesse Auditorium. Faculty are asked to dismiss their 8:40 classes at 9:15 and 9:40 classes are to be delayed until 9:55.

THE COLLEGE OF GENERAL STUDIES now has application for admission forms available. The forms may be picked up in 430 GCB and must be returned no later than April 12 for admission in the Fall. The program will enable students from diverse backgrounds to put together a personalized degree program. Further information about the program may be obtained from Dr. William Bondeson, director, 2-2871.

FRIENDS OF THE LIBRARY will hold its annual dinner meeting Saturday, April 14, at 6 p.m. in the Memorial Union. Bill Vaughan, well-known columnist, author and associate editor of the Kansas City Star will be the speaker for the evening. The dinner will cost \$3.75 per person and is open to all Friends and interested persons. Tickets may be obtained from Dr. Harry Butler, 103 Ellis Library, 882-4320.

THE MISSOURI CHAPTER of the American Assn. of Teachers of German will hold its annual conference Saturday, April 14. The theme of the conference will be "Reaching Students." Specific details will be given in next week's "Brief."

A UNIVERSITY ASSEMBLY LECTURE has been scheduled in connection with the 15th annual Missouri Conference on History to be held April 6-7. Lecturer is Robert G. Waite, of Williams College, who will speak on "Hitler's Sexual Abnormality: A Problem in Psychobiography," at 8:30 p.m. in the Memorial Union Auditorium April 6.

Those interested in attending the conference itself, which is being held at the Ramada Inn, may get further details from Dr. Richard Kirkendall, 882-7265. There is an enrollment fee for the conference of \$2.50.

A GENERAL FACULTY MEETING has been scheduled for April 12 at 3:40 p.m. in Jesse Auditorium. A main item on the agenda will be the vote on nominees to receive honorary degrees.

THE FIFTH ANNUAL STADLER GENETICS SYMPOSIUM has been scheduled for April 13-14. The registration fee for UMC faculty, staff and students is waived so that there will be as much local participation as possible. April 13 will be highlighted by discussion groups on five genetics topics: recombination, transformation, immunogenetics, subcellular genetics and social aspects of genetics. An evening talk will be on "Genetics Revisited: The Case for Germinal Choice." On April 14 topics will include "Tryptophan Photoproduct as a Biological Probe," "The Genetics, Evolution and Expression of Antibody Molecules," "Uptake of DNA by Bacteria and Eukaryotes," "Studies of Recombination in Yeast," "Genetic Unity and Biochemical Diversity in Genetic Recombination Mechanisms," "Membranes and Mutations in Chlamy-

domonas reinhardi," and Judges, Genes and Man." Watch for speakers and specific times of talks in the forthcoming "Brief."

INTERESTED FACULTY are invited to the 2 p.m. April 13 reading of student papers in competition for the \$100 prize sponsored by the American Society of Microbiology meeting at the Holiday Inn East. The winner of the prize will be announced at a 7 p.m. banquet at the Inn April 14.

GRADUATE SCHOOL AND RESEARCH NOTES

MULTIPLE SCLEROSIS RESEARCH--The National Advisory Commission on Multiple Sclerosis, charged with recommending the most effective means of finding the cause of and cures and treatments for multiple sclerosis, is soliciting plans for the conduct of the requisite research. Of particular interest would be plans indicating to what extent presently available technology could be utilized to produce through research more meaningful information than now available relating to the etiology, pathogenesis, natural history, prevention and therapy of and diagnostic methods for multiple sclerosis. Interested investigators are invited to request further information from: Dr. Harry M. Weaver, Executive Director, National Advisory Commission on Multiple Sclerosis, Building 31A, Room 8A34, National Institutes of Health, Bethesda, Md. 20014; phone: (301) 496-3523.

DoT RESEARCH PROJECTS--April 2 is the second deadline for the Department of Transportation University Research Program. Guidelines for the preparation of proposals are in the DoT publication CONTRACTS UNDER THE PROGRAM OF UNIVERSITY RESEARCH. Call Mrs. McQuary for a copy of these guidelines.

NATIONAL HIGHWAY INSTITUTE FELLOWSHIPS--Graduate engineers and individuals that have completed comparable levels of college work who are engaged in or are planning to enter professions in highway transportation and who wish to perform cross-disciplinary research may submit applications for the Federal Highway Administrations National Highway Institute fellowship program until April 2. Applications may be obtained from state highway departments. They should be completed and mailed to the Director, National Highway Institute, 400 7th St. S.W., Washington, D.C. 20590.

ETHICAL AND HUMAN VALUE RESEARCH--The National Endowment for the Humanities and the National Science Foundation have announced that they will sponsor proposals concerning the ethical and human value implications of science and technology. The two agencies said in a joint statement that they will consider "fresh approaches in support of scholarly activities in this field" on a selected and limited basis. The activities to be supported may include research and other forms of scholarly investigation, together with conferences, colloquia, seminars and similar activities. Proposals may be submitted to either the NEH or NSF, depending on their primary orientation. Inquiries should be directed to: Program of Science, Technology and Human Values, Office of Planning, National Endowment for the Humanities, Washington, D.C. 20506; or Ethical and Human Value Implications Program, National Science Foundation, Washington, D.C. 20550.

CALENDAR

- March 30: Stephens College Resident Dance Company to perform, 8:15 p.m., Auditorium South Campus, Stephens College. Tickets, \$2.
- March 31: MSA Student Activities "mystery trip" by University bus. Cost, \$1.50 each. Participants may sign up at the Memorial Union ticket window the day before the trip. Open to faculty, staff and students.
- March 31: Open Rehearsal of St. Louis Symphony, 10 a.m., Jesse Auditorium.
- March 31: Rehearsal with half of St. Louis Symphony and the University Orchestra, 1:15 p.m., Jesse Auditorium.

- April 1: Original compositions by UMC students and faculty read by half of St. Louis Symphony, 10 a.m., Jesse Auditorium.
- April 1: St. Louis Symphony Matinee Concert, 3 p.m., Jesse Auditorium.
- April 2: Howard Rasmussen, prof. of biochemistry, Univ. of Pennsylvania school of medicine, to speak on "Cellular Basis of Metabolic Bone Disease," 4 p.m., VA Hospital auditorium. Sponsored by VA Hospital, dept. of pediatrics and Mineral Club.
- April 2-7: Journalism Week.
- April 2-20: Stephens College Art Exhibit: Art in a Time-Space Dimension, sponsored by the Mo. State Council on the Arts, Davis Art Gallery, Stephens College.
- April 3: Drug Therapy, Medical Center. Sponsored by Office of Continuing Medical Education.
- April 3: A Course for Inservice Nursing Educators, Memorial Union. Sponsored by Office of Continuing Medical Education.
- April 3: Stephens Chamber Music group to perform, 8:15 p.m., Windsor Auditorium. Admission \$1.
- April 4: Nursing Management of Patient Care, Memorial Union. Sponsored by Office of Continuing Medical Education.
- April 4-7: Stephens College Playhouse Series: "Marat-Sade," 8:15 p.m., Stephens College Playhouse. Tickets, \$2.50.
- April 5: Medieval and Renaissance Studies Symposium: Nancy G. Siraisi, assistant prof. of history, Hunter College, to speak on "Medicine and the Arts in the Medieval University of Padua," 9:40 a.m., 113 A&S.
- April 5: David M. Kipnis, Washington Univ. medical school, St. Louis, to deliver the annual Perry Lecture, on recent studies in insulin secretion, 12 noon, VA Hospital auditorium. Public is invited.
- April 5: Symposium on Mathematical Biology: Robert Rosen, depts. of mathematics and biophysical sciences, SUNY-Buffalo, to speak on "Some Abstract Cell Models and Their Realizations," 3:40 p.m., 113 A&S. For further information contact S. Bernfeld, 882-8285.
- April 5: Medieval and Renaissance Symposium: Nancy G. Siraisi, Hunter College, to lead seminar, 3:40 p.m., S207 Memorial Union.
- April 5: Betty Friedan, author of "The Feminine Mystique" and founder and president of the National Organization for Women, to speak, 8 p.m., Jesse Auditorium. Sponsored by MSA Student Activities and Assn. of Women Students.
- April 5: Medieval and Renaissance Studies Symposium: James A. Weisheipl, prof. of philosophy, Pontifical Institute of Medieval Studies, Toronto, to speak on "The Faculty of Arts at Paris in Mid-Thirteenth Century," 8 p.m., 210 GCB.
- April 5-6: Astronomy Film: "The Flaming Sky," Thursday, 4 p.m.; Friday, 8 p.m., 126 Physics Bldg.
- April 6: Price Controls, Ramada Inn. Sponsored by Office of Continuing Medical Education.

- April 6: Symposium on Mathematical Biology: H. Tom Banks, division of applied mathematics, Brown Univ., to speak on "Mathematical Models for Enzyme Cascades," 9 a.m., S7 Memorial Union.
- April 6: Symposium on Mathematical Biology: David Shear, prof. of biochemistry, UMC, to speak on "Electrical Double Layer Theory and Muscle Contractions," 10:40 a.m., S7 Memorial Union.
- April 6: Symposium on Mathematical Biology: Arthur Koch, dept. of biological sciences, Indiana Univ., to speak on "Exceptions to the Competition Exclusion Principle," 1:30 p.m., 204 GCB.
- April 6: Sen. Thomas F. Eagleton to deliver first annual E.W. Tucker speech as the highlight of the Missouri High School and College Journalism Week, 2 p.m., Jesse Auditorium. Sponsored by the Mo. College Newspaper Assn. and Mo. Journalism Educators Assn.
- April 6: Symposium on Mathematical Biology: Robert Rosen to speak on "Dynamical Aspects of Morphogenesis," 3 p.m., 210 GCB.
- April 6: Medieval and Renaissance Studies Symposium: James K. McConica, prof. of history, Pontifical Institute, Toronto, to lead seminar, 3:40 p.m., S207 Memorial Union.
- April 6: Symposium on Mathematical Biology: A panel discussion concerned with various aspects of mathematics in the life sciences, 7:30 p.m., S7 Memorial Union.
- April 6: Public Telescope Observing Night, 8 p.m., 505 Physics Bldg., if weather is clear.
- April 6-7: Radiologic Technologists, Ramada Inn. Sponsored by Office of Continuing Medical Education.
- April 7: Medieval and Renaissance Studies Symposium: James K. McConica, Pontifical Institute, to discuss "The English Universities and the Crisis of Reformation," 9 a.m., 210 GCB.
- April 7: Medieval and Renaissance Studies Symposium: Profs. Siraisi, Weisheipl, McConica, Kren and Nauert, with Prof. Edzard Baumann, associate prof. of art history, presiding, to hold final session of symposium at 10:30 a.m., S207 Memorial Union.
- April 7: 17th Annual ROTC State-wide Drill Meet: Twenty-eight high school and college teams to participate. 12 noon, Fieldhouse, Hearnes Bldg. Public is invited.
- April 8: Anthropology Film Series: "Women Up in Arms," "Mexican Village in Transition-Tepoztlan," and "River People of Chad." Also, "The Ballad of Crowfoot," a unique portrayal of the American Indian and the injustices done to him by the government. 2 p.m., Memorial Union auditorium.
- April 8: South Asia Program Series: A panel discussion on the Indian Woman to be presented. Indian, Ceylonese and American women will be represented on the panel. 2 p.m., Daniel Boone Regional Library.
- April 8: Esterhazy Quartet to perform, 3:30 p.m., Fine Arts Bldg.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

BULLETIN

UNIVERSITY OF MISSOURI-COLUMBIA

IN BRIEF

Published by the
Vol. 2, No. 22 Office of the Provost for Academic Affairs April 4, 1973

For decades prior to the 1970s, faculty members taking assignment as department chairmen were guided by tradition and consensus, certainly without formal definition, in determining their functions and styles. Commencing two years ago, a ranging discussion of the missions and uses of departmental organization within the total university structure, participated in by faculty and administrative councils, has prefaced University President Ratchford's issuance of Executive Guideline No. 7, now circulated for the general guidance of the University community.

Clifton Cornwell
Provost for Academic Affairs

UNIVERSITY OF MISSOURI

EXECUTIVE GUIDELINE NO. 7

February 2, 1973

The President, under the authority delegated to him by the Board of Curators, does hereby establish the following Guidelines:

Department Chairmen

1. In those schools or colleges which have departments, that unit is or becomes the primary unit of education and administration within the University of Missouri. This statement is not intended to promote the creation of departments where the educational function is not served by such a change in the organizational pattern. The Department Chairman is in a position of great strategic importance because the department is the organizational unit closest to the day-to-day working of the University. He is the chief executive and academic officer of the department. He is responsible, within the Rules and Regulations of the University, the rules of the campus, and the rules of the college or school and department, for the effective and efficient administration of the department.

2. The Chairman is responsible for providing leadership toward the achievement of excellence in teaching, research, extension, and service activities of the department. He is responsible for representing the needs and aspirations of the department to the rest of the University. He is responsible to the Dean and also to his faculty for conducting the fiscal, academic, and personnel affairs of his department. He must diligently attempt to do these things in a manner that will make the most efficient and beneficial use of the resources available whether they be financial, physical, or human. He must develop, improve, and execute departmental policies and procedures in harmony with campus, school, or college and University policies. The Chairman will have such authority as is required to accomplish these responsibilities.

3. Chairmen are appointed by the respective chancellors upon the recommendation by the dean of the school or college after consultation with the departmental faculty. The term of office of a Chairman is specified by appointing authority. The appointment is subject to periodic review by the department faculty and the dean. Responsibilities of the Chairman are continuous throughout the year. The position of Chairman should be compensated in some manner and appropriate to the added responsibilities.

4. As principal executive officer of the department, the Chairman has a variety of planning and management functions, and should seek the counsel of his staff and delegate duties when possible. In addition, as a faculty member, he is expected to participate in the department's teaching, research, and extension activities. (See Appendix I.)

5. The position of Chairman carries financial obligations associated with the responsibilities of the office, in connection with travel, recruiting, providing for distinguished visitors, etc. Whenever possible, funds in a special account should be made available by the dean of the college or division to be used at the discretion of the dean within guidelines provided.

6. Departments may be provided with special administrative assistance to relieve the chairman from routine chores. Justification of this assistance should be based on such problems as large departmental hourly payrolls, complicated laboratory facilities, large student enrollments, extensive curatorial responsibilities, and major committee responsibilities of the staff.

APPENDIX I

Check List of Typical Activities of Departmental Chairman at the University of Missouri

The sole purpose of the following list is to aid chairmen and their assistants in organizing various departmental duties. This list is not intended to supersede general University guidelines for department chairmen. Further it is understood that this suggested list of responsibilities will involve appropriate faculty consultation and participation.

A. FISCAL. Prepare departmental budget requests. Supervise the expenditure of funds allocated to the department (or school) and the assignment of space, facilities, equipment, and supplies.

B. STAFF. Recruit, recommend for appointment, orient and evaluate faculty members, research associates and assistants, teaching associates and assistants, and other staff. Prepare recommendations for reappointments, promotions, changes of status, salary changes, leaves of absence, tenure, fellowships, associateships, and assistantships for the faculty and non-teaching staff. Promote the scholarly growth of the department through the presentation of speakers, initiation of new research, attendance of staff at scholarly meetings, etc.

C. TEACHING. Review and propose improvements in departmental (or school) curricula and courses, and plan for the future year-round needs and development of the department (or school). Provide supervision for Extension Division or Continuing Education classes, including approval of courses and instructors. Organize and assign teaching schedules for maximum effectiveness and efficiency. Improve the quality of teaching of both permanent staff and teaching assistants.

D. STUDENTS. Develop and supervise sound academic advising for students. Review applicants for admission to graduate studies in the department. Transmit grades of all students who have taken courses in the department to the Office of the Registrar.

E. MISCELLANEOUS. Work with the Director of Libraries on the improvement of the collection of books for teaching and research purposes. Maintain an acceptable public service. Answer general inquiries by students, staff, and the public in general. Respond to directives, requests, and questionnaires generated by committees, student groups, administrators, public organizations, and professional societies.

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 23 Office of the Provost for Academic Affairs April 6, 1973

A GENERAL FACULTY MEETING has been scheduled for April 12 at 3:40 p.m. in Jesse Auditorium. A main item on the agenda will be the vote on nominees to receive honorary degrees.

THREE MEDIEVAL MYSTERY PLAYS from the Wakefield Cycle will be performed at 8 p.m. in the large ballroom of the Memorial Union this Sunday, April 8. The dramas will be presented in the Middle English in which they were written. The performers are from the medieval drama production group of the Centre for Medieval Studies, University of Toronto, Canada. Currently on tour of the midwestern United States, the group is being sponsored here by the Graduate Students Assn. and the Renaissance Studies Committee of the Graduate School. The event is free and open to the public.

The three plays from the Wakefield Cycle will include the Caliphizacio, the Scourging and the Crucifixion.

THE UNIVERSITY CLUB will hold its regular luncheon meeting at noon April 10 in the Small Ballroom of the Memorial Union. Speaker will be Dr. Charles W. Gehrke, professor of agricultural chemistry, who has been heavily involved in research on the moon rock samples. He will speak on "A Look at the Moon." Election of Club officers will also be held. Reservations to Judy Devlin, 882-3721, by April 9. Price of the buffet luncheon is \$2 collected at the door. Members are encouraged to bring guests and spouses.

THE COLLEGE OF ADMINISTRATION AND PUBLIC AFFAIRS has announced that a new interdisciplinary Master of Science in Public Administration (MSPA) curriculum will be offered by the College beginning the fall semester of the '73-'74 academic year. Those who wish to prepare for professional administrative careers in the public service may obtain further information about the program from any UMC department office. Application forms are available from the office of the Director of the MSPA Program, 9 Middlebush Hall, 882-3382.

A NEW COURSE of wide general interest will be offered beginning this fall by the accountancy department. The course, Taxation of Individuals--Accountancy 103, will be a nontechnical examination of the structure and application of the major tax provisions which are of most concern to taxpayers. There are no prerequisites except for sophomore standing. It will be offered from 6:30 to 9 p.m. on Tuesday nights this fall. It has been designed to provide students in many fields with a viable elective as well as an understanding of the importance of personal tax planning. For more information on the course, call Michael Scanlan, 882-2840.

JEFFERSON DAY ceremonies will be held April 13 in the foyer of Jesse Hall at 10:30 a.m. Recipient of this year's award is Ernest Manheim, professor of sociology at UMKC. The "Brief" incorrectly announced the amount of the award as \$1,000; the amount is actually the income from a \$10,000 endowment from the Robert Earl McConnell Foundation--\$500.

Faculty are encouraged to allow interested students to attend the ceremonies.

TAP DAY ceremonies will begin at 9:15 a.m. at the columns on April 18. If weather is bad, the ceremonies will be moved to Jesse Auditorium. Faculty are asked to dismiss their 8:40 classes at 9:15 and 9:40 classes are to be delayed until 9:55.

A SPECIAL EASTER SUNDAY BUFFET is being planned at the Hawthorn Room in the Memorial Union. Serving hours are 11:30 a.m.-2:30 p.m. Cost is \$2.95 per person; \$1.50 for children nine years and under; three years and under are free.

An elaborate buffet menu includes:

Baked Ham with Burgundy Glaze, Spring Lamb with Mint Sauce, Roast Steamship Round of Beef-au jus, Baked Lemon Oregano Chicken.

Fresh Fruit Cup, Liver Pate, Apple Waldorf, Party Jello Mold, Zucchini & Tomato, Pimento Cheese Mold, Five Cup Salad, Brussel Sprouts Brantingham, Cauliflower Salad, Deviled Eggs, Tossed Green Salad, Carrot Ambrosia and others.

Parsleyed Boiled Potatoes, Cauliflower with Cheese Sauce, Peas & Mushrooms, Corn on the Cob, Candied Yams, Spinach Supreme, Rice Pilaf, Buttered Green Beans.

Butter Cream Easter Eggs, Bread Pudding with Lemon Sauce, Millionaire Pie, Blueberry Torte, Pineapple Upside Down Cake, Pecan Pie, and other assorted pies.

Assorted Rolls

Beverages

Meals include your selection of any of the above items. For reservations call 882-4235 by 10 a.m. Easter Sunday morning.

GOOD FRIDAY, APRIL 20, will be observed as a regular University holiday. All offices will be closed and all classes suspended. The recess will begin at 7:40 a.m. Friday; classes will resume at 7:40 a.m. Monday, April 23. All essential services will be maintained over the Easter vacation observance.

THE COLLEGE OF GENERAL STUDIES now has application for admission forms available. The forms may be picked up in 430 GCB and must be returned no later than April 12 for admission in the fall. The program will enable students from diverse backgrounds to put together a personalized degree program. Further information about the program may be obtained from William Bondeson, director, 882-2871.

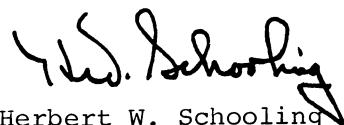

FRIENDS OF THE LIBRARY will hold its annual dinner meeting Saturday, April 14, at 6 p.m. in the Memorial Union. Bill Vaughan, well-known columnist, author, and associate editor of the Kansas City Star will be the speaker for the evening. The dinner will cost \$3.75 per person and is open to all Friends and interested persons. Tickets may be obtained from Dr. Harry Butler, 103 Ellis Library, 2-4320.

THE FIFTH ANNUAL STADLER GENETICS SYMPOSIUM has been scheduled for April 13-14. The registration fee for UMC faculty, staff and students is waived so that there will be as much local participation as possible. See calendar for lecturers and times of talks.

INTERESTED FACULTY are invited to the 2 p.m. April 13 reading of student papers in competition for the \$100 prize sponsored by the American Society of Microbiology meeting at the Holiday Inn East. The winner of the prize will be announced at a 7 p.m. banquet at the Inn April 14.

To the University Community

The week of April 7 through April 14, 1973, is hereby designated as ENGINEER'S WEEK. During that time, the University community will attend to the special achievements of the students and faculty and to the special qualities of the programs of this distinguished college.

Herbert W. Schooling
Chancellor

April 3, 1973

April 3, 1973

Dear Faculty Member:

During the past year, many changes have occurred in the Basic Instruction Program in Physical Education. It is hoped that you will make the following information available to students during advisement periods for the upcoming pre-enrollment week. Listed below are the more important items pertaining to the programs:

1. Physical Education is now completely voluntary. The Board of Curators regulation requiring four semesters of Physical Education for Freshmen and Sophomores was abolished last year. This has enabled the Department to improve the program, broaden its offerings, reduce the size of very large classes, and to improve services to faculty members of the entire University.
2. Elective credit is granted for Physical Education, in the same manner as any other course. Each division determines the amount of credit applicable toward its respective degrees, and the College of Education accepts four hours of Physical Education credit; Arts and Science two hours (with a maximum of one hour of enrollment during any given semester); Agriculture two hours; Forestry two hours; and Home Economics two hours. Other divisions have not yet taken official faculty action on the matter.
3. Students may enroll in Physical Education classes on an S/U basis, and no extra fee is charged. Equipment is furnished at no cost to students except in a few classes where expendable supplies are used. Most classes in the program are co-educational, and no prescribed uniform is required.
4. Any University student may enroll in Physical Education. A full listing of courses appears under Health and Physical Education in the College of Education section of the regular University Schedule of Courses for the Fall Semester.

It is sincerely hoped that you will bring this information to the attention of your students, and your assistance will be very much appreciated. Should you wish further information call 882-8321 or 882-7531.

Sincerely,

Paul C. Ritchie
Professor of Physical Education
Coordinator of Basic Instruction

CALENDAR

- Through
April 27: An exhibit of watercolor, lithography and intaglio art forms by James Devore, Ohio Northern Univ., in Stanley Hall Gallery. Gallery hours are 9 a.m.-3 p.m. Monday-Friday and 2:30-4:30 p.m. Sundays.
- April 4-6: Opera Production: "The Tender Land," 8:15 p.m., Hall Theatre.
- April 4-7;
10-14: Stephens College Playhouse Series: "Marat-Sade," 8:15 p.m., Stephens College Playhouse. Tickets, \$2.50.

- April 5-6: Astronomy Film: "The Flaming Sky," Thursday, 4 p.m.; Friday, 8 p.m., 126 Physics.
- April 6: Symposium on Mathematical Biology: A panel discussion concerned with various aspects of mathematics in the life sciences, 7:30 p.m., S7 Memorial Union.
- April 6: Larry Rottmann, a UMC graduate and co-founder of the 1st Casualty Press, to speak, 8 p.m., Allen Auditorium, A&S Bldg. The lecture, including readings of some of his published works, is sponsored by the Honor's College.
- April 6: Univ. Assembly Lecture: Robert G.L. Waite, Williams College, Williamstown, Mass., to speak on "Hitler's Sexual Abnormality: A Problem in Psychobiography," 8:30 p.m., Memorial Union Auditorium. Sponsored by the history department.
- April 7: Medieval and Renaissance Studies Symposium: James K. McConica, Pontifical Institute of Medieval Studies, Toronto, to discuss "The English Universities and the Crisis of Reformation," 9 a.m., 210 GCB.
- April 7: Medieval and Renaissance Studies Symposium: Profs. Siraisi, Weisheipl, McConica, Kren and Nauert, with Prof. Edzard Baumann, associate prof. of art history, presiding, to hold final session of symposium at 10:30 a.m., S207 Memorial Union.
- April 7: 17th Annual ROTC State-wide Drill Meet: Twenty-eight high school and college teams to participate. 12 noon, Fieldhouse, Hearn's Bldg. Public is invited.
- April 8: Anthropology Film Series: "Women Up in Arms," "Mexican Village in Transition-Tepoztlan," and "River People of Chad." Also, "The Ballad of Crowfoot," a unique portrayal of the American Indian and the injustices done to him by the government. 2 p.m., Memorial Union Auditorium.
- April 8: South Asia Program Series: A panel discussion on the Indian Woman to be presented. Indian, Ceylonese and American women will be represented on the panel. 2 p.m., Daniel Boone Regional Library.
- April 8: Medieval Mystery Plays from the Wakefield Cycle to be presented: The Caliphizacio, the Scourging, and the Crucifixion, 8 p.m., large ballroom, Memorial Union. To be presented in Middle English by the medieval drama production group of the Centre for Medieval Studies, University of Toronto, Canada. Sponsored by the Graduate Students Assn. and the Graduate School Committee for Medieval and Renaissance Studies.
- April 9: Irish poet James McAuley, dir. of the writing program at Eastern Washington State University, to read his poetry, 4 p.m., Ecumenical Center.
- April 9: University Concert Series: Erick Hawkins Dance Company, 8:15 p.m., Jesse Auditorium. Tickets, \$2.50 and \$3 at the Memorial Union ticket window.
- April 9-10: Cancer Nursing, Ramada Inn. Sponsored by the Office of Continuing Medical Education.
- April 10: Channel 8's "Perspectives": Dr. Mel Sheehan, director of athletics to discuss athletic programs, scholarships. 3:30 p.m.
- April 10: Chemical Engineering Seminar: R.M. Angus, associate prof. of chemical engineering, to speak on "Use of Cement Dust for Control of Stack-Gas SO_x," 3:40 p.m., 1066 Engineering Bldg.

- April 10: AHA and Classical Studies Lecture: Michael Eisman, Temple Univ., to speak on "Greek Trade in Italy During the Sixth Century, B.C.," 8 p.m., 120 Physics.
- April 10: New Arts Ensemble to perform 20th c. chamber music, 8:15 p.m., Jesse Auditorium. The concert is free and open to the public.
- April 11: Biological Sciences Seminar: Kenneth Olden, dept. of physiology, Harvard Medical School, to speak on "The Mechanisms and Control of Cell Envelope Assembly in Escherichia coli," 2:40 p.m., 115 Tucker.
- April 11-14;
18-21: University Theatre Production: "What the Butler Saw," 8:15 p.m., University Theatre, Fine Arts Bldg. Tickets, \$2. May be purchased in advance at the Fine Arts Box Office from 1-5 p.m., Monday-Friday. For further information call 882-2021.
- April 12: Mo. Psychological Assn. Meeting, Memorial Union.
- April 12: Biological Sciences Seminar: Steve Gourley, section of ecology and systematics, Cornell Univ., to speak on "Patterns in Population Structure: Demographic, Genetic and Spatial Attributes of Microtus Populations," 12:40 p.m., 1 Tucker.
- April 12: Special Genetics Seminar: Earl B. Patterson, dept. of agronomy, Univ. of Illinois, to speak on "The Use of Genic Male Sterility in Hybrid Corn Production," 2:40 p.m., 219 Curtis. Sponsored by division of biological sciences and dept. of agronomy.
- April 12: Seminar in Wildlife Ecology: Ron Hughey and Larry Houf to speak on "Effects of Antimycin A and Rotenone on Pond Communities in Mid-Missouri," 3:40 p.m., 18 Tucker.
- April 12: Education Day: Marvin D. English, National College of Education, Evanston, Ill., to speak on "Teach What to Whom?" 7 p.m., Middlebush Auditorium.
- April 12: Business-Journalism and Public Affairs Lecture: Raymond W. Lansford, prof. of finance, to speak on "Challenge of Real Estate Investments," 8 p.m., Neff Lounge. The lecture is free and open to the public.
- April 12: MSA Student Activities Concert: Bill Withers, 8 p.m., Brewer Fieldhouse. Tickets \$2.50 and \$3 at the Memorial Union ticket window. Co-sponsored by Legion of Black Collegians.
- April 12-15: Ice Capades, Hearnes Building. April 12, 8 p.m.; April 13, 8 p.m.; April 14, 2 p.m. and 8 p.m.; April 15, 2 p.m. Tickets at \$5, \$4, \$3 available March 26 at Hearnes east side box office (9-4:30, Mon.-Sat.). UMC students and those under 16 receive \$1.50 off any ticket for nights of April 12 and 13, and afternoon of April 14.
- April 13: Biology 2 Movie of the Week: "Diversity in Form and Size" and "Distribution of Plants and Animals," 9:40-10:30 a.m., 322 Tucker.
- April 13: Jefferson Day: Ceremonies will begin at 10:30 a.m. and faculty are encouraged to allow their interested students to attend.
- April 13: Reading of student papers in competition for the \$100 prize sponsored by the American Society of Microbiology, 2 p.m., Holiday Inn East.
- April 13: A discussion of academic tenure on "Perspectives," 3:30 p.m., Channel 8, KOMU-TV. Guests will include Chancellor Schooling, Dr. Owen Koeppe and Dr. Peter Cremer.
- April 13: Stadler Genetics Symposium: "Eugenics Revisited: The Case of Germinal Choice," Elof O. Carlson, State Univ. of New York, 4:30 p.m., 18 Tucker.

- April 13: Stephens College Arts Series: Mary Costa, soprano, to perform, 8:15 p.m., Stephens College Assembly Hall. Tickets, \$2.50-\$5.
- April 14: MSA Show-Me Trip to Kansas City. Cost, \$1.50. Participants must sign up at the Memorial Union ticket window. Open to faculty, staff and students.
- April 14: Stadler Genetics Symposium: "Tryptophan Photoproduct as a Biological Probe," A. Eisenstark, UMC, 8:30 a.m. "The Genetics, Evolution and Expression of Antibody Molecules," Lee Hood, California Institute of Technology, 9:15 a.m. "Uptake of DNA by Bacteria and Eukaryotes," A. Tomasz, Rockefeller Univ., 10:30 a.m. "Studies of Recombination in Yeast," H.L. Roman, Univ. of Washington, 1:30 p.m. "Genetic Unity and Biochemical Diversity in Genetic Recombination Mechanisms," R.D. Hotchkiss, Rockefeller Univ., 2:15 p.m. "Membranes and Mutations in Chlamydomonas reinhardi," R.P. Levine, Harvard Univ., 3:30 p.m. All lectures in Memorial Union Auditorium.
- April 14: German Teachers Conference: "Creativity and Imagination: The Cooperative Adventure in the Teaching of German," Paul A. Garcia, Kansas City Kansas Community Junior College, 10:10 a.m. "Learning from Students," a panel of graduate assistants: Margarete Dorsch, Christina Mulloy, Michael D. Robinson, Lucien Wagner and others, 11:30 a.m. "Die Literature im Unterricht," Der Leseplan fur Advanced Placement Examination, A.F. Goessl, UMSL; Die Kurzgeschichte im Unterricht, Dorothea Brusckke, Washington Univ.; Eine Novelle im Unterricht, Rolf Mueller, UMSL, 2:15 p.m. All sessions in 204 GCB.
- April 14: Humorist Bill Vaughan of the Kansas City Star to speak, 6 p.m., Memorial Union. For ticket information contact Dr. Harry Butler, Room 103, Ellis Library, 882-4320. Sponsored by Friends of the Library.
- April 14: Stadler Genetics Symposium: R.L. Hodges, prof. of forensic medicine, to speak on "Judges, Genes and Man," 6:30 p.m., Ramada Inn.
- April 18: Tap Day: 9:15 a.m. at the columns. If weather is bad, the event will be moved to Jesse Auditorium. Faculty are asked to dismiss 8:40 classes at 9:15; 9:40 classes are to be delayed until 9:55.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 24 Office of the Provost for Academic Affairs April 19, 1973

April 17, 1973

To: University of Missouri-Columbia Faculty
From: William M. Jones, Chairman, Library Committee
Subject: Current Library Funds

Although there are many areas that could be improved at the University of Missouri-Columbia, at the moment the University Library budget is one that has already improved immensely. This budget year has seen a significant gain in book purchase allocations. The local and University-wide administration worked together to obtain an increase for this campus' library of \$250,000 a year more than had been allotted in 1971-72. This allotment, provided this year, is expected to become a regular addition to each future annual budget. During the past year, when it became obvious that there would be a few surplus funds in various campus accounts, these were added to the Library budget, so that \$50,000 above the regular annual allotment was provided for 1971-72.

This fall I sent a letter of explanation about the current increased availability of funds to all departmental library representatives and to department chairmen. This information should have been made available to the members of each department. For those who have not yet received this information through normal channels, parts of the letter are quoted again here:

"The budget for purchases under the Abel Approval Plan have been increased this year to \$100,000 and should provide larger coverage than last year. Books ordered from slips will be charged to a departmental book fund after the departmental library representative has approved the selection.

In addition to the regular allocations, the Committee has a Special Purchases Fund from which departments can draw to purchase materials other than current ones. Requests for orders from this Special Purchases Fund will be reviewed each semester by the Committee."

The area where the UMC library is still somewhat lacking is in staff positions, but the newly appointed director is being encouraged to draft recommendations to cover this shortage. Next year should see significant progress here, too. The UMC library system has been recognized by administration, faculty, Board, and legislature as a high priority area that must be maintained as a generally essential research tool. Fortunately, all those connected with the University have so far agreed about the value of our library and have done a great deal to support it.

NAMED TO HONORARY MEMBERSHIPS in Tap Day activities Wednesday were three faculty members and a member of the Board of Curators. Willard L. Eckhardt, dean of the School of Law, was named to membership in Mystical Seven, while Joan Krauskopf, professor of law, was initiated into LSV. H. Clyde Wilson, professor of anthropology, became a member of QEBH as did Howard Woods, Board of Curators member from St. Louis.

MEREA WILLIAMS, associate professor of business education, has been cited for her outstanding contribution to the education of women by the Alumnae Anniversary Fund Committee of UMC. As recipient, she will receive \$500 and a citation at a reception in her honor April 24. The reception will be from 3:30 to 5 p.m. in the Faculty-Alumni Lounge, Memorial Union. Prof. Williams helped organize the original "Commercial teacher" program here. In 1968, the program became the business education service area in the department of practical arts and vocational-technical education, College of Education.

GRADUATE SCHOOL AND RESEARCH NOTES

LEADERSHIP DEVELOPMENT--Application forms for National Science Foundation grants to institutions for Leadership Development Projects will be available soon. The purpose of the program is to improve instruction of science and mathematics in secondary school by providing experienced secondary school teachers and supervisors an opportunity to undertake full time study focused on curriculum modification, adaptation and implementation, field experience, etc., while on leave from their regular classroom duties. Institutions which offer formal classwork, seminars, etc., appropriate for the development of leadership competency in the field are eligible to apply for grants to conduct the projects. The deadline for receipt of proposals is June 1. Further information and forms may be obtained from: Div. of Pre-College Education in Science, National Science Foundation, Washington, D. C. 20550.

PUBLIC UNDERSTANDING OF SCIENCE--The National Science Foundation will consider providing financial support for special programs of community service designed to improve public understanding of sciences which will serve specific audiences or communities. Additional information about the program is contained in the booklet "Public Understanding of Science." Copies may be obtained from: Office of Public Understanding of Science, National Science Foundation, Washington, D. C. 20550. Proposals may be submitted at any time.

LEAD TOXICITY--The Food and Drug Administration of HEW is interested in conducting a study to compare the toxicity of lead found in oyster tissue from marine pollution with that of lead from a simple compound such as lead acetate. The overall objective of the program is toxicological studies to obtain analytical data on the bioavailability of lead in shellfish by comparing the biological effects of feeding lead incorporated into the tissues of oysters with that of lead acetate fed to young male rats. Requests for proposal forms may be obtained by contacting the Dept. of Health, Education and Welfare, Public Health Service, Food and Drug Administration, CA-270, 5600 Fishers Lane, Rockville, Md. 20852.

PESTICIDE DISPOSAL--Organizations interested in conducting a study to determine whether sewage sludge incinerators offer a feasible and environmentally acceptable way to dispose of excess organic pesticides should contact the Environmental Protection Agency. The results of the study would be used as a basis for policy and technical guidance on safe disposal of excess chemicals. Request for proposal form WA 73X394 may be obtained by contacting the Environmental Protection Agency, Headquarters, Contract Operations, Special Projects, Procurement Section, Washington, D. C. 20460. Completed forms must be returned by May 4.

JOHNSON FUND--A \$15 million program to improve emergency medical assistance in the nation was announced jointly by the Robert Wood Johnson Foundation and the National Academy of Sciences. The foundation will provide individual grants ranging from \$200,000 to \$400,000 to support approximately 50 regional two-year projects. The Academy will receive and review grant applications for the Foundation. The purpose of the program is to improve methods of getting prompt and effective treatment for persons who have suffered heart attacks, who have been

injured in accidents, or who face other medical emergencies. The foundation has indicated that grants will be made to county and city governments, regional hospitals or hospital consortia, and organizations composed of multiple memberships, such as hospitals, emergency ambulance services, etc. Foundation funds are to be used for start-up and development costs, professional training, and in educating citizens in the use of the new systems. The programs are required to become self-sufficient after two years. Applicants must notify the Foundation by June 1 of intent to submit proposals. The deadline for completed applications is Aug. 1.

LBJ FOUNDATION--The Lyndon Baines Johnson Foundation has announced a program of grants to aid research in the Lyndon Baines Johnson Library. Initial stipends for predoctoral research will be funded at \$300 per month. Special grants for short-term specific projects will be included in the project. The first awards will be made May 1 for use this summer. Application for 1974 grants will be received until January 1974. Applications should be addressed to Harry Middleton, Director, Lyndon Baines Johnson Library, Austin, Texas 78705.

CALENDAR

- April 19: Dean Burnell W. Kingrey, School of Vet. Medicine, to discuss the Equine Center on "Perspectives," Channel 8, 3:30 p.m.
- April 19: Business Journalism and Public Affairs Lecture Series: Stanley B. Botner, visiting asst. prof. of political science, to discuss "How the City and County Budget Their Funds," 8 p.m., Neff Lounge.
- April 19: The Carpenters to perform at Hearnes Auditorium, 8 p.m. Tickets now on sale at the Memorial Union and Hearnes ticket windows. Prices are \$3.50, \$4, and \$4.50.
- April 19-21: University Theatre Production: "What the Butler Saw," 8:15 p.m., University Theatre, Fine Arts Bldg. Tickets, \$2. May be purchased in advance at the Fine Arts Box Office from 1-5 p.m., Monday-Friday. For further information call 882-2021.
- April 19-27: Student Art Show, Fine Arts Gallery. Hours are 9 a.m.-3 p.m. Monday-Friday and 2-4 p.m. Sundays.
- April 22: University Singers to perform, 3 p.m., Jesse Auditorium.
- April 22: MSA Student Activities Free Flick: "Straw Dogs," 5:30 and 8:30 p.m., Jesse Auditorium.
- April 23: AHA and Classical Studies Lecture: William Biers, assoc. prof. of archaeology, to speak on "Recent Excavations at Philus," 8 p.m., 120 Physics.
- April 23-
May 11: Stephens College Student Art Show, Davis Art Gallery, Stephens College.
- April 24: UMC theater representatives to present skits from the national winners of one-act plays on "Perspectives," Channel 8, 3:30 p.m.
- April 24: Chemical Engineering Seminar: Hann-Sheng Huang, UMC, to speak on "P-V-T Behavior of Pure Liquids at Negative Pressures," 3:40 p.m., 1066 Engineering.
- April 24: Faculty Bassoon Recital, Barbara Wood to perform, 8:15 p.m., Recital Hall, Fine Arts Bldg.
- April 24: University Choral Groups to perform, 8:15 p.m., Jesse Auditorium.
- April 25: Joe Adams, area agronomy specialist, Cooper Co. Extension Center, Boonville, to discuss preparing the lawn and flowers for spring, on "Perspectives," Channel 8, 3:30 p.m.

- April 25: MSA Student Activities Free Flick: "Once Upon a Time in the Old West," 7 p.m., Geology Auditorium.
- April 25: Student Activities Speakers: Drs. Lamberti and Ross to speak on "Vasectomy: A Stitch in Time Saves Nine," 7:30 p.m., Library Auditorium.
- April 25-26: Administrator in Training Conference, Medical Center. Sponsored by the Office of Continuing Medical Education.
- April 25-27: Theory and Applications of Fault-Tolerant Computing and Automatic Fault Diagnosis, Memorial Union. Sponsored by the College of Engineering.
- April 26: University Assembly Lecture: James E. Sorenson, prof. of accounting and quantitative methods, Univ. of Denver, to speak on "Teaching the Behavioral Dimension of Accounting: What and How," 2:40 p.m., S203 Memorial Union. The lecture is part of the DR Scott Lectures in Accountancy series. All interested persons are invited.
- April 26: Business Journalism and Public Affairs Lecture Series: James Treischmann, asst. prof. of finance, to speak on "On Matters of Insurance," 4 p.m., 11 Walter Williams. Free and open to the public.
- April 26: Special Topics in Biochemistry: Yale J. Topper, chief, section on Intermediary Metabolism, National Institute for Arthritis and Metabolic Diseases, National Institutes of Health, to speak on "Hormone Dependent Differentiation of Mammary Gland Epithelial Cells in vitro," 4 p.m., Medical Center Auditorium.
- April 26: University Woodwind Quintet to perform, 8:15 p.m., Recital Hall, Fine Arts Bldg.
- April 26-27: Stephens College Dance Company to perform, 8:15 p.m. Auditorium, South Campus, Stephens College. Tickets, \$2.
- April 26-28: Emergency Medical Training Conference, Medical Center. Sponsored by the Office of Continuing Medical Education.
- April 27: University Assembly Lecture: C.D. Michener, professor of entomology, Univ. of Kansas, to speak on "The Nature and Impact of the Brazilian Honey Bee," 2:40 p.m., 2-16 Agriculture.
- April 27: Tom Donohoo, Experiment Station photographer, to discuss the hobby of photography on "Perspectives," Channel 8, 3:30 p.m.
- April 27-28: Obstetrics, Gynecology, Newborn Conference, Medical Center. Sponsored by the Office of Continuing Medical Education.
- April 27-28: MSA Student Activities Coffeehouse: Rodney and Donivan, 8 p.m., Gentry Hall.
- April 27-28: Original One-Act Play Contest, 8:15 p.m., University Theatre.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 25 Office of the Provost for Academic Affairs April 27, 1973

STATEMENT REGARDING SELECTION PROCEDURES
FOR HONORARY DEGREES
UNIVERSITY OF MISSOURI

Irvin Fane, President
Board of Curators

It has been a proud tradition at the University of Missouri, and at most other colleges and universities across the land, to award honorary degrees to persons of high distinction by virtue of their contributions to the University, the state, the nation, or in their chosen career or profession.

In the selection of recipients of honorary degrees, it has long been the custom of the Board formally to approve the names of the individuals selected. The Board is proud to participate in this process and takes its prerogative very seriously and conscientiously.

While with many Board decisions there are split votes, the Board feels that in dealing with honorary degree candidates there is need for unanimous agreement. I personally feel that such honors are meaningful only if they reflect the support and recognition of the entire University community. Certainly the prestige and dignity of an honorary degree would not be enhanced in the eyes of the recipient to know that the individual received such an honor by a split vote of the faculty, the administration or the Board of Curators.

In order to insure that this matter is handled in an adroit way, a procedure has been followed over the years providing for an informal review by the Board prior to any official action taken by the faculty and the Board. In the process of the informal review no votes were taken, but there has been an understanding that if there were any objections to any names on the list, recommendations for such candidates were withdrawn. To my knowledge this system has worked satisfactorily in the past.

In the light of the recent faculty concern over the Board's involvement in the honorary degree-granting process, I want to emphasize that the Board is extremely interested in having an opportunity to develop the proper mechanism for awarding honorary degrees if the present system is deemed unworkable. I would be more than pleased, therefore, to recommend that the Academic Affairs Committee of the Board meet with representatives of the Intercampus Faculty Council or a committee designated by the Council to review the procedures for selecting persons judged worthy of an honorary degree from the University of Missouri. Such a group might, among other things, look into how other institutions pursue this matter. While I believe that the recommendation of honorary degree candidates should be primarily the responsibility of the faculty, it must also be clear that the final authority to grant degrees rests with the Board.

(continued on next page)

Finally, I want to emphasize that whatever procedures are used, it is apparent from recent experience that in the approval of honorary degree candidates we must avoid any action which might cause public embarrassment to the potential honorees or to the University. Public embarrassment is the direct opposite of the objective of awarding honorary degrees. I hope, therefore, that some action can be taken to avoid future problems in this area and that workable guidelines can be developed.

SUMMER SESSION PAY SCHEDULE--Faculty members with summer appointments for the regular eight-week summer session of June 11 through Aug. 3 will be paid in two equal installments on July 6 and Aug. 3.

A summer appointment for dates other than those mentioned will be pro-rated by dividing the total salary by the months indicated in the period of the appointment; and the compensation made will be added to regular salary checks issued on the first of the month.

LYLE CAMPBELL, assistant professor of anthropology, has received a Fulbright-Hays lectureship in linguistics at the University of Helsinki, Finland. Campbell, who also serves as research associate in the Center for Research in Social Behavior, will begin his four-month lectureship Sept. 1.

A UNIVERSITY ASSEMBLY LECTURE will be delivered by Prof. Egon Schwarz of Washington University, St. Louis. He will discuss "Cultural Antipodes: Jews and Anti-Semites in Vienna Around 1900." Sponsored by the department of Germanic and Slavic languages, the lecture will be at 7:30 p.m., in 204 GCB on May 2.

CALENDAR

- April 27: Public Telescope Viewing, 9 p.m., 126 Physics, if weather is clear.
- April 29: University Singers to perform, 3 p.m., Jesse Auditorium.
- April 29: MSA Student Activities Free Flick: "The Good, the Bad, and the Ugly," 5:30 & 8:30 p.m., Jesse Auditorium.
- April 29: Collegium Musicum to perform, 8 p.m., First Baptist Church.
- April 29-
May 2: Mid-America Conference on Regionalism, Ramada Inn. Sponsored by the School of Social and Community Services.
- April 30: School of Forestry Seminar: Gary A. Ritchie, Ph.D., ecologist, Environmental Resources Branch, U.S. Army Corps of Engineers, Buffalo, N.Y. Dist., to speak on "The Corps of Engineers and Environmental Impact Statements," 2:30 p.m., 2-6 Agri. Bldg. Ritchie will also speak on "Economics, Engineering and Environment: Three Case Histories of Recent Corps of Engineers Projects," 7 p.m., 18 Tucker.
- April 30: Lectures in Language and Literature Series: Reuben A. Brower, prof. of English, Harvard Univ., to speak on "From 'The Iliad' to the Novel via 'The Rape of the Lock,'" 8 p.m., small ballroom, Memorial Union. Coffee precedes at 7:30 p.m.
- April 30: New York String Sextet to perform, 8:15 p.m., Jesse Auditorium. Sponsored by MSA Student Activities.
- May 1: Dr. Gary Smith, director of admissions and registrar, and Dr. Larry David, director of the Engineering Transfer Program, to discuss problems of transfer of college credits on "Perspectives," Channel 8, 3:30 p.m.
- May 1: Sigma Xi Research Lectureship: Dr. Garrett Hardin, U-Cal, Santa Barbara, to speak on "Abortion, Contraception and Ethics," 8 p.m. 126 Physics.
- May 1: University Concert Band to perform, 8:15 p.m., Jesse Auditorium.
- May 2: University Assembly Lecture: A.G. Frederickson, prof. of chemical engineering, Univ. of Minnesota, to speak on "Dynamics of Interacting Microbial Populations," 2:40 p.m., 1066 Engineering.
- May 2: University Assembly Lecture: Prof. Egon Schwarz, Washington University, St. Louis, to speak on "Cultural Antipodes: Jews and Antisemites in Vienna Around 1900," 7:30 p.m., 204 GCB. Sponsored by the dept. of germanic and slavic languages.
- May 2-5;
8-12: Stephens College Playhouse presents "Anything Goes," by Cole Porter. 8:15 p.m., Stephens College Playhouse. Tickets \$2.50.
- May 4: Faculty Piano Recital, Bonnie Bromberg to perform, 8:15 p.m., Recital Hall, Fine Arts Bldg.
- May 4: University Chorus to perform, 8:15 p.m., Jesse Auditorium.
- May 4: Public Telescope Viewing, 9 p.m., 126 Physics, if weather is clear.
- May 4: The University Chorus to perform "Years Prophetic," a contemporary composition for chorus, and "The Conversion of St. Paul," Part I from the oratorio "Paulus," by Felix Mendelssohn, 8:15 p.m., Jesse Auditorium.

- May 4-6: MSA Student Activities to sponsor a chartered bus trip to the Kentucky Derby. Cost is \$14 which includes transportation, lodging and Derby admittance. Participants will be required to bring their own sleeping bags; lodging will be at the Red Barn, Louisville, Ky. Tickets at Memorial Union ticket window until May 1.
- May 5: MSA Student Activities Saturday Trip: Hannibal. Transportation by University bus. Tickets \$1.50. Sign up at the Memorial Union ticket window by the day before the trip.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 1, No. 26 Office of the Provost for Academic Affairs May 4, 1973

C. EDMUND MARSHALL, retiring professor of soils recently named to emeritus status, will be the guest of honor at a retirement dinner at 6 p.m. May 8 in the Memorial Union. Tickets are \$4 from Dr. E. R. Graham, professor of agronomy, 882-7527.

A RED CROSS BLOOD DRIVE has been scheduled for May 22 from noon to 5:30 p.m. in the MMMHC gymnasium. The Medical Center uses about 7,000 units of blood each year. Currently 90 per cent is supplied from the regional blood center in St. Louis.

DURING A CAMPUS TOUR for wives of visiting legislators recently, Lloyd Berry, dean of the Graduate School, mentioned a number of statistics regarding the University: For the period 1968-71, Missouri ranked first in number of Masters degrees produced and second in number of Ph.Ds produced among Big 8 schools. For FY 1970, among Big 8 schools, Missouri ranked second in total Federal dollars received and dollars received for research and development. Among all Big 8 and Big 10 schools, Missouri ranked seventh in total Federal dollars received, ahead of such schools as Indiana, Purdue, Michigan State, Iowa, and Northwestern.

CALENDAR

- May 4: "Wildlife in Alaska," a program of wildlife and nature slides, 8 p.m., main gallery, Columbia Art League. Sponsored by Mid-Missouri Camera Club.
- May 4: University Chorus to perform, 8:15 p.m., Jesse Auditorium.
- May 4: Faculty Piano Recital, Bonnie Bromberg to perform, 8:15 p.m., Recital Hall, Fine Arts Bldg.
- May 4: Public Telescope Viewing, 9 p.m., 126 Physics, if weather is clear.
- May 4-5: Allt i Gamni, an Icelandic folk group, to give free concerts, 8 p.m., in the area between Read and Gentry Halls. Sponsored by MSA Student Activities.
- May 5: Art Fair: Broadway between 9th & 10th Streets will be transformed into an art mall for the display and sale of paintings, ceramics and crafts. 9 a.m.-5 p.m. Sponsored by Columbia Art League.
- May 5: MSA Student Activities Concert: Bobby Bryant, lead trumpeter with the West Coast NBC orchestra, to perform with the UMC stage and studio bands, 7:30 p.m., Jesse Auditorium. Tickets \$2 at Memorial Union ticket window. Co-sponsored by Legion of Black Collegians. Also, open rehearsal, 5 p.m.
- May 5: MSA Student Activities Show Me Trip to Hannibal has been cancelled due to flood conditions.

- May 6: Point-to-point Orienteering Competition, 2 p.m., Rock Bridge Park (meet at the south end of Bearfield Road). For more information or to register contact Marge Meredith, 113 Women's Gym, 2-4016. Sponsored by dept. of health and physical education.
- May 6: MSA Student Activities Concert: Rory Gallagher and Deep Purple to perform, 8 p.m., Hearnes Bldg. Tickets now on sale at Memorial Union and Hearnes ticket windows, \$3.50-4.50.
- May 6-18: Frank Stack, asst. prof. of art, to show paintings and etchings at the Columbia Art League, 12 N. 10th Street.
- May 7: Robert W. Paterson, CAPA dean, to discuss the impact of business on government on "Perspectives," Channel 8, 3:30 p.m.
- May 8: Ralph H. Parker, dean of the School of Library and Information Science, to discuss libraries' storage of information on "Perspectives," Channel 8, 3:30 p.m.
- May 9: Bob Woods, dean of the College of Education, and Charles Sneethen, director of the University Lab School, to discuss the impact of phasing out the secondary portion of the Lab School on "Perspectives," Channel 8, 3:30 p.m.
- May 10: Dr. William Gaunt, assoc. prof. of medicine, Medical Center, to speak on the causes of and treatments for arthritis on "Perspectives," Channel 8, 3:30 p.m.
- May 11: Charles Koelling, director of Continuing Education; Dr. Carl Fehrle, prof. of education; and Wally Richter, director of public information of the Mo. Bar Assn., to discuss a current program on educating citizens on their rights and responsibilities relating to citizenship and the law on "Perspectives," Channel 8, 3:30 p.m.
- May 11: Public Telescope Viewing, 9 p.m., 126 Physics, if weather is clear.
- May 22: A Red Cross blood drive to be held from 12-5:30 p.m. in Mid-Missouri Health Center Gym. Donations are welcome from anyone in Boone County.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 27 Office of the Provost for Academic Affairs May 25, 1973

REGULAR REGISTRATION for the summer session will be held from 8-5 June 11 in Rothwell Gym. The summer orientation program for the fall semester, involving freshmen and transfer students, has been scheduled for June 18-July 13. Fifteen two-day sessions will be held.

THE 370/165 COMPUTER and the input/output facility in 1 Math Sciences will remain in operation over the Memorial Day holiday on May 28. Offices and other input/output facilities of the campus computer centers and the central facility will be closed.

Dr. Vearl McBride, nationally known for his techniques in the teaching of rapid reading, will conduct a two-week course at UMC beginning Tuesday, May 29. Dr. McBride is a professor of education at Culver-Stockton College where some of his students have achieved reading speeds of 50,000 words per minute. His course at UMC--to meet on a Monday through Saturday basis in the Learning Laboratory in the Arts and Science Building--is open to anyone interested, including children. Blind persons may also be taught speed reading in braille at the same time sighted persons are receiving instruction. Fee for the course is \$125. More information may be secured by contacting Gail Christensen at 882-2858.

GRADUATE SCHOOL AND RESEARCH NOTES

NSF BICENTENNIAL GRANTS--NSF has received \$200,000 from the American Revolution Bicentennial Commission. The funds are to be awarded as grants to organizations planning Bicentennial activities which emphasize the role of science and technology in the nation's past, present and future. Recipients must match the awards with non-Federal funds. The NSF program will give special attention to the future, but will consider projects dealing with the past and present also. Objectives for NSF projects are the strengthening of science and the public's understanding of it.

Projects must be operational during, or before 1976 and projects which give special consideration to youth, minority or ethnic groups are encouraged. Events in the Bicentennial must involve local, state, or regional leadership and, where possible, having a continuing value and use after the celebration. Examples of projects which may be eligible for support under the NSF program are the planning and development of exhibits, scholarly works, motion picture and television presentations, radio broadcasts, conferences, colloquia, seminars, curricular support activities at levels of education including adult programs and research which may serve the objectives of the program.

A faculty member interested in receiving funds for a project idea should contact the Graduate School Research Administration Office, 882-6311.

HUMANITIES SENIOR FELLOWSHIPS--Applications are due by June 18 for the Senior Fellowship program sponsored by the National Endowment for the Humanities. Senior fellowships are intended for persons who already have considerable experience as scholars, teachers, writers, or interpreters of the humanities, and who have produced significant work. Its purpose is to help them progress in their research and further develop their abilities. The work undertaken during the fellowship period may be study or research within the applicant's spec-

ial interest or it may be study in some other field that will help the applicant better understand his own field, enlarge his competence, and become a more broadly informed humanist. Tenure of a fellowship is 6-12 months, with a stipend of \$1500 per month maximum. Fellows must devote full time to their fellowship study, and may not hold other major fellowships or grants during tenure, other than a sabbatical from their institution. For application forms write: Division of Fellowships, National Endowment for the Humanities, 806 15th Street, N.W., Washington, D. C. 20506.

NSF DOCTORAL DISSERTATION GRANTS--The National Science Foundation has issued guidelines for preparing proposals for its environmental sciences doctoral dissertation grant program. Applications for the program may be submitted at any time. Funds awarded under a grant may be used for travel to specialized libraries, museums, or field research locations; sample survey costs; costs of specialized equipment; purchase of computer time only; purchase of microfilm and other forms of data; and for field research expenses. Mrs. McQuary in the Graduate Office has the guidelines.

NATIONAL PORTRAIT GALLERY TRAINING FELLOWSHIP--The National Portrait Gallery offers two one-year \$7500 training fellowships to students who have completed or will complete a Master's Degree program or its equivalent in history by Aug. 31. These fellowships have been made possible by a grant from the National Endowment for the Humanities. Interns will participate in a museum program designed to acquaint them with the uses of objects as historical documents and to expose them to the procedures and techniques required for museum-related careers. Deadline for this program is July 16. For information for applying, call Mrs. McQuary in the Graduate Office.

PROTECTION OF TRANSMITTED COMPUTER DATA --Proposals for algorithms for the encryption of computer data to ensure their protection during transmission over exposed communications facilities, or while recorded on media and in transport or in storage are being solicited by the National Bureau of Standards. Responses to the announcement should be made by July 16. The Bureau also seeks proposals for using cryptographic functions, for changing and transporting or communicating keys, for maintaining files encoded under expiring keys, for making partial updates to encrypted files, and for mixed clear and encrypted data to permit labeling and polling. Interested investigators should contact the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D. C. 20234.

NSF SCIENCE EDUCATION PROGRAMS SUSPENDED--All NSF science education programs have been suspended. The entire grant program is in the process of undergoing complete reorganization. The agency says it hopes to have guidelines available for new programs early this summer; they are expected to be substantially changed as to both content and title. More on this at a later date.

(For more information on the above programs call Mrs. Carol McQuary, Graduate Office, 882-6311)

Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 28 Office of the Provost for Academic Affairs June 7, 1973

ROBERT WOODWARD, one of the two Pulitzer Prize-winning reporters to break the Watergate story, will speak at 11:30 a.m., Wednesday, June 13, in Jesse Auditorium. The 30-year old Woodward, who wrote the Watergate stories with reporter Carl Bernstein, will speak on "Watergate and National Security." The speech is sponsored by MSA Student Activities and is free.

A MEMORIAL SERVICE for Ruth Melcher Allen, professor of music, who died in a one-car accident in Florida early Sunday, was held at Calvary Episcopal Church at 2 p.m. Wednesday, June 6. The bells in Switzler Hall were tolled at the start of the service.

THE COMPUTER CENTER is again offering a series of no-credit short courses at no charge to faculty, staff and graduate students this summer. To enroll, contact the receptionist, 882-6284. The following courses are scheduled to begin on the dates indicated; others scheduled later will be carried in the June 15 Faculty Bulletin.

- June 12-29: Introduction to FORTRAN, 14-hour course, MTWThF, 4-5 p.m., GCB 109. Instructor: Robert Nugen.
- June 18-29: Introduction to TSO, 10-hour course, MTWThF, 4-5 p.m., GCB 117. Instructor: Tom Phillips.
- June 13: Lecture on Mathematical and Statistical Software Available to Computer Users. Recommended for those who plan to attend the short courses in SAS (starting June 14), SPSS (starting June 27), or MULTIVARIANCE (starting July 11). 3:30-4:30 p.m., GCB 229. Instructor: Merc Mazzocco.
- June 14-22: Introduction to SAS (Statistical Analysis System), 5-hour course, June 14, 15, 18, 20, and 22, 3:30-4:30 p.m., GCB 229. Instructors: Jack Naylor and Merc Mazzocco.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 29

Office of the Provost for Academic Affairs

June 22, 1973

A DEAN OF STUDENT AFFAIRS has been appointed. He is Dr. James H. Banning of the Western Interstate Commission for Higher Education. Banning will carry the additional title of professor of psychology.

Banning, 35, has served as program director since 1970 of the commission's division of improving mental health services on western campuses and assistant director of the mental health and related areas division since 1972. Banning was also the director of the student life center at the University of Colorado from 1968-1970.

He is a native of Horton, Kan., and graduated from William Jewell College magna cum laude in 1960. He received a masters in psychology and a Ph.D. in clinical psychology from the University of Colorado, Boulder, in 1965.

A chairman of a commission of the American Personnel and Guidance Assn., he is also a member of the American Psychological Assn. and a national chairman of the data bank committee for the college mental health section of the American College Health Assn.

JOHN R. CAMPBELL, professor of dairy husbandry, was honored June 15 in Cobleskill, N. Y., with the \$1,000 Ensminger-Interstate Distinguished Teacher Award, presented annually by the National Assn. of Colleges and Teachers of Agriculture. First awarded in 1969, the honor goes to one agricultural teacher in the nation each year. Award criteria include evaluations from students, colleagues, alumni, and honorary societies; teaching philosophy; and other considerations such as availability to students, teaching practices and subject matter currency. In addition to the Award, Campbell was also elected a Teaching Fellow of the organization.

ERNEST R. SEARS, professor of agronomy, received one of four distinguished service awards of Oregon State University at the 104th commencement exercises June 3. Sears was recognized as an internationally-known agricultural scientist who used irradiation to transfer disease resistance from an economically unimportant species into wheat and who is known as the father of modern wheat cytogenetics. The awards were established at OSU in 1964 to recognize persons who have made exceptional contributions to society or who have rendered unusual service to mankind.

CHARLES E. MARTIN, associate professor of veterinary medicine and surgery, was chosen to receive the Distinguished Teacher Award of the UMC School of Veterinary Medicine for 1973. The award, presented by Norden Laboratories to the teacher chosen by the students was made during commencement activities May 14.

THE UNIVERSITY BOOK STORE will be closed for year-end fiscal inventory Thursday and Friday, June 28 and 29. All purchase transactions for the current fiscal year should be made prior to June 28.

MELVIN G. BLASE, associate professor of agricultural economics, attended a workshop on institution-building at Lake Monroe, Ind., recently. The event was sponsored by the Midwest Consortium for International Activities, Inc., and featured as primary participants Kenneth Thompson, vice president of the Rockefeller Foundation and Francis X. Sutton, deputy vice president of the Ford

Foundation. Blase participated in two panel discussions at the event. He is also the author of "Institution Building: A Source Book," which was written under a grant from the State Dept.'s Agency for International Development in cooperation with the Midwest Consortium.

FACULTY VOLUNTEERS are needed to host Sunday afternoon discussions and Sunday evening dinners involving new students and their parents on campus for the Summer Welcome Program. The Sundays are those of June 24, July 1 and July 8 for afternoon discussions from 2:30 to 3:30 in the Alumni Lounge of the Memorial Union and 5 p.m. dinners at Bingham Cafeteria. Faculty interested are urged to contact Gladys Pihlblad, assistant director, Center for Student Life, 882-2818.

GRADUATE SCHOOL AND RESEARCH NOTES

IIE GRANTS--The Institute of International Education administers grants for study, research and professional training abroad under the Fulbright-Hays Program. Forms for graduate study abroad for 1974-75 are now available. Fulbright-Hays Grants are "reserved for advanced graduate students who in most cases, will be engaged in research for the doctoral dissertation." Awards are also available to other "graduate students, graduating seniors and candidates who wish to further their careers in the creative and performing arts." Final applications are due by Nov. 1. Requests for applications will not be honored after Oct. 15. For information and forms write: Institute of International Education, 809 United Nations Plaza, N.Y., N.Y. 10017.

ARCHITECTURE, ENVIRONMENTAL ARTS--The National Council on the Arts (NCA) has announced that grant funds on a matching basis will be made available to qualified schools of architecture, landscape architecture, planning, industrial design and interior design for a variety of programs which could serve to strengthen their educational capabilities, including curriculum development and research. Special emphasis will also be given toward encouraging men and women students from all races, economic levels, ethnic backgrounds and geographical areas to pursue a career in the design professions. Basic research by universities and individuals to improve the processes by which the elements of our physical environment are designed and built will be funded by the Architecture and Environmental Arts Program. Normally, grants will range from \$10,000 to 50,000 (matching) for institutions and up to \$10,000 for individuals. Deadline for submission of applications is July 20. Application forms should be requested from the Director, Architecture and Environmental Arts Program, National Endowment for the Arts, 806 15th St., N.W., Washington, D. C. 20506.

NBS TECHNOLOGY INCENTIVES--An initial allocation of \$7 million has been granted to the National Bureau of Standards (NBS) for the Experimental Technology Incentives Program (ETIP). The purpose of the program is to "obtain knowledge and experience concerning technological invention and innovation in the U.S.A. and to determine what cost-effective actions the federal government can take to increase the rate at which new technologies are successfully introduced to the marketplace." Additional funding has been requested for fiscal 1974. Inquiries should be sent to: Director, Experimental Technology Incentives Program, National Bureau of Standards, Administration Building, Room A-724, Washington, D. C., 20234.

CONTROLLED ECOSYSTEM POLLUTION EXPERIMENT--The National Science Foundation has announced the initiation of a six-year international program to learn how pollutants affect plant and animal life in oceans. Seven grants totalling over \$1 million have already been awarded. Total program cost is expected to be \$6 million. The program is designed to learn what effects chemical pollutants have on plankton communities. Studies in this area will allow scientists to assess the impact of pollutants on marine communities which may be of commercial value to man. Write: Office for the Internation-

al Decade of Ocean Exploration, National Science Foundation, 1800 G Street, N.W., Washington, D.C. 20550.

NSF EDUCATION DIRECTORATE REORGANIZED--The National Science Foundation has announced a reorganization of its Education Directorate and the appointment of an office head and two division directors. The new appointees are Lyle W. Phillips, head of the recently created Office of Experimental Projects and Programs; Howard J. Hausman, division director for Pre-College Education in Science; and Francis G. O'Brien, head of the newly established Division of Higher Education in Science. The three will serve under Keith R. Kelson, the foundation's acting assistant director for education. The new Division of Higher Education represents a merger of the former Divisions of Graduate Education in Science and Undergraduate Education in Science. The new Office of Experimental Projects and Programs will include the following groups: Problem Assessment and Experimental Projects; Experimental Programs; Technological Innovation in Education; and Student-Oriented Program. The Division of Pre-College Education in Science includes two sections: Materials and Instruction Development, and Instructional Improvement Implementation. Further announcements will be made as guidelines for the reorganized programs are received.

LONG-ACTING INJECTABLE CONTRACEPTIVE--The Contraceptive Development Branch of the Center for Population Research is looking for organizations interested in developing a long-acting injectable progestational contraceptive agent. Candidate compounds must be steroids having progestational activity whose duration of antifertility action following a single injection has been demonstrated in at least two animal species. Each compound proposed for development must have undergone initial human clinical trials. Derivatives of progesterone are specifically excluded from this project. Copies of request for proposals form RFP-NICHD-73-13 are available from the Contracts Management Section, National Institute of Child Health and Human Development, National Institutes of Health, Landow Building, Room C-625, Bethesda, Md. 20014. Completed forms must be returned by Sept. 24.

MATERNAL X-RAY EXPOSURE--The Demography Program of the National Cancer Institute is seeking qualified firms or institutions having the capability to collect and analyze data on the use and extent of prenatal radiation. The objective of this study will be to determine whether changes have occurred over time in the quantity and/or frequency of maternal X-ray exposure. To qualify, organizations must have access to a large group of patients receiving uniform medical care. The staff should have expertise in medical records review and epidemiology. Organizations capable of meeting the above criteria and interested in being considered for the task described are requested to submit evidence of qualifications and relevant experience. Send material to: Demography Program, National Cancer Institute, National Institutes of Health, Bethesda, Md. 20014.

ARMS CONTROL RESEARCH--The Ford Foundation, noting a 33 per cent decline in government support for arms control research, is providing \$4.5 million for such research in universities and various think tanks. The Foundation says the object is to revive scholarly interest in the field and produce a new generation of arms control researchers. Inquiries should be made to: Ford Foundation, 320 E. 43rd St., N.Y., N.Y. 10017.

OTHER DEADLINES--Air Pollution Fellowships - EPA - July 1; Water Pollution Fellowships - EPA - July 1; Research and Development Project Grants on Aging - SRS - July 1; Nursing Special Project Grants - NIH - July 1; NEH Summer Seminars - NEH - July 2; Youthgrants - NEH - July 31; Senior Fulbright-Hays Program - Committee on International Exchange of persons - July 1.

(For information on above programs call Mrs. Carol McQuary, Graduate School, 882-6311.)

CALENDAR

- June 22, 29: Public Telescope Observing Night, 505 Physics, 9 p.m.
- June 22: MSA Student Activities 75¢ Flick: "THX 1138," 9 p.m., Jesse Auditorium.
- June 22, 23: MSA Student Activities Free Children's Film: "Gay Purree," 9:15 p.m., University Terrace (Friday); University Village (Saturday).
- June 24: MSA Student Activities Free Flick: "Colossus-The Forbin Project," 7 p.m., Jesse Auditorium.
- June 27: Computer Center Short Course: Introduction to SSPS (Statistical Package for the Social Sciences). 7-hour course. Runs from June 27, 28, 29, July 2, 3, 5 and 6, 3:30-4:30 p.m., GCB 229. Instructors: Jack Naylor and Merc Mazzocco. Course is no-credit, free to faculty, staff and graduate students. To enroll, call the receptionist, 882-6284.
- June 27: Public Higher Education Conference in Jefferson City. Sponsored by the Mo. Council on Public Higher Education.
- June 28: Deadline to sign up for June 29 MSA Student Activities Wilderness Trip (backpacking); cost is under \$25. Sign up in 200 Read Hall.
- June 29: Deadline to sign up for June 30 MSA Student Activities Show-Me Trip to Cahokia Downs, East St. Louis. Cost is \$1.50 plus track costs; sign up in 200 Read Hall. Bus leaves June 30 at 8:30 a.m. from Physics Parking Lot.
- June 29: MSA Student Activities Free Flick: "Viva Max," 7 p.m., Jesse Auditorium.
- June 29, 30: MSA Student Activities Free Children's Film: "Wackiest Ship in the Army," 9:15 p.m., University Village (Friday); University Terrace (Saturday).
- June 30: MSA Student Activities Free Concert featuring Jimmie Spheeris, 8 p.m., Jesse Auditorium.

~~~~~

A "FIRST" FOR KOMU-TV, Channel 8, will be presented tonight (June 22) at 8 p.m. The station will telecast its first locally-produced and filmed color documentary, "Across the Wide Missouri." The production was filmed on location where many events of Missouri history actually took place. It traces the Indian and French trapper trails along the Missouri River and tours the site of early settlers' forts such as Cooper's Fort and the blockade house at Arrow Rock. Also highlighted are the site of the salt licks of Daniel Boone's sons, Nathan and Daniel, the locations of the original settlement of Franklin, Mo., and the first trip to Santa Fe by Capt. William Becknell who established the Santa Fe Trail. Among those providing the original music in the production are the University Singers, who sing the title music, and Lyle Harris, instructor in journalism, playing guitar and banjo. Ron Hunt, KOMU's executive producer, wrote the script, and edited and directed the film. Cinematography was done by Hunt and William Mackie, former member of the UMC speech department who is now a producer for Coronet Films. Narration for the documentary was done by Joe Wolfe, associate professor of speech and dramatic art.

~~~~~

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

Faculty

UNIVERSITY OF MISSOURI-COLUMBIA

BULLETIN IN BRIEF

Published by the
 Vol. 2, No. 30 Office of the Provost for Academic Affairs June 28, 1973

Provost Clifton Cornwell and Dean Roger Mitchell have announced that, effective July 1, the University Photo Service and Audio Tape Duplication Facility, formerly a department of Technical Education Services, will become a part of the newly-created Academic Support Center. The Photo Service Department will remain in the same location with no changes anticipated in costs or service offerings.

CORRECTION--The new Dean of Student Affairs, Dr. James Banning, was incorrectly listed as having the title of professor of psychology. His actual title is associate professor of psychology.

FOR THE INFORMATION OF OUR READERS--At the June 27 state Council on Public Higher Education meeting in Jefferson City, an opinion survey was taken among the 271 laymen attending as participants. Below are the survey statements and the responses, stated in percentages:

KEY ISSUES FACING HIGHER EDUCATION TODAY

Educators are today faced with a number of decisions which will determine the direction and future of higher education in Missouri for many years to come. To help them in their planning will you please indicate below your opinions on some of these key issues:

Issue	Agree	Disagree	No Opinion
<u>Statewide Coordination</u> All higher education in Missouri should be coordinated by a single governing board.	36.0	54.3	9.7
<u>Tuition</u> Public higher education in Missouri should continue to follow the low tuition principle, thus providing maximum educational opportunities to large numbers of students regardless of their financial resources.	72	16.2	11.8
<u>Financing</u> State financing of private colleges and universities should be increased.	36.3	51.7	12.0
<u>Admissions</u> A) Public education should be available to any Missouri resident who desires it.	44.9	32.4	22.7
B) Public higher education should be available to any Missouri resident who desires it and has the necessary academic qualifications.	44.9	32.4	22.7
<u>Facilities</u> Although all institutions of public higher education should have the facilities to provide a well-rounded educational program, these institutions should be encouraged to avoid duplication of specialized facilities.	71.8	13.5	14.7

Collective Bargaining

Collective bargaining is the preferred method for resolving faculty salary matters. 26.5 62.3 11.2

Credit Transfer

Transfer of credit from one public institution to another should be standardized and simplified. 93.5 5.0 1.5

Tenure

Institutions of public higher education should establish percentage limits of staff members who are under tenure to avoid being "tenured in." 54.4 26.3 11.3

Decision Making

Faculty members at institutions of public higher education should take an active part in the decision-making process affecting:

Administration policies 57.4 35.7 6.9

Curriculum 93.8 2.5 5.3

Student Personnel policies 86.6 8.1 5.3

Students at institutions of public higher education should take an active part in the decision-making process affecting:

Administrative policies 35.9 50.7 13.4

Curriculum 66.3 28.0 5.7

Student personnel policies 81.2 15.0 3.8

Academic Programs

Each institution of public higher education should have authority to develop academic programs in accordance with the needs of its constituency. 78.4 15.1 6.5

Continuing Education

The philosophy of developing educational programs for individuals off campus should be encouraged and permitted. 88.5 8.1 3.4

After the morning session at which the opinion survey was taken, Governor Bond spoke at the Council's noon luncheon. Below are some of his luncheon remarks:

"I am concerned about these problems facing our institutions of higher learning. Under the constitutional amendment for reorganization adopted by the voters last August, there will be a Coordinating Board of Higher Education which will assume the duties of the present Commission on Higher Education. As the successor to CHE, the new Coordinating Board should carry on the same innovative concepts and critical review but it must have powers equal to its responsibilities.

"I will work through CHE and its successor in achieving effective coordination of higher education, both public and private in Missouri.

"There are some specific troublesome matters for which the coordinating board will be called upon to effect solutions. Among these are program development; articulation, especially transfer of credit; and residency status for tuition and fee purposes.

"In this time of leveling off of student enrollments we have an excellent opportunity to assess our higher education program offerings--unproductive programs should be 'weeded out'--new programs should be requested and implemented with caution. The Missouri Commission on Higher Education is now completing a comprehensive study of academic space in both the public and private four-year colleges and universities, the purpose of which is to determine how much unused capacity, by level and by program area, existed in the fall of 1972. The implications for the coordinated utilization of public and private higher educational resources in meeting the needs of the State are extremely significant.

"Costly graduate programs should receive special attention. I have recently accepted an offer to serve as chairman of an educational commission of the States National Task Force on Graduate Education. We hope that valuable guidelines and recommendations for the planning of graduate education will result from the efforts of this Task Force."

CALENDAR

- June 29: MSA Student Activities Free Film: "Viva Max," 7 p.m., Jesse Auditorium.
- June 29: Last day to sign up for MSA Student Activities Show-Me Trip to Cahokia Downs, East St. Louis. Bus leaves Physics Parking Lot 8:30 a.m. Cost is \$1.50 plus track costs. Sign up in 200 Read Hall.
- June 29-30: MSA Student Activities Children's Show: "Wackiest Ship in the Army," 9:15 p.m., University Village (Friday), University Terrace (Saturday).
- June 30: MSA Student Activities Concert: Jimmie Spheeris, 8 p.m., Jesse Auditorium. Free.
- July 1: Last day to sign up for the MSA Student Activities Wilderness Adventure Trip to the Grand Tetons and Cloud Peak Primitive Area, July 15-28. Cost is \$53. Sign up in 200 Read Hall.
- July 1: MSA Student Activities Free Film: "The Wrong Box," 7 p.m., Jesse Auditorium.
- July 2: "Perspectives," 3:30 p.m., Channel 8: UMC's Summer Repertory Theater will be discussed. Guests will be Richard Thiede, publicist for the Theater, and John Kirk, visiting professor from the University of Illinois, director of the Summer Theater here.
- July 3: Summer Session Film Series: "Les Biches," directed by Claude Chabrol, 7 p.m., Middlebush Auditorium. Free.
- July 4: "Perspectives," 3:30 p.m., Channel 8: The topic will be "Common Snakes in Missouri," and guest will be Dean Metter, associate professor of biological science.
- July 4: Independence Day recess.
- July 6: Deadline to sign up for MSA Student Activities Show-Me Trip to Royals Stadium, Kansas City. KC Royals vs. Detroit Tigers. Bus leaves Physics Parking Lot at 4:30 p.m. Cost is \$1.50 plus game ticket cost. Sign up in 200 Read Hall.
- July 6: Public Telescope Viewing Night, 9 p.m., 505 Physics, if weather is clear.
- July 6: MSA Student Activities Free Film: "Rebel Without a Cause," 7 p.m., Jesse Auditorium.
- July 6,7: MSA Student Activities Free Children's Film: "Son of Flubber," 9:15 p.m., University Terrace (Friday), University Village (Sat).
- July 7: Honors College Film Series: "Blow Up," directed by Michelangelo Antonioni, 7, 9 p.m., Middlebush Auditorium. 75¢ at the door.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 31 Office of the Provost for Academic Affairs July 6, 1973

FOR THE INFORMATION OF THE FACULTY, the following proposal on Doctoral Faculty membership criteria and procedures resulted from a joint meeting of the Doctoral Council and the Academic Planning Council on June 20.

The proposal suggests additional peer groups to consider applications for the Doctoral Faculty and modifies procedures for processing applications. These two aspects were major areas of concern to the faculty as expressed in the mid-May General Faculty Meeting.

The UMC response to the proposal will be submitted to the University-wide level by July 19.

Proposed Change in Part III: Development of Specific Criteria for Membership

1. An ad hoc Advisory Peer Group will be established for each of these disciplinary sectors.

- A. Agricultural Sciences & Home Economics, which include:
 - Agronomy
 - Animal Husbandry
 - Dairy Husbandry
 - Entomology
 - Food Science & Nutrition
 - Forestry
 - Home Economics
 - Horticulture
 - Poultry Husbandry
- B. Behavioral Sciences, which include:
 - Anthropology
 - Psychology
 - Sociology
- C. Biological Sciences, which include:
 - Agricultural Chemistry
 - Biological Chemistry
 - Botany
 - Genetics
 - Microbiology
 - Plant Pathology
 - Zoology
- D. Business Administration, which includes:
 - Accountancy
 - Business Administration
- E. Education
- F. Engineering

- G. Health Sciences, which include:
 - Anatomy
 - Pathology
 - Pharmacology
 - Pharmacy
 - Physiology
- H. Humanities, which include:
 - Archaeology
 - Art History
 - Classical Studies
 - English
 - Foreign Languages
 - Philosophy
 - Speech Communications
- I. Mathematical Sciences, which include:
 - Mathematics
 - Statistics
- J. Physical Sciences, which include:
 - Atmospheric Science
 - Chemistry
 - Geological Sciences
 - Physics
- K. Performing Arts, which include:
 - Music
 - Theater
- L. Social Sciences, which include:
 - Economics
 - History
 - Journalism
 - Political Science

Proposed Changes in Part IV:
Procedures

1. A nomination for membership in the Doctoral Faculty shall be submitted by the appropriate departmental or academic unit through its chairman or administrative head and divisional dean.
2. The campus review group as determined by each campus will evaluate nominations in terms of the general and specific criteria. This process will select those nominations to be sent to the most appropriate ad hoc Advisory Peer Group or Groups.
3. The ad hoc Advisory Peer Groups will evaluate nominations from the campuses. Each nomination will then be returned to the appropriate Graduate Dean by the Advisory Peer Group along with its advice and recommendation.
4. The Graduate Dean will transmit to the Chancellor those applications receiving no adverse comment, and he will return to the appropriate campus review group those nominations that have been questioned by the Peer Group or himself.
5. After considering the comments of the Peer Groups and the Graduate Dean, the campus review group will present to the Chancellor nominations which in its judgement still meet the criteria for membership on the Graduate Faculty. Such nominations should be accompanied by all comments.
6. The Chancellor will appoint, subject to review and confirmation by the ad hoc Doctoral Council, those faculty members from his campus who have been approved by the campus review groups for membership on the Doctoral Faculty.

7. The faculty member will be informed at any point when his nomination is not accepted. Any member of a campus graduate faculty who feels unjustly denied nomination or appointment may appeal through the regular University process, which for this purpose shall include the chairman, divisional dean, graduate dean, chancellor, and ad hoc Doctoral Council, and President.
8. For faculty who do not meet the criteria for membership in the Doctoral Faculty but who may eventually be asked to direct doctoral dissertations, it is the responsibility of the academic unit concerned to provide, as funds permit, necessary support, encouragement, and involvement so that the criteria may be met.

Highlights of the June 30 Board of Curators Meeting:

- *Approved the appointment of Dr. Joseph R. Hartley to be Chancellor of the St. Louis campus, effective Sept. 1.
- *Heard a report by President Ratchford of "The State of the University."
- *Heard a report by Vice-President Emmons of progress on centralizing computer activities of the University. By separate action at the same meeting the Board ruled that no further funds would be provided for non-centralized computing activities after July 1, 1974.
- *Approved a change in status for the UMC School of Home Economics. Effective July 1, it will become the College of Home Economics and will be a separate division rather than being a part of the College of Agriculture.
- *Approved continuance of the 1972-73 level operating budget into the 1973-74 fiscal year for the University, the Crippled Children's Service and the Renal Disease Program. Details regarding the final overall budget summaries for 1973-74 by campus and program will be submitted to the Board for approval at a later date.
- *Authorized the University to develop a new computerized admissions, registration and academic records system for the four campuses.
- *Approved contracts of \$53,245.37 for purchase of equipment for a mobile unit to produce color video tapes for instructional purposes at UMC. Two cameras, a color video recorder and accessory equipment will be purchased to be housed in a truck. The mobile unit is under the supervision of the Academic Support Center and will assist faculty, staff and extension personnel.

In other Board activity, Irvin Fane and John Sam Williamson were re-elected as President and Vice-President, respectively, of the Board. Fane had become President when the term of Robert Brady expired.

As a further step in implementing the revised banking procedures of the University, R. H. Bezoni, Vice-President for Finance and Comptroller, was designated Treasurer of the Board of Curators and his title changed to Vice-President for Finance and Treasurer. He is to serve as treasurer for all purposes provided for by law or the By-Laws, Rules and Regulations of the Board.

CALENDAR

- July 6 MSA Student Activities Free Film: "Rebel Without a Cause," 7 p.m., Jesse Auditorium.
- July 6 Deadline to sign up for MSA Student Activities Show-Me Trip to Royals Stadium, Kansas City. KC Royals Vs. Detroit Tigers. Bus leaves at 4:30 p.m. from the physics parking lot. Cost is \$1.50 plus game ticket cost. Sign up in 200 Read Hall
- July 6 Public Telescope Viewing Night, 9p.m., 505 Physics Bldg., if weather is clear.
- July 6,7 MSA Student Activities Free Children's Film: "Son of Flubber," 9:15 p.m., University Terrace (Friday), University Village (Saturday).
- July 8 MSA Student Activities Free Film: "Sahara," 7 p.m., Jesse Auditorium.
- July 11 Computer Center Short Course: Introduction to the Multivariate package: five hour course, July 11,13,16,18 and 20, 3:30-4:30 p.m., 229 GCB. Instructor: Merc Mazzocco. Non-credit, no-fee for faculty, staff and graduate students. Call the receptionist at 882-6284 to enroll.
- July 12 MSA Student Activities Show-Me Trip to Arrow Rock Lyceum Theatre for the performance of "The Amorous Flea." Cost is \$1.50 for bus ride and \$1.25 for theatre tickets. Buses will leave at 6:30 p.m. from the Physics parking lot.
- July 12 Last day to sign up for July 13 MSA Student Activities Wilderness Adventure Canoe Trip on the Courtois River. Cost is \$15; limited to 14 persons. Sign up in Read Hall basement.
- July 13 MSA Student Activities Film: "The Fox," 7 p.m., Jesse Auditorium, 75 cents at the door.
- July 13 Last day to sign up for July 17 MSA Student Activities Show-Me Trip to Mississippi River Festival, featuring Harry Chapin and Leo Kottke. Bus leaves Physics parking lot at 3:30 p.m. Cost is \$1.50 plus concert ticket cost.
- July 13 Public Telescope Viewing Night, 9 p.m., 505 Physics Bldg., if weather is clear.
- July 13 Last day to sign up for July 14 MSA Student Activities Show-Me Trip to Worlds of Fun, Kansas City. Bus leaves at 8:30 a.m. from the Physics parking lot. Cost is \$1.50 plus all day admission ticket. Sign up in 200 Read Hall.
- July 13,14 MSA Student Activities Free Children's Show: "Evel Knievel," 9:15 p.m., University Village (Friday), University Terrace (Saturday).

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

UNIVERSITY OF MISSOURI-COLUMBIA

Faculty

BULLETIN IN BRIEF

Published by the
Vol. 2, No. 32 Office of the Provost for Academic Affairs July 13, 1973

A REPRESENTATIVE OF Systems and Computer Technology Corp. will be on campus July 18 to answer questions on the development and implementation of a complete admissions, registration and academic records system for all four campuses of the University. Interested faculty and staff are invited to attend an information session at 3:30 p.m. in S-3 Memorial Union on July 18.

The Board of Curators at its June 30 meeting authorized a contract with Systems and Computer Technology Corp., which has performed similar operations for other higher education institutions. The new computerized records system is to become an integral part of the computer network.

CALENDAR

- July 13 Program on "Employee-Management Relations in the Long-Term Care Facility," Medical Center Auditorium. Sponsored by the Office of Continuing Medical Education.
- July 16-20 Regional Conference on Automated Information Organization and Retrieval. Sponsored by the National Science Foundation's Office of Computing Activities. Dr. Gerard Salton, chairman of computer science at Cornell University will be the principal lecturer. UMC conference director is Srisakdi Charmonman, director of graduate studies, department of computer science.
- July 20 Summer Blood Drive, 11 a.m.-4 p.m., 208 Brady Commons.
- July 20 Public Telescope Viewing Night, 9 p.m., 505 Physics Bldg., if weather is clear.
- July 20 MSA Student Activities Free Film: "Hotel," 7 p.m., Jesse Auditorium.
- July 20,21 MSA Student Activities Free Children's Show: "Abbott and Costello Meet Captain Kidd," 9:15 p.m. University Terrace (Friday), University Village (Saturday).
- July 22 MSA Student Activities Free Film: "Rachel, Rachel," 7 p.m., Jesse Auditorium.

(Editor's Note: Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)

BULLETIN IN BRIEF

Published by the

Vol. 2, No. 33

Office of the Provost for Academic Affairs

Aug. 2, 1973

AUG. 3 COMMENCEMENT ACTIVITIES will include a College of Home Economics reception for graduates and undergraduates from 10:30 to 11:30 a.m. in Gwynn Lounge; a Graduate School reception for masters and doctoral candidates at 1 p.m. in 201-202 Memorial Union; and the University's summer commencement exercises at 3 p.m. in the Hearnes Building, at which Governor Bond will speak.

SUMMER ENROLLMENT at UMC totaled 6,831, an increase of 193 over last year's number. UMC's Extension Division enrolled 4,874. Total on-campus enrollment at all four campuses of the University for the summer was 17,505.

CENTRAL METHODIST COLLEGE, Fayette, has announced new one- and two-year programs for students who "stop-out" while in college. Some of the programs are those in mental health, campground management, business management, public service, medical technician, various secretarial programs and sales and marketing. The student may obtain a one-year certificate, and with an additional year, receive an associate degree. With two additional years, he will be able to complete one of the existing four-year programs. The programs are composed of existing courses, supplemented by professionals coming to the campus, or by courses taught by competent personnel in cooperating agencies.

With UMC, Central Methodist College is a member of the six-school consortium known as Mid-Missouri Associated Colleges.

ASSUMING NEW DUTIES Aug. 1: Owen Koeppel, Provost for Academic Affairs, and James Banning, dean of Student Affairs. Koeppel is in 114 Jesse and Banning in 211 Jesse.

GRADUATE SCHOOL AND RESEARCH NOTES

NATIONAL ENDOWMENT FOR THE HUMANITIES--Three programs have approaching deadlines:

Research Grants--The Division of Research Grants entertains applications for support of original thought, basic research, and editing projects in the humanities and in those aspects of the social sciences that have humanistic content and employ humanistic methods. Most research grants fall in the "small grant" category, not exceeding \$15,000. A number of "major grants," ranging up to \$50,000 or more will be given for large scale projects. The next deadline for this program is Nov. 19.

Project Grants--Intended to encourage projects relating to humanities education "which are either unique or which are exemplary and provide models which other institutions may choose subsequently to adopt or adapt for themselves." Special interest is expressed in interdisciplinary programs and cooperative efforts between institutions that may have broad application. The applicant institution is expected to provide at least 10 per cent of the cost. The deadline for final applications is Nov. 1.

Planning Grants--Directed to innovative programs to improve and increase humanities activities. The grants are for a period of six to 18 months and do not exceed \$30,000. The Endowment does not provide more than 80 per cent of the costs. Proposals must offer a well-defined plan for a continuing activity and demonstrate the need for initial support. Preliminary drafts must be submitted for comment as to eligibility. Deadline for final application is Nov. 1.

SOLAR ENERGY RESEARCH--NSF is contemplating the issuance of a program solicitation to initiate and support research on components and systems for the application of solar energy to the heating and cooling of buildings and therefore desires to establish a source list. The research may cover the following categories:

- A. Improved Components and Systems
 - 1. Solar energy collectors
 - 2. Solar energy storage components
 - 3. Solar energy space cooling components
 - 4. Solar energy heat pumps
 - 5. Solar energy heating and cooling systems
- B. Alternative Solar Energy Control Systems for Buildings
- C. Systems Analysis and Parametric Studies
- D. Evaluation Studies of Completed Buildings with Solar Energy Systems

In order to receive a copy of the Program solicitation when issued, those organizations having the capabilities to conduct research in the above categories of solar energy utilization should submit their qualifications to the Foundation. Responses should be received prior to Aug. 31. National Science Foundation, Contracts Branch, Room 630, Attn: Project Solar, 1800 G St., N. W., Washington, D. C. 20550.

AFOSR RESEARCH--Organizations having capabilities for performing fundamental scientific research investigations may submit proposals for research projects to the Air Force Office of Scientific Research (AFOSR). Information may be obtained by requesting AFOSR program brochures from AFOSR (CCC), 1400 Wilson Blvd., Arlington, Va. 22209. The brochures describe program content and objectives, contain detailed instructions for the preparation of formal research proposals, and provide a list of AFOSR scientific staff program managers. Scientific researchers are encouraged to consult informally with an appropriate program manager before submission of a formal proposal in order to first determine AFOSR's possible interest in a proposed project.

(For further information on any of the above programs, call Carol McQuary, Graduate School, 882-6311.)

CALENDAR

- Aug. 23, 24: New Student Orientation and Registration.
- Aug. 27: Classwork resumes.
- Sept. 3: Labor Day Recess.

(Editor's Note: This is the last Faculty Bulletin-in-Brief for the current academic year. Publication will resume in late August. Deadline for Bulletin-in-Brief announcements and events will be the Wednesday noon previous to Friday publication. Send items to the news editor, Margaret Kraeuchi, 223 Jesse Hall, 882-6211.)
